Dr Sir:

I wrote you a week ago last Sunday to which I have had no reply, and for that reason think you have not yet received it. I also telegraphed you last Sunday, the following message,

"Are you coming home this week" To which the Company replied that you were in the timber and they did not know when you would be down.

I can leave almost any time to come, that is one time as good as another, but I want to meet you when I do come. Can't you work in on this deal all my property in Ewart except my home and the Perry factory,
