Those Who Gave All

OUR GOLD STARS

Of the many gold stars commemorating those who gave their lives in World War II, sixty two either attended or received degrees in the college of engineering. These names are included in the temporary memorial plaque that was erected and dedicated on Homecoming Day of last year. The new University Field House that

is now under construction also will be dedicated to those who sacrificed their lives in the war.

It is possible that we have omitted a name or made typographical errors in compiling the list from our records, and any corrections or additions will be greatly appreciated. We shall be glad to run a supplementary list in our next issue.
