Minutes of the University Faculty, July 30, 1958

Professor N. R. Elliott presented resolutions on the death of Professor A. J. Olney. The University Faculty moved adoption of the resolutions and requested that they be included in the minutes and a copy be sent to the Professor's family.

Albert J. Olney

Prof. A. J. Olney, head of the Department of Horticulture, died unexpectedly at his home on Tahoma Road, on Sunday, June 29. He was 70 years old on April 15, but due to his teaching was requested to defer retirement until July 1.

Born in Fremont, Michigan, and educated there through high school, he then entered the Michigan State University, where he received his B. S. in Agriculture in 1913. Following his graduation from Michigan State, he taught agriculture and science in high school at Greenville, Michigan, for one year. He was employed after that as horticulturist at the Lyndonville, Vermont, Sub-experiment Station and continued there until 1916 when he came to the University of Kentucky, College of Agriculture, as horticulturist.

Prof. Olney completed his work for a Master of Science degree at the University of Chicago in June, 1925.

In April, 1930, he was made head of the Department of Horticulture at the College of Agriculture and served in that capacity until his death.

During Prof. Olney's administration as head of the Department of Horticulture at the University of Kentucky, College of Agriculture and Home Economics, horticulture made a steady growth and today the work has national recognition.

Prof. Olney was very thorough in all of his work and his counsel was sought on many committees in research, teaching, and agricultural extension. The three divisions of work which he headed required his constant attention to the research in connection with fruits and vegetables, the teaching program in the College, and the supervision of the extension work in the field.

Prof. Olney was a member of the Second Presbyterian Church, the Alpha Zeta, Sigma Xi, Gamma Sigma Delta, American Society of Horticultural Science, Kentucky State Horticultural Society, and the Kentucky Academy of Science.

He will always be remembered for his kindly manner and genuine friendship not only to the students and those who worked with him, but to all those who knew him. He had a way of instilling a love for the subject he taught, and many men in Kentucky today owe their fondness for horticulture to his teaching. His interest in all phases of education made him a friend of most of the University staff, and his contribution to the University over the many years he served would be hard to equal.

Minutes of the University Faculty, July 30, 1958

Prof. Olney is survived by his wife, Lydia, and two sons, Charles and Robert, both graduates of the University, the former in Engineering and the latter in Pre-Med.

It is recommended that these expressions of respect be made a part of the minutes of this body, and that a copy be sent to his family.

The Faculty adjourned.
