## 7 oday's Game ...

The stage is set for the first nationally-televised athletic contest ever videoed out of the Bluegrass.

Kentucky's favorite-son Wildcats, only a shadow of their 1955 selves, meet overwhelming favorite Georgia Tech in a season lid-lifting football game on Stoll Field this afternoon under the revealing glare of the television cameras as the inaugural program in the NCAA-NBC Television "Game of the Week" series for 1956.

The Yellow Jackets of veteran Coach Bobby Dodd already have been established by the experts as one of the most prohibitive pre-season choices in history to become 1956 Southeastern Conference champs and to reign as one of the top two or three powers in the country. Solid and deep from end to fullback in experienced personnel back from last season's Cotton Bowl champion squad, including 19 of the first 22 men in the '55 picture, Georgia Tech also boasts the distinction of never having lost in a nationally-televised contest.

In contrast, Blanton Collier's pupils lost seven starters among 15 lettermen departed since the 6-3-1 campaign of last season and will be somewhat shallow at certain positions when they face Tech today. Furthermore, this is the Wildcats' first appearance before the network TV cameras.

However, what they give away to the invaders in sheer strength of experienced hands, the Colliermen make up by countering with equally sheer desire and determination plus some outstanding personnel who can be depended upon to carry the fight to the Jackets. They are fellows like beefy All-America candidate Lou Michaels (79), Co-Captain and linebacking center Dave Kuhn (55) and plunging fullback Bob Dougherty (44) to name a few who pose as great leaders and big equalizers.

**VERSUS** 

## GEORGIA TECH

September 22, 1956

STOLL FIELD

The nation's most sports-minded governor.

That is probably one of the most appropriate descriptions ever tagged on A. B. (Happy) Chandler, twice chief executive of the Commonwealth of Kentucky and holder of two degrees from the state university (LL.B. '24, LL.D. '37).

Governor Chandler is familiarly known throughout the world as the former commissioner of organized baseball in the United States, but comparatively few people know that his sports background goes back even further.

He played baseball for the Grafton (N. D.) team of the Red River Valley League, between terms at Transylvania College. Following graduation, Happy entered Harvard Law School and, even in these busy days, found time to tutor football and basketball teams at Wellsley Hills (Mass.) High School.

Later he enrolled at UK and, in between law classes, coached basketball at Versailles High. He was also coach of the 1922 UK girls' basketball team.

The energetic young man somehow found time to be a scout and assistant football coach at Centre College, for 11 years. One of his unforgetable experiences of these days came when Centre upset then-mighty Harvard, 6-0, at Cambridge, Mass., back in 1921.

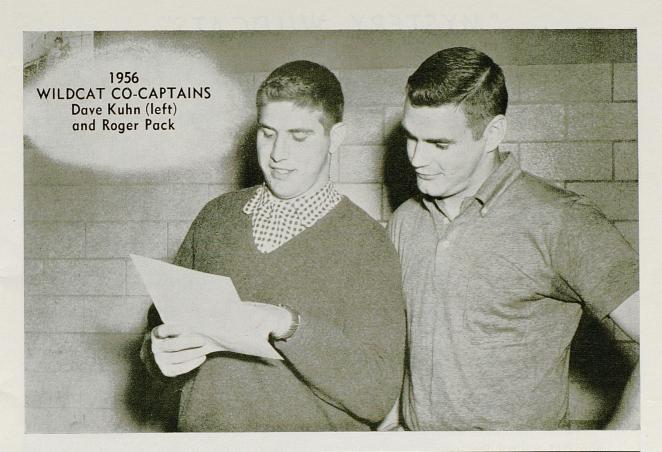

Many years later, after becoming Governor (1935) and U. S. Senator (1939), he served as Baseball Commissioner for six years and was extremely popular with the ballplayers.

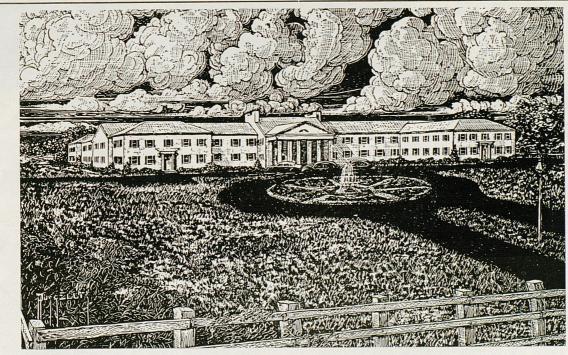

Governor Chandler has been attending UK athletic events for nearly 40 years. His youngest son, Dan, now in the U. S. Army, was a recent member of the Kentucky basketball squad. Ben, his other son, is also an alumnus of UK.

In addition, he has backed the University in other ways. Spearheaded by Governor Chandler, the 1956 Assembly appropriated \$5,000,000 to start construction of the new UK Medical Center. Another \$6,000,000 is pledged.

Educational allotments throughout the Commonwealth are at an all-time high, largely through the efforts of the Governor, and the recent Legislative appropriations to schools.

## "MYSTERY WILDCATS"

A face that should be familiar to every Kentucky fan . . . He ranks not only as UK's first All-American backfield man, but also is generally thought of as one of the greatest players in southern football history . . . Many of his numerous national passing marks still dot the record books . . . A native of Pennsylvania, he saw service after graduation with the professional Green Bay Packers and currently is a key man in the Cleveland Browns' 1956 success plans.

One of his chief claims to fame is the distinction of being the only Wildcat ever to participate in all four of Kentucky's post-season bowl games (Great Lakes, 1947; Orange, 1950; Sugar, 1951; and Cotton, 1952) . . . Despite outstanding play, the West Virginia product never received top mention on the honor teams due to a plague of injuries throughout his career.

For identification of Today's "Mystery Wildcats," see footnote on page 48.

## DR. H. L. DONOVAN - A GUIDING HAND

Few but the closest friends and associates ever realized the full import of the influence of a great man on a great university's program of inter-collegiate athletics when President Herman Lee Donovan retired from active direction of the University of Kentucky on September 1.

And, very likely, such an intangible and seemingly irrevelant part of a great administrator's leadership of Kentucky's state university over the past decade and a half will continue to go virtually unnoticed when the historians recount the Donovan Era. However, those who know of his tremendous contributions toward fostering and furthering a well-rounded athletic program during his tenure of office would assure you that Dr. Donovan is deserving of the highest recognition for this phase of his administration as he is for many other educational and cultural efforts.

Material evidence of Dr. Donovan's understanding of the place of a fine athletic program in an institution's life abound about the campus—beautiful and spacious Memorial Coliseum, a football stadium the equal to that at any school of comparable size in the nation, unequalled living quarters for the grid team, excellent practice facilities, a fine baseball diamond and tennis courts.

Equally important has been the guiding hand exercised by President Donovan as titular head of the University of Kentucky Athletics Association, a corporation which he helped to found in 1945. The association is a self-supporting organization with aims of promoting a well-rounded, high-level program of inter-collegiate athletics for the enjoyment of the sports-loving public at no cost to the taxpayer except the price of admission.

In the face of great odds, the President personally lent his influence to continual improvement of the quality of athletics as an integral part of University life—further testimony to the fact that Dr. Herman Lee Donovan is adjudged throughout the nation as one of America's most distinguished educators.

The guiding hand of the past will be missed.

-KEN KUHN

## "The Kentucky Story"

SEVENTEEN YEARS ago this month, Frank G. Dickey was employed as a teacher by the Lexington city school system. In addition to his teaching duties, he served as director of intramural athletics for Morton Junior High School. As an instructor of boys and girls, Frank Dickey knew the importance of building strong, healthy bodies; today, as the newly-named President of the University of Kentucky, his interest in maintaining a well-rounded program of athletics continues. Pictured above with President Dickey are two other men who through the years have given wholehearted support to athletics at UK: Governor A. B. Chandler, chairman of the University's Board of Trustees, and President-Emeritus H. L. Donovan.

## Athletics at Kentucky

Kentucky's athletics program is organized under the Department of Athletics and a corporation known as the University of Kentucky Athletics Association.

A firm believer in sports and sportsmanship, Dr. Leo M. Chamberlain, Vice-President of the University, has general supervision over the Department and also serves as vice chairman of the Board of Directors of the Association.

Former UK football player and one-time Wildcat coach, Dr. A. D. Kirwan, acts as secretary to the Association. He also is the school's faculty representative to the Southeastern Conference.

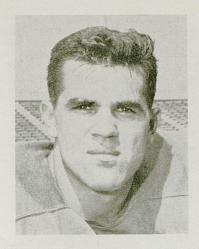

Supervising the steady growth and balanced development of one of the nation's top athletic programs as Director of Athletics is Bernie A. Shively. The former Illinois All-America footballer has guided the development of Kentucky as a nationally-respected power in major sports since 1938 and gained wide prestige through a fair-minded approach to many problems. Under his direction, the seating capacity of McLean Stadium has been doubled, powerful lighting equipment installed to

bring night football into new popularity, mammoth Memorial Coliseum constructed, new practice facilities and two modern living units (Wildcat Manor and Kitten Lodge) provided for the gridiron teams.

Maintaining over-all control of U.K. athletics affairs is the Board of Directors of the Athletics Association, composed of the President of the University and 10 other directors appointed by him, including five members of the faculty of the University, the president of the Student Government Association, an alumnus of the school, a member of the U.K. Board of Trustees, and two others. Frank D. Peterson, University Vice President of Business Administration, serves the board as treasurer.

The current Board of Directors consists of:

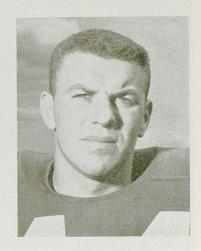

Dr. Frank G. Dickey, Chairman Dr. A. D. Kirwan, Secretary Dr. Ralph Angelucci Thomas H. Ballantine George K. Brady Aubrey J. Brown Thomas Clark Lyman Ginger Dr. Leo M. Chamberlain,
Vice Chairman
Richard K. Lehman
(Student)
Robert Hobson
Alfred L. Crabb
Paul Oberst
H. D. Palmore
D. V. Terrell
William A. Tolman

LOU MICHAELS Junior — Tackle Swoyerville, Pa.

Before the 1955 season opened, Coach Collier had grave doubts that his fullback situation was as sound as it should be and wondered if big Bob Dougherty, after a three-year absence from collegiate competition, could get the job done. The smiling Irishman from Bellevue, Ky., every inch the battering-ram type of fullback that is a coach's dream, had already been picked by the Los Angeles Rams for a future in pro ball. But he remained the big question mark nevertheless. Subsequent action by Mr. Dougherty, as one of the leading ground gainers in the conference and outstanding defense man, proved all worries needless, and served notice that the 212-pound lad will be a serious force to be reckoned with in '56 as he goes after All-Conference honors.

BOB DOUGHERTY Senior — Fullback Bellevue, Ky.

PROUDLY DISPLAY THIS EMBLEM

Sweep second hand, \$195.

When usually-placid professional scouts abandon their reserved composure to drool over an "interior" lineman—and a sophomore to boot—it's a pretty good tipoff that they have spotted a potentially great prospect. Such is the case of UK's great tackle Lou Michaels. With only one season of varsity play under his belt, the mature young giant from Swoyerville, Pa., is already being tabbed by the experts as a potential All-American. At 6-2 and 230 pounds, Michaels has the physical equipment to go along with great ability, strength, speed, agility and a keen mind—attributes of a great football player—and Coach Collier classes Lou as "one of the best I have seen in collegiate ranks."

as long as crystal, back and stem are intact.

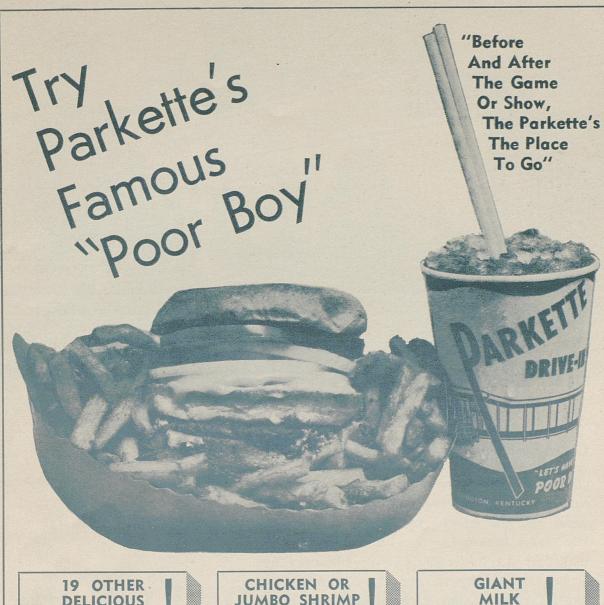

**KENTUCKY'S COACHING STAFF.** Head Coach Blanton Collier (center, seated) goes over the rugged 1956 schedule of the Wildcats with aides. In back, from the left are Freshman Coach John North; Bill Arnsparger, offensive line coach; Ed Rutledge, freshman backfield coach; and Dominic Fucci, defensive backfield coach. Seated are Charles Bradshaw, end coach; Matt Lair, defensive line coach; and Ermal Allen, backfield coach.

### COLLEGE OF

### Agriculture and Home Economics

Success in farming and farm living requires not only a love of the soil but special knowledge and training. In the class-rooms and laboratories of the College of Agriculture and Home Economics, students learn fundamental principles which underlie the many activities of farm and home. Here they are trained for leadership in their chosen fields. Most college students today prefer a college and a curriculum which will qualify them for interesting work and at the same time permit them to become familiar with the liberal arts and sciences. The UK College of Agriculture and Home Economics answers this objective. Its graduates are accepted wherever there is need for persons trained in agriculture and home economics, and they are in demand throughout the country in industry, in business, and in various lines of institutional and governmental work.

### 1956 FOOTBALL RULES CHANGES

By Charles W. Tucker, Jr.

We are happy to report that if you understood the football rules last year you will have no difficulty with them this year.

The Rules Committee of the N.C.A.A. is continuing its policy of holding changes to a minimum and constantly working toward standardization of the Rules for the best interests of all concerned.

There are a number of refinements and editorial changes for the sake of clarification, but very few changes of major significance. One of the principal changes this year is to reinstate the rule covering eligible pass receivers to its former status. Last year, if a center, guard or tackle was in an end position, he was not eligible to receive a forward pass when a teammate was behind him or outside of him. This year the rule says, "Any player in an end position on the line of scrimmage may receive a forward pass", so we are right back where we started.

Other changes are as follows:

GAME CLOCK STARTS ON KICK-OFF WHEN BALL IS LEGALLY TOUCHED: In the past the game clock has always started when the kicker's foot made contact with the ball. Now the game clock will not start until the ball has been legally touched.

In the past it would have been possible for the kicking team in the closing seconds of the game with a small lead to protect to run the game clock out by kicking the ball out of bounds or by illegally recovering it before the defensive team had a chance to get possession of the ball. This change will eliminate the possibility of the kicking team taking advantage of such a situation in the future.

CLIPPING AND BLOCKING REDEFINED: Clipping was formerly defined as, "blocking an opponent, other than the runner, from behind." This year clipping is defined as, "running or diving into the back, or throwing the body across the back of the leg or legs of an opponent not carrying the ball."

Blocking was formerly defined as, "obstructing a player with the body." This year blocking is defined as, "obstructing an opponent by contacting him with any part of the blocker's body."

ASSISTING RUNNER IN GAINING FORWARD PROGRESS REDEFINED. For many years, there has been a 15 yard penalty for a teammate helping the ball carrier by pulling, pushing, or lifting him from the ground. This rule has been

further strengthened this year by the addition of the phrase, "or charging into the Runner to assist him in gaining forward progress."

TIME OUT TO REPLACE JERSEYS OR PADS CHARGED TO TEAM UNLESS EQUIPMENT IS DANGEROUS TO OTHER PLAYERS: In the past, if a jersey was torn so that the number was illegible or pads were not held in proper position, the referee could give that team a time-out and charge himself. Under this ruling the tear-away jersey became a very popular item for obtaining free time-outs. No more! This year the referee will not allow a free time-out unless, in his opinion, the equipment has definitely become dangerous to other players.

PROCEDURE FOR GETTING A KICKING TEE ONTO THE FIELD: It has always been a moot question as to whether or not it was "coaching from the sidelines" when a kicking tee was thrown onto the field. The rules make it very clear this year as to what the procedure should be. If the game clock is stopped and a tee is thrown onto the field, this is legal. If the game clock is running and a tee is thrown onto the field this will be considered as "coaching from the sidelines" unless an official is notified that a fee was being requested.

LEGAL USE OF HANDS OR ARMS AFTER A FORWARD PASS HAS BEEN TOUCHED: When a legal forward pass has been thrown, defensive players have the same rights as eligible offensive players to catch the ball, but no player shall deliberately interfere with the other's opportunity to catch the ball. Once the ball has been touched, the complexion of things changes and any eligible receiver who has a reasonable chance to make the catch may use his hands or arms to push an opponent out of the way.

NUMBERING SYSTEM: The Rules Committee has further recommended the following numbering of players for the convenience of spectators, coaches and officials:

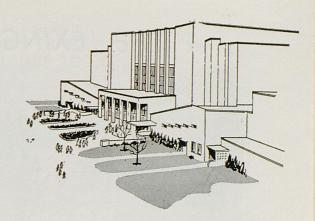

Backs	10-49
Centers	50-59
Guards	60-69
Tackles	70-79
Ends	80-89

Such numbering of players makes it much easier to follow the game.

RUBBER COVERED FOOTBALL: For several years the Rules Committee has permitted the use of a rubber covered football provided it was mutually agreed upon by the two contesting teams. This year either team may elect to use a rubber covered ball while on the offense.

### THE UNIVERSITY OF KENTUCKY

# Looks to the Future...

### The Margin of Excellence

A beautiful modern campus, a faculty including eminent scholars, students who meet high scholastic standards—all these are sources of special pride to UK Alumni but their very being places squarely upon us a responsibility which we can meet with equal pride. We share more than anyone else in the services and growing prestige of the University of Kentucky. Surely it is more than reasonable that we share worthily in the material support of her development.

### Looking Ahead

The University is entering an era of great potential; a new medical school is being planned; other developments costing \$18,000,000 over the next ten years are being projected. The new administration, headed by President Frank G. Dickey, faces the challenge—before its tenure ends—of a 15,000 enrollment and a development program costing more than \$50,000,000. If the challenge is to be met, the staff and facilities will have to be doubled and tripled to accommodate increasing enrollment and expanding activities. How much of the potential becomes reality will depend much upon the vision, imagination, and devotion of the Alumni and friends of the University.

### Put UK In Your Budget Now

You cannot have a great state without a great state university. . . . Support UK by an annual gift of at least five dollars. . . . The Alumni Association is dedicating its annual "Alumni Roll Call" to newly-elected President Frank G. Dickey. . . Your active membership in the Alumni Association this year will be your way of welcoming President Dickey and evidence your faith in his vigorous leadership.

Already at the threshold of greatness, your university needs your help now as it strives for a better Kentucky!
