Due to technical difficulties beyond our control, the wrong editor's name has been on the title page of the Green Bean. Rob Aken is neither writing nor even ghost writing the Green-Bean, though I will admit to asking for his assistance on occasion.

ABOVE AND BEYOND...

The Director's Office received a copy of the following letter addressed to Joan Gatewood in Circulation:

Dear Joan:

Sometimes only special cooperation from another person can help fulfill a great need in a program. You provided that cooperation to the Learning Services Center.

When I outlined the problem we were experiencing with lack of space for tutorial sessions, you were so helpful. We are deeply appreciative of the effort you undertook to make Room 411 available to us for this semester. This is the first time in our history that we have had this convenience. Heretofore, tutors and students sometimes spent the first twenty minutes of a one hour session looking for a private and available area.

I observed the demands that were made on your time during our short meetings. This is why I am especially grateful for the time and effort you afforded to our program.

Please express the gratitude of the Learning Services Center to other members of the library staff that were involved in this effort.

Sincerely,

Lois Rimmer
Co-ordinator of Tutorial
Services

On a similar note, Joseph R. Jones, Department of Spanish and Italian took a class through the M. I. King Library, and submitted a letter to each of the following people:

- Joan Davis, King Library Press
- Judy Fugate, Collection Development
- Barbara Hale, Government Publications
- Hank Harken, Reference
- Roxanna Jones, Interlibrary Loan
- Claire McCann, Special Collections
- Judy Sackett, Periodicals/Newspapers/Microtexts.

Although there isn't space enough to reprint all the letters, Roxanna Jones' letter is representative:

Dear Roxanna,

My class and I thank you for the excellent introduction to the interlibrary system. It is always a revelation to them to see how much time and effort goes into borrowing one little article. You'd think that educated people could figure it out for themselves! But I can well remember how furious I was as a graduate student at Wisconsin that it would take weeks to borrow obscure Spanish pamphlets and little-known-microfilms. I wonder if I was nasty to the librarians as some of my colleagues are now.

In any case, your remarks made a great impression, and the demonstration (especially the little exchange of information with the OCLC headquarters) left them much humbled -- I think you will find---appreciative of our excellent Interlibrary services.

They see how dependent I am on your work, and I hope that when they go out on their own, they will find such a good group of librarians as I have to work with.

Yours truly,

Joseph R. Jones
