Dean Shaver presented a recommendation from the College of Engineering that Metallurgical Engineering 201., Engineering Metallurgy, 3 credits, be dropped. This recommendation was approved by the Faculty.

Dean Dake presented a recommendation from the College of Nursing for the addition of a new course which was approved.

New Course:

Nursing 312. Community Nursing II. 2 credits.

Emphasis on the epidemiological and statistical approach to community health problems. Experience in a home setting providing nursing assistance with long-term health problems and continuation of experience from Community Nursing I.

President Dickey stated that the President of the Association of State Universities and Land Grant Colleges had notified him that July 2 is the date on which the land grant bill was enacted and that he was asking each land grant institution to observe the date in some way. The President felt that it might be appropriate to have a Convocation and he asked the University Faculty to grant him permission to determine whether or not a convocation was desirable after consultation with the appropriate committee.

Motion was made that a convocation be held on July 2 and that President Dickey be the speaker. The President stated that he was construing the motion to mean that a convocation was permissible and if it seemed desirable a speaker would be selected later.

President Dickey thanked those Faculty members present for attending the called meeting and also expressed appreciation for the good attendance and the productive work of the Faculty during the past year. He wished them a pleasant summer in teaching, research, or vacationing.

Faculty adjourned at 3:30 p.m.
