We have six house doctors. Four jewish one polish and one german. They believe in variety. Dr. O'Brien and Dolgrimple have located here. Dont know what happened to the others.

At the last meeting we planned on having the graduating exercises over at the school and the banquet at the Kahkwa Club. They also spoke of having a dance the night of the banquet. Some class to the girls this year.

Dear Betty:

Words almost failed me when I received your letter. It has been so long since I heard from you. Glad to know you are enjoying your work. Things are rather quiet here at present. There are about 12 names on the register. Had a T. & A. case at the hospital yesterday. Not any of our class in the house.

Everything is about the same at the hospital with the

exception of Sister Sylvester. She was sent to the Old Ladies home. Guess they had some trouble at the hospital. Hated to see her leave. No doubt you know Detzel and Flaherty are married and seem very happy. Glean, Haft and Loftus are engaged but nothing definite about the wedding.

Mrs. Dohmeier Becker had a little party last week for Rosie, she was here on her vacation. There were eleven of our class at the party. It certainly seemed good to see the girls again. Mary and Pat called on me during their visit in Erie about 2 weeks ago. I was on a case at St. V. H. and they looked me up. Both of them like Cleveland very much. Rosie is going to do District Nursing when she gets back. Emma is still at Gunnisons and Stover is at the Erie City Iron. Tate is still with the District. There are about 40 new girls in training. Don't know any of them. It seems like a different place.

F

is in a hospital in Philadelphia.

Mrs. Boss Becker expects an increase in a month or two think she is going to the hospital.

Kissell is back in Erie again. She intends to nurse here for a while.

Did you know Ella Powers is married?

Mary agnes left the training school in Spring, her health is very bad. The Doctors informed her people

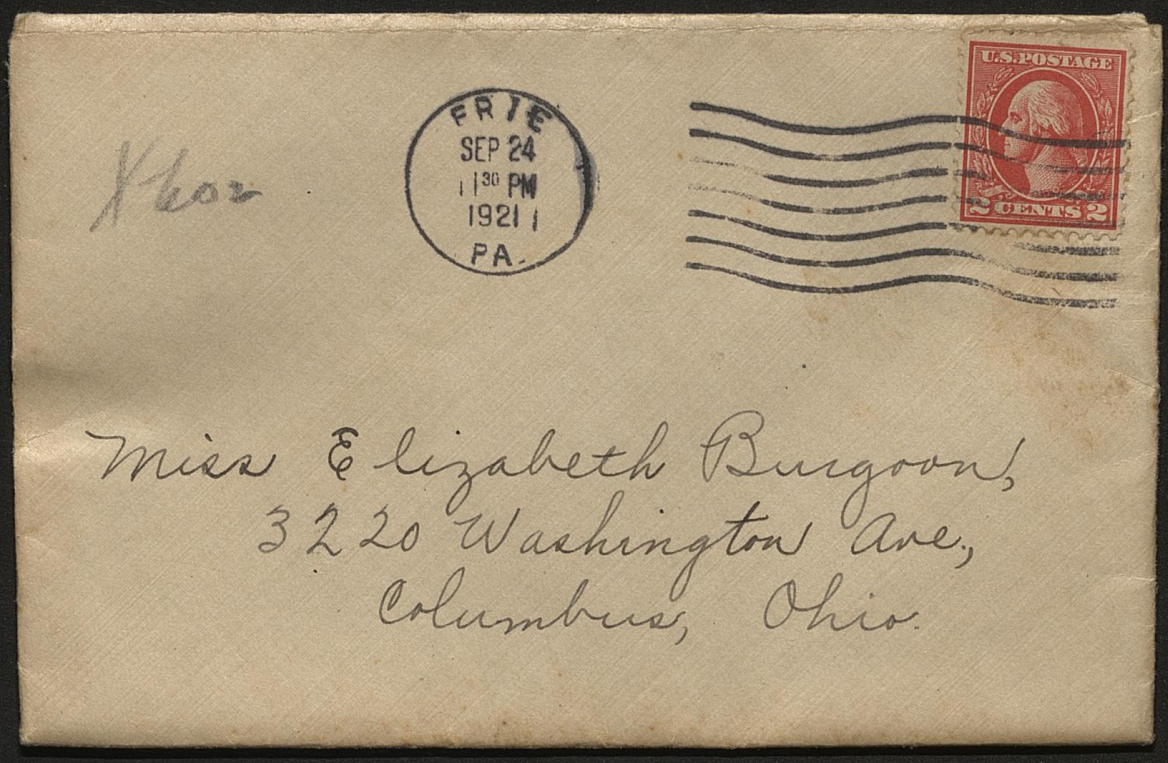

she had T.B.

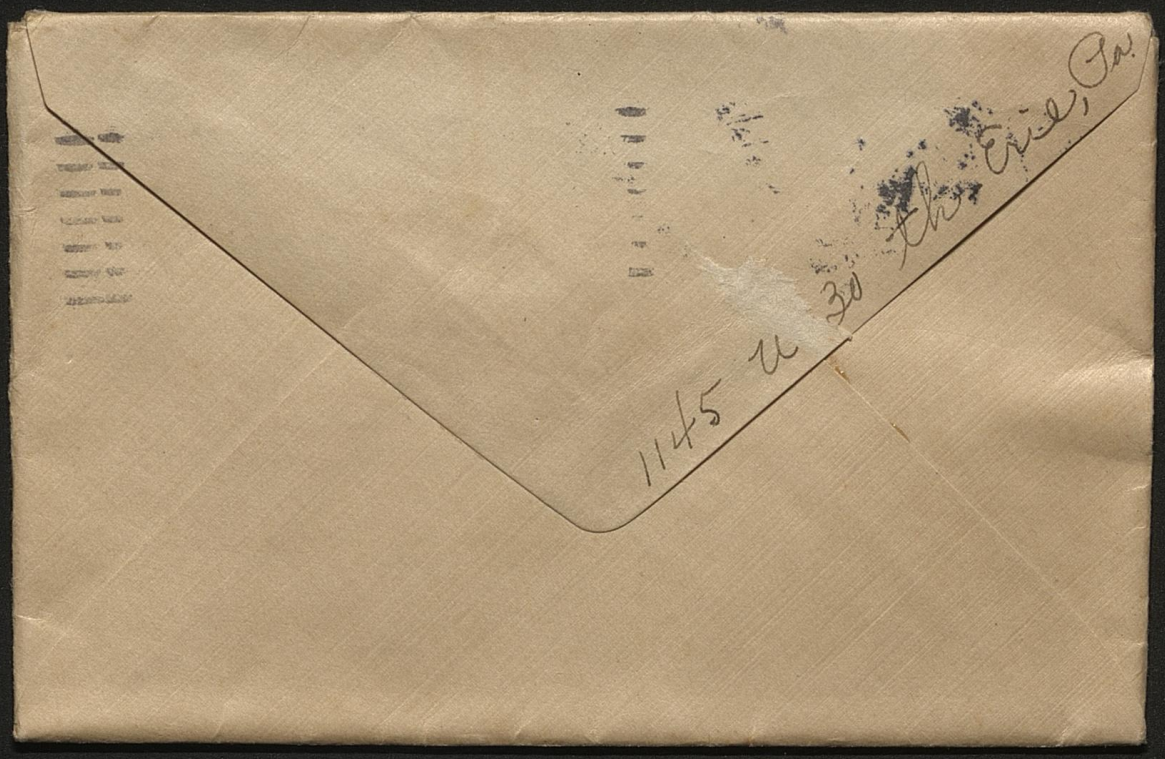

Well Betty I think I have told you all the news I can think of at this writing. Hoping you are in good health and like the work as well as you have, I remain,

My dear Miss Burgoon:-

Am in receipt of your two letters containing Eight and Five Dollar checks and I should have written you long ago.

I sent the suit case on Saturday and insured it for $30.00 which was not enough, when I had time to think about it, I realized this.

It is just the Fall renting season here now and the past few days have been pretty busy ones.

Your room has been taken by a teacher in the High School, and the one across from your room by the Internal Revenue Collector here.

The young man who roomed in the room next the bath came with a wife, and he has taken a flat, so that room is for rent.

I am very tired tonight and I guess I do not express my self very clearly.

I do hope everything was all right in the suit case and that you have

missed it by this time.

Mrs Roberts has eight lovely young people at her home to eat and you will have a good time there when you return.

Please remember that I shall allways have a comfortable work for you - just give me a day's notice.

My high school teacher is a charming girl - a catholic - and I am sure you may be friends.

Will be so glad to have you back.

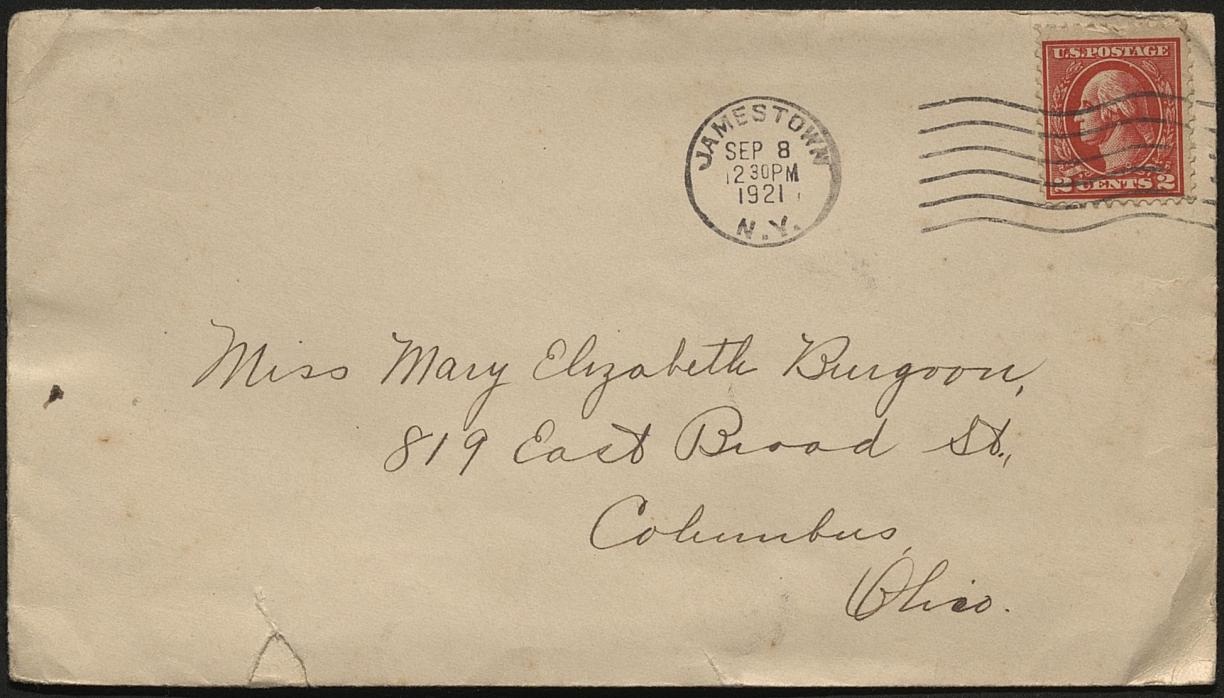

Your things are all being stored away and they will not cause me a penny's worth of worry - so please don't send any more money.

We have been a little careless and a paper of yours has been waiting to be mailed for three days, but I'll send it with this letter.

Very sincerely -

Mary Bodwell

(Please - I don't mean that Mrs R. is going to eat the night - This is such a funny letter if I don't send it, I won't get time to write again for 6 days or so.

Oh yes I want to tell you about Mary! she seemed much the same only I could notice her becoming more transparent every time I was up, she developed a ~~deadset~~ diarrhoea the latter part of the week previous to her death, following a cathartic she had taken, and that made her so very weak, but the day before her death she was down stairs ate dinner and supper at the table and stayed downstairs until about 10:30 PM. along about 12 midnight she said her heart was just running away with her and her breathing was so difficult.

Knoxville Ga
July 1 1921

Dear Gungoon:- You see I am starting the month right by writing your letter. It is useless to say I was glad to hear from you for that is an established fact. How is the world treating you these hot days? I have just been almost prostrated by the heat do not know what I would do if I was living in the city.

They thot it was due to nervousness and did this and that for her and as she disliked a light mother Thomas didnt turn one on until about 2:30 then she found she was getting blue in the lips and hands, they called Dr Dick he came but could do almost nothing and she just ceased breathing at 4 a.m. Father Wagner got there but may didnt they called me about 7 a.m and to say I was shocked - you cant imagine how we all felt, and am telling you I never had such a time with people as we had with those girls Gertrude fainted at the church we took her over to Frantz's after she had her straightened up may got sick and came over, then at the cemetery Bertrude got hysterical and it took them to hold her, she caught Albert Adams and pulled the strap from his hand and Mr Reitz hadnt been right on the job and slid the board back across the grave the casket would have gone in I am afraid, but that righted it, you see, then Flores got weak and just crumpled up so the men carried them both away.

she seems to think if I can weigh less than she that isn't so bad for her, see? hope she does view the matter sanely but as I said before they surely have been dreadfully exposed and if ever a house was full of germs that one must be, because Mary was in every room in the house and wasn't very careful. after the funeral there was a basket of soiled clothes that she had expectorated in still in her room, see? Yes I feel as you do about it if, and it is true she did have it, it is better now than to go,

y just as we got back to the house mother Thomas said "Jennie go upstairs Mary has fainted" so there I was getting her straightened up, it was one awful night-mare.

They are all better now, Gertrude is worrying an awful bit and hoping she will get away from it now examined a lot from it now examined a lot are getting out a lot, Jennie and all that makes her forget herself; also she was worried because she only weighed 100 lbs but the other day I found I only weighed 96½ and truly I think that has cheered her up

suffering so long. I told mother Thomas that was the only bright spot in the whole thing the fact that her illness was of short duration and she suffered comparatively little.
Of course Cookie is crushed I never did pity anyone quite so much as he. They had a nice little home down there and seemed so very happy. but I am telling you, Elizabeth Burgoon, they moved over here ideally happy. That may seem an awful thing for me to say but I firmly believe it. however we all miss her so much.
When are you coming home? I don't know positively when I will get mine either this month or any. We are all going to Cookeburg for the Fourth. the Dunch, with the exception of myself and Rankin Wilson, are going Sat nr, and I get off duty Sunday noon and will have Monday I expect to have a good time because I appreciate trips out like that. we went to the woods last Sunday and cooked out supper out, and had a good time.
must run along let me hear from you soon yours as always

He's pounding flour in a piece of steak. I think he calls it Swedish Steak.

I see you guessed why I inquired about Dr. Heard. Yes it was for his nibs but he didn't get to see him. He told us that he called him from his mothers, and that Dr. Heard was out of town. Wether he did now or not I can't say. He has been trying to see Snyder for a week, at least he says so and he too is always busy. I told him this A.M. I'd tell Snyder to go plumb to H— if it was me.

Between you & I & the fence post I sincerely hope he goes to see someone soon for he suffers terrible and also the same odor you noticed before his last operation. It's too bad.

Bill Shaffer had a similar operation about two weeks ago & darn near kicked in. He had a bad hemorrhage they had it all over town he was dead.

Expect to go to Pitts in the morning. Another funeral of course. That seems to be the only thing that gets me out of this hole lately. Joe's sister died this A.M. Tells I haven't been down since last Feb. and that was to her husbands funeral. Have been planing to go down for the last six weeks, but haven't been able to get any fingers on any dough. I had decided to take on the train while

down there for Columbus to visit my brother. I would of looked you up. but the fact of the matter is the Glass plant eagle hasn't had a bowel movement for 2 months and won't have for two more weeks leaving me short on funds. My bank roll is gradually dwindling away. I hope some body gives that buddie a physic soon.

The weather to-day is beautiful but cold. Had rain for several days much to the delight of our poodle for he loves to stand in it and get wet thro' so as to have his mamma rub his head and back when he comes in. Some dog.

Miss E. Burgoon
Dear Sister

After Spending a very interesting day + evening we came home rather early Considering that Jess + A are employed nights.
Joe hunted the question that you asked him Friday evening just as A was about to depart for duty. A had not time to debate on the subject at that time So A had slipped my memory until this evening while having the evening spent in a very well known Theater + Stock Co there was a play which reminded me of the subject. A reminded Joe of your suggestion at the time + having returned home A read your letter

of which was very interesting
Joe is in somewhat in a
position like myself. I had
planned on going home for Xmas
But I really dont think the
Company would agree on the
subject not that I am so valuable
that they couldnt get along without me
But from now until after the
holidays there will be considerably
rushing business. So will debate on
that subject later.

In regard to your suggestion
I think it is the Best proposition
I have heard of in a long time
I am sure they would more
than please & I for my self
will do my utmost to make
it a success & You may make
plans so that it will be convinient
for yourself

II

Also in your letter to Joe about you
owing me a letter is perfectually right
I wrote to you before New years
wishing you a happy New year
& thanking you for the presents
received No answer.

Then I wrote to Jamestown N.Y. when
I was living at 1857 N Harlem
Just about that time we had
both changed addresses & you
intended to return to Jamestown & failed
to do so. As reply to your graduation
I would of been a witness had you
mailed the invitation in time
that I could of arrived there the
reason I did not write &
congratulate you was because
I was greatly pained at the time

It appeared as though I wasn't wanted
& possibly could of been delayed.

I am in favor of forgetting the
past & hope that such misunderstandings
will be discontinued. I wish to
extend my many thanks for the
presents for last year & sorry to
think you do not recall of receiving
any mail from me so hope
this may reach you. In this case
you do not recall of receiving no
mail at all from me since I have
been in the City of Chicago which
has been over a year. I do not
want you to consider this as a
master piece there is no
insults in it what so ever
I am only reminding you that
what you have accused me of
is a mistake through mail
or you do not remember of
receiving any mail from me
I know I have only written to You

twice before this letter in the past
two month & probably longer.
In regard to Xmas this year If I cannot
get home I dont know really what
to get the Kids They have all grown
out of my knowledge I know & I think
you would be as good an advisor
as any as to what we should get them
Jess & I are on mighty leaks at
the present time trying to beat the
other saving money of course it
is going to be rather hard at
present They have changed our time
of pay only twice a mo now
which will make us water our
step. I would like to have you
give me a little information as
to the kids sizes of clothing & Ec

so that this can be all finished
before Dec 15th.

According to your letter you have
been kept quite busy & am
sure glad to hear it.

Suppose this will sound punk
to you but yesterday was been
the 5th Sunday of the year that
I have not worked. Now that I
have been working steady I have
Sundays off. It is getting disgusting
to have these bums tell you a
raf every time you pass down town
of could there is some of them
that wont work and others that
cant buy a job.

Was reading a sketch from the
Mich unemployment bureau & they
have found places to put
five thousand of them to work
today. I have lost track of all
my old pals there. Met one

of them here this summer had but little time to talk to him as he was also in a hurry.

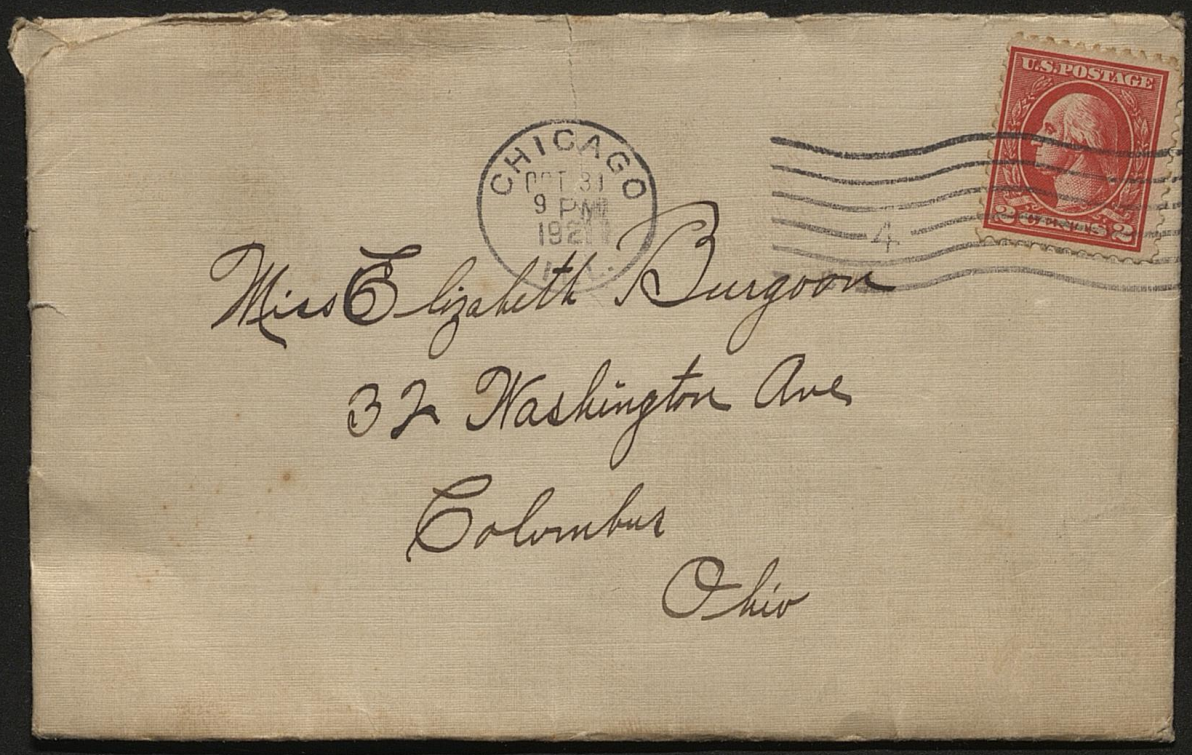

Thinking I might come to a close as it is nearing 4 am although I do not have to be to work until 6 Pm. Mather says Dad is going deer hunting this fall. Hope he has good luck.

Hoping this will find you in the best of health

I am

Dear Burgoon:- Was very glad to hear from you, am glad you are busy because I am so sure we are more contented when busy don't you think.

The girls are all excited because miss Afton has a beau at the door, this sure is some popular place, and some lively lunch, we have couple of new fellows now

There another Brock, sure This is a popular place. Things go much the same here busy one day nothing to do but just in time next and so on, we were not busy today, will have more to do tomorrow, miss Kearney and miss Curry were in Pittsburg Friday and Saturday, miss K. mother is sick and she goes to Brockwayville almost every day.

Of course you know by this time the M. E Church burned Friday eve, that was one terrible fire, never felt more sorry in my life, the church was so beautiful you know, of course the walls are still there and they have $70,000 insurance. I understand. We have had several fires lately, a house just below the Catholic church burned the other Sunday morning. Am much afraid the nurses home will be on the waiting list since the M E burned everyone with think the church result is of more importance, of course the nurses home is quite comfortable though crowded and we can manage a while yet but it is very hard for the nurses. too. But I think its to late to contemplate building this autumn don't you? The Thomas family are all ok. Gertrude is having some trouble with her head. seems to be a genital infection acts like frontal sinus trouble, (Corbin diagnosing) Mrs Hixon is away now for her vacation. When do you think you might be home? I am actually staying in tonight can you imagine that? an admitted couple from Typhoid tonight Mrs Wagner the babies wife and kiddie. Let me hear from you again soon as always J.E.C.

I will Phone Sibbel and tell him to get his money he has'nt told me what the Bill is for interest. The furnace was fix. But now they want the cold air shaft change as it gets the air from the sewer I told him I would look after it later. I Ask Will Filder But I think he wants to much, so I was going to have some one else look at it. Say Betty that other Tax you dont have to.

So you have overdrawing your account at the Bank here. On account of me paying those Bills when Mr. Liebl went to the Bank with his Check for this month there was'nt enought money there. So he call me up. and told me I figure up my check Book and the Check's and I call up the Bank and they told me there was $30.00 in the Bank. So yesterday Mrs. Farnell come and payed her last months Rent. if she had pay her last month Rent every thing would of been all-right. You see you sent your check to Liebl the first of the month. And they dont pay till the middle and later. You see Farnell owe for this month and Mensinger have'nt pay either. I will put the money Mrs. Farnell pay in and have the Book balance and tell you just what is on hand so there wont be another mistake

I had mentioned it to him when he was here, and he said that was all the wanted. write me right away and if you decide write him and tell him to bring down the size of the rooms. I know you

Dear Burgoon:- Was very glad to get your letter always enjoy them a lot.
Am glad you are well and busy we get discouraged when ill don't you think?
Am having a half day today, sept am will then went down to the Presby'n church to a chicken and biscuit supper, enjoyed it a heap.
Brookville is much the same did you know Martha White?

Mary Taylor Seandoff came up one night for a Card C, only stayed in about four days.
So you happen to know Russel Keffer he is a book-keeper from Lit Brothers! we did a mastoid on him the other day.
Saw Edd Nylund at the chicken supper don't know where his wife is Thad day, Edd works in Dubois now.
Last Sunday you should have been here the Catholics dedicated the school house and of course there were people from all around, also Sykes, then on the other hill the Free Methodists were celebrating so it was quite some busy day. you should have heard Thomas laugh when I told her the town was taken over by "micks and methodists"
There is a great agitation on to build an addition to the nurses home dont know whether it will go through this autumn or not. what do you think of the Fatty Arbuckle case? I feel so sorry that things like that happen in a supposedly civilized country.
Gertrude had two of her friends from Dubois over last Sunday mary McMann and Margaret Gleason, — mrs Galliger she is now, do you happen to know them they come from Dubois.

Cookie has been indiscreet and I think that makes her feel quite badly too; you know boys don't always see things as we do and it wasn't only a couple who until Cookie was out chasing around with a little girl one of Flossie's friends and you know how people talk in a town of this size, however he's away now.
do you know it is only nine o'clock but I am so tired and sleepy and I did sleep this P.M. too, guess I must be

ry We have a miss Markly here now who is from your hospital or at least wears a pin like yours, do you happen to know her?
I have to prepare eight lectures for the nurses on operating room work am not at all enthusiastic about it but guess I'll live through it.
I think Gertrude Thomas is feeling better she weighes 108 now.
I think Mother Thomas' worry more about Flossie and Gertie than she does about Mary Ruth.

getting old one thing am sure I am just about due to have my periodic celebration which fully accounts for my present condition.

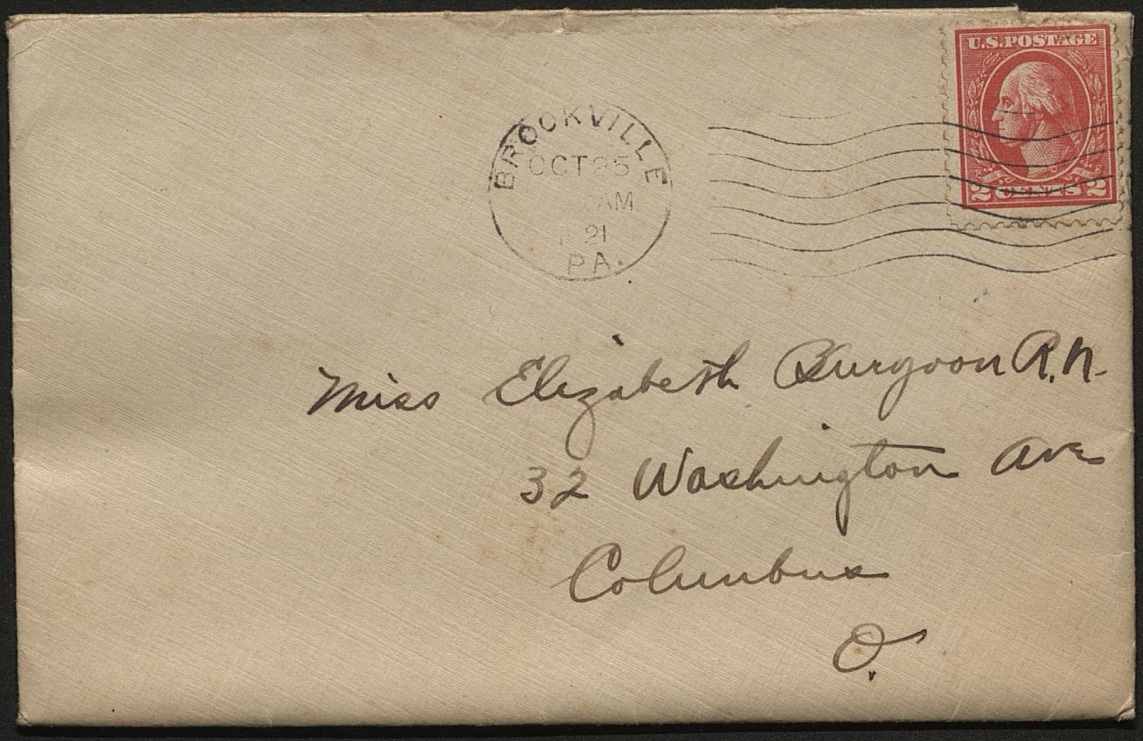

We have two new probes one of them was heard to remark that she "would just die if she didn't have a beau" so I figure her stay here is liable to be short because you and I both know dating and "beaus" cannot be successfully combined especially if one has the "about to die" stage of course you and I don't fall so easily nor so hard. What has become of your Eddie never hear you mention him anymore, how's come?

How me, like "Pennets" much better than I ever did, but the way you raved about Eddie was quite a surprise to me. Eddie by this time wouldn't blame you for changing to mrs, I know its a long chance but you nor I want to plod along at this work until we are broken in health and have nuther home, health or money for one am not going to stay by the old job more than "steen" years longer must run along. This marriage business is entirely too serious for me to discuss so near my bed time don't you think.

Let me hear from you soon.

Lovingly J E C

Dec. 29, 1921.

Dear Bettie;

We were so sorry you were unable to be with us for Christmas - we really had been expecting you.

Martie and Stell came down on the evening train and I guess they thought their chance of getting here was rather weak. The train

ran thru water up to the steps for quite a distance. However, no real damage was done.

We had killed chickens and expected to have them for Christmas but the day before Christmas dad came home with a turkey. So we had rich living for a couple of days, turkey for Christmas, chicken the next day and rabbit, which Joe Brown had shot, the next day.

All of us were somewhat worried about Marty when she was home. Her eyes were swollen terribly—especially in the morning. She told us that she had been troubled with them nearly all last week. I took the young lady to Dr. Campbell. He examined her over and over and finally decided that the swelling was due to a pill con-

What are your chances, Bettie, of spending New Years day, and as much time thereafter as possible, with us? We would like very much to have you.

May the coming year bring you all kinds of happiness and good health.

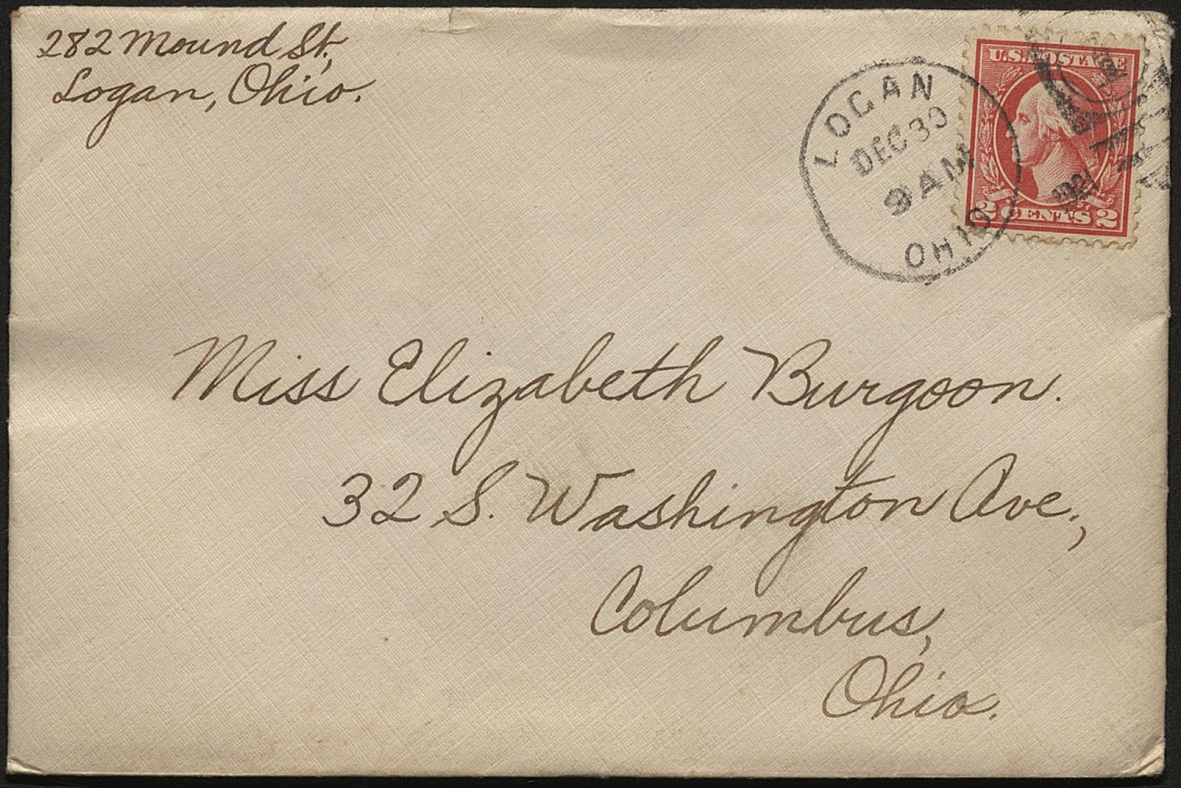

Yours,
Adelaide.

Some of the folks have gone out to Pauls tonight to see little Pauls Christmas tree. I stayed home to write some of the letters that I should have written days ago.

Bettie, I do hope that special delivery letter of yours was not so awfully important but you see it came Saturday noon. We had not received your telegram and we thought you were

coming and had told your brother about it. That was how we explained the arrival of the letter. We got your message too late to mail the letter at all Saturday and the trains leaving here do not carry mail on Sunday. I asked dad to take the letter down Monday morning and post it. He took it but forgot to put it in. So I gave it to the post man when he brought the morning's mail. As I said before, I hope you can find it in your heart to forgive us for fooling around with it.

How are you? I am so glad the M.D. thinks he can do something for your ear. Are you still nursing at Mt. Carmel? Is it cool enough there for you? The year I was there it was so cold in the hospital that we nearly froze.

this afternoon. You know he said he would get some stuff for me in Phila. but I do not know whether he remembered it or not.

Last Friday Gath had an operation. Now don't get excited – it wasn't a very serious one. She has had a wisdom tooth that had been bothering her a great deal and she had been to Columbus to have an x-ray taken

My dear Bettie,

It surely is sweet of you to write to me so promptly when you are such a busy lady.

I have just spent an hour in burnishing the last of my Christmas china. It is all rather bum looking, too. I am very disappointed

in it.

I finally finished a plate for Marie Haley and it, too, fell short of my expectations but I am going to give it to her.

It is just awfully cold today.

I have been working like any old char-woman. Monday and Tuesday I waxed and polished the floors downstairs. Today I washed the windows, outside door and side-lights and the French doors between the front room and the living room. As you can tell from that we are just finishing our house-cleaning.

Dr. Mac is back - and looks quite natural. He was up Monday evening to fill out some insurance papers relative to Broses death.

I am to go down to his office

Burgoon's purse?

Are you still thinking of coming down for Christmas?

I suppose all we can do is wait and see if you come.

Write to me some time when it is possible.

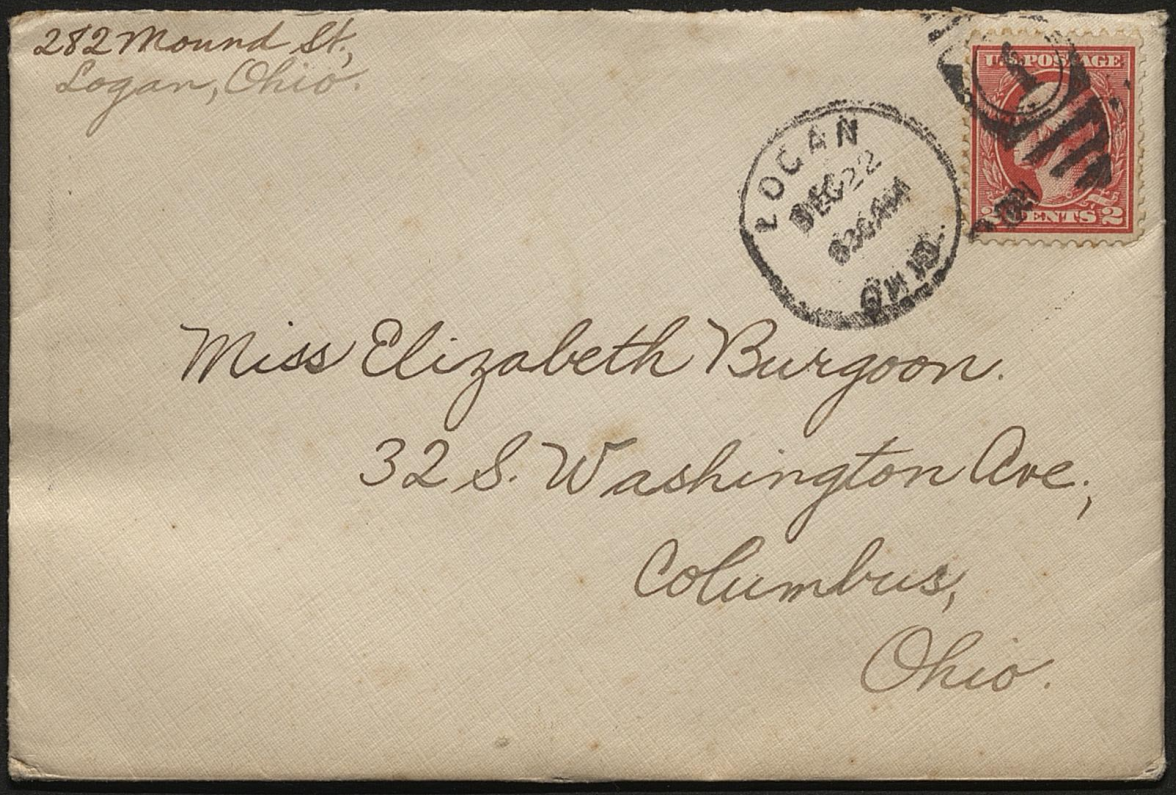

With love,
Adelaide.

of it. But even after the dentist had the picture he was afraid to take the tooth out. However, on Friday he called her, asking her to come to the office. She went up and found that there was a strange doctor there. It was Dr. Scott from Lancaster. He has studied under the Drs. Mayo. He did the work - giving her a local anesthetic and cutting

the gum which he afterwards sewed up for her. (Wasn't that accomodating of him?) Her face is still swelled a little and she has gone to the office every day to have the incision washed out.

Have you heard any more from Marty? We had about six lines from her Monday.

Mother got a box from you yesterday but we thought there must have been some mistake for you told me you were sending a small box and the one that came would make at least twelve small boxes. However, mother wants me to try to express her thanks to you. I have just one question to ask. Is there any candy left in Columbus and is there any money left in Bettie

If you get Brookville paper you will notice an announcement of Dr. Dicks marriage to take place on December 31. Of course he is just as busy as ever. Work is very slow here now, have had only one op. this week and that was a T and A. tomorrow have a mastoidectomy scheduled. Can you imagine that! It seems so easy where I work I suppose you won't get home for Christmas. We are planning on going out home unless something big turns up.

Dear Sister

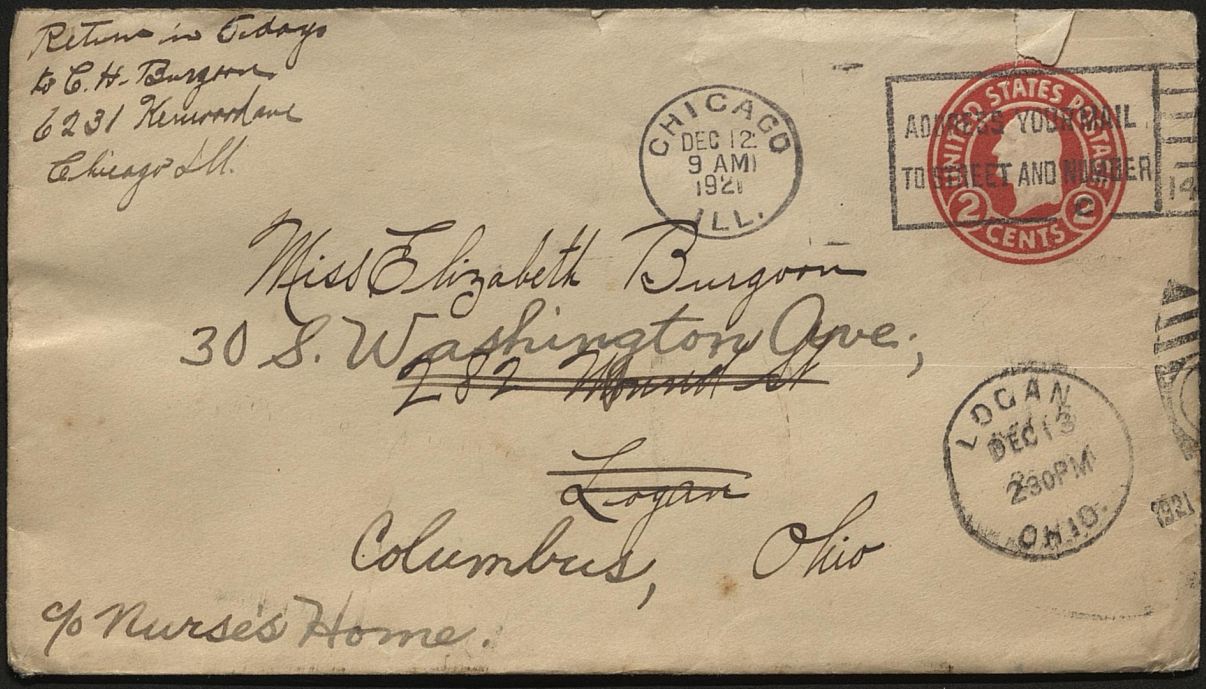

I have thought of you many times since I rec'd your last letter + have thought of writing to you a good many times But have not been very well. have had an awful cold + you know how one acts it settled in my neck shoulders + lungs so you can realize how I felt. have it fairly well under control + hope to keep it so. I suppose you + your spirit act at the same time in regards to moving. Seems as though we all move about the

same time. As fact Joe + A
are moving all the time
They say its easier to moove
than pay rent. Joe is also
working at the Express now
seems to like it fairly good
Think we will remain
here for the balance of the
winter. I am quite undecided
about Xmas this year cannot
know what to do It looks
rather impossible to go home
So suppose we will have to
do the best we can towards
making a happy Xmas
for those at home There is
a good strike on going
on here at the Stock Yards

Men. Women & Children are being Shot & beaten They are so short of policemen that they have ordered Street Sweepers to direct traffic

Expect to take a look around the Loop today & get a line on the youngsters presents so will have to close hope you are in good health & write when you get time.

We are living at
