## PRESIDENT'S MESSAGE

Have you seen letters to the Editor, articles or editorials that you consider Anti-semitic? Have tests or major school activities important to your children been scheduled on Jewish holidays? Have members of your family been the subject of anti-Semitic remarks or actions by persons where you work, shop, socialize, or with whom your children play? These and other incidents of prejudice still occur too frequently.

The Community Relations Committee has actively responded to incidents like these, often in cooperation with the Anti-Defamation League. If you suffer or become aware of any instances of anti-semitism and are uncertain how to respond or would like assistance or advice, please contact the CKJF office or Community Relations Committee Co-chairs, David Kaplan and Bill Leffler. The committee exists to respond in the most appropriate and effective way.

In addition, the committee works actively and positively to promote a better image of Judaism, Israel and Jewish life. For example, the committee was responsible for the recent history of the Lexington Jewish community project exhibited at the Lexington Public Library, works actively with the National Conference of Christians and Jews, and plans are confirmed for a major Holocaust Art Exhibit scheduled in the spring of 1992 at the University of Kentucky Singletary Center for the Fine Arts. If you have ideas and suggestions for the committee, would like to serve on the committee or work on any of their projects, please do not hesitate to let us know.

Our thanks to David and Bill and the committee members as they carry on this most important work.

Michael L. Ades, President

## ISRAEL THROUGH HER EYES

*The following letter addressed to Evelyn Geller was written by Melinda Mersack, a 1990 CKJF Israel Scholarship Recipient. This scholarship was made possible by your contributions to the CKJF-UJA Campaign.*

Dear Ms. Geller:

I would like to take the time to thank you and CKJF for helping in allowing me to have a most wonderful experience in the Holy Land, Israel. The trip I went on, MoVFTY, OVFTY, GUCI Israel Safari, was packed so tight that I hardly know where to begin! There were forty-four of us and three madrichim that started our trip in Jerusalem after flying into Tel Aviv. We stayed at Beit Shmuel which is connected to the HUC there. We started off by playing a few games to get to know each other. It was hard to believe then that those forty-three other people would become some of my closest and dearest friends. We got up at around 7:30 each morning for a day of true adventure. We stayed close to a week in Jerusalem exploring all the ancient sights. We saw the Kotel, a scale model of old Jerusalem, the Jewish Quarter, the Israeli museum, the Burnt House, and of course, Ben Yehuda street. We then spent the night by the Dead Sea with the following day engaged in a climb up Masada. It was beautiful seeing the sun rise on top of Masada. Our next place of visit was Acco. We spent only a couple of days in Acco. There we saw an ancient Roman city, and we visited a grave site. Also, we went to a Muslim and a Christian church, and visited a Druze village and had the opportunity to speak with a man of this religion to learn about it. We spent one day in Safed and saw all the beauty of artwork and lithographs there.

At this point, we began our stays at field (nature) schools in the Northern Galilee. Our first stay was at Mount Hermon field school. There we hiked the mountain and saw a crusader castle there. While there we visited an army base by the Lebanon border. Our next field school was Akzhiv. We started here with Shabbat. All five of our Shabbats in Israel were special. They each started with the Sabbath prayers and a special Shabbat dinner, after a special song session and services. Saturday started with services and then generally the rest of the day was free. Starting on Sunday we hiked, exploring the areas around school. We hiked through streams, caves and other regular paths. While there we also visited an Arab village and had time to speak with some Arab teenagers on whatever topic we wished. It was very interesting speaking with them. We also visited the Good Fence before we moved onto our next school, Meron. There we enjoyed more hiking, but we also enjoyed something special. While staying here, we visited an Ethiopian establishment where we had the chance to eat a traditional Ethiopian meal, and see how they made rugs and tallit. Later, they played some music on their handmade instruments, and we joined them in

dancing. That was one of the most special nights to me. This ended our stay at the field schools.

We then moved our things into a hotel in Tel Aviv, before our free weekend. At this time we were allowed to visit with our friends and/or relatives in Israel from Friday afternoon to Sunday morning, where we met again at our hotel. In Tel Aviv, we visited the Diaspora museum, Dizengoff street, and another Arab Suq. After Tel Aviv, we began our journey through the Negev. I never imagined how beautiful a desert could actually be! We hiked three days in the Negev, sleeping under the stars and fixing our own meals. This, I think, was my favorite part of the trip. Not only did we enjoy hiking and seeing the wonders of the desert, but we also visited Eilat where we enjoyed a day of snorkeling. Our last night in the desert was spent under a bedouin tent, with our host Achmed. It was incredibly interesting learning about their culture.

We ended our trip back in Jerusalem. We had about a week left where we visited Yad Vashem, planted trees in the NFTY forest, took part in an archaeological dig, visited a war memorial, and again spent time shopping on Ben Yehuda and in the Jewish Quarter.

Not only did we see the awe-inspiring sights of all parts of Israel, but we were educated on our ancestry by learning about the history of Israel and of Jews in general. This trip was the most incredible one I've experienced yet. Israel truly is a great state! I feel so much closer to my Jewish heritage by visiting the Holy Land, and again I want to thank you for helping me to do so.

Sincerely,  
Melinda Mersack

### Camp Young Judaea

The past two summers at Camp Young Judaea Midwest were very special. While camp has taken place at many beautiful locations over the last 20 years, this location, was the most beautiful of all--and it's ours! This past spring Hadassah purchased this wonderful camp site in Waupaca, Wisconsin, the same site that was rented the previous summer.

On August 5, 1990, Hadassah women from all over the Midwest gathered at the camp for Yom Hadassah (Hadassah Day), a historical day for CYJ-Midwest. As we dedicated our camp site, we affixed a beautiful mezuzah, a gift from the National Young Judaea Department, to the Beit Am (Rec. Hall).

Funds were raised for the down payment. Now we will be embarking on a major campaign to raise the remainder of the funds to pay for the camp. Judy Saxe is chairperson of the Development Committee.

# Soviet Jews need more than your sympathy.

# They need your dollars.

Now. Not next week. Or next month. Now. Time is running out.

Sympathy won't pay for flights to Israel. Or job training, Hebrew classes and living stipends crucial for starting new lives in the Promised Land.

Money will. Your money.

The Israeli people are shouldering most of the financial burden. But they can't do it alone. Your help is vital.

Thousands of Soviet Jews are arriving in Israel every week, fleeing the growing anti-Semitism. And the cost is enormous for the greatest ingathering since the creation of the State of Israel.

Be generous. Be supportive. And above all, do it now. While the gates are still open.

## Tough Dilemmas Face Ethiopian Jewry

New York (JTA)--Jewish agencies seeking to care for the 15,000 Ethiopian Jews now housed in that country's capital city of Addis Ababa are facing a difficult dilemma.

They must try to sustain the population in relatively good health and humane conditions until they can be brought to Israel. But at the same time, they cannot make the Jews appear to be overprivileged in a country where thousands are ravaged daily by hunger, disease and civil war.

"You cannot make the Jews conspicuous by making them so much better off than everyone else. This would make them targets for jealousy, resentment and even muggings," said Barbara Ribakove Gordon, executive director of the North American Conference on Ethiopian Jewry.

Yet Gordon, who has just returned from a week long stay in Addis Ababa, said it would be impossible for world Jewry to let hunger and disease take their toll on the Ethiopian Jews as they wait for their passage to Israel.

"Somehow, we have to strike a balance," she said.

Gordon painted a bleak and disturbing portrait of life for the Ethiopian Jews now living in Addis Ababa, waiting to rejoin their families and the rest of their community in Israel.

Gordon, along with Michael Schneider, executive vice president of the American Jewish Joint Distribution Committee, and Arnon Mantwer, director general of the Immigration and Absorption Department of the Jewish Agency for Israel, have all visited Addis Ababa over the past month.

Gordon said that the various parties have developed "plans of action," dividing up responsibilities to provide for the care and maintenance of the Ethiopians during their stay in the capital.

"The complications and difficulties cannot be imagined," she said.

### No clothing other than rags

Progress has been made in improving their lot. Blankets provided by JDC have been distributed to the Jews. Until then, most were sleeping on the rock-and-mud floors of their shanties in "the worst slums" of the city, Gordon said.

The North American Conference, she said, would try to supplement JDC efforts by providing additional medical supplies, as well as clothing.

"The people have no clothing other than the rags they were wearing when they arrived in Addis," she said.

The trip was Gordon's eighth visit to Ethiopia. She said that in the slums of the capital she met Ethiopian Jews whom she had know previously in their villages in the Gondar region. Their living conditions back then were primitive, but far more orderly and sanitary than their current status as squatters in Addis Ababa.

The Jews fled to the capital from their native Gondar

after the area was racked by fighting between rebel forces and government troops.

"It all happened very quickly," Gordon said. "One day we had 3,000 people in Addis, the next day we had 9,000 and then we had 13,000."

The Jews arrived in the city starving and suffering from various diseases. A recent story in the *Jerusalem Post* said community leaders in Addis Ababa have reported 60 deaths in the Jewish community, mostly among infants and children.

The Israeli government and the American Jewish relief agencies are working to combat the sickness by inoculating as much of the population as possible and by increasing the medical staff at the clinics set up to care for the Ethiopian Jews.

"We are dealing with malnourished people who have tuberculosis, malaria, and they need a great deal of medical care to restore them to health," Gordon said. "With additional doctors, nurses and medical supplies, I have real hope that we are going to make a major difference."

## SAM GOLDSTEIN HONORED

Thirty-nine individuals were honored by Four Courts in Louisville at their Volunteer Appreciation Luncheon. Sam Goldstein received the Special Volunteer Award for his contribution to the home.

Sam has been a resident at Four Courts since September 1989 and has found his niche there. His philosophy is to "be of service to your fellow man as long as the body is able."

Rising early each day, Sam delivers the mail, newspapers, memos and monthly calendars to residents. He opens and reads letters in his soft-spoken way to those whose eyes are weak. He leads a well-attended exercise group called "Exercise with Sam." And, he calls bingo, transports residents to meals and activities, and serves as treasurer of the Resident Council.

"Sam is truly a wonderful source of volunteerism for us," says Pamela Hardin, Four Courts Executive Director. "His friendly 'can do' attitude makes a difference with the other residents."

A retired pharmacist from Lexington, Sam has two daughters in Connecticut and South Carolina and a nephew in Louisville.
