My dear Gibson:

I have just received a letter from you this morning & note that you and Addison are leaving soon for your "Seats of Learning". Take it from a hardened old "grad" that he envies you both.

It was just twelve years ago that I entered at New Haven and while the physical appearance of the college has changed greatly since then I don't believe that the spirit of the place nor the curriculum have

changed to any great extent,
except so far as to keep
pace with the times. It is
not a difficult matter to
get through the exam. or any
other school exam if you
will do a reasonable amount
of work and apply yourself
while you are working.

Application and concentration
will do more to insure you
a diploma than anything
else in my mind. Except
in the case of very rich families
the education of the children
usually represents a real
financial strain so that

It becomes the absolute duty of
the children to give a good
account of themselves. I hope
that you will try for the
Gymnical Club and also
for some of the athletic
teams as even if the
trials don't bring forth
successful results they
will serve to increase your

Dear John

Be on my mind, people these

an accumulation of years, years full
of sacrifice, interruption, & hope

today, you should have many friends at
Rochester Hall. Of course you had a
good time. The Mother continues poor

he is induced to go to Helena in February for
the Annual Meeting of the Company - By
the way I found August Papie's this his

This gave to me & I am candid - I am glad to
give to one of your boys - your father sent

tisfying, it is a commodity of the way, you can
please go any of the Cigarettes - I can
- I shall tell you to stick to your pipe &
a steady smoke, Cigarettes will do occasionally,
but not for a regular habit - The storm in
Florida knocked Hart's garden in to the
St. Johns River another piece of bad luck
not calculated to make - I am

Dear Mother - I don't you a wire in

an important work. This same, proposed

of course something has been accomplished
it is all tedious & distressing. Rudall is
quite his mother - he is a much improved

but I necessarily keep my eye on them.
I am much obliged for invitation to Peter

it will come to a close, it is so oppressive

November or this winter, not to be returned
in the Spring. The State has been going on

Dear John -

We are just about to "break

tomorrow night for Washington
while Walter & I are arranging
to get away Monday night - if
so long we are in Minneapolis
Wednesday morning - We are all quite
ready to come out in grey -
While yesterday I had not been

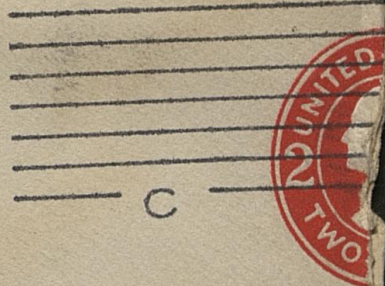

off the place except to the Secretary.
I am supplying the Yellow bed, a Washstand
some chairs etc - just a few articles -
Who should appear at Charlie Anderson
the other day - Fortunately for the
Mulligans I have taken care of him
which quite pleases him - Kathleen
is studying the Focusive Case with
great exactness - She is very pretty but
tho' so commonplace - "A nice girl but
too bad she spits" In a letter from
Admiral he tells me of the sudden death
of Laurence Francis of Detroit - What in
the world caused it - Was he in New
Haven? I am indeed sorry to hear of it
relating that he received the Wing Cup
on Graduation Day - His pitiable
little sister I have thought of so often
since I heard the news - How her smiles
& merry way may suffer a sad -
sub-vidence - I am sure Clem Brown will
feel a sympathy for her now - He
look for death in the aged but when
sable pall covers her the younger one

Some difference in Paul's retort to
life in general or here or in
particular - I remember see to the
Nees or the Roman - keep a
hand-ful of love - and yourself
I God bless you -

You must have a few Amice in

most others - she is in town - This month

Secret Men

I am not so sure of this
teaching you for Thanksgiving
but you taking chances, as
I know you will be with your
young friends. I have been here
as long as I can since my return -
have suffered greatly with
neuritis. Last night I slept
fairly well & was the winner
today this morning. Your
Grandpa appeared yesterday

after being two days under cover in
Saint Paul. He is certainly peculiar
in that respect - your father was
much put out & I cannot blame
him, but I asked him not to show
that he felt any surprise - it is the
only way to treat it for the best is
not nearly so keen when one expects
not to expect anything else - In
this respect I have made the mis-
take of expecting from other M^rs
in the Conventual & established

rules in anything - I expect nothing
of them nor in consequence
offer no praise of any description
Cappa looks very well & seems healthy
strong & alert - a weakness in his
head is about all that indicates
he is an aged citizen - He seems
not to have felt the Colonel's death
very much - He had seen practically
dead so long - your father is to represent
your grandpa in the Bears Den
Annual Meeting - his profy or the share
of stock will be put in his name

Jim father had study, long,
to the gate - toward - I think
Harden - he enjoyed it very
much - there were a number
of St. Paul men who greeted
Jim father so cordially he
seemed much pleased -
They of them asked for
copy of old Ambrose Hyde
specimens - The Murphy's came to
Lynchburg last Thursday - they were
mile - free of their trip to London &
Paris - a very interesting journey -
Jim father has sold the Adipon
& Craps, both gone by the
time I was on the scene - this
harvest amounted to two hundred

An visiting in the attitude to
remain for the cold season
when the price of coal
is high - should Cappa & Tom
go to California - they will be
in charge - Jane is nearly
two years of age but can
only speak the word "tickle"
if she demands water, it is
"tickle" - tickle this & tickle
that, until she is tickled
to her satisfaction - Jim Cappa
seemed at times impudently
with her back waddles -
I asked if she had added
"pally" to her list - of words -

Thanking the shall have Alvin. Peter
Anthony Bradford his mother Mrs. Fort
Coffey etc etc. etc. etc. all the
things you boys could be with etc.

May, Gellman Mrs. set you aboard
Paul as she went with last year this
to the apartment above & remembers
you very well. Katherine Charles is
launched & Miss J. is also a
celebrated - Josephine Glass has
also much upon the social life -
She is not far from etc.

The Yale Glee Club appears here
December 2nd - you father asked
how many tickets you boys would
want - I thought say - you might
manage a little dinner here & then
go to the concert - Admire right - the
to ask some one to - but let the dinner
if you happen to pass any of the men
next year if all goes well it would
be nice for you to inaugurate the Club
at the street & County the way - I shall
be there going at 10 Can capture you

Close of school. See a bit of the
country on the other side - It
is practically settled in space
abt & time to the Willows -
It has become rocky abt a
decent for the summer. I think
your father is very busy
the last part of the season.
Walter & ph - is good abt of
it - or I have picked - I have
in time to hold on delaying. When
you boys can have your friends
winter & summer for a month
somewhere in the East or Canada
during the heated time does not
a camping trip can always be

Dallas - Prince is looking fine
of course it was but of the
question his going for a
day. I am trying desperately to get
him out to some game - It is
rumored that Prince is selling
Rocmont. He has to leave definitely
in a day or two. How nice for
you to have him spend Sunday
& take in the game. You
father was out Dallas for
help of Chicago - better on the
Blue of Cowke - You mother
is in New York abt 527 - West
116th Street. She has been hoping
to see you boys. I am waiting for

that no doubt you will hope in May
the Easter or Spring Season - just how
it is rather hard scratching - & it will
be something of a high hurdle to get
home for Christmas & back again
a trip to New York generally, means
a little cash at command & I have
a horror of you boys borrowing it is
such a dreadful habit - to begin
I trust you will never form it
Maud is well & chippy - Reginald
to him signs of being spoiled - it is
a wonder she is not worse - She thinks
that I am an institution established
for her own benefit - her exclusive
benefit - I should say - She & Fizzie
cannot get on - Fizzie of course
making no effort to do so I am simply
going through the mill & in May the
boys go home for vacation I think
I'll make it indefinite - I must go
to Sydney in May to finish up our
tasks - & I have been hoping that your
father would take the machine home
1st - Ann & have you boys join us at the
