

COMMONWEALTH OF KENTUCKY  
EXECUTIVE CHAMBER  
FRANKFORT

FLEM D. SAMPSON  
GOVERNOR

Jan. 4, 1928.

Mr. J. D. Harkins,  
Prestonsburg, Ky.

My dear Sir:

The Mammoth Cave National Park Association, the agency designated by an Act of Congress to raise funds to create a National Park, has been engaged for the past weeks in a campaign to bring this most important step in our State progress to a successful conclusion.

I am very much interested in this project, believing it to be a constructive program that will be most helpful to our State. I know that when the significant facts are known to you, regardless of all other considerations, you will take the same attitude, and that the sacrifices which we make now for the good of our community and State, will be cherished by us in years to come.

With this thought in mind, I am asking you and a few other representative citizens of the State to meet with me at Frankfort at Two o'clock P. M. Wednesday, January 11th, 1928, for a careful consideration of the subject and to further plan the operations of the campaign.

I hope that you will be good enough to favor me with your attendance.

Sincerely yours,

*F. D. Sampson*  
Governor.
