BULLETIN

UNIVERSITY OF KENTUCKY
LIBRARIES

June 1, 1973 No. 2

FORTH: A bon voyage tea is being given for Dr. Forth on June 7th from 3-5 pm. It's being held in the Rare Book Room of King Library. Everyone is welcome and indeed, ask to come.

BROWN: In case you haven't heard yet, Ms. Mary Ruth Brown (Agric. Librarian) has recently published a full length monograph entitled "Agricultural Education in a Technical Society." Publishing was done by the American Library Association in 1973.

CALL: If you haven't taken a look at it yet, you ought to give it a try. It's called CALL (Current Awareness-Library Literature). Located in the Periodical Room of King Library. Dewey 016.02 / C1294. It's an attempt to help the library world keep up with what's being published in the field. Current contents, editorials and the like.

EXHIBIT: The Education Library is sponsoring a book exhibit from June 4 through June 6. Included are books for children, teenagers, young adults and professionals. Eighty different publishers will be represented. The staff of the Education Library think you will find attending a rewarding experience. For more information call 84939.

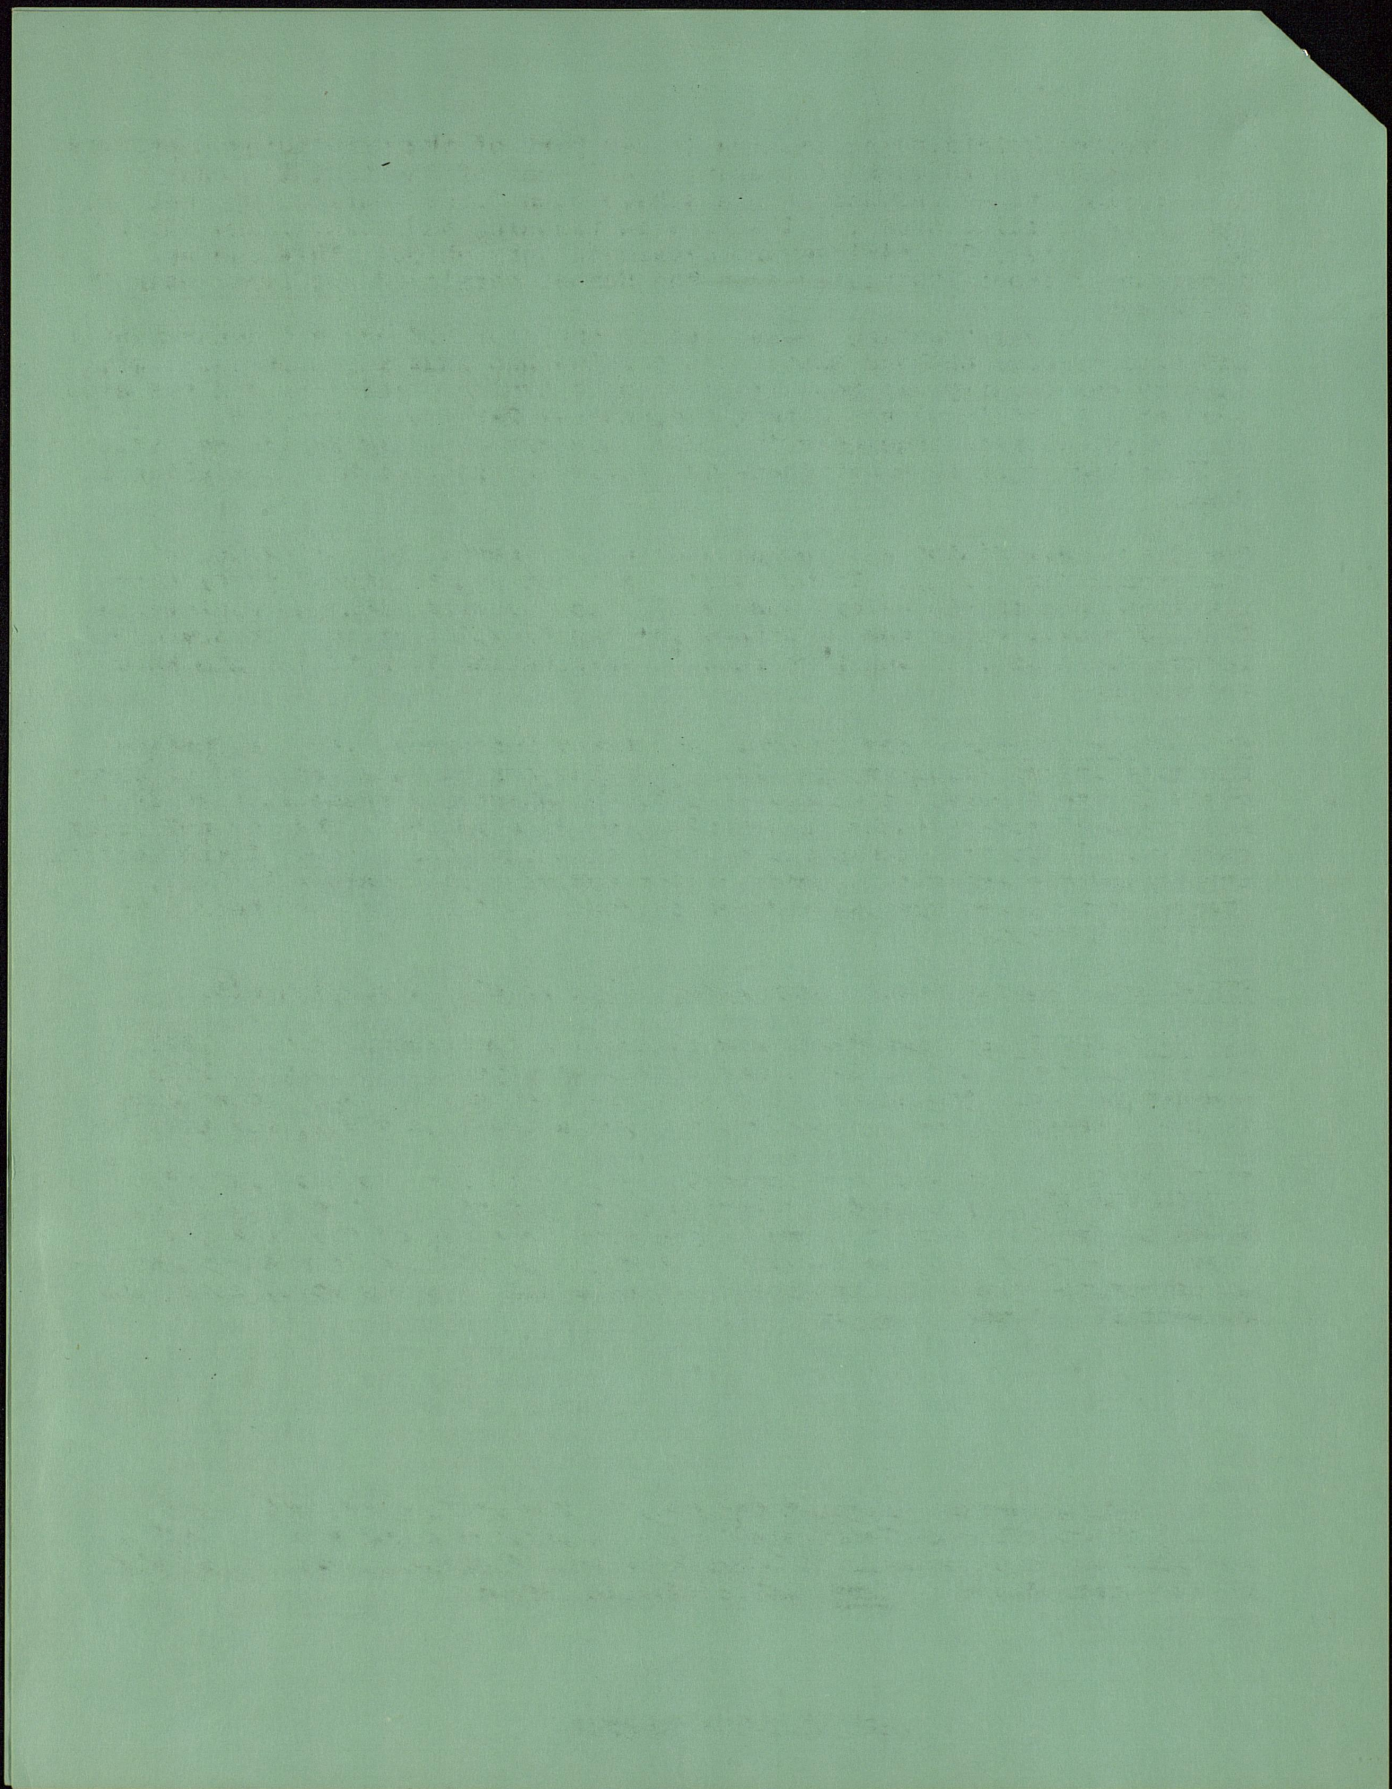

FUTURES: In a presentation made on April 12, 1973 by professor Georges Anderla, Paris University and the Paris Academy (The Sorbonne) entitled "The Growth of Scientific and Technical Information," the prediction was made that by 1987 the annual output of such information will reach 12-14 million unduplicated items. The current rate is approximately 2 million. (ARL Newsletter No. 62, April 23, 1973)

GPD: John Richardson, our state documents librarian, is editing a new publication entitled "Monthly Checklist of Kentucky State Publications." Issued monthly beginning in March, the checklist includes all Kentucky documents received during the previous month and features a newsletter cover page. Librarians will appreciate the bibliographic control of current Kentucky documents which is lacking in the long delayed Annual Checklist from the Records and Archives Commission. Initially, it is being distributed to libraries within the Commonwealth.

PICNIC: The Staff Association's picnic is June 2, 1973 at Jacobson Park. Don't forget.

AGRICULTURE: Ms. Brown is going to Washington, D.C. in July to attend the annual meeting of the Associates National Agricultural Library. At the meeting she will present three special awards for contributions to the agriculture library field. At the same meeting she will be installed as ANAL treasurer for 1973/74. Dean Trivette and Sara Bushnell assisted in the Kentucky Rural Development Conference sponsored by Walter D. Huddleston on April 6. Mr. Trivette recently attended the National Nutrition Conference in Washington, D.C. and the Special Libraries Section of KLA meeting in Louisville.

TICKERS: The Washington D.C. Public Library has two new services: an Associated Press newsticker and a Dow Jones ticker. (LJ HOTLINE 2:1, May 21, 1973)

QC: The Quick Cataloging section (a new part of the Cataloging Dept. MIK) is now in its third week of operation and most of the training and orientation procedures and problems have been ironed out. Last week, with the group spending over 1/2 its time in training and maintaining other assigned duties, 353 titles were cataloged through QC. This was an increase of about 100 titles over the number cataloged the first week in operation.

QC is now processing books with LC copy for MIK and all departmental libraries except Art and Math. The section has thus far been successful in cataloging daily all books routed to it from Acquisitions and has also been able to begin chipping away the general Cataloging backlog.

Physical rearrangements include: Lablers directly behind Ms. Smith's office; the In Process and Check Out files in front of Ms. Clotfelter's desk.

MAP DEPT: Jim Minton will be attending the Special Libraries annual conference June 10-14. If you would like for him to attend particular meetings contact him before June 8. In conjunction with the conference trip, Jim will visit the Geography and Map Division of the Library of Congress. Again, if you have need of information from LC let him know before June 8.

FELLOWSHIP PROGRAM: The Council on Library Resources, Inc. is opening its list for applications for 1974/75. The awards "are intended to cover costs during a period of continuous leave, which may range in time from a minimum of three months to a maximum of nine months. They do not cover salary...." For all the details, ask Tom Marcum for a copy of the leaflet describing the activity. Deadline for applying is November 1, 1973. (Note: Mike Bruer was awarded one of these fellowships just before he left for Houston.)

PERSONNEL: Appointments: Ann Wyman, Classified, Cataloging MIK.

POSITION OPENINGS: Map dept. new classified open about July 1, 1973, see Jim Minton. Admin. Svcs. new classified open about July 1, 1973, see Tom Marcum. Biological Sciences, new professional open about July 1, 1973, see Bill Lee. Circulation, professional open now, see Bill Lee.

CONTRIBUTIONS: If you have something you would like to have included in the Bulletin, please don't hesitate to send it in. The only thing I ask is that you get it to me before noon Thursday of the week you want it included. Space available, etc., I'll add the item as you submit it, otherwise minor editing may have to be done. Don't worry about loss of content, it won't happen.

City Librarian, Margaret Campbell of Shaker Heights, Ohio says "I'm just appalled by Watergate." She is worried about how she will ever get \$157 worth of unreturned books back when dishonesty reaches as high as the White House. (Time, 101:3, May 28, 1973)

WHAT HAVE YOU TO ADD?
