the will not be in No. 2. before 15th Jan^y
& probably not then. As I presume
you will be in New York in about a week
I have written you a note in my pocket
which will be of some use to you.

My dear friend
Boston Nov. 28th 1840

I have not been called on by Messrs. Sumner
& Bennett to say - that they could not possibly
pay more than 1800000 on the note which
I endorsed for them, but that the balance could
be paid in 60th. I told them I had no
control whatever over the bill, or note - nor
could I take in cases where it was. They of
course were disappointed at the idea of buying
me under protest, and believing that your
interests would be best promoted by issuing
for 3000000 of 60th. I agreed to endorse their bill
for that amt. so that they could receive for
the amt. of the note in full. I had expected
the whole bill to meet its maturity, but
if it should not - and I should have endorsed
again for one half. you would not have
been left - as it is done to save your
interests. I think it is the only way in
which you would be able to receive.
They are truly honest men, & wish to do
right. You will know the sum of the whole
amt. of note & amt. of gold & feel confident
you will see to call on for another
sum. but I wish you to hold me
harmless. My great thanks
Yours truly
G. D. Sumner

Wm. T. Church Esq.

Town

My Dear Sir
I enclose a letter for Mr. T. Clay,
which you will read, & desire to know
if requisite.

My apprehension is - that we ought to get
a first rate article at 8 & 1/8. and the object
of sending the letter to you, is to get you to
do me the favour, to see if a merchant cannot
be made at 18 & 8 say, also 17 & 1/2 in New
Orleans. I write not content to buy 17, but - as I
have been very ^{to} to make - about 17 & 1/2
per cent. If Mr. Clay's bargain keeps an out
good - I would not have been into any business,
and I leave you to decide on the quality, as well
as the price - seeing to Mr. Clay the best price
for a similar article at New Orleans, you can
also at 20 & 8 say, also 17 & 1/2 in N. O. if
you can't do better. - I desire to close a new
trout early, and not see any out market with
Mr. C. I will answer a number of the claims
for I wish them made soon, if practicable.

Yours truly
W. T. Church

March 31st 1820.

The amount of your present - will not justify
high prices for any thing a planter has to cut
use - or use.

My dear friend

I have rec^d. your letter of 5th inst. and cannot refrain from acknowledging it - for the purpose of returning you my views & hearty thanks for your prompt - kind - & friendly & generous offer. If I should need the records of the sum^t of my bill - I will notify you in due season.

I have sold my property near Frank-
-fort - Penn^a - and I hope to be able to effect the negotiations - which were desirably the more to be desired by the help of my views & offer. If I should fail in my negotiations - I will apprise you.

I hope I shall not have occasion to make any further change in my order for Prussia & Hops.

There say to Mr. Clay - that there will be 200 casks here - to supply the order for West. Lint. - for W. C. Cornum & for S. Dennis - not less. And at P. G. bus - enough for the order for West. Lint. leaving the rest due of the order to be filled

I have rec^d your letter of 19th ult.

It seems to stand on the 5th basis.

You were here last, even this winter, and you
think the vote of that state will be cast for Hain:
and Tyler. And it is my belief - that if the
business operation is made in N. Alabama, some
will be cut down to 3 states & probably 2.

I think L & K's vote will be held
if not in full - at least in part - and I
hope you will get the balance without
loss. And I think, you may consider yourself
fortunate, that you have received so much in
rewards.

I thank you again again for your attention
to my continued work in N. York.

I will take my family to N. Orleans
in Nov. or Dec. - to keep a fair sight in
them market. I will let you know the
time, as soon as our friends can see:
them. I will be happy to see you then.
I shall need to see you here.

Our votes were in better than 9 parts:
of 10 - in Sept. - but the whole scale of
the state will be 1/2 short of last year.

my dear Sir
I recd yesterday your letter
of 29th

you may expect Mr. Clay
proposing as the best terms you can
obtain us to scribble ourselves, as best
we can, hereafter, with the embargo.
I refer you to my letter to Mr. C.
for an acc^t of the utter destitution of
our city. My opinion is - It has im-
paired the benevolence of the slaves,
and it only wants an over flow -
to give to the colony of men by the
whole state. and this latter calamity
is now as certain, as any thing can
be - that has not actually been
said.

I fear the embargo of Mr. C. is more
nearly seized. I have the people
from my plantation - except one
returning it to the hands of H. P. Dunning
thinks so. I will do all I can to
make the help as much as help;
but I fear under the recent
favorable circumstances the help
will be considerable. H. P. D.

I am heart sick of the gloomy
prospects before us. I feel for the
community. for their trials & their
troubles are great. - I fear our friends
L & M. will be excused. There is
scarcely a vestige of this business
left. & all their goods are expended
to the warehouse. It is now clear that
we have tried to work business since
which must have damaged them very
terribly.

Our own flow being very cautious -
I must beg you to send only half
the quantity of paper & baggage ordered
for H. M. Challenge. W. S. Clark
& myself - determined at Hitch
sons landing. - I think I should prefer
to let them proceed, as the best
ship - for they will not know
he landed. - & the prospect is - they
cannot be, before June. when it is
hoped the rains will fall.

I write rather long Probs reports
from the magazine - then take indef.
amount who work it. I will take of
the general news here - as much of
it as may be found to be useful.
(if there be any) at 8:00 - but to cut

price. - But I think you have done
on every No. will be some time

Let the proceeds that are due to
Witcher - the same sent to H. P.
Porter - I think I'll expect the bank
for the estate of Lewis - which
may go to A. L. Wilson.

There is not a house, & scarcely
the vestige of a house, left at

 I would be willing to give at that rate a

My dear Sir
I have been thinking on the subject of the
of the matter in the contract for Mr. G.
Bragg & Co. - some of the 18 items
Bragg sent as a sample. most of these
condempn. at an average ten times the value.
I was told he was not to be such a bargain

such differences myself. I was in no
price to him at any price. &
I am a true of the Genl. object to the

this moment requested H. P. Foster:
I want to see to know these Genl. who
was known to Mr. G. & personally friendly
to him. To ascertain the value - & if
the differences in value - better it be it would
be - & as it seems necessary to the Genl.
This I think he is the best course. Mr. G.
will have some thing - but he may have
himself for himself. That he did not have
the whole of the Genl. say -
they would not have at any price.
but I think they will change their

My dear Sir
I have just recd yours of 23rd ult
and have had an interview with Messrs
Linn & Co & Brewster & I have offered to
assist - for the balance due you - on
assumption payable in 100 - 150
1851 bearing int. at 6 per cent. I was
sure, if they were sure in good bills,
it will be better than I could expect
of them. You can form no idea of
the difficulty of collecting. There is
nothing current here, but the notes of
the 1st & 2nd Branch - & they are 35 per
cent. to 40 below the specie standard.
No debt is paid at all - unless any other
currency is insisted on: but I have
this day (almost every day) - 1000
as D. V. payable 11 & 12 not sold
at a premium of 14 per cent. 1000
settled with bill yesterday, at that rate.
I offered you funds of an undoubted
bill at per. payable 10th Sept. next.
but could not get it. I have Union W
P. notes for the amt. due you - but
in my last letter - but they are 25 to
34 per cent. below specie, or better

on An. O. at 36th date. But - as I can see
your favor - can long - in key to him -
I will give my best as N. O. hospital
15th day of next, at per. for them - if I
can do no better for you - though I re-
sist in anything than for you. I think
the balance struck by L. & L. is about
4000 \$.

you can form every little corruption
of our degraded condition here, we are
under the Gov. of black guards, & reser-
vity & nothing seems to be doing
nothing. Two are worse than the 7
was ever, & with much less hope
of ever getting right again. It is a
situation subject to me. & I will dis-
miss it. If I could do more of my re-
party - I would give the state.

I think every day's experience will tend
to satisfy you of the soundness of the plan
I mentioned to express to your best
wishes looking - in relation to banks
& bank stocks. But in truth, no
species of property is secure here, and
he is wise, who will make his
money to be the value of his life;
party would not help - & his income
in the same proportion.

- I find the whigs are just to surround
Tory, & take in their feelings & desires. They
are so ready to adopt a new ground
as they can give us an old one; and they
can abandon all principles, for the
sake of availability. - I confess, I am
not a whig now. I was not even for
the Whigs, but others are casting me.
I am with the Tories & the Tories with the Tories;
I begin to think that is about as much
possible in our party as the other. I
wish I could see some of the names of party
again.

I perceive, you will see the necessity
of our execution. They are thought by
black guard - & they are well suited to
the views of our views they committed.

My family enjoy pretty good health
now. Cheerful & able enough in good
deed - but not so much as the old
time would be.

My regards for Mrs. Deane

I am yours sincerely

I again thank you for your very kind
and prompt offer, to protect the sum of my bill
in case of default of the bank - I find I shall
be able to meet it without difficulty - I am
much obliged - and the help thank you for your
generous assistance -

Our cotton crop will be very short - the
product - even for years will be much less
than that of 1839 - and there has been a large
consumption; of set left this winter before the
abstraction of funds - by recourse to Texas - in
15 or 20,000 bales. But it would be safe to estimate
the crop at 1/3 less than last year. If there be a
depression in the same proportion - in other letters
written - the whole crop of the U. S. will not reach
1600,000 bales. I think it is much more likely
to be under 1500,000 - than over 1600,000 - But
there are speculations - in which you feel no interest -

New-Orleans

My own wife will be 1200 bales & probably 1400
less than last year.

The news of nothing here but potatoes. There
is much excitement. but I don't think the thing
of West. can be any more - as well organized
as the Democrats. It is highly probable the vote
of the state will be cast for Gen. Harrison. It
is not clear at present - some say
that it will go for Gen. Harrison. The
vote for Harrison I don't think myself to give
the Rep. Club. I am opposed to take stock in
the Union club of Robinson. Don't do the
Democratic club of Ross. Jefferson. (Don't know
of the country) don't do the Hickman club of
Jackson & the Tippecanoe club of their own.

What do you think of the present excitement?
It is my opinion. that some but a military man
can handle the case - look some up, to the President
Gen. Scott. or Mr. Benton. in the same way
deducting will be my right hand I think
the best of your President for of the present
situation is kept up. we must some in the
with a military department. This would
you like it? who would be more in
part - I would prefer it.

The health of our city news was better. but
on the plantation - in every section of our country
there has been much sickness.

Respect for your friend
yours sincerely

my dear Sir

I write you a hasty line on the 28th ult on the subject of the note of loan drawn & received. I now write - to say that I have sent the remittance direct, but that the bill for 3000⁺ exceeds I see: done, will be paid at maturity: as that, you are a happy & rich of Mississipi without loss. I am satisfied if the contract had managed properly - this paper would have been saved. If you had done as others, - related to the case for the collection of your money - I am sure your loss would have been considerable.

Do you ever see or hear of - good 3 years old needles being offered for sale? I want 22 to 25 good 3 years old. These are rather of the best & generally used in this market. Indeed, there have been but few here, the brokers being afraid to sell to our people, have gone generally to Louisiana.

I wish you would let me know at your earliest convenience - at what price I could purchase - and will be bound thereabout at Louisville - 25 good 3 years old. If it is an object, I could send a confidential agent amount up for them. I see, now, the 7th or thereabouts? not less than 8 to 10 per head. - I could want 1500 at my plantation on the river. & the remainder at Antioch. & I would pay for them by bill on the 1st of the month.

Will you be kind enough to write me on this subject.

Yours truly

my dear Sir

I write you a hasty line on the 28th ult on the subject of the notes of Sam Wren & Keenutt. I now write - to say that I have not the remotest doubt, but that the bill for 3000th which I see is closed, will be paid at maturity: so that, you are happily rid of misapp^r without loss. I am satisfied if the creditors had managed properly - their losses would have been much less. If you had done as others, - resorted to the courts for the collection of your money - I am sure your loss would have been considerable.

Do you ever see or hear of - good 3 year old needles being offered for sale? I want 22 to 25 good 3 year olds. There are none of the best quality now in this market. Indeed, there have been but few here, the brovers being afraid to sell to the people, have gone generally to Louisiana.

I wish you would let me know at your earliest convenience - at what price I could purchase - as many as you could get at Louisville - 25 good 3 year olds. If it is an object, I could send a confidential agent to see for them. I see you, the 7th as they are? not less than 8 to 10 per head. - I would want 15th landed at my plantation on the river - & the remainder at Hatch. & I would pay for them by bill on the 1st of the month. Will you be kind enough to write me on this subject.

Yours truly
