THE UNIVERSITY OF KENTUCKY SCENE Welcome to the Blue Grass, and to the University of Kentucky!

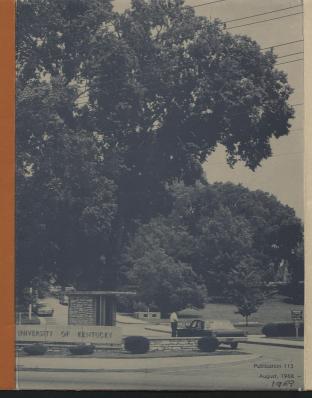

multi-faceted process of educating today's youth for significant and responsible roles in the world of tomorrow.

Here you will see students from all walks of life, young people of all faiths and races. These young people represent not only the many layers of our own highly complex contemporary American society, but other countries and other cultures as well.

Students today are adult-serious-dedicated. They seek meaning for their lives. They strive to realize fully their own unique capabilities. They serive to realize fully their own unique capabilities. They seek too, a responsibility which will offer them in return, a sense of creative satisfaction. The spirit of challenge and adventure which stems from the intellectual experience is very much alive at the University of Kentucky. It is this spirit which sparks the electric atmosphere, the intensity of particular and again, in the attitudes of those at work in classrooms and laboratories, in those carmestly engaged in debate and discussion on campus walks and in the Student Center, and in those lost in study and thought as they mine the accumulated knowledge of mankful in the campus library. You seee it, too, in the constant expansion and updating of the University, in the new buildings under construction and in the never-ending expansion and revision of its academic program.

The University today is no longer the ivory towed yesterycar, a sheltered island of learning in the

We hope your visit will be both pleasant and stimu lating.

the university ot kentucky scene

A BRIEF HISTORY

Kentucky's concept of a state university dates back to the year 1865 when Kentucky University became one of the nation's first land grant institutions to be established under the Morrill Act.

Passed by both houses and Congress in June, 1862, the Morrill Act provided federal aid, in the form of land grants to the various states, to be used for the establishment of colleges which would, "with out excluding other scientific and classical studies, and including military tactits, teach such branches of learning as are related to agriculture and the mechanic arts..."

In 1878, when the people of Kentucky decided to establish a "State institution, free from all ecclesiastical entanglements or control," the Agricultural and Mechanical College was separated from Kentucky University and reestablished on land given by Lexington and Fayette County.

In order to provide a separate campus for the new College, the City of Lexington donated its 50-acre fairground and park, an area which had been used as a bivouac area for Union troops during the Civil War. Lexington and Fayette County together contributed \$60,000 for the construction of buildings, and James K. Patterson, first president of the University, even used his own personal savings to supplement the building fund.

Thirty years later, the State Legislature changed the name of the institution to State University, Lexington, Kentucky, and allocated additional funds for its support. In 1916, the name was changed to the one by which it is known today—The University of Kentucky.

PHYSICAL PLANT

The University of Kentucky is a small city in itself. It has its own post office, bookstore, radio station, newspaper, printing plant, aftertias, theart, library, police force and hospital. There are over 100 major buildings on the Lexington campus alone. The University community, including students, faculty and staff members and their families, numbers about 22,000.

Doctor of Education
Doctor of Detail Medicine
Doctor of Medicine
Doctor of Medicine
Doctor of Musical Arts in Music Teaching
Doctor of Philosophy (in 34 fields)
Doctor of Business Administration
Juris Doctor

PARKING

Visitors may park in those areas marked "Visitor" and in any areas with parking meters. Those parking in "Visitor" areas must display a properly validated guest pass in the left-front windshield of the locked vehicle. The guest pass may be obtained from the attendant at the main entrance to the University on South Limestone Street. Fees for use of parking meters are indicated on the meters themselves.

Parking areas designated as "A" areas are for the use of vehicles bearing "A" permits. Those areas design nated as "B" areas may be used by vehicles displaying either "A" or "B" permits. "C" areas are for the use of "C" permit holders only, and may not be used by "A" and "B" permit holders.

Any vehicular accidents on University property must be reported immediately to the Safety and Security Division of the University of Kentucky.

LIBRARIES

An important facet of the University is its library system composed of more than 1,330,000 volumes housed in the Margaret I. King Library and in the smaller, highly selective libraries of various colleges and departments.

partments.

These special libraries include the collections of the Agricultural Library and the Medical Center, as well as those of Architecture, Art and Music, the Biological Sciences, Chemistry and Physics, Education, Engineering, Geology, Law, Mathematics and Pharmacy.

neering. Geology, Law, Mathematics and Pharmacy, Designated a regional depository for its documents by the United States government, the University of Kentexhy library system offers an extensive collection of source materials, printed and manuscript, including complete runs of most major scientific serials. Among its special collections are a broad range of materials on Kentucky and Ohio Valley history, the works of numerous contemporary authors (including their original manuscripts), documents and literature on tobacco—a major factor in Kentucky's economy, and papers of such public figures as Henry Clay, Alben W. Barkley, A. O. Stanley and Jouet Shouse, records which provide a fascinating study of the details of political life in 19th and 20th Century America.

RESEARCH

The University of Kentucky Research Foundation received 391 awards during the fiscal year, 1967, its twenty-second year of service. These awards totalled more than 11 million dollars.

While research work during the Foundation's early years was primarily in the physical sciences, it now extends into education, the humanities and the social sciences as well. The Foundation presently adminis-

ters funds for 763 different research projects, distributed between 78 departments or divisions of the University.

unvertuny.

Its current projects range from an appropriation for assisting the development program of a local school to an annual award of almost \$1,000,000 for the Tobacco and Health Research Program which now involves \$1 UK Faculty Researchers from eight departments.

INSTITUTES AND CENTERS

An important part of the University's influence is evidenced by the work of its many institutes and centers.

centers.

Center for Developmental Change
Water Resources Institute
Institute of Theoretical and Applied Mechanics
Lexington Technical Institute
Tobacco and Health Research Program
Bureau of Business Research
Bureau of School Services
Kennucky Ceological Survey

INTERNATIONAL PROGRAMS

The University recently began a cooperative project with Thailand in the development of a regional Agricultural Research Center in Tha Phra, Northeast Thailand.

PEACE CORPS

Peace Corps volunteers from several colleges and universities are now enrolled at UK for intensive training to prepare them for the strenuous demands of their work in rural India.

THE MUSEUM OF KENTUCKY LIFE

WAVELAND—The University of Kentucky's Museum of Kentucky Life is open Tuesday through Saturday, from 9 am. to 4 pm., and on Sunday, from 1:30 to 4:30 pm. Closed on Mondays and University holidays. Waveland is located on Higbee Mill Pike, a few hundred yards off Nicholasville Pike (Route 27).

John Wieland Oswald, A.B., Ph.D., LL.D., President Arnold DeWald Albright, M.S., Ph.D., Executive Vice President

University Relations
Robert L. Johnson, M.S.P.H., Vice President—Student
Affairs
Lewis W. Gochran, B.S., M.S., Ph.D., Dean of Graduate School and Vice President for Research
Elbert W. Ockerman, M.A., Ed.D., Dean of Admissions and Registrar
Ellis Ford Hartford, A.B., M.A., Ed.D., Dean, Community College System
Maurice Stanley Wall, M.S., Ed.D., Director of Summer Session
Helen Galvin King, A.B., Director of Alumni Affairs

Helen Galvin King, A.B., Director of Alumni Affairs Jack Belvin Hall, A.B., M.A., Dean of Students

ADMISSIONS

All entering freshmen and transfer students are admitted to the College of Arts and Sciences with the exception of those entering the Colleges of Law, Dentistry, Medicine and Pharmacy.

Admission to the University of Kentucky is based upon the student's probability of success in his chosen field of study as indicated by:

- 1. His high school record
 2. Results of the American College Test
 3. Recommendation of his high school
 4. Previous college record, if any
