

Fred. Jeffrey has not arrived yet, nor have I heard exactly when he is coming, I suppose he is waiting to help at the moving into the new house. I am writing to William today. I have not heard from him for three weeks.

I am kept right busy at Cincinnati just now, but have not started any paperlaying in Lexington or Newport yet. I must get to work on the new benches & pulpayers pretty soon, they must be in operation by November.

Tell the Major that since he is disappointed in Ashcraft's company, he should come over here to attend the meeting of the St. Georges Society tomorrow night. By starting in the afternoon train he will be soon enough for the celebration. I have not been invited, nor do I know many of the members, but I believe I will go to see how they get along -

Love to the girls

Yours

John Jeffrey
