Classification of Schools

Comprehensive

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that provides an enriched program of studies and other features beyond those required for a Standard classification may be considered for Comprehensive rating. In the Comprehensive school, major emphasis should be placed on meeting the special needs and interests of students through broad academic, exploratory, and co-curricular experiences.

Standard

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that substantially meets all of the criteria included in these standards may be considered for a Standard rating. All criteria not otherwise specifically designated shall apply to this classification.

Basic

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Standard rating may be considered for a Basic rating.

Provisional

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Basic rating may be considered for a Provisional rating.

Special School Accreditation

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but offers special programs or partial programs resulting from phasing in or phasing out of grades, alternative programs and certain other programs designed to meet individual needs of students may be considered for Special School Accreditation rating.

Educational Arrangements

Local Boards of Education may make arrangements for certain types of educational opportunities not otherwise available through regular school operations and designate where school records will be kept and credit given.

Emergency

Schools that do not fit the scheme of classification of Comprehensive, Standard, Basic or Provisional.

Cost of printing paid with state funds.

Educational Bulletin Series Vol. XLVI No. 9

Foreword

The Kentucky Elementary Schools 1977-78 Bulletin contains pertinent data relating to secondary education in all high schools within the state.

Included is information which clearly demonstrates increasing efforts to meet our responsibilities in secondary education.

As these responsibilities continue to grow, we hope that this publication will provide assistance to those working for improved educational opportunities.

Public and State or Federally Related Schools for the School Year 1977-1978

There were 992 elementary schools accredited by the State Board for Elementary and Secondary Education during the school year 1977-78. Of this number 834 were under the control of the county school districts and 140 were under the control of the independent school districts. Eighteen (18) were state or federally related schools.

Table I shows the number of accredited elementary schools classified according to the type of control for five years from 1973-74 to 1977-78.
