W. G. Hillen, Secretary-treasurer, 850 Frelinghuysen Ave., Newark, N. J.

PHILADELPHIA CLUB

L. C. Davidson, '23, President.
C. B. Smoot, Secretary-Treasurer.

WASHINGTON ALUMNI CLUB

Elmer D. Hayes, President, Care Interstate Commerce Commission, Oxford Street, Chevy Chase, Md.

Reunion of Classes

Classes of 1882, 1887, 1892, 1897, 1907, 1912, 1917, 1922, 1927 and 1930
Will Celebrate

By W. C. Wilson, '13, Chairman

The committees on arrangements for the 1932 class reunions, to be held from June 2 to June 6, inclusive, during Commencement exercises, have their plans well under way and will announce in the next issue of the Kentucky Alumnus, the program for the reunion of classes whose numerals end in 2 and 7, such as 1882, 1887, 1912, 1927, etc. and the class of 1930.

During the past few years, there has been a noticeable increase in attendance, and officers of the Alumni Association have found that the plan of having each class return every five years has worked in a very satisfactory manner. Some of the reunions have been attended by approximately 900 graduates and former students. This year, the goal has been set at 1,000 and judging from responses received to date, this goal will be exceeded. Members of the Class of 1907 continue to send in good tidings and, at the present writing, we believe that more than eighty percent of that class will be present.

It is expected that the Class of 1882 will be present one hundred percent strong. It will be the 50th anniversary

reunion for the three members of this class and we are making every effort to have them with us.

W. C. WILSON

The committees believe that they will have a real treat in store for all those who return in June. In addition to the usual program and entertainments held in connection

with such reunions, it should be of special interest to all old "grads" to see the progress that has been made in the building program on the campus during the past few years. The campus has taken on a wealth of beauty and efficiency, such as only the most foresighted person could have imagined. Dreams of a great University to serve the State of Kentucky have materialized. You won't be able to appreciate the complete change until you see it in June.

For one to realize the advancement which has been made and the future needs of the institution, it is essential that he make a pilgrimage to the University at least every five years. Hence, the plan of five-year reunions.

The presence of alumni at the University on such occasions is especially gratifying to the officers and members of the Executive Committee of the Alumni Association, and to the officers, members of the Board of Trustees, and faculty of the University. In such a trying time, the University needs all the encouragement that it is possible for it to receive, and it is a hopeful Alma Mater which looks forward to your return in June, and it will be a grateful Alma Mater when it realizes that your love and loyalty for her are ties which are strong enough to bring you back.

CUT IN SALARIES FOR EMPLOYEES, STAFF IS MADE

A reduction of five to 10 per cent in the salaries of all members of the faculty and everyone employed by the university in any capacity was announced recently by Pres. Frank L. McVey. The cut, effective immediately, and for the remainder of the year, will be five per cent for salaries of \$1,300 and less, and 10 per cent for salaries more than \$1,300.

Doctor McVey said that the reduction was made necessary by a decline in the university's income for this year and was not instituted because of the proposal of the legislature to reduce the budget. University officials had figured on a lower income, but the actual income from real estate and inheritance taxes during the past year was much lower than was anticipated.

Doctor McVey declined to state how much would be saved by the university as a result of the salary

cuts. He said that he did not know whether there would be any further decline in university's income before July 1, the end of the fiscal year.

In his recent petition to the State legislature for the university appropriation, Doctor McVey reduced the request approximately 11 per cent under the last appropriation and announced the elimination of any building program. He made no statement as to what steps would be necessary if the state appropriation were further reduced.

Notices of the reduction sent to university faculty members and employees, were signed by Dr. Frank L. McVey, president, by authority of the Executive board. A copy of the statement is as follows:

Since October the income of the University from tax sources has declined steadily until now the university income is \$220,000 below estimated and budgeted receipts. Consequently it is necessary not only to cut operating expenses, but also to reduce sal-

aries for the remainder of the year beginning with the payroll for February. The executive committee has decided on a five-percent cut on salaries or wages of \$1,300 or less, and 10 per cent on payments above that.

I trust all will acquiesce in this action which is taken under great necessity and after careful consideration of the best interests of the university and staff.

LOUISVILLE STUDENT WILL EDIT ANNUAL

John Ewing, Louisville, will be business manager of the 1933 Kentuckian, University of Kentucky year book, it was announced following a meeting of the University board of student publications.

The editor and business manager of the University annual are elected annually by the junior class, but Mr. Ewing was the only eligible candidate nominated for the office for the year 1933.

O. D. K. Pledges 16 Men

Sixteen men were pledged to Omicron Delta Kappa, national honorary leadership fraternity, as a feature of the April convocation sponsored by that organization at the third hour Wednesday morning in Memorial hall. Paul C. Morton, city manager of Lexington, was the chief speaker, and Pres. Frank L. McVey presided.

The new O. D. K. pledges are John Buskie, Lexington; Harry Emmerich, Henderson; I. C. Evans, Paris; John Ewing, Prospect; Malcolm Foster, Nicholasville; Horace Helm, Henderson; Thornton Helm, Lexington; Lawrence Herron, Covington; John Kane, Schenectady, N. Y.; William Luther, Harlan; Charles Maxson, Lexington; George Skinner, Lexington; Harry Smith, Paducah; George Stewart, Cynthiana; and C. O. Wallace, Hollis, Long Island, N. Y. Mr. Morton was made an honorary member.

Mr. Morton, speaking on "Leadership" said that he thought that leadership in all professions should originate in the university. For proper preparation for leadership the value of an education should be realized at all times during the college career. Athletics are perhaps as important as the academic activities, but "for every class I cut I paid dearly for it in my business," he said. "I had to study long hours at night to fit myself or stay at the bottom of my profession. When opportunity does come for advancement the deficiencies will come out, Mr. Morton maintained."

As principals of leadership Mr. Morton named honesty, hard work, loyalty, deep study and clear thinking.

STUDENT ENGINEERS TO MAKE INSPECTION

Approximately 60 students are planning to go on the annual junior inspection trip arranged by the University of Kentucky College of Engineering, Dean F. Paul Anderson announced recently.

The trip, the 37th annual event of its kind arranged by the college, will be in charge of Prof. R. D. Hawkins, hydraulic engineering department head, and G. O. Thurman, machine shop instructor. The students will leave Lexington about April 25 and return April 30, according to present plans. Headquarters during the inspection tour of Ohio industries will be Cincinnati and Dayton.

The students will inspect the Allis-Chalmers Manufacturing com-

PAUL C. MORTON

President McVey explained the position of the honorary fraternity. "The honor society may be an infernal nuisance," he said. Omicron Delta Kappa has in its history gone up and down, he said. However, it does try to select leaders on a basis of merit, and was established to help solve the problems of the university.

President McVey hopes that the time will come when a fraternity

will not have to do "this or that" to prove its merit. The greater part of the difficulty of campus fraternities would be cured if the social fraternities would not take the point of view that they are political organizations. They should bring together a congenial group who such association would bet the advantages of the life but would be loyal first to the university. There can be a great help if they could maintain an unprejudiced ideal and can recognize true merit. Shipped away from ideals of merit is a help to the university. Fraternities should maintain a high ethical point of view.

Dr. Abner Kelly, department of English, played an organ selected to open the convocation program and the invocation and benedictions were pronounced by Rev. Howard Morgan, Maxwell Presbyterian church. Cadet ushers were E. Evans, S. W. Jones, W. L. Husk, C. R. Kastner, J. W. Kinkaid, and H. R. Lair.

Emmet Milward, president of the first circle on the campus, was present for the pledging exercises and was introduced to the audience. Members of the university faculty who are members of the organization are Pres. Frank L. McVey, Dean W. D. Funkhouser, Dean P. Boyd, Dean W. S. Taylor, W. Freeman, assistant dean, L. J. E. Melcher, assistant dean, Dean C. Melcher, Bernie Shively, assistant coach, Dr. Paul K. Walp.

Officers of the active chapter are Prof. R. D. McIntyre, faculty advisor; Horace Miner, president; B. LeRoy, vice-president, and B. Stapleton, secretary and treasurer.

H. B. Helm, W. M. Holtzclaw, N. Horn, J. E. Isaacs, J. W. Johnston, J. M. Kane, W. D. Kelly, J. Little, R. H. McBeth, J. H. McGivock, R. L. Moorman, L. R. Necomb, E. H. Nutt, C. W. Parsons, S. C. Perry, W. B. Phelps, J. Redwine, T. H. Rhodes, H. Rogers, J. School, F. E. Scott, F. Senger, J. P. Stewart, J. A. Taylor, P. W. Thurman, W. VanGilder, R. B. Vice, C. O. Wallace, C. Whitaker, Miss Elizabeth Warren and J. W. Wilson.

The University Hatchet believes that asterisks are placed before the names of all married professors in the Minnesota University address book for the benefit of aspiring eds.

Election of Officers

This month finds the annual ballots of the University of Kentucky Alumni Association in the mail. According to the constitution of the association, officers for the alumni organization are elected once a year by active members of the association.

This year, as in the past, the alumni president appointed a committee to select two slates to be offered to alumni so that one group might be selected to continue leading the work that has been so well coordinated and enthusiastically pursued for the past few years by the university alumni.

All candidates for the offices are duly qualified: Dr. A. Davis Buckner, '08, has served two terms as president of the association, and served well; Dr. George Wilson, '04, the other candidate for president, has served on the executive committee of the organization a number of years, and is an enthusiastic supporter of all University projects. He received the largest number of votes for alumni member of the board of trustees in the balloting this past winter. For vice president, Miss Willy King, '28, and Dean Sarah Blanding, '23, are making the race. Miss Blanding served in this capacity two terms under Dr. Buckner's administration; Miss King is active in the Lexington Alumni club and takes an interest in all university affairs. James Shropshire, '29, is a candidate on both slates for secretary and treasurer. He has

served as secretary since the resignation of Raymond Kirk in the spring of 1930. On the tickets for the executive committee, Howell Spears, '07, W. C. Wilson, '13, and W. H. Grady, '05, are running. Mr. Grady has served on the University Board of Trustees. He is now making his home in Louisville. W. C. Wilson has served on the executive committee of the association since retiring from the office of secretary in 1924. He is active in all the affairs of the alumni group and energetic in his endeavors for the university. Mr. Spears lives in Lexington and is active in University affairs. He is at present, making a concentrated effort to promote the reunion of '07 class, which will hold its 25th anniversary reunion in June.

Last year more votes were cast in the annual alumni election than in any previous year. It is hoped that this year will bring out even more votes. Alumni work is steadily growing at the University and the active alumni groups scattered at various points throughout the country are taking much interest in the growing of the organization.

The alumni executive committee has worked constantly during the last year, as it was a legislative year and none wanted to see education suffer. The committee took an active part and interest in all bills that affected the University in any way. All "slants" on the educational system were watched by an alum-

ni committee; the individual members of the general assembly were informed from time to time, by booklets and personal interviews as to needs of the school, and while it now looks as if this had gone for naught, the alumni group let it be known that they were interested, and not going to let the institution suffer if it was in their power to prevent it.

It is of vital importance to get all those entitled to a vote to cast it, so that those elected will feel that they have the support and influence of the entire alumni organization. Each one that is elected will give as much time to the affairs of the university and alumni as possible, and continue the progress of the ever growing organization.

The announcement of those who are elected will be made at the annual meeting to be held during the commencement exercises, but the sooner the votes are in, the easier it will be to make the final tally. Votes arriving later than June 1 will be too late to be considered.

Only those who pay their alumni dues are entitled to vote in this election. If you are a member of the association and have not received your ballot, notify the Alumni Secretary at once and he will see that one is sent to you immediately. If you have received your ballot, mail it back to us immediately. Don't delay because we want your vote to be counted in the final tabulation.

REVENUES OF UNIVERSITY SLASHED ALMOST IN HALF

The University of Kentucky's revenue from the state for the fiscal year 1932-33 probably will be reduced about \$537,000, or approximately 48 per cent, from the 1930-31 total of \$1,137,481, according to an estimate by Dr. Frank L. McVey, president of the institution.

This estimate reduction results from a series of developments, culminating in Gov. Ruby Laffoon's vetoing of the \$970,000 appropriation for maintenance and operation of the University. The final result was to leave the University relying as heretofore upon its share of the state inheritance tax and general property tax for revenue. Prospective revenues from these taxes are expected to drop materially, chiefly as a result of decreased property values, leaving the university's share approximately \$537,000 short of the 1931 figure.

Dr. McVey prefaced his analysis of the University's financial situation with the statement that the University would "carry on" during the school year 1932-33, and that this year's summer session would follow the program already announced. He would make no statement about 1933-34, a school year also covered by the new budget.

In explaining the probable revenue reduction, Dr. McVey said that most of the funds for the University's division of colleges, in which the institution's instruction is carried on, comes from the state inheritance and general property tax.

In 1930-31, he said the University's share of the inheritance tax was \$537,570, and its share of the general property tax was \$599,911, making a total of \$1,137,481.

So far this school year, both taxes have netted the University only \$768,000, representing a reduction of

approximately \$360,000, although, of course, this amount will be reduced by revenues received during the remainder of the school year.

Prospects for next year, Dr. McVey continued, indicate that the University may get a total from both taxes of about \$600,000, a decrease of \$537,000 from the 1930-31 total.

The figure of \$600,000 is in contrast to the \$1,010,000 which the University had been carefully canvassed and every reduction considered possible had been made.

Cuts Necessary

"Such a reduction in income will necessitate cutting repairs, supplies, equipment and salaries, and possibly personnel, of the institution," Dr. McVey said, adding, "The final determination of the matter cannot be made until the next meeting of the board of trustees, when the entire problem will be presented for consideration."

Editorials

REUNION TIME

Each year at this time for the last five years alumni on the campus, around Lexington, and the alumni office, begin sending out letters relative to plans for class reunions and wondering what Tom, Dick, and Harry look like now, and how they are weathering the famed depression of this or any other time.

We look forward to seeing old friends and making a new acquaintances at each Commencement period. Of course, it would be nice if each year all classes could hold get-togethers, but many factors make such a plan impossible, so the five year plan is working instead. Every five years a class has a reunion and it is the desire of those who are working in alumni interest to have large groups back.

Would you not like to see that "old gang" again? There are many you have forgotten. Perhaps you can recall their faces but not their names. To walk down the hill again with someone you have not seen for years would bring a thrill for which you would never forget the year of 1932. The campus is always prettiest during the early days of June, and seems to be dressed just for the occasion. The "long time" faculty members look forward to seeing you and recalling some of the things that happened a few years ago. Can't you arrange to be with your class this year when they gather?

The University committee, working with our alumni, has arranged the program for the reunion over a week-end, so a more pleasant one could hardly be arranged at old U. K. The senior ball on Friday night, the "great big" alumni banquet on Saturday night, and maybe a dance, baccularate on Sunday, commencement on Monday, with election of alumni officers and annual meeting following. One full week-end with a cordial welcome and a sincere invitation for you to be present. Several classes have planned individual class luncheons, and Strollers will have an annual feast.

Remember the dates and start now making arrangements to be here for each minute. Your classmates are to be considered and they want to see you. Remember June 3, 4, 5, and 6.

THE GENERAL ASSEMBLY AND THE UNIVERSITY

Is the University filling its place in the life of Kentucky? This is the question that many are asking

since the adjournment of the Kentucky General assembly, on March 17th.

The law-making body of our Commonwealth met with many problems laid at their doorstep. They were to provide for all state institutions, educational, charitable, and correctional; all state departments, and complete many minor jobs that needed the attention of a thoroughly deliberate body of Kentucky's most capable students of government.

The Assembly has adjourned, the University is without funds for the remainder of the fiscal year, not due to the last general assembly, but due to the shrinkage of real and inheritance tax, the two principal sources of the University's income. But, the legislature failed to provide for the University for the coming biennium, and left things in such a chaotic condition that it was necessary for the Governor to veto the University's part of the appropriation bill and throw us back on the millage basis, a source that has already shrunk approximately 50 per cent.

The University is now going to handle the work of the former department of state government, known as the "State Geological Survey". This department appropriation was eliminated by the state lawmakers, and the University was given three thousand dollars a year to carry on this big work.

There has been an attempt on the part of the Administration to provide for Kentucky and its youth and give them the same advantages that are given by all other state institutions, and in their attempt the officers have gained wide recognition from noted educators, and educational groups. Is it well to stop the strides of progress for which the school has been working for the past decade?

"Like life, the University must go on." These were the words spoken by President McVey when he called the faculty together to tell them that they would not receive more than fifty percent, if that much, of their salary, before July of this year. Of course there was disappointment for there were families to be provided for and obligations to be met, and during the years of plenty, staff members had not received raises in salaries, hence there had been little chance to save for this rainy day, but they have worked on. Their plans have been changed, yes, but there has been no

cry of general discontent and fault-finding, such as has characterized so many of our citizens.

A bad situation faces not only the faculty but the alumni of our school for it is our part to see that the opportunities that have been so richly ours in getting a broad life through the magnifying glass of education, be made available to those that follow. We must use our influence, where ever our sphere, to promote good citizenship. This will make for good government, with those at the head who have a full appreciation of duty to fellowmen and our state and all selfish motives will regulate to the background.

Your efforts, as you well know will promote a general interest in our school, the leading institution of our general state educational system. Those who draw their conclusions from some vague word or pull from some far off corner of their brain some unsound solution to a problem of which they are not well informed, may, through your efforts, realize a full appreciation of the fact that the University, in its unassuming way, is shaping life and making it more enjoyable for all. This is education!

Must others in the state suffer because others have failed to meet their duties?

PAMPHLET PUBLISHED BY PUBLICITY BUREAU

"University of Kentucky Guide," is the title of a new pamphlet recently published under the sponsorship of the publicity bureau of the university. It contains a guide to all buildings on the campus and gives instructions to tourists who wish to see these buildings.

The book contains a short history of each structure on the campus and lists the rooms and offices and the use of each room. Two maps are included in the publication and a suggested campus tour is outlined for visitors. The work was published with the thought of being of service to both the staff members and students of the university.

If you want a copy of this pamphlet, write to the Alumni office and it will be sent to you free of charge.

Kentucky Kernel Has Unique Plant

LEXINGTON, KY.—One of the most unique publications in the United States is the Kentucky Kernel, student publication of the University of Kentucky, and said to be the only official newspaper of a student body that has its own printing plant and is owned by the students. It is controlled by a board of publication selected from class officers and includes two faculty members from the journalism department. Several years ago the Kernel was started as a four page, six column weekly paper and was printed in a local printing plant. Later it acquired a Model 14 Linotype and produced its own composition, but had the imposition and presswork done in another plant.

It was then that Prof. Enoch Grehan, head of the journalism department, came to the rescue of the Kernel and personally guaranteed payment for a small cylinder press, imposing stones, and other necessary equipment for the issuing of a four page, six column paper each week.

Later this grew into an eight page paper, and continued to prosper, mainly through the patronage of advertisers who quickly realized that the Kernel was a good medium for reaching the more than 3,000 students. The Kernel now is an eight page, seven column paper published twice a week, and issues a special edition of twenty-four pages at the opening of school each year, in September. It also publishes an extra edition occasionally when news of unusual importance to the student body breaks.

In 1929 the services of D. H. Griffith were secured to operate the plant, and it was moved into a new building on the campus, where a room on the ground floor was especially finished for the Kernel. At that time additional equipment was installed, chief among which was a Model 8 Linotype and two magazines of 7 point Ionic for the newspaper, a No. 00 Miehle press, a platen press, a wire stitcher, a Miller saw and a large paper cutter. The first job of commercial printing was done at that time—stationery for the Kernel business office.

Head of Plant Capable Executive

Mr. Griffith, known to most of the students as "Dave," a member of the Typographical Union, has had more than thirty years' experience with all classes of printing, is a Linotype operator and machinist, a pressman and press mechanic, a floorman, and an authority on printing costs and production.

In 1930 a banner year for the Kernel was experienced and a volume of business equal to the value of the plant was produced.

"It is a policy of the Kernel," says Mr. Griffith, "never to take printing from anyone not connected with the university, thereby avoiding competition with the local printers. Except for a few small jobs and emergency printing, the Kernel cannot do printing for the university, because the law provides that this work must be done by the state printer. In view of these facts, the Kernel has a very limited field from which to get business."

Last fall, backed by a thorough knowledge of the printing business gained throughout the country, both in newspaper and commercial printing plants, Mr. Griffith, with his force of students, produced an attractive number of the yearbook of the university, "The Kentuckian," containing 280 pages, bound in full leather with embossed cover. That number contained 140 halftone cuts of 120 line screen and seventeen zinc full page designs with solid backgrounds, printed on 120 pound enamel paper without slip sheeting.

The annual theretofore had always been printed out of the state, and last year the Kernel was the only bidder in the state.

It has been awarded the contract to print this year's annual because of the quality of the printing and the promptness with which the 1931 book was delivered.

Produces Year Book at Low Cost

"That number," says Mr. Griffith, "was issued at a saving of more than a thousand dollars to the 'Kentuckian' management, and a good part of that saving was accounted for by the fact that ninety-eight per cent of the composition was done on our Linotypes."

"Six football programs for 1930 and five for 1931, each containing forty pages, eight by eleven inches, a double page and the back cover page of each being ads in process colors, with three and four color plates on the cover (all process colors being done by us) were issued from the Kernel plant along with the regular eight page editions of the newspaper twice each week during the school year. It is hardly necessary to state that the football programs and the newspapers were practically all composed on the Linotypes which made it possible to have them on time."

Besides the process color work and the book printing done by the Kernel, the plant finds time to print

various items of printing and publications on the campus, such as "Letters," a forty-eight page, nine by twelve inch magazine issued by the English department; "Kentucky Alumnus," a twenty-four page monthly issued by the alumni association; the "Alumni Directory" of 160 pages; the "Student Directory" of from 148 to 164 pages; "U-Hi Lights," a bi-weekly school paper; the "K Book," set in 5½ point Ionic, 164 pages, for freshmen; the "Kentucky Press," a monthly magazine for Kentucky newspaper publishers; "Kampus Kat," the "scandal" sheet of the university, issued about eight times a year; the "Guignol Theatre" (university) programs, reserved and box seat tickets posters, basketball programs, and many publications from fraternities and sororities on the campus.

Today the Kernel has a \$27,000 plant, practically paid for, consisting mainly of two Linotypes, a No. 2 Kelly automatic press, a Miehle press, a Cleveland thirty-two page folder, steel imposing tables, and an adequate supply of display type and material.

Judging from the strides made by the Kernel in the last few years, it is predicted that in the near future a building must be erected to house the Kernel and the journalism department, and that two or three more Linotypes will be added and a four year course in printing given.

"The Kernel affords practical experience to the journalism students in reporting, feature writing, and advertising, and those with a knowledge of the printing business, both boys and girls, help to defray their expenses at the university by working in the plant," says Mr. Griffith. "Last year students were paid more than \$4,000, and it is estimated that \$6,000 will be paid this year for student help in the printing plant."

Besides Mr. Griffith, and Arthur Williams, the pressman, all work in the Kernel plant is done by students.—Reprinted from The Linotype News, March, 1932.

An automatic typesetting machine was recently demonstrated at Charlotte, North Carolina, which allows the operation of a Linotype machine direct from copy without human effort. This device is known as the semagraph.

An English inventor has included both heating and lighting elements in an electric fixture to be installed on ceilings of rooms.

Campus News

CHILD COMMITTEE PUTS DIRECTION INTO U. K. HANDS

Transfer of the active direction and operation of the work of the Kentucky division of the White House conference on child health and protection, from the general committee to the University of Kentucky was approved at a meeting of the group of social and welfare workers and educational leaders at a luncheon at the Lafayette hotel recently.

Prof. W. L. Nofcier, Asbury College, Wilmore, who has been general chairman and director of the movement, asked to be relieved of further responsibilities due to his heavy duties and ill health in his family. He will continue in a nominal capacity.

Dr. Frank L. McVey, president of the University of Kentucky, at the luncheon consented that the University take over the leadership in the conference, which is making considerable progress in the study of child problems in Kentucky.

More than 25 fact-finding subcommittees have been at work for several months on phases of child health, welfare, religious training and education. Reports of these committees will be published later, and an attempt will be made to carry out the most important recommendations.

A state conference on child health and welfare problems is planned for next fall, to be followed by county or regional conferences.

Four major groups which have been busy in fact-finding include: Education, Dr. Jesse E. Adams, University of Kentucky, chairman; social, Dr. Margaret K. Strong, University of Louisville, chairman; health and medical service, Dr. W. B. McClure, Lexington, chairman; and moral and religious training, Dr. Charles J. Turck, president of Centre College, Danville, chairman.

3,000 STUDENTS INVADE CITY

Approximately 3,000 high school students, teachers and superintendents, representing all sections of Kentucky came to Lexington the latter part of March to attend the 13th annual high-school-week program at the University of Kentucky. The program, which was presented by the department of university extension, began March 29 and continued through April 2.

Arrangements for the event were completed by Louis Clifton, assistant director of university extension at the University of Kentucky.

The program included speaking and music events and achievement tests. In the speaking division there were contests in debate, declamation, oratory, discussion, story telling and extemporaneous speaking. In the music division there were contests in vocal, band, orchestra, string, piano, violin and other instrumental solo events.

The individuals and groups which participated in the state contests during high-school week at the University were selected at 16 district contests.

UNIVERSITY WILL SPONSOR ANNUAL EVENT APRIL 30

Entry blanks for the annual interscholastic track and field meet, to be held at the University of Kentucky Saturday, April 30, have been mailed out. The cinder carnival will be held under the direction of Bernie Shivley, varsity track coach.

Du Pont Manual high, Louisville, won the championship last spring, defeating Berea, Louisville Male and 19 other schools. In winning the title, the Crimson rolled up 72½ points. They were led by the versatile Burton, who tallied 19½ of the scores himself.

More than 3,000 fans watched the meet last year as approximately 200 high school students participated.

Trophies for the winners will be similar to those awarded last year. Again they will be dedicated to the memory of the late John E. Madden, financier, philanthropist and sportsman.

The trophies, which are as valuable as those awarded in outstanding collegiate meets, will include the following: set of five medals for each event; silver trophy to the winner of the mile relay; individuals of the winning team will receive gold medals; loving cup to the winner of the 440-yard relay; medals for the members of the team; cup to the individual high point scorer, and a plaque to the championship team.

Plans worked out by Coach Shivley call for the following events: 100-yard dash; 220-yard dash; 440-yard dash; 880-yard dash; one mile run; 120-yard high hurdles; 220-yard low hurdles; high jump; pole vault; broad jump; shot put; javelin; discus; one mile relay and 440-yard sprint relay.

Any high school in the state is eligible to enter a team of any size.

THIRTY-ONE CADETS TENTATIVELY PLACED

Thirty-one members of the University of Kentucky R. O. T. C. unit who are eligible to complete the advanced course training in June have been tentatively assigned to the 399th Infantry, which has headquarters in Lexington.

Information to that effect was received at the local headquarters by Capt. B. K. Erdman, unit instructor. Upon completion of the course this term, all the cadets will be given commissions as second lieutenants in the reserve corps except those who have not yet reached the age of 21. They are to receive certificates of having completed the prescribed work until they are eligible for commissions.

The students attached to the 399th Infantry in the order from fifth corps area headquarters in Columbus, O., follow:

Harmon Bach, Orville W. Chinn, John L. Drury, Paul H. Woods, Frank F. Worthington, Robert E. Hisle and Amos M. Osborne, all of Lexington; Cecil D. Bell, Paris; William A. Bruce, Millersburg; William H. Dunn, Corinth; Louis Elvove, Paris; Eldon T. Evans, Morehead; Ira C. Evans, Winchester; William E. Florence, Paris; George R. Gerhard, Augusta; Newell M. Hargett, Maysville; George M. Harris, Worthville; Richard H. Heyser, Pikeville; Harry R. Lair and James W. Marshall, Cynthiana; Ermine R. Mattox, Millersburg; John S. Noonan, Frankfort; Clyde W. Parsons, Fort Thomas; William B. Sampson, Harlan; Frank E. Scott, Frankfort; John H. Bredwell, Bellevue; Neel V. Shorter, Harlan; John A. Venn, Ludlow; Jack E. Wert, Fort Mitchell; Newell M. Wilder, Corbin; and Clarence R. Yeager, Middleboro.

U. K. MAY BECOME CENTER OF RESEARCH FOR PSYCHOLOGISTS

A survey to determine the familiarity of readers with advertisements in campaigns conducted by national advertisers is being conducted by the psychology department of the University in conjunction with the Psychology corporation of New York, it was announced recently by Dr. J. B. Miner, head of the department conducting the study.

If the survey is successful the University may become the home of one of the research centers that the

New York company is attempting to establish. Fourteen other schools also are conducting the same experiment.

The Psychology corporation, according to Doctor Miner, is an organization whose stock is owned by leading psychologists throughout the country. The organization conducts surveys and sells their services to other companies. The income derived from the sale of such services is used to conduct other research of particular interest to the members of the corporation.

If the contemplated center is established at the University the psychology department will have charge of the work. Students in the personnel class are conducting the present familiarity survey. The survey is the second dealing with advertising subjects that has been made at the university. Prof. R. D. McIntyre of the Commerce college is supervising a survey as to the effectiveness of radio advertising in the Lexington territory. Figures on his survey will be available within the next few weeks, it was announced.

U. K. MEN'S GROUP SCORNS LIBERALS

Recent action of the University of Kentucky Liberal Club in seeking the safe entry of out-of-state students to the eastern Kentucky coal fields was termed chiefly a desire for cheap publicity in a statement given newspapers by the University Men's Student Council.

The statement, signed by Clarence R. Yeager, secretary of the council, follows:

In view of the fact that the so-called University of Kentucky Liberal Club is not a recognized organization either by the students or by University authorities, and since members of this club, promoted more by a desire for cheap publicity for themselves than for the welfare of the University, have caused unfavorable comment against that institution in some sections of the state, we, the Men's Student Council of the University of Kentucky, wish to condemn their action as being unworthy of University of Kentucky students; that their past actions and future actions in reference to the delegations of college students visiting the Kentucky mining districts not be interpreted as an expression of the viewpoint of the student body, and that you refuse to give them any publicity in your papers as being a part of the University of Kentucky.

EXTENSION CLASSES ORGANIZED FOR YEAR

The extension department is conducting its usual series of classes throughout the state. Many of the classes have begun, and others will be organized in the next week or two.

Among those who are conducting classes are Dr. George K. Brady, Prof. R. G. Lunde, Prof. W. S. Webb, Dr. W. A. Heinz, Dr. Paul Clyde, Prof. T. D. Clarke, Prof. Louis A. Clifton, Dr. W. W. Jennings, Dr. J. T. C. Noe, Dr. C. M. Knapp, Prof. E. J. Asher, Prof. J. S. Mitchell, Dr. Edward Tuthill, and Mr. R. H. Owsley.

A partial list of the instructors, courses, and where they are taught:

Louisville, history of English literature, Dr. G. K. Brady; history, Prof. R. G. Lunde.

Maysville, archeology, Prof. W. S. Webb.

Newport, American literature, Prof. E. F. Farquhar; literature of the Bible, Prof. E. F. Farquhar.

Nicholasville, history of Europe, Doctor Paul Clyde.

Paris, history of England, Prof. T. D. Clarke.

Salversville, advanced hygiene Dr. W. A. Heinz; epidemic diseases, Doctor Heinz.

Versailles, survey of education, Professor Clifton; Kentucky history, Doctor Tuthill.

Williamstown, music, Miss Mildred Lewis.

Ashland, health education and health supervision of schools, Doctor Heinz; public health and law administration.

Covington, Commerce, Dr. W. W. Jennings; Kentucky archeology, Professor Webb; modern esthetic education, Dr. J. T. C. Noe.

Falmouth, history, Doctor Knapp. Frankfort, child psychology, Prof. E. J. Asher.

Lexington, problems of citizenship, E. G. Trimble; tests and measurements, education, J. S. Mitchell; animal husbandry, Prof. L. J. Horlacher.

DEAN MELCHER RELEASES STANDINGS

Dean C. R. Melcher, dean of men at the university, this month released the scholastic averages for the men's social fraternities for the semester ending in January. Again Sigma Alpha Epsilon leads the list followed closely by the Campus Club. The fraternities and their respective standings for the semester are listed below:

Sigma Alpha Epsilon.....	1.553
Campus Club	1.550
Phi Kappa Tau	1.468
Alpha Sigma Phi	1.466
Delta Tau Delta	1.459
Pi Kappa Alpha	1.421

Phi Sigma Kappa	1.398
Alpha Gamma Rho	1.377
Phi Delta Theta	1.364
Phi Psi Phi	1.360
Sigma Beta Xi	1.336
Triangle	1.301
Lambda Chi Alpha	1.273
Delta Chi	1.270
Kappa Sigma	1.263
Kappa Alpha	1.216
Alpha Tau Omega	1.212
Sigma Chi	1.118
Sigma Nu	1.060

Men students regularly enrolled first semester, 2,094; membership in men's social fraternities, 382; percentage in men's social fraternities, 18.2; average of men in social fraternities, 1.346.

The University Y.M.C.A. awards a silver cup to the fraternity making the highest standing for the semester. This scholarship trophy will be awarded each semester to the fraternity of first rank. The fraternity winning this trophy for three time consecutively, or five non-consecutiveley, shall receive it as a permanent possession.

PLANS ARE BEING MADE FOR COMMENCEMENT

A meeting of the committee in charge of the commencement week program was held recently to discuss tentative plans and to apportion the work to be done by the various members. Prof. M. E. Ligon presided at the meeting.

Those in charge of the various phases of the commencement week are Prof. W. L. Roberts and Prof. R. D. McIntyre in charge of the commencement day program; Prof. R. D. McIntyre and Dean Sarah G. Blanding, baccalaureate program; Prof. Brinkley Barnett, Mrs. Eda M. Giles, and Miss Flora M. Le-Stourgeon, decorations for both the commencement and baccalaureate programs; Prof. E. L. Gillis, printing of the programs and arrangements of the graduates in their various colleges; and Col. Owen R. Meredith and Capt. Clyde Grady, forming of the procession.

The committee will report on its progress at the next meeting, which probably will be held next week. Definite plans will be completed when Dr. Frank L. McVey makes the final arrangements for the speakers for the program.

OUR COVER FOR APRIL

Our cover on this issue of the Alumnus was designed by Miss Mildred Shute, and is called "Track Watch." This picture was sketched for use in the magazine, "Letters," published by the English department at the University of Kentucky.

Alumni News

Exhibit To Include Sketch By Alumnae

A portrait sketched by Miss Anna Louis Rice, class '30, former university student, has been accepted for exhibition at the annual San Francisco Art association exhibit at the Legion of Honor galleries in that city, it was learned recently. Acceptance of art work for exhibition at the California exhibit is considered an exceptional honor, as work is submitted by artists throughout the United States.

Miss Rice, daughter of Mr. and Mrs. S. Jewell Rice, 112 Kentucky avenue, taught in the art department at Georgetown College for a year following her graduation from the University in 1930. For the past eight months she has been taking special work at the California School of Fine Arts, in San Francisco.

Graduate Writes Article

An article by Katherine Best, a graduate of the University, class '29, and a member of Kappa Kappa Gamma sorority, appears in the current edition of Judge, a humorous publication. The article is entitled "Spring Fever," and appears on page 14. Miss Best is in New York, where she is free lancing in her spare time. Recently she has had other articles accepted by Life and the Saturday Evening Post.

Former U. of K. Man Back From California

William T. Kendrick, Jr., a graduate of the class of 1917 in the college of law at the University of Kentucky, now an attorney in Los Angeles, Calif., and Duncan Renaldo, also a resident of Los Angeles, who was the star in the famous talking film, "Trader Horn," visited in Lexington for the week-end of April 16, to attend the races.

Mr. Kendrick and Mr. Renaldo were the guests at the Delta Chi fraternity house on East Maxwell street, at a smoker given in their honor by the present members of the local chapter of the fraternity and a number of the alumni. Mr. Kendrick was a member of the Delta Chi fraternity while a student at the university here.

He is now a prominent criminal lawyer in Los Angeles. His friend, Mr. Renaldo, is not only a movie star, but a naturalist, which bent he had ample opportunity to indulge while on location in the African jungles during the filming of Trader Horn. He has only recent-

ly returned from Mexico where he had the leading role in the filming of a new play, "Below the Rio Grande." He expects soon to go to Siam, to appear in a film of Siamese locale.

Seaton-Ferguson

Mr. and Mrs. C. E. Seaton, La Center, announce the marriage of their daughter, Claudia Mae, to Mr. James Hunter Ferguson, Friday, March 25, at Brookport, Ill.

Mrs. Ferguson is a student at the University of Kentucky and a member of the Alpha Xi Delta sorority.

Mr. Ferguson, son of Mr. and Mrs. G. W. Ferguson, Lexington, is a former student of the University of Kentucky, and a member of the Phi Kappa Tau social fraternity.

They are at home at 1863 south Limestone street.

Stewart-Vest

Lexington friends have received the following announcements:

Dr. and Mrs. John P. Stewart announce the marriage of their daughter,
Margaret Morrow

to
Mr. Douglas C. Vest
on Wednesday, March the thirteenth
Frankfort, Kentucky

Cards enclosed read:

At Home
after Friday, April the fifteenth
Carrolton, Kentucky

Farwell-Loyd

Miss Genevieve Madeline Farwell and Mr. John Sigsbee Loyd were united in marriage at the home of Mrs. Alma Moore, Dixie court, with whom the bride has been making her home for several years.

Dr. T. C. Ecton read the marriage service. Mr. Troll Young and Mrs. Moore were the witnesses.

The bride, who is the daughter of Mr. and Mrs. John C. Farwell, has held a position at the University of Kentucky for several years. Mr. Loyd is county agricultural agent for Knox county. They will reside at Barbourville.

Mr. and Mrs. J. P. Holtzclaw, Sr. announce the marriage of their daughter
Lucille Georgia

to
Mr. Richard Preston Walter
on Friday, February the nineteenth,
Nineteen hundred and thirty-two
Lawrenceburg, Kentucky
At home: 124 East Maxwell, Lexington, Kentucky.

Ward-Harrison

The marriage of Miss Rose Ford Ward, daughter of Judge and Mrs. J. B. Ward, Georgetown, Mr. Fred A. Harrison, was solemnized Tuesday, March 22, at the home of Mr. and Mrs. Ray Downs, Shelbyville, Rev. W. V. Cooper officiating.

The bride is the attractive daughter of one of the most prominent families of central Kentucky. She graduated from Georgetown high school and later attended Georgetown College.

The bridegroom is the son of Mrs. Katherine Harrison, Williamstown. He is a graduate of the law school of the University of Kentucky. Since his graduation he has practiced law in Williamstown. He served one term as county judge of Grant county.

After the ceremony the couple left for a short motor trip. They will make their home in Williamstown.

Mr. Jack Warren, class '26, was a visitor on the Campus early this month. Many will remember Jack as former business manager of the KERNEL, Captain R. O. T. C., etc. He was very active in all campus affairs.

Mr. Tom Adams, was a visitor on the campus April 5th. Tom is with the Herald Post, in Louisville, now.

Dr. W. A. Duncan writes from Russellville, Kentucky, that former students are going to organize a club in Logan county. We are glad that this is being done and want to cooperate in every way we can with the alumni in their efforts to bring that group together often.

Harlan Alumni Meet to Oppose Participation of Remnants of a Former Liberal Club at the University in Coal Field Troubles

Thirty-four men and women, all former students and graduates of the University of Kentucky, signed a telegraphic protest to Dr. Frank L. McVey, president of the university, against the participation by the University of Kentucky Liberal Club in the proposed investigation of Harlan and Bell counties by students from Commonwealth College, Mena, Ark.

An informal meeting of Kentucky graduates and former students was held this afternoon in the city hall to draft a protest to the university. The meeting was called by Frank F. Cawood, retired contractor.

"Outside agitators have created the conditions in this coal field and we resent the attitude of the Kentucky students, who apparently do not realize their action is hurting the state institution as well as ourselves," read the telegram. "These alleged investigations can only aggravate the situation here and embarrass our citizens."

"The strife in the coal fields has cost Harlan and Bell counties, as well as the state, thousands of dollars and many lives," the telegram continued. "The students know nothing of our economic problems and cannot in any way help us in solving them. Resentment is becoming widespread over obviously insincere efforts of outside agencies to aid the people in this section. Continual rubbing of a sore spot will not permit it to heal. As former students of the University of Kentucky, we feel authorized to make this protest and ask your intervention. Southeastern Kentucky especially Harlan county, is a strong university center, but the actions of the students is causing adverse criticism and resentment."

Dr. McVey was asked to reply with an expression of his attitude toward the investigation.

Those signing the telegram were J. Fay Rice, Don Whitehead, F. F. Cawood, Kyle Whitehead, Joe Asher, Mrs. Gus Bruner, Gus Bruner, J. B. Jones, Fred Smith, Elmer Hall, Charles Cole, Edith Skidmore, Ave Cawood Whitehead, Estelle Cawood Smith, Owen Kelly, Josh Denham, Bill Whitfield, Francis Gross, George Whitfield, Jack Whitfield, Mary Whitfield, George R. Pope, N. R. Denham, Werener Gross, Clarence Denham, Margaret Howard, Marie Petterson Whitehead, Bus Clayton, Elmon Middleton, H. F. White, K. D. Gatliff, Vernon Rice, Raymond Unthank, and Claf Gibson.

Frank Daugherty, class of 1901, at the request of President McVey, represented the University of Kentucky at the inauguration of Dr. R. C. Hutchinson as president of Washington and Jefferson College, Washington, Pa., on April 2. Mr. Daugherty is an engineer of Philadelphia and a LIFE MEMBER of the Alumni association.

Officers of the Alumni Association are happy to report that we have two new LIFE MEMBERS. Dr. John S. Chambers, '13, lives in Lexington and is head of the department of Hygiene and the Dispensary at the University of Kentucky. Prof. P. A. Foster, '16, is professor of English at Ohio University, Athens, Ohio. It gives us great pleasure to welcome these new members.

Miss Elizabeth Thompson, class '31, is now librarian at the Somerset High School. Miss Thompson has been in Somerset since February.

P. W. Ordway, '30, who is treasurer of Murray (Ky) State Teachers' College, was a visitor on the campus April 16.

Roy Eversole, '29, was in Lexington April 16. Mr. Eversole is teaching in Jackson, Ky.

Mr. and Mrs. Byron Pumphrey and young son have returned to Lexington from California where they have made their home since graduation. Mr. Pumphrey and his wife (Melvina Heavenridge) are

graduates of the class of '29.

Mr. and Mrs. William Hall are welcoming their first child, a son, born April 17. Mr. Hall is a former student of the University.

McALLISTER - FERGUSON

The marriage of Miss Margaret McAllister, and Mr. Joseph Martin Ferguson, Wayne, W. Va., was solemnized recently at the home of the bride's parents, Mr. and Mrs. George M. McAllister, Fairway Drive, with Rev. George Heaton as the officiating clergyman.

The attractive young couple left on a short wedding trip and will return to live with Mr. and Mrs. McAllister. The bride is unusually charming and pretty, having won the beauty contest at the University of Kentucky this season. She is a member of Kappa Kappa Gamma sorority.

Mr. Ferguson is prominent in campus activities, is a member of the senior class and president of his fraternity, Phi Delta Theta.

Pinkerton-Dunn

The following announcements have been issued:

Mrs. Samuel Davis Pinkerton announces the marriage of her daughter

Elizabeth Woolfolk

to
Mr. Charles Kemper Dunn
on Saturday, the twenty-sixth of
March
nineteen hundred and thirty-two
Edgemoor, Maryland

The bride is the daughter of Mrs. S. D. Pinkerton, Versailles, and the late Judge Pinkerton. She is charming, a handsome brunette and possesses a lovely mezzo-soprano voice. She received her A.B. degree from Transylvania College, where she was a member of Chi Omega sorority. Her M.A. degree was received from the University of Kentucky. For the past year she has been teaching in

the McKinley high school, Washington.

Mr. Dunn is the son of Mrs. W. A. Price, Fort Pierce, Fla., and formerly made his home in Lancaster. He was educated at the University of Kentucky, from which he was graduated in electrical engineering. He is a Kappa Alpha. Mr. Dunn is associated with the Chesapeake and Potomac Telephone Company of Baltimore, with headquarters in Hyattsville, Md.

After their wedding trip, Mr. and Mrs. Dunn will live in Washington. They are attractive young people, with a host of friends to offer good wishes.

CLUB NEWS

One of our most active and interested alumni clubs is located in Atlanta, Georgia. The secretary of the club has informed us that out of the twenty-four former students and graduates living in Atlanta, there are always twelve or fifteen who come to the meetings. The meetings are held the second Monday in every month—luncheon at the Atlanta Athletic Club at 12:15.

We are very glad to know that "Pete" Drury is one of the new members of the Club.

RESEARCH PUBLISHED BY U. K. CHEMIST

A new method for the determination of the amount of iodine in soils, discovered by Dr. J. S. McHargue, head of the chemistry department at the experiment station of the university, is the subject of an article in the April issue of the analytical edition of "Industrial and Engineering Chemistry," a magazine published by the American Chemical Society, Washington, D. C.

The method of analyzing soils for their iodine content, perfected by Doctor McHargue and his assistants, is described as more accurate and less tedious and cumbersome than any other method yet devised. It is known as the combustion method, and involves the use of an electric furnace. Through this method the investigators have demonstrated that Kentucky limestone and soils contain considerable quantities of iodine.

The subject of iodine in foods has become increasingly important in recent years, especially since the discovery of its connection with goiter.

The magazine article was written jointly by Doctor McHargue and his assistants at the experiment station, D. W. Young and W. R. Roy.

MUSSELMAN

Kentucky's Track Season -- So Far!

By CAMERON V. COFFMAN

The Wildcats of the University of Kentucky introduced a very impressive track team to the public, Saturday, April 9, on Stoll field, by sending the Cardinals of the University of Louisville back home on the short end of a 101 1-2 to 15 1-2 score. A steady rain throughout the morning made the track very muddy, thus slowing up the time of most of the races. This initial meet marked the varsity debut of several sophomore aces, who have promised to make a name for themselves on the track. Among these newcomers is Carroll Ball, Indianapolis, Ind., who trailed the veteran "Shipwreck" Kelly to the finish line in the 100-yard dash by a scant few feet. This same lad substituted for Kelly in the 220-yard and led the entire field to the tape by a margin of 20 yards. John Carter, another sophomore, ran the 220 in place of Johnny Hie-

ber, who has been Kelly's running mate for the last two years. Carter made a very creditable showing, although he did not finish among the pointers.

Ralph Kercheval, our third sophomore, whose punting on the football team last fall received nation-wide publicity, ran second to his teammate Emmerich in the high hurdle race. Kercheval tossed the javelin 153 feet six inches to win over Kelly.

The high point man of the meet was again "Shipwreck" Kelly who, after winning the century run and taking a second place in the javelin throw, took off and landed 21 feet away from the board to annex a first place in the broad jump.

Vanderbilt's record of no defeats during 21 years of competition with their mile relay team was not broken by the Kentucky team. "Scaley"

Robert's leap of 6 feet, one inch in the high jump, which is perhaps the highest he ever attained, was equalled by his opponent, and the event ended in a tie.

Ralph Kercheval stepped high, wide, and handsome over the high hurdles to out run Emmerich, but was beaten to the tape by "Red" King of Vanderbilt. Kercheval's throw of 161 feet one inch in the javelin was beaten by a "Believe-it-or-not" one inch. The Vanderbilt thrower's mark being 161 two inches. Kercheval also placed second in the broad jump.

Howard Baker and Capt. Jake O-Bryant showed class to take both places in the mile run, and Mahan beat Samuels, Vandy ace, for a win in the half-mile.

Ball was defeated in both the 100 and 220 yard dashes by Woodward of Vanderbilt.

Fortune of Vanderbilt, out-threw Mains to win a first place in the shot-put with a mark of 42 feet and seven inches. Andrew was only a few feet behind the mark of Stinger in the discus throw, which was 115 feet.

Owen, Vanderbilt pole vaulter, defeated Porter in the pole vault with a height of 11 feet.

The time trials for Atlanta, Georgia, Saturday, April 23, were held on Stoll field Wednesday, April 20.

George "Scaley" Roberts was unable to obtain his old time form, but regardless of this fact won the high jump with the low leap of 5 feet four inches. Second place in the high jump resulted in a tie between Porter of Kentucky, and Kincaid, of Louisville. Hubble, Kentucky, won the pole vault, with a leap of 10 feet six inches.

Louisville was able to capture but one first place which was the winning of the half-mile run. The first place went to Babe Blunk, Louisville's "one-man track team," who nosed out Mahan and Captain O'Bryant in the last few feet, and presented the best race of the day. Blunk, besides winning the half-mile ran the mile, two mile, and then ran one lap of the mile relay race.

Johnny "Window-Breaker" Mains, a new comer to the Wildcat squad this season tossed the shot put 42 1-2 feet to win over his team mate, John Epps. Ed Milliken displayed last season form to win the 440 yard run in 54 seconds which was excellent time on the slow track.

"Bud" Hocker, the same elongated youth, who won the annual intramural cross-country run last fall, finished ahead of Baker, Kentucky, to win the two mile run. Andrew, of Kentucky drew first place in the discus throw, and Baker, Kentucky, bested Captain O'Bryant in the mile race.

Emmerich and Hand, Kentucky, ran first and second in the low hurdles.

Kentucky's next meet resulted in their first defeat since 1930. After a long automobile ride to Nashville, Tenn., the Wildcats, who were minus the services of "Shipwreck" Kelly, were unable to halt the Commodores of Vanderbilt. The absence of Kelly was perhaps the deciding factor in Vandy's 70-43 victory over the 'Cats.

SALE SELECTED ALL-AMERICAN

Forest "Aggie" Sale, captain-elect of the 1932-33 Wildcat basketball team, was selected as forward of College Humor magazine's All-American basketball team. Ellis Johnson captain of this year's team, was mentioned as an outstanding guard.

The All-American selections appeared in the May issue of College Humor and were written up by Les Gage, sports editor of the publication. Selecting five players for the honor is no small task, Gage says, and eliminations were in order until the last week in February, when 100 men remained on the list. It was from the remaining 100 players that Mr. Gage made his selections.

In explaining his choice for center Mr. Gage says, "There were not so many outstanding centers in the recent basketball campaign. Krause of Notre Dame, was the class of the Middle-West, outranking anyone in the Big Ten. Sale, of Kentucky, and Stewart, of Auburn, were the best in the south.

"Both Krause and Sale were awarded positions on the first team the latter being placed at a forward berth as running mate of Lou Bender, Columbia's captain. It was impossible to choose between the pair, so the lanky Kentucky center was shifted to forward, where he has played at times during his career with the high-scoring Dixie quintet.

"Forest Sale was the leading scorer of the Southern league, averaging nearly 15 points per game although having to overcome the handicap of being a "marked man". He was the star offensive player of a great scoring machine. The Kentucky center, a six foot, four inch boy, was not outjumped all season. He was a fighter, a ball-hawk and an untiring worker on defense. Coach Ray Ellerman, Washington and Lee, said of him, 'Sale was the best rebound man in the conference, and never failed to score heavily though all of Kentucky's opponents pointed their defensive efforts for him'."

FUNKHOUSER WILL VISIT CULTURAL CENTERS—JUNGLES

A trip around the world in search of insects will be started next summer by Dr. W. D. Funkhouser, of the University of Kentucky, who announced the itinerary of a tour which will take him to centers of culture and to the heart of the South Sea island jungles. Mrs. Funkhouser will accompany him, but she will remain at the outposts of civilization when her husband invades the seldom-trod sections of Borneo, Sumatra, Java, and India.

Dr. Funkhouser probably is the only man ever to leave Lexington on a world tour for the purpose of collecting insects. The chief purpose of his trip will be to collect specimens of the family Membracidae, a group on which he has been working for many years.

Dr. Funkhouser is best known to Kentuckians for his work in excavating Indian burying grounds in this state. He has unearthed thousands of skeletons and artifacts and his work has resulted in the addition of much valuable information regarding Kentucky's pre-historic inhabitants.

He has enjoyed the collecting of these artifacts, but probably with keener interest he has looked forward to the trip planned for next year. The study of the family of Membracidae, apparently, is his favorite hobby. Dr. Funkhouser has been granted a year's leave of absence by the University of Kentucky, where he is dean of the graduate school, in order to make the trip.

To Leave Late in Summer

He will leave Lexington late in the summer for New York, sailing from there for Cuba. From Cuba he will go to San Francisco, making short stops at the Panjama Canal and on the west coast of Mexico enroute. From San Francisco he will sail westward. He will stay two weeks in the Hawaiian Islands and three weeks in Japan and then go to China, where he will join an expedition of entomologists of Lingnan University, Canton, China.

From China he will go to the Philippine Islands, where he will be associated with scientists of the Philippine Bureau of Science, who are collecting zoological specimens on the various islands of that group. The jungles of the South Sea Islands will be his objective after leaving the Philippines. He plans to work chiefly in Borneo, Sumatra, and Java. A considerable length of time will be spent the Federated Malay States and in north India, along the Ganges, and in the Himalayan mountains at the foot of Mt. Everest.

From India, Dr. Funkhouser will go to Ceylon and from there directly to South Africa, where, at Capetown and Pretoria, he will see certain anthropological types which have been discovered in that region. He will travel through Central Africa and then to the west coast, sailing probably from Lobito Bay to England.

Dr. Funkhouser will make no advance arrangements for his invasions of seldom-traveled sections of the world. He said that he would make arrangements with natives after he arrived at the outposts from which he would enter the "wild country." He said he did not know what mode of travel or type of abode he would be called upon to use in some islands he would visit, but that he would let his guides worry about those features.

UNIVERSITY MUSEUM TO HOLD REPLICAS OF INDIAN GRAVES

Exact reproductions of ancient Indian graves, containing the skeletons and mortuary offerings found in them, will be a startling feature of the University of Kentucky museum which is being arranged in the old University Library building on the campus.

These graves, probably eight in number, will be rebuilt in the museum with the original materials just as they were found in various sections of Kentucky by archaeologists. Dr. W. D. Funkhouser, archaeologist in charge of the preparation of the museum, said recently in outlining plans for the display. Work on the museum has been under way for some time but much remains to be done and Dr. Funkhouser was unable to say when the work would be completed and the building open to the public.

Although these reproduced graves may appear gruesome to some, they will present exact scientific studies of the life and customs of ancient inhabitants of Kentucky, Doctor Funkhouser said.

How the graves will be reproduced with scientific exactness was explained by Doctor Funkhouser. When the graves were excavated, the stones and material of which they were made were all numbered and blueprints were made of the graves. These graves will be rebuilt according to these blueprints and numbers and the skeletons placed in them in exactly the positions they were found. Mortuary offerings, such as tomahawks and other weapons will be placed in the graves about the gaunt bones, just as they were found by archaeologists.

Specimen graves probably will include stone graves, mound builders' graves, crematory pits, ossuaries, bone burials, cave and cliff dwellers' graves and others, all occupied by the skeletons found in them and all excavated in Kentucky. These graves will be located in two alcoves on the first floor of the old library building.

The first unique feature of the Kentucky museum, however, will be seen as soon as the visitor enters the doors of the building. An elaborate iron grill has been built to protect the valuable collection of artifacts and other museum pieces which will be housed in the building. This grill, made necessary because the basement of the building is to be used for an anthropology and archaeology lecture room, is a real work of art, according to Dr. Funkhouser.

Its ornamental pieces consist of iron reproductions of artifacts found in Kentucky. They are scientifically

KENTUCKY ALUMNUS

accurate reproductions and include bows and arrows, banner stones, knives, arrows, spears and other artifacts. Over the center of the ornamental grill is a reproduction in iron of an image found by Kentucky excavators.

A collection of mastodon and mammoth bones found in this state will be displayed at one end of the museum. No complete mastodon skeletons have been found in Kentucky, but the museum group will include a fine collection of bones found in Hopkins county, according to Dr. Funkhouser.

A large mounted bird collection, consisting of more than 1,000 specimens from all sections of the world, will be housed in a small room at one corner of the museum. The central part of the main floor will be given over to big artifacts, including a collection of mammal skulls and the Funkhouser collection of human skulls. The collection of mammal skulls was started about 30 years ago by Prof. A. M. Miller, late head of the University geology department, and later continued by Dr. Funkhouser. The collection will form an imposing display and will represent almost every kind of mammal in the animal world.

Dr. Funkhouser's collection of human skulls has been collected over a period of 20 years. It includes early human skulls and skulls of practically every type and race, and the University archaeologist is particularly proud of its completeness.

On the first floor of the building also will be placed two "hominid holes" found in Kentucky. These are huge rocks weighing a ton or more and containing the holes used by early Kentuckians in grinding corn. These are two of the best to be found in any museum and one of them contains footprints of a bear, baby, man, coon and other animals, the significance of which Dr. Funkhouser is unable to explain.

Flints, including arrows, axes, tomahawks, thousands of them, will be displayed in one room and another division of the building will be given over to ancient pottery. Still another room will be used for the display of horn, shell and bone implements, including ornaments, kitchen materials, arrow tips, beads, etc.

An office and library will be located on the second floor at the front of the building, while the entire balcony will be given over to cases, displaying anthropological and archaeological exhibits. These will include fabrics, textiles, moccasins, quivers, kitchen-midden material, implements of chase and war, a fine collection of pipes, banner stones, hair and ear ornaments and religious artifacts.

DR. J. W. MARTIN IS RE-ELECTED

Dr. J. W. Martin, Director of the Bureau of Business Research, University of Kentucky, has been re-elected President of the Tax Research Foundation, an organization limited to about forty of the leading tax experts of the United States. This foundation publishes the Annual Tax Encyclopedia about February first of each year, containing tax information regarding all units of the United States and most foreign countries.

Heads of the Dairy and Horticultural departments of the College of Agriculture, University of Kentucky, have announced the presentation of new courses which will be open to everyone throughout the state. March 2 and 3 have been set as the dates for the first study course in horticulture on the subject of "Outside Home Improvements." "The Manufacture of Ice Cream" and "Market Milk" are the two courses scheduled by the dairy department the first of which will be held February 22 to 27 and the latter to be given February 29 to March 5. The purpose of the courses is to offer the ice cream makers and market milk men in Kentucky an opportunity to meet and confer on subject matter pertaining to their industry.

MEMORIAL BUILDING PICTURE IS PUBLISHED

A picture of the Memorial hall is reproduced on the cover of the current issue of "The Circle," publication of Omicron Delta Kappa, honorary fraternity for campus leaders. The entire issue is given over to the accounts of the convention which was held last March at the university.

The feature article in the issue was written by two Kentucky students who are members of the local chapter of the Greek group. Jimmie Chapman and Jack McGurk were the authors of the article entitled "Convention Sidelights." It was written in diary style in the fashion of Mr. Pepys. A second article, entitled "Lexington in Retrospect" gives a running account of the meeting. The author of the work signs himself the Yankee scribe. Numerous Kentucky girls who acted as hostesses at the convention were mentioned in the story.

Reports for various O. D. K. circles conclude the number of stories in the magazine. A directory and list of officers also are included.

U. K. Radio Program

Monday, April 25

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Fine Arts program; 1:15 to 1:30 p. m., Profs. R. S. Allen and T. C. Sherwood presenting "The University Question Box."

Tuesday, April 26

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Rodman Sullivan, assistant professor of Economics, subject—"The stock market, No. 6—The stock exchange and the small investor."

Wednesday, April 27

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Mountain melodies; 1:15 to 1:30 p. m., Margaret King, librarian, presenting "Monthly book reviews."

Thursday, April 28

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Parental Education, No. 15, Dr. J. B. Holloway, professor of Education: subject—"Newer tendencies in vocational guidance of children."

Friday, April 29

12:45 to 1:00 p. m., L. C. Brewer, College of Agriculture: subject, "What Farm Folks are Asking"; 1:00 to 1:15 p. m., The Phi Beta Musicale; 1:15 to 1:30 p. m., L. L. Dantzler, head of the English Department: subject, "The Gallery of Literary Portraits, No. 7."

Monday, May 2

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Fine Arts Program; 1:15 to 1:30 p. m., Profs. R. S. Allen and T. C. Sherwood, presenting "The University Question Box."

Tuesday, May 3

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Rodman Sullivan, assistant professor of Economics, presenting "The stock market, No. 7—The stock exchange and American business."

Wednesday, May 4

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Mountain melodies; 1:15 to 1:30 p. m., Frank Fowler, director of the Guignol theatre, presenting the first of two Kentucky Folk-Lore plays.

Thursday, May 5

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Dr. Paul P. Boyd, dean of the College of Arts and Sciences: subject, "Going to College, No. 1."

Friday, May 6

12:45 to 1:00 p. m., L. C. Brewer, College of Agriculture: subject—"What Farm Folks are Asking." 1:00 to 1:15 p. m., The Phi Beta Musicale; 1:15 to 1:30 p. m., L. L. Dantzler, head of the English department: subject, "The Gallery of Literary Portraits, No. 8."

Monday, May 9

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Fine Arts program; 1:15 to 1:30 p. m., Profs. R. S. Allen and T. C. Sherwood presenting "The University Question Box."

Tuesday, May 10

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Dr. E. Z. Palmer, associate professor of Economics: subject, "The Current Business Situation."

Wednesday, May 11

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Mountain melodies; 1:15 to 1:30 p. m., Dr. Frank L. McVey, president of the University of Kentucky: subject, "World Events."

Thursday, May 12

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Dr. Paul P. Boyd, dean of the College of Arts and Sciences: subject, "Going to College, No. 2."

Friday, May 13

12:45 to 1:00 p. m., L. C. Brewer, College of Agriculture: subject, "What Farm Folks are Asking." 1:00 to 1:15 p. m., The Phi Beta Musicale; 1:15 to 1:30 p. m., Dr. Willard Rouse Jillson, State Geologist: subject, "Days Afield in Kentucky, No. 1."

Monday, May 16

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Fine Arts program; 1:15 to 1:30 p. m., Profs. R. S. Allen and T. C. Sherwood, presenting "The University Question Box."

Tuesday, May 17

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., A. J. Lawrence, assistant professor of Economics: subject, "The Development of Anti-Trust Legislation."

Wednesday, May 18

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Mountain melodies; 1:15 to 1:30 p. m., Frank Fowler, director of the Guignol theatre, presenting the second of two Kentucky Folk-Lore plays.

Thursday, May 19

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Dr. Paul P. Boyd, dean of the College of Arts and Sciences: subject, "Going to College, No. 3."

Friday, May 20

12:45 to 1:00 p. m., L. C. Brewer, College of Agriculture: subject, "What Farm Folks are Asking." 1:00 to 1:15 p. m., The Phi Beta Musicale; 1:15 to 1:30 p. m., Dr. Willard Rouse Jillson, state geologist: subject, "Days Afield in Kentucky, No. 2."

Monday, May 23

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Fine Arts program; 1:15 to 1:30 p. m., Profs. R. S. Allen and T. C. Sherwood presenting "The University Question Box."

Tuesday, May 24

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., A. J. Lawrence, assistant professor of Economics: subject, "Recent Demands for a Modification of Anti-Trust Laws."

Wednesday, May 25

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., Mountain melodies; 1:15 to 1:30 p. m., Margaret King, librarian, presenting "Monthly book reviews."

Thursday, May 26

12:45 to 1:00 p. m., Agricultural program; 1:00 to 1:15 p. m., The Blue and White Orchestra; 1:15 to 1:30 p. m., Dr. Paul P. Boyd, dean of the College of Arts and Sciences: subject, "Going to College, No. 4."

CAUSES OF STUDENTS'

FAILURE ARE LISTED

Lack of study is the most frequent cause of University of Kentucky students failing to make the required grade standing, according to a report made to the University personnel bureau by Dean Paul P. Boyd, of the College of Arts and Sciences.

The report, published in the January issue of the University Personnel Bulletin, shows that 119 students were placed on probation in Dean Boyd's college for the first semester of 1930-31. Causes given for failure to make the standing were lack of study, 48; outside work, 31; illness, 16; course too heavy or difficult, 15; poor foundation, 7; absences, 6; lack of interest, 5; outside activities, 4; no reasons given, 3; laziness, two; methods of teaching, one; failure to take examinations, one; unfair treatment from instructor, 1; and unsettled home conditions, 1.
