

## Minutes of the Faculty of the University - February 23, 1943

Dr. McHenry Rhoads had four great loves - his family, his church, and his profession. With his passing, his family has lost a loving and devoted father, his state has lost a great citizen, his church a loyal member, and his profession a distinguished leader. In particular, the University of Kentucky, to which he devoted thirty-five years of service, feels keenly the loss of a capable teacher and a valued counselor.

It is recommended that these resolutions be made a part of the minutes of the Faculty of the University of Kentucky and that copies of them be sent to the family."

On recommendation of the College of Arts and Sciences, the Faculty approved a request that the credit for Zoology 106, Embryology, be 6 quarter hours rather than 5 quarter hours. It appeared that an error had been made when the course was formerly presented.

President Donovan suggested to the Faculty that it might be desirable to have a convocation near the close of the quarter, with a view to honoring the large number of men students who will be required to withdraw at the end of that period to enter military service. He stated that tentative plans call for the convocation to be held on March 12. The Faculty expressed approval of this idea.

  
Secretary

## Minutes of the Faculty of the University - March 9, 1943

The Faculty of the University met in the President's Office Tuesday, March 9, 1943. President Donovan presided. Members attending were Paul P. Boyd, Thomas P. Cooper, Alvin E. Evans, Frank D. Peterson, Wm. S. Taylor, Edward Wiest, and Leo M. Chamberlain. Assistant Dean D. V. Terrell also attended the meeting.

The minutes of February 23 were read and approved.

The Faculty heard a brief report of the program contemplated for the Friday convocation honoring the men who are to leave at the

## Minutes of the Faculty of the University - March 9, 1943

end of the quarter for active military duty. President Donovan urged that all students and faculty members be encouraged to attend.

President Donovan called attention to a recent directive from the national headquarters of the Selective Service System, relative to the possible deferment of students engaged in a number of fields of study.

The Faculty discussed at some length the question of preparing a revised schedule for the spring quarter, with a view (1) of placing in the hands of both faculty and students a more accurate program of studies and (2) with a view to freeing sufficient instructional time and classroom and laboratory facilities to care for soldier trainees expected at the University during the quarter. The Faculty voted that a new schedule of classes be prepared and mimeographed for use at the registration on March 23.

The Faculty approved a change in the calendar for the current year which would limit the registration for the spring quarter to one day, Tuesday, March 23. This would leave Monday, March 22, for tests, physical examinations, and advisory conferences, and would give an additional day to prepare grade reports for the deans.

The following students were permitted to receive full credit for the courses in which they are passing this quarter, although withdrawing slightly in advance of the required eight weeks' period, ending on March 3:

John Burrier	Howard Freeman Wilkerson, jr.
Layne E. Spence	Jean Gray Crawford
Raymond Donald Weber	Clifford L. Surface
Ralph G. Sullivan	Jack A. Wilson
Shelby N. Jett	

On recommendation of Dean Boyd, and approval by Dean Wiest, Mary Hayworth McConnell was allowed credit for Commerce 13a without completing Commerce 13b.

On recommendation of Dean Wiest, Mr. Lloyd P. Robertson was given permission to complete the last 22.5 quarter hours of credit required for graduation by correspondence courses taken through the Army Institute. Mr. Robertson is now with the armed forces in Australia, and indicates that he has sufficient time to complete this correspondence work.

The petition of Garry J. Hearn, Jr. to be allowed half credit for his uncompleted work for the quarter was not approved. It appeared that Mr. Hearn withdrew from the University six days before the end of the required six weeks' period, that he withdrew not to enter service immediately, but rather for the purpose of improving his health, in order to be ready for service when called. He was apparently called earlier than he anticipated.

## Minutes of the Faculty of the University - March 9, 1943

The petition of H. J. Bilharz to be allowed full credit for the courses he was carrying at the time of withdrawal from the fall quarter was not allowed. The Faculty had previously allowed this credit, although Mr. Bilharz had withdrawn a few days before the end of the required eight weeks' period, but it was assumed at that time that he was entering upon active military service. Instead, it appears that he enrolled for the Civil Pilot course under the CAA at the University of Louisville on his own volition. He was not thought, therefore, to be entitled to credit under the policies observed by the Faculty.

The following changes in courses and new courses, recommended by the College of Agriculture and Home Economics were approved:

Changes: - Reduction in Credit

Reduced from 4 credits to 3 credits -

Horticulture 1. General Horticulture (3) II, III

A study of the principles and practices basic to the production of fruit, flowers and vegetable crops. Lectures, 3 hours.

Reduced from 4 credits to 3 credits -

Horticulture 103. Pomology: Pome Fruits (3) I

A course dealing with the theory and practice of commercial pome fruit production, with major emphasis on apple growing. Lectures, 2 hours; laboratory, 2 hours. Prerequisite: Hort. 1.

Reduced from 4 credits to 3 credits -

Horticulture 104. Pomology: Stone Fruits (3) I

A detailed study of commercial peach, plum, and cherry growing, with special emphasis on peach production. Lectures, 2 hours; laboratory, 2 hours. Prerequisite: Hort. 1. Not offered 1942-43.

Reduced from 5 credits to 3 credits -

Horticulture 110. Principles of Vegetable Gardening. (3) I

A study of the fundamental principles underlying commercial production of vegetables. Lectures, 2 hours; laboratory, 2 hours. Prerequisites: Hort. 1, Agron. 10 (Name changed from "The Home Vegetable Garden").

Reduced from 4 credits to 3 credits -

Horticulture III. Growing Vegetable Plants Under Glass. (3) I

Production of vegetable plants grown for transplanting. Types of hotbeds, cold frames, and simple greenhouse structures. Lectures, 2 hours; laboratory, 2 hours. Prerequisites: Hort. 110.

Reduced from 5 credits to 3 credits -

Horticulture 120. Landscape Gardening. (3) III

The adaptation of the principles of landscape as applied to present conditions. The coordination of buildings with surroundings, selection

## Minutes of the Faculty of the University - March 9, 1943

and use of materials and their requirements. Lectures, 2 hours; laboratory, 2 hours.

Reduced from 4 credits to 3 credits -

Horticulture 121. Advanced Landscape Gardening. (3) II

A continuation of Horticulture 120 with special emphasis on design and use of materials. Lectures, 2 hours; laboratory, 2 hours.

Prerequisite; Hort. 120.

Reduced from 5 credits to 2 credits -

Horticulture 122. Floriculture. (2) III

A detailed study of certain specific groups of flowers such as roses, bulbs, and iris. Lectures, 2 hours.

Reduced from 4 credits to 3 credits -

Horticulture 123. Plant Propagation. (3) II

A study of the methods of propagating horticultural plants. Lectures, 2 hours; laboratory, 2 hours. Prerequisites: Hort. 1; Botany 1a, 1b.

New Courses

Horticulture 2. Principles of Spray Practice (2) I

A study of the principles and practice of spraying for the control of pests of horticultural crops. Lecture, 1 hour; laboratory, 2 hours. Course outline covers history, development, and principles of spray practice, mixing spray materials, dilutions, compatibility, spray coverage, nozzles, spray guns and accessories, and spraying and dusting equipment.

Horticulture 10. Vegetable Gardening. (2) III

A study of the culture of vegetables for the home garden. Lectures, 2 hours. Course outline covers importance, objectives, classification, origin, and development; garden plan; growing plants, plant beds and frames; soil preparation, management, fertilizers; the greens; the cole crops; the salad crops; the bulb crops; the root and tuber crops; the fruit and seed crops; the storage of vegetables.

Horticulture 20. Elementary Landscape Gardening (2) II

The principles of landscape as applied to the planting of home grounds, both rural and urban. Lectures, 2 hours. Course outline covers introduction to the subject; size, shape and boundaries of lawn; making new lawn; care of lawn; developing plantings; cultural requirements of the plants; walks, drives, trellises, arbors and garden ornaments.

Horticulture 22. Elementary Floriculture. (2) III

The fundamentals of growing flowers and decorative plants, both outside and inside as house plants. Lectures, 2 hours. Course outline covers

## Minutes of the Faculty of the University - March 9, 1943

introduction to the subject; location for flowers; soils suitable for flowers, drainage, and exposure to sunlight; fertilizers for flowers; varieties, growing from seed and plants; cultural requirements and uses; insects and diseases; house plants.

Horticulture 125. Plants and Planting Materials. (2) III  
A study of woody and herbaceous plants, their identification, suitability for landscape uses, and the effects produced. Lecture, 1 hour; laboratory, 2 hours. Prerequisite: Hort. 120. This is a study of the size, shape, color of foliage, flower and fruit of plants; their adaptation to landscape work, together with the means of identification. Trees, evergreens, shrubs, and vines will be studied.

These changes reduce the quarter hours from 39 to 36.

## Minutes of the Faculty of the University - April 9, 1943

The Faculty of the University met in the President's Office Friday, April 9, 1943. President Donovan presided. Members present were Alvin E. Evans, W. D. Funkhouser, Frank D. Peterson, Edward Wiest, and Leo M. Chamberlain. Assistant Deans L. J. Horlacher and D. V. Terrell also attended the meeting.

The minutes of March 9 were read and approved.

The following policy with respect to the granting of educational credit for military experience was approved by the Faculty:

"With reference to the granting of academic credit to discharged or furloughed members of the armed forces for training received while in service, the Faculty of the University of Kentucky announces the following policy:

1. The Faculty disapproves the granting of "blanket" credit on the basis of service in the armed forces without valid evidence of educational achievement.
2. It approves the granting of credit for educational training acquired during the period of service, on the basis of demonstrated competence in a specific subject or subjects and, within the limits of this general policy, recognizes three procedures by which the discharged or furloughed member may establish credit:
