Messrs H. C. McDowell & Son
Gentlemen,

Yours of 1st inst duly received & noted. I would like to buy "Tact" or a foal from her, but suppose to price her would be followed with figures almost prohibitory, would you kindly ask them to price her to you if it comes convenient, my filly "Dambould" gives me every promise of trotting the coming season very fast. She is doing nicely is being jogged & will be all this winter, she is in good health stands 15 hands 1 1/2 high - my intention is to give her a 3 year old record of 2.30 if possible & I think she will do it, a last season she could trot to a heavy road cart out slow track quarters in 41. seconds without any trouble or special fitting, Would it be with your approval to breed her to "Aristocrat" her half brother almost twice over; is not this too much inbreeding? - but with two good individuals as they are in size & physical formation where is the risk? -

The "Alcantara" people want me to send her to him, I am sorry to learn that no more foals from Dictator is expected.

Yours truly
Fred E. Perkins
