SUMMER SESSION BEGINS JUNE 12

Approximately 275 Courses Are To Be Offered in Thirtieth Summer Session of University

Through its six colleges and the graduate school, the University will offer approximately 275 courses during the 1933 summer school, which will begin June 12.

The director of the 1932 summer session, Dr. Jesse E. Adams, will again have charge of the school, which is the thirtieth that has been held by the University.

Friday, August 18, has been set as the date for the fourth annual summer school commencement for students completing their work for degrees during the two terms of five weeks each.

This year an extra-curricular activities program has been arranged, which will include the regular Wednesday afternoon teas given by Doctor and Mrs. McVey, the concerts of the University band, the various faculty receptions, the all-University picnic, special lectures and convocations, and a laboratory play to be given in the Guitoung theatre, under the direction of Frank Fowler.

Copies of the 1933 summer session bulletin may be obtained from room 116 in the training school building. This bulletin contains a schedule of recitations and laboratories, requirements for entrance, and other necessary information.

Dr. A. W. Freeman, professor of public health administration at Johns Hopkins University, will be the principal lecturer of the second annual school for health officers, which will be held July 12 to 15 inclusive. This school, which last year attracted 27 physicians and 28 nurses, will also have on the staff Miss Margaret East, registered nurse with the state board of health; Dr. J. S. Chambers, head of the department of hygiene and public health of the University, and several other members of the hygiene staff. Nine courses will be offered during the school, seven of which will give graduate credit.

The University summer session will also offer a group of courses for Kentucky relief workers in the sociology department, under the direction of Dr. Harry Best, head of the department. Complete information regarding these courses and others in the department may be obtained from the offices of the summer session.

Following an edict of the southern association that library stand-ards must be enforced with the beginning of the 1933 fall term, the department of library science has planned sufficient courses this summer to meet the requirements for librarians in the various high schools.

And watch this VITALLY DIFFERENT food take the tempus verum-nalad foras (spring fever, m'lady) long and lively!

TURKISH TOBACCO

comes to this country in bales. The leaves are small and tightly packed. Each bale contains about 40,000 leaves.

DOMESTIC TOBACCO

is stored in huge wooden hogsheds. Each hogshed contains about 1000 pounds of tobacco.

A flavor that neither possesses alone

Early in the 17th century, tobacco seed from America was taken to Turkey. Different soil, different climate, different temperatures night and day, and different farming methods produced an entirely new tobacco—small in size, but very rich and aromatic.

Greece; Samsoun and Smyrna in Turkey. And it is principally from these places that our buyers get the Turkish for Chesterfield.

These Turkish tobaccos are blended, in just the right amount, with Domestic tobaccos. It is this blending and cross-blending of just the right amount of Turkish and Domestic tobacco which gives Chesterfield a flavor that neither possesses alone.

INTRAMURAL

Due to continued inclement weather, intramural spring sports have been at a standstill for more than two weeks. Hakef has decided not to set a definite date for the matches to be played off until he is assured that some good spring weather is in prospect...

Diamond ball has gotten under way and some of the teams are expected to play during this week. It looks like the A.T.O.'s have a good chance of winning the cup this year as well as the S.A.E. and S.X. The A.T.O.'s were fraternity champions in diamond ball last year and as they have just lost the same team again this year they are going to be hard to beat...

Fencing is the only intramural sport that has not been started, but it is expected to begin within the next two weeks. Fencing may prove to be the deciding factor in the race for the cup this year as at the present time the S.A.E. only have a lead of 121 points over their closest fraternal rival, the Sigma Chi. The cup is not "in the bag" yet, however, and whoever wins is going to have to work from now on out.

Standings up to Date: Sigma Alpha Epsilon 448, Independent Athletic Club 461, Sigma Chi 462, Alpha Tau Omega 339, Alpha Gamma Rho 277, Phi Sigma Kappa 228, Kappa Alpha 199, Kappa Sigma 183, Phi Delta Theta 126, Phi Kappa Tau 126, Lambda Chi Alpha 126, Alpha Sigma Phi 119, Delta Tau Delta 117, Pi Kappa Alpha 90, Delta Chi 87, Sigma Nu 87, Triangles 31, Campus Club 30, Sigma Phi Epsilon 24
