

See the great Newton, He who first Survey'd
 The Plan, by which the Universe was made;
 Saw Natures Simple, yet Stupendous Laws,
 And provid the Effects tho' not explain'd the Cause.

O wondrous Man! in whom the heav'nly Mind
 Shines forth distinguish'd, and above Mankind:
 Whilst here on Earth, how humble wife and good!
 In Heavn a Star of the first Magnitude.

Sold, by G. Bickham, Senr. At the Strand Coffee-House, near Catharine Street; and by the Print-Sellers in London and Westminster.
