My darling wife,

I have rented a cottage at the Park, and am now on my way to Albany. I have paid \$50. for use of a furnished cottage for the month of August. There are 8 sleeping rooms, dining room, parlor and kitchen. The rooms are not large and the cottage is not right on the beach, but it seems a fair location, ^{not far} from the water and it is reasonably well provided. I secured it very cheap and I think you will all like it. You are all to come down on the Acorn on Monday morning next, and are to go into possession at once.
