Maryville, Mo., July 28<sup>th</sup> 1875

Dear Mother -

I think Annie is better to day. The Rheumatism however changes about from place to place - was first in her feet and ankles then in her knees next in the hips and now it seems to have left those <sup>somewhat</sup> parts and gone to her elbows and shoulders. We hope she will soon be over it. Will keep you posted daily about her condition till she is well.

Affectionately  
S. L. Craig Sen
