My wife was at Quebec and knew
nothing about it till I was quite
well. I still feel a kind of sorrow
in that region - Funny is it not
to be troubled with a concern that I
gave away about a thousand times!

Good bye from Chere Ami

My dear Ninos

The reception of your much
returned favours of 22 ult was a source
of much pleasure. I had written two letters
to some of my Kentucky friends enquiring
your address but they it seems knew
as little about it as myself. I also
duly rec^d your note from Toronto in
July but owing to the bad state of
the roads was in and you was found
it impossible to reach Windsor in
time to catch the train by which
which you travelled. This was a source
of much regret for we had always
to have the pleasure of seeing you
and your good little wife once more
before leaving Canada. We were also
glad to learn that when left here
last time you remained several days
in Windsor - but suppose you were
tired of us poor Country folks -
