Classification of Schools

Comprehensive

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that provides an enriched program of studies and other features beyond those required for a Standard classification may be considered for Comprehensive rating. In the Comprehensive school, major emphasis should be placed on meeting the special needs and interests of students through broad academic, exploratory, and co-curricular experiences.

Standard

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that substantially meets all of the criteria included in these standards may be considered for a Standard rating. All criteria not otherwise specifically designated shall apply to this classification.

Basic

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Standard rating may be considered for a Basic rating.

Provisional

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Basic rating may be considered for a Provisional rating.

Special School Accreditation

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but offers special programs or partial programs resulting from phasing in or phasing out of grades, alternative programs and certain other programs designed to meet individual needs of students may be considered for Special School Accreditation rating.

Educational Arrangements

Local Boards of Education may make arrangements for certain types of educational opportunities not otherwise available through regular school operations and designate where school records will be kept and credit given.

Emergency

Schools that do not fit the scheme of classification of Comprehensive, Standard, Basic or Provisional.

Foreword

The Kentucky High Schools 1977-78 Bulletin contains pertinent data relating to secondary education in all high schools within the state.

Included is information which clearly demonstrates increasing efforts to meet our responsibilities in secondary education.

As these responsibilities continue to grow, we hope that this publication will provide assistance to those working for improved educational opportunities.

James B. Graham
Superintendent of Public Instruction

KENTUCKY HIGH SCHOOLS 1977-78

Kentucky public high schools are classified and accredited by the State Board for Elementary and Secondary Education. This requirement is set forth in the law which requires that each school district in the state provide an accredited twelve-grade program and that rules and regulations be adopted governing the quality of this program. The law also provides that the "Superintendent of Public Instruction shall annually prepare or cause to be prepared and submit for approval and publication by the State Board of Education a list of all public high schools or other secondary schools in the state, showing their classification." Accredited classifications are given each year by official action of the Kentucky State Board for Elementary and Secondary Education on recommendations of the staff in the Division of Supervision--Accreditation--Organization, State Department of Education. The Committee on Secondary schools has worked in close cooperation with the Instructional staff in an advisory capacity on arriving at the recommended ratings.

This year there are 327 high schools. Table I which follows shows the number of schools classified according to the type of organization and the controlling authority under which they operate.

Table I

Types of High School Organizations and Number of Each

Types of Organization	County District	Independent District	State or Federal	Total
Grades 7-9	47	6	1	54
Grades 7-10	1	0	0	1
Grades 7-12	37	27	1	65
Grades 8-9	0	1	0	1
Grades 8-10	1	0	0	1
Grades 8-12	2	2	0	4
Grades 9-12	147	24	4	175
Grades 10-12	21	4	1	26
Totals	256	64	7	327

Of the 327 schools operating, 270 are high schools offering a Program of Studies through the twelfth grade, and are considered complete high schools. The complete high schools show a decline from year to year which means that the high schools are becoming larger, making it practicable to offer a broader Program of Studies for the youth of the State.

In Table II, there is an accumulation of information concerning the number of high schools representing the growth since 1968-69 to 1977-78. It is interesting to notice that since the school year of 1968-69 when there were 357 public high schools that there are now only 327 or a decrease of 30 schools in this period of time. This is evidence that the high schools of the Commonwealth of Kentucky are becoming larger and therefore offering the potentials of providing a stronger program of instruction.

Table II
Number of High Schools by Years 1968-69 to 1977-78

School Year	Public High Schools
1968-69	357
1969-70	350
