

Oakland 6th July 1833.

Dear Henry

Enclosed I transmit a letter rec^d at the post office in
keep for you.

I was glad to learn from your letter of the first inst.
that you had got home safely.

Lexington is now almost entirely clear of Cholera. Our
family and ours continue healthy, and exempt from the Pestilence.
I am afraid that it will visit you in Louisville, in which case
I shall regret that Julia and you are not here. When we last
heard from your place all were well there.

Yrs ^{affectionately}

H. Clay
