Hello Stanley:

Was somewhat surprised to receive the card it was very kind of you, indeed

Fri. evening as far as I can remember we were sitting on the front porch watching the people come from the depot. later, was at the dance; had a lovely time

Miss Buckholz tried to persuade me to

gone to Kingston. after
she mentioned it I asked
her if she knew you. I
expect that is how you
heard I was at home
was it not? I have been
home two weeks, just
for a visit during the
hot weather you know.

Nothing more this time
you may answer if you
care to. I was very pleased
to get the card.

As ever,

this is a rather busy time.
How is Dalton coming with
its new stores, factories
and banks. Expect by this
time it is a flourishing
business place. See by
the paper there, was some
talk of a bank. Have they
started it yet. Say Stanley
take it from me but
put your money in the
ground, but no bank. We
have had two failures here
the past three weeks.
Three in three years! One
of them I guess will pay
75 or 80 cents while the

Dear Friend:-
Your letter was
received some time
ago and as this is Sunday
and I am not going to
church this morning
think it will be a good
street to answer your
letter. What do you think?

How is the world
using you these days
any way Stanley? Good
I hope. Suppose you are
busy as on the farm
now as if I remember rightly

Not going to get any summer weather at all. There was a bunch of us going down to the cottage to spend the day but it was so cold we put it off for a few weeks.

Say where is the M.W.C. picnic going to be this year? Have not heard a thing about it. Suppose everyone for miles around will take in the Home Coming at Cambria July 3-4-5. I wish I was going to be one of the many. But none for mine this year. Am going to take a little time

other one is absolutely a failure. Yesterday had found a shortage of \$3,000 and of course do not know how much more there might be. Guess the cashier and book keeper will be wearing the stripes in a little while. And it won't be the Stars and Stripes either.

How is the weather in your country these days. It seems as if it is raining two thirds of the time here. And today is real cold. Guess we are

Bill that was the lucky man to take her. She said you were there and was looking fine. Of course was glad to hear that. I was to a dance Friday night and we had an awful nice time. Next Friday there is a high school dance at Bessemer and I have an invitation to go to that. There is six of us going and we are going to drive over in a car so we can come home the same night. Some class to us that night.

Osby Stanley, Nellie's fellow went away last night way to California so of course I

and go camping when the girls are here. You know Phibe and Annie Deakin are coming up some time in July. I can hardly wait until they come. Can you imagine, I we three girls getting together and talking. If your ears were don't think any thing wrong as it will only be we girls saying nice things about you.

Got a letter from Phibe the other day and she said she took in a dance at Kuypton a short time ago. Suppose it was your cousin

about all I can and probably as much as you care to read so will close and write a few lines to Rita as I got the second letter from her since I was down in the winter.

Hoping to hear from you again and also that this finds you well and happy I am
as ever

she is terrible homesick. Think you better cheer her up a bit. As I am sure you can do it better than anyone else. She and I are going to take a little walk after dinner. Want to come along?

Mellon and Bronwood city teams play base ball today at the city park. Big crowds are going by to the grounds now. Would like to see a good game once more but cannot bring myself to take in a Sunday game.

Well I must close with this
