Upon motion by Mr. Watkins, seconded by Dr. Angelucci, and carried, the list of candidates was approved, and President Dickey was authorized to confer upon each, at the May Commencement, the degree to which he is entitled.

J. Resolution on Death of Professor E. F. Farquhar.

President Dickey read the following Resolution:

Resolutions on the Death of Edward Franklin Farquhar

Professor of English

Edward Franklin Farquhar was born in Ashley, Pennsylvania, in 1883; he died in Wilmington, Delaware, on March 23, 1960. He received his A. B. and M. A. degrees from Lafayette College in Pennsylvania and later attended Columbia University. In 1909 he came to the University of Kentucky from Purdue University as assistant professor of English and remained a member of the staff until 1953, when he was assigned to non-teaching duties on a change of work status.

Professor Farquhar's interests were many. He was, for example, the author of several articles which appeared in drama and theatre magazines; was the founder and first director of what is now known as the Guignol Theatre; was founder and editor of Letters, one-time literary magazine of the Department of English; and for five summers was a lecturer with the Radcliffe Chautauqua when that organization was in its heyday.

It was as a classroom teacher, however, that Professor Farquhar won an immortality among the many students who took his classes. As a result of his long service -- some forty-four years -- he was one of the few who could claim to have taught three generations of the same family. The children of his early students came to the University with instructions to be sure that they took work with Professor Farquhar -- and once they came under his spell, they continued in his classes until they graduated. When he walked into his classroom -- be the subject Shakespeare or the Bible -- students were astonished to observe that frequently he carried no textbook with him. Anything which he considered supremely great in literature he took the pains to memorize. Question him about a great scene in Shakespeare and he would recite the whole passage with a dramatic flair that would make a professional actor envious, and his students listened spellbound. In his classrooms he had all the attributes of an effective teacher. He was full of energy, full of his subject, and full of interest in his students.

Professor Farquhar was not only a great teacher in the classroom, but he was also an institution on the campus. He was frequently the subject of conversations at social gatherings. When a group of students was asked once what they discussed during a long social evening, one of them quickly replied, "Farquhar". His character took on legendary proportions among both students and faculty. Classroom personality episodes were regularly transferred from their origins to him. Any colorful remark, in the course of time, was quickly attributed to Professor Farquhar. Much of this was due to his dynamic energy and drive. He was quoted by many because he seldom phrased

even the humblest platitude in a commonplace manner. Professor Farquhar will live long in the memory of a multitude of students who had the privilege of studying with him. They will remember him as a man with a clean optimistic philosophy of life who spent his whole life and energy so that others might lead more fruitful lives.

Therefore, be it resolved that these resolutions be approved by this Board as an expression of its high regard for him; and be it further resolved that they be spread upon the minutes of this Board and that a copy of them be sent to his family.

Upon motion duly made, seconded and carried, the Resolution was ordered spread upon the minutes and a copy sent to members of the family.

K. Two Assignment Contracts.

1. President Dickey presented for approval of the Board two Assignment Contracts. One was to the University of Kentucky by Dr. E. M. Emmert, of the College of Agriculture and Home Economics, in regard to Dr. Emmert's invention relative to hormone spray in liquid and powder form, according to specifications filed in the U. S. Patent Office on March 25, 1958, as serial No. 723660. The President explained that there had been a previous assignment made to the University, but that the present one was more inclusive, now applying to powder as well as liquid form. This Assignment document, executed by Dr. Emmert on April 25, 1960, reads as follows:

AND I hereby covenant that I have the full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith, and I further covenant and agree that I will, at any times, upon request, execute and deliver all such papers as may be necessary or desirable to perfect the title to said invention, said application and said Letters Patent in said the BOARD OF TRUSTEES OF THE UNIVERSITY OF KENTUCKY, its successors, assigns or legal representatives, will communicate to them all facts known to me respecting said invention, said application and said Letters Patent, will testify in any legal proceedings, sign all lawful papers, execute all disclaimers and divisional, continuing, reissue and foreign applications and make all rightful oaths, and generally will do everything possible to aid said the BOARD OF TRUSTEES OF THE UNIVERSITY OF KENTUCKY, its successors, assigns and legal representatives to obtain and enforce for its or their own benefit proper patent protection for said invention in any and all countries, all at the expense, however of said the BOARD OF TRUSTEES OF THE UNIVERSITY OF KENTUCKY, its successors, assigns or legal representatives;

AND I hereby authorize and request the Commissioner of Patents of the United States and any official of any country or countries foreign to the United States whose duty it is to issue patents on applications as aforesaid, to issue to said the BOARD OF TRUSTEES OF THE UNIVERSITY OF KENTUCKY, as assignee of the entire right, title and interest, any and all Letters Patent for said invention, including any and all Letters Patent of the United States which may be issued or granted on or as a result of the application hereinbefore identified, in accordance with the terms of this instrument.

Executed this _____ day of _____, 1960.

2. The other Assignment document conveyed the same patent rights from the Board of Trustees of the University of Kentucky to the Kentucky Research Foundation, this document worded as follows:

Dear President Dickey:

May we request the continuation of the same number of grants in aid for students in the Department of Music, Department of Radio Arts, and debate in the Department of English, Speech and Dramatic Arts?

The students in music and in radio arts render service for these grants. The number in the field of debate is four and they, of course, actively participate in debate. Aside from these four, the amount of work these students give the department would average out at about \$.50 per hour.

The number of grants by department are:

Department of Music	60
Department of Radio Arts	16
Debate	4

Respectfully yours,

M. Free Transcripts for Air Force Officers.

President Dickey presented the following communication from Colonel R. W. Boughton, head of the Department of Aerospace Science:

30 March 1960

MEMO TO: Dr. Frank D. Peterson
Vice-President Business Administration
University of Kentucky

We have just been advised that Headquarters USAF desires that the Institute of Technology Transcript Repository include the academic transcripts of every newly commissioned Air Force officer. This specifically pertains to each Air Force ROTC graduate.

I have been directed to immediately obtain an official, legible copy of the transcript of each of our graduates since 1 January 1959 and forward them as soon as possible. For future graduates we are to forward the transcripts as soon as the final data is posted and complete transcripts can be obtained.

The graduates since 1 January of last year are listed on the attached roster and total 44. We anticipate that future annual requirements will approximate 50. It is requested that a policy be established that transcripts required for this purpose be supplied without charge and without nullifying the provision that the student may obtain one copy at no charge.

Your concurrence on this request and the forwarding of the roster to the Registrar for early action would be greatly appreciated.

(Signed) R. W. Boughton
Colonel, USAF
Professor of Air Science

1 Atch
Roster of Graduates

President Dickey stated that he concurred in the recommendation of Colonel Boughton, and explained that his recommendation for free transcripts was limited to student graduates of the Air Force R. O. T. C. curriculum.

Upon motion made by Mr. Watkins, seconded by Dr. Angelucci and carried, the Board approved the recommendation of the President.

N. Leaves Granted to Dean A. D. Kirwan and Dean Doris M. Seward.

President Dickey recommended that Dean A. D. Kirwan, of the Graduate School, be granted a leave of absence from September 1, 1960, through June 30, 1961. The first semester will be a sabbatical leave with half pay, and the second semester, during which time Dean Kirwan will be on the campus for part-time duties will be at half-pay. He explained that Dean Kirwan had received a Guggenheim Fellowship for this period of time to do research. The President further explained that, during the absence of Dean Kirwan, it would be necessary to appoint an acting dean of the Graduate School for the ten months' period, and that he would later make a recommendation for that appointment.

Upon motion by Mr. Gatton, seconded by Mr. Watkins, the recommendation of the President was approved.

President Dickey also presented the request of Dr. Doris M. Seward, Dean of Women, for a leave without pay for the month of June, 1960, to teach in the summer session at Indiana University. He recommended approval of this request.

Upon motion made by Mr. Gatton, seconded by Mr. Watkins, and carried, the recommendation of the President was approved.

2. President Dickey presented a communication from Mr. George R. 3. President Dickey read a letter from Dean M. M. White, of the College of Arts and Sciences, recommending that V. P. Kenney be given permission to accept an appointment as consultant to the Oak Ridge Institute of Nuclear Studies. He stated that this would not interfere with Mr. Kenney's work at the University, and recommended that he be permitted to accept the appointment.

Upon motion of Mr. Watkins, seconded by Dr. Angelucci, and carried, Mr. Kenney was authorized to accept the consultant work at the Oak Ridge Institute of Nuclear Studies.

Q. Nomenclature of Fees

President Dickey explained that appropriate action by the Board of Trustees was necessary to standardize the nomenclature relating to student fees in order that the bond issues contemplated for the construction of educational buildings would use the same terminology and thus avoid any misunderstanding of the purchasers of such bonds as to the particular student fee pledged for the payment of interest and bond amortization. The Council on Public Higher Education (of Kentucky) adopted a similar action at its meeting on May 9, 1960. Mr. Cornelius W. Grafton, of the firm of Grafton & Fleischer, Attorneys at Law, Louisville, Ky. , has recommended the following Resolution to accomplish this purpose for the University of Kentucky:

RESOLUTION

WHEREAS, at a meeting held on May 9, 1960, the Council on Public Higher Education in Kentucky, acting in accordance with KRS 164.020, adopted a Resolution having reference to the University of Kentucky, Eastern Kentucky State College, Western Kentucky State College, Murray State College, Morehead State College, and Kentucky State College, and determining for each institution the fees to be charged to the students thereof, the same being in a single continuing schedule as to the University, and in two schedules, as to each of the five State Colleges, one of which schedules is applicable currently and until August 31, 1961, and the other to be effective from and after September 1, 1961; so that it is in order for this Board, acting under authority of KRS 164.160, to establish fees in conformity thereto;

NOW, THEREFORE, THE BOARD OF TRUSTEES OF THE UNIVERSITY OF KENTUCKY, DOES HEREBY RESOLVE, AS FOLLOWS:

Section 1. In accordance with policy established by the Council on Public Higher Education in Kentucky and in order to conform to a pattern of nomenclature of fees derived from various sources and for various purposes which will be uniform for all of the State Institutions of higher education, so that confusion may be avoided in the issuance and public offering and sale, from time to time, of revenue bonds of the various respective institutions, it is hereby determined that the fee which is charged to each student at the beginning of each academic year, semester, or summer session, as an incident to registration and admission (heretofore generally referred to in the proceedings of this Board, in the records of the University, and in the University catalogues as the "incidental fee") is hereby designated and shall hereafter be referred to as the "registration fee" or the "student registration fee"; but in effecting this change of designation, there is no purpose or intention of disturbing in any way any previous pledges or commitments which are applicable to the same, or to any part thereof, and if it shall be deemed necessary or desirable in order to avoid confusion in connection therewith, the new designation may be accompanied parenthetically by the former designation.

Section 2. In order to conform in similar fashion to nomenclature policy established by the Council on Public Higher Education in Kentucky, all miscellaneous fees collected from students separate and apart from the registration fee (such as, for examples only, fees for hospitalization or health insurance, athletic activities, student activities, subscription to campus newspaper, etc.) shall hereafter be designated collectively as "special fees" for the purpose of distinguishing the same clearly and unmistakably from the registration fee.

Section 3. In accordance with the fee schedule established by the Council on Public Higher Education in Kentucky for the University of Kentucky in the aforesaid Resolution adopted on May 9, 1960, and acting under authority of KRS 164.160, the following registration and special fees for resident and non-resident students and for regular academic years, academic semesters, and summer sessions, are hereby established.

	College of Law	College of Dentistry	College of Medicine	All Other Full Time Students
<u>Semester fees for resident students</u>				
Registration	\$71.75	-		\$66.75

Section 4. This Resolution shall be in full force and effect from and after its adoption and shall supersede all previous actions and proceedings of this Board of Trustees in connection with the matters herein referred to; but this Resolution is adopted in full recognition of all previous contractual obligations and commitments of this Board and of the University, and nothing in this Resolution shall be construed or applied in any manner inconsistent with the same.

After full discussion, Mr. Smith moved that the Resolution be adopted, with the expressed understanding that "special fees" are not to be included now or at any later date as a part of the "registration fee". The motion was seconded by Mr. Watkins and was passed unanimously by the Board.

R. Resolution on Bond Agreement--Two Small Dormitories.

President Dickey presented Resolution on the \$300,000 bond agreement, relative to two small dormitories, now in process of being approved through channels of the Federal Housing and Home Finance Agency. The Resolution follows:

RESOLUTION

WHEREAS, the University has heretofore filed with HHFA an application for a loan in the sum of \$300,000 for financing construction of two small men's dormitories (said application being identified by HHFA as its project KY-15-CH-39 (D))

WHEREAS, the officers of the University are informally advised that said loan is in the advanced stages of consideration and that the tendering by HHFA of its usual "loan agreement" may be anticipated within a short time, but the same is not actually available for signing at this time on behalf of the University, and

WHEREAS, bids for the construction of said dormitory buildings were opened on May 20, 1960, and are advantageous and lower than previous estimates but the same are good for only 30 days and it is important that the said HHFA "loan agreement" be signed as soon as same is received so that construction contract may be executed during such 30 day period, and

WHEREAS, this Board has obtained other loans from HHFA in the past and is familiar with the nature of such instruments and the character of security provisions which are required

NOW, THEREFORE, the Board of Trustees of the University of Kentucky does hereby resolve that the President of the University, the Chairman or Vice-Chairman of this Board, and the Secretary or Assistant Secretary of this Board be and they are hereby authorized, in their discretion, to sign the anticipated HHFA loan agreement for project KY-15-CH-39 (D) in the sum of \$300,000 when the same is received from HHFA and is found, in their judgment, to be acceptable and as conforming in general terms to the general character of such loan agreements heretofore executed on behalf of the University.

On motion duly made by Mr. Smith and seconded by Mr. Watkins, the Resolution was passed unanimously.

S. Budget for Bureau of Business Research Approved.

President Dickey presented the 1960-61 budget for the Bureau of Business Research, Restricted Account 3234, and stated that, because of projects under consideration, this budget was not sufficiently complete to present as a part of the University Budget at the previous Board meeting. He stated that this departmental budget totaled \$69,996, and recommended that it be approved.

Upon motion of Mr. Gatton, seconded by Mr. Wright, and carried, the 1960-61 budget for the Bureau of Business Research was approved as recommended by the President.

T. Off-Campus Center at Somerset, Ky.

President Dickey gave a brief summary of a preliminary report submitted by Dr. A. D. Albright, his letter of April 11, 1960, with attached statistical data, relative to the study of the Somerset area as to the feasibility of a University Center. Other members of the committee appointed by President Dickey for this study were Messrs. Scherago, Shaver, Peterson and Farris. The President stated that, from the study made to this date, the facts and figures compiled indicated that a University center at Somerset would not be feasible according to the criteria previously accepted for such determination.

Governor Combs stated that he would soon appoint a Commission on Public Education to make a thorough study of all phases of public education. He asked President Dickey to share the report of the University Committee when completed with the Commission on Public Education.

Upon motion made, seconded and carried, the preliminary report of the committee on the Somerset study was ordered filed.

President Dickey then commented on the erroneous impression apparently created by certain newspaper accounts about extension classes being considered for Madisonville. He pointed out that this contemplated project at Madisonville was not to be in any sense an off-campus University Center, as some may have been led to believe from certain newspaper reports, but that it related to the possibility of extension courses being offered if the need warranted. He also stated that the study and appraisal of the need for extension classes at Madisonville were planned as matters with Western State College and Murray State College; that the University and the State Colleges did not wish to duplicate or compete in extension course offerings.

U. Spindletop Industrial Research Center.

President Dickey reported that for the past several months consideration has been given to the establishment of an industrial research park and a research institute on part of Spindletop Farm. It was indicated that the research park would be composed of research laboratories owned and operated by private industries with the land on which the buildings would be constructed

to be purchased from the Kentucky Research Foundation through a Research Park Advisory Board. The research institute, which would be constructed from state funds and operated through state appropriations and contract income, would be under the jurisdiction of the Board of Trustees of the University and would become an integral part of the University program.

The proposed project was outlined in some detail and, after thorough discussion, Mr. Smith made a motion that the Board of Trustees go on record as approving the general plan for the industrial research institute and that it be located as near the campus as practicable and, further, that the Chairman of the Board of Trustees consider calling another meeting of the Board, perhaps in June, to deal more specifically with the whole subject of an industrial research center and with particular attention being given to the proper correlation with the agricultural research center of the University.

The motion was seconded by Mr. Wright and adopted unanimously by the Board of Trustees.

V. Revision of Governing Regulations of the University Approved.

President Dickey presented the proposed revision of the "Governing Regulations of the University of October, 1959" as prepared by a committee of which Vice President Leo M. Chamberlain served as chairman, with Mr. R. P. Hobson and Dr. John Kuiper. He asked that the revision be approved, with the understanding that the sections relating to "change-of-work" and "retirement" of staff and faculty would continue to be studied by appointed committee or committees, and that any resulting recommendations for modification of present provisions of the Governing Regulations on these points would be presented to the Board for consideration and appropriate action.

With this understanding, it was moved by Mr. Watkins, seconded by Mr. Gatton, and carried, that the Governing Regulations be approved as recommended by the President.

W. Men's Dormitory No. 6 Named.

President Dickey stated that the new men's dormitory which is scheduled to be occupied in September has not as yet been named. He presented the proposal that this major building be named in honor of James B. and Margaret V. Haggin, friends and benefactors of the University.

Upon recommendation of President Dickey, motion was made by Mr. Hillenmeyer, seconded by Mr. Gatton, and carried that the new dormitory for men, No. 6, be named "Haggin Hall".

X. Budget Adjustments.

President Dickey presented five recommendations on 1960-61 budget adjustments, all to be transfers from Unappropriated Surplus, as follows:

2. To College of Pharmacy, Account 1330-1, for summer research, amount \$1,000.

Welch, Dean and Director of the College of Agriculture and Home Economics and the Agricultural Experiment Station:

May 18, 1960

President Frank G. Dickey
University of Kentucky

Dear President Dickey:

I believe I mentioned some time ago that a new Federal Employees' Health Benefits Act of 1959 was available for our Cooperative Extension employees. This is an unusually good health benefits program and one that will add materially to the protection and provide significant benefits to those of our Extension employees who may happen to need it.

Mr. Ruschell attended a national meeting recently and he is well informed in terms of the principles and problems involved.

I am herewith enclosing an agreement form that we will have to execute in order to become a part of this program and I should like to recommend that, if it meets with your approval and the Board's, we be authorized to proceed with the agreement in the formulation of our program so as to make it effective July 1.

If there is any detailed information you would like to have about the program, we, of course, will be glad to provide it for you.

Sincerely yours,

(Signed) Frank J. Welch
Dean and Director

On February 16, 1960, Mr. Helmburg was sweeping the floor in the Experiment Station Farm Service Building. A cattle guard fell over against his left hip and leg, knocking him to the ground and falling on him. Dr. Noback recommended that Mr. Helmburg be sent to the hospital emergency room. There he was examined, X-rayed and kept in the hospital for observation. The following bills have been received:

The trash being burned was from the chemistry laboratory and evidently there was a broken test tube containing acid in the mixture. There was an explosion and some of the acid hit Mr. Daniels in the left eye. He was sent to Dr. Walter F. Williams for treatment. Dr. Williams has submitted a bill for \$8.00 for services rendered.
