Dear Sirs:

In answer to your letter will say that my wife does not care to lease her oil and gas other than the proposition that was made when you was here. Developement is what she wishes and does not care to lease just a portion as your last contract seemed that you would want to take a part if you so desired. We do not wish to lease our undivided interest until we have it laid off and given us.

Very truly yours,

Richard W. Duke
