## Counseling Center short on personnel

By VICTORIA MARTIN Staff Writer

Although UK's Counseling and Testing Center is supposed to be able to provide full-time students with personal and vocational assistance, the center is grossly understaffed to serve a campus of the University's size.

The center employs a certified chemical dependency counselor, two learning skills instructors, four support personnel and six licensed staff psychologists, according to Linda Hougland, Counseling and Testing Center administrative assistant.

But to serve the campus more adequately the center needs a staff about twice that size, Hougland said.

about twice that size, Hougland said.

"We should have about 12 licensed psychologists," Hougland said. "According to a University of Maryland survey, our staff is about half the size that a university this size should have. We need more of a staff, but we feel that our services should be free of charge. Our goal is to provide as many students as we can with free private counseling and career help."

The Counseling and Testing Center is funded by the Office of Student Affairs, but center officials said they need additional financial support to be able to expand the center's services,
"With the facilities we have now

"With the facilities we have now we could house a few more psy-chologists with increased funding," Hougland said. "We are asking for renovations, but staff is our main

priority."

Nikki Fulks, assistant director and a staff psychologist at the center, said additional funding would

enable the center to offer a training program for psychology graduate students. The center offered a training program a few years ago, but it was discontinued because of a lack of staff.

"The good news is they've just added a position for a new staff psychologist that will be hired near the first of the year," Hougland sait. "This means that we can see another 20 to 25 students a week, and that is progress."

Although the center will add another staff psychologist, funding problems have forced center officials to limit each student to 15 sessions per academic year, Hougland said, Some students are referred to long-term counseling, either on and said, some students are referred to long-term counseling, either on campus or to private services, for additional help. Michael R. Nichols, director and

Michael R. Nichols, director and a staff psychologist at the center, said although the center is understaffed, he is pleased with what it offers the campus.

"I'm really proud of our center," Nichols said. "Our staff is dedicated and creative, and frankly, they work too hard. I'm responsible for making sure they (the staff) do their jobs, but with this staff; I have to tell them to do less."

The center's staff serves about the same number of students as fully staffed universities similar in size to UK, Nichols said.

During the 1987-88 school year,

size to UK, Nichols said.
During the 1987-88 school year,
the center's professional staff saw
2,043 clients, Nichols said.
Last year, the center's outreath
program, which includes offering
workshops and giving presentations
to students, parents and staff,
in-volved 15.860 people. But with a
bigger staff, the center could reach
more students, Nichols said.

Michael R. Nichols, director of the UK Counseling Center, and Linda Hougland, administrative assistant, stand outside Frazee Hal

Nichols said he attended a confer-Nichois said he attended a conter-ence of university and college coun-seling centers in Philadelphia, and he said other programs turn to UK's Counseling and Testing Cen-ter for ideas. In addition to free counseling, the center also offers The Master Stu-dent, a 12-hour, non-credit class de-

signed to help UK students and staff with time management, better note-taking and improved test scores. The program costs \$25. The center also offers a state-sanctioned DUI alcohol program, one of the first programs of its

## **Assassination Game** shot down by UK

By ALLEN D. GREER

Staff Writer

The controversial Assassination Game, which came under fire from campus officials last week for being potentially danagerous and disruptive, was shot down by the Dean of Students Office Friday.

The game was based on the premise that players were competing for a job in a powerful intelligence organization. To get the job, the players had to "liquidate" their competitors by thirting them with a projectile fired from a toy weapon.

Thirty-two people paid S3 each to play the game, according to the game's organizer, Rob Redmon, Seven had been "assassinated" by the time the Dean of Students office told Redmon to stop the game on Friday.

UK Police Chief W.H.

Redmon to stop the game on Friday.

UK Police Chief W.H.

McComas said last week that he was concerned about the safety of the game because police officers could mistake the toy weapons for real guns. McComas said he also was concerned about potential eye damage caused by the projectiles.

Dean of Students Doug Wilson said he told Redmon to end the game because it was "potentially disruptive" and because it "had no educational merit."

"Depending on the actions of the participants, the idea of x

"Depending on the actions of the participants, the idea of x number of people sort of turned loose on the campus to make their liquidations is disruptive, in my opinion," Wilson said yesterday.

Any student who disrupts UK Any student won distripts of the Code of Student Conduct and could be disciplined, Wilson said. Sanctions range from a warning to dismissal from school, according to the Student Rights and Responsibilities handbook.

nandbook.

Redmon, an advertising senior, said last week that he didn't think the game was disruptive because participants weren't allowed to shoot someone during class or at work.

"The concept behind writing that rule was so (the game) would not disrupt UK functions," he said.

Wilson said he also opposed the game because "it has no edu-cational merit. It has nothing to do with the University of Ken-tucky and what we're about.

tucky and what we're about.
"We offer a huge variety of
other activities — educational,
recreational, whatever — that
could easily be substituted for
this activity. Because of the
potential disruptive nature of this
game, we just don't need it added
to the array that we have available for our students."

Beddene neid they when he

Redmon said that when he met with Wilson on Friday to discuss the game, he offered to change the rules to make it acceptable to UK officials. But Wilson was not receptive, Redmon said.

"It pretty much sounded like it didn't matter what I did, how much I tried to conform. I couldn't play at all," Redmon said.

## Program promotes high school exchange

By ALLEN D. GREER Staff Writer

Kentucky Lt. Gov. Brereton Jones spoke yesterday to about 150 students and fa-culty at Lafay-ette High School during a ceremony com-memorating the school's partici-pation in an an

tra-state student exchange program sponsored by Jones' of fice.

The new program, which will award seven college scholarships, places selected Kentucky high exhect lives in a bette sheet for

places selected Kentucky high school juniors in a host school for one week, where they will attend classes with a peer who also is par-ticipating in the program. During the 10-day visit, the guest student will stay with the peer's family. The two students change roles when the guest returns home.

home.

Jones said he is sponsoring the program because he wants to break down the regionalism that he said prevents Kentuckians from working

together.
"I've found that one of our greatest problems is the fact that we've got different sections of the stat are very different and we atole that are very different and we don't always pull together," Jones told the audience. "The diversity of this state ought to be an asset and not a liability."

SWINGING AWAY: John Iracane, a business freshman from Owensboro, Ky., plays whiftle ball outside the Sigma Nu house yesterday afternoon.

## Study abroad fair gives information on travel

By JULIE ESSELMAN

Students interested in opportuni-ties to study or work in another country can obtain information

ties to study or work in another country can obtain information about UK programs and talk to students who have traveled abroad at the Study Abroad Fair today. Representatives from UK's study abroad office and several UK departments that offer study abroad programs will be available from 11 a.m. to 2 p.m. in 206 Old Student Center to distribute information and

a.m. to 2 p.m. in 200 Old Student Center to distribute information and answer students' questions. The fair will "show people the number of (opportunities) that are available." to study or work in another country, said Suzanne Kifer, UK study abroad adviser. "It seems a good way of kicking off the planning it takes to travel overseas." Students who attend the fair also can register for a prize drawing featuring a copy of a student travel guide and an International Student ID, Kifer said. Names will be drawn at 3 p.m., and winners will be contacted afterward.

Kifer said the fair is being held now to give students time to study the possibilities for traveling abroad and to plan for trips next

summer. There will be information on summer, semester and yearlong programs, she said.

There are several study programs in which UK faculty participate, such as the College of Business & Economics' summer program in Vienna and the College of Architecture's semester and summer programs in Vienna and the College of Architecture's semester and summer programs in Vienna and the College of Architecture's semester and summer programs offered by consortiums to which UK belongs, like the Cooperative Center for Study in Britain, which offers courses at Oxford, or the Kentucky Institute for European Studies, which sponsors trips to Austria, France, Italy, Spain and Germany.

The University also offers scholarships for study in Heidelberg, West Germany, and Deauvile, France.

Ted Fielder, chairman of the UK

France.
Ted Fiedler, chairman of the UK Ted Fiedler, chairman of the UK German department, said a relative-ly small number of students apply for the Heidelberg program, proba-bly because not enough students take courses in the German lan-guage or they have a negative im-age of Germany.

## Campus Escort Service ready for use with new route

By HOLLY HOUSTON

Despite a slow start this year, the Student Escort Service is operating again on campus, using the slogan "Don't Walk Alone."

The escort service, which was implemented by the Student Government Association in spring

1988, started about three weeks late

1988, started about three weeks late this semester because of printing and advertising problems and a lack of returning workers. Students who want to be walked safely to and from various locations at night can call for an escort, and one of four escorts will respond. The escorts work Sunday through Thursday, from 8 p.m. until mid-

night, continuously walking four separate routes on campus. Their paths include North, South and Central campuses, plus a stadium route added this year because of concern over the lack of safety around Kirwan and Blanding Towers and the Complex-Commons at night.

Excorts pick students up at the

Margaret I. King Library and walk margaret i. Ring Library and wais them to their destination, some-times making extra stops to get other students on the return trip to King Library. Sarah Coursey, SGA executive director of student services, said she wants to offer the service on week-

escort service as it is," Coursey said.

She said SGA had to choose be-tween running the escort service on weekends or adding the fourth route tween running the escort service on weekends or adding the fourth route to include the Commonwealth Sta-

## Race was not a factor, Wilder says

WASHINGTON — Winning by a margin of 5,000 votes of 1.7 mil-lion cast didn't bother Virginia's newly elected governor Doug Wild-

er.

He said last week that he didn't think that race was a factor in the closeness of the election, even though his white Democratic tick-et-mates won by wider margins. "I'm saying it (race) is not and was not a factor in the results because I was elected," Wilder said. The issue of race was important in Wilder's platform through the end.

"The people of Virginia have spoken," he told a post-election ral-ly. "Whatever it takes, that's what I want to win by." Indeed, Wilder pulled off his nar-row victory by not making a big deal about the fact that he was pass-

ing one of the remaining racial milestones as the first black elected governor in U.S. history.

But he didn't deny its signifi-

"It's an excellent testament to the people of Virginia, to the people of this nation, as to how far we've come in a very short span of time,"

said Wilder. "I disagree with those who said that race prohibited me from doing anything. Race played no part in denying me the opportunity to be elected. I have been elected by the people of Virginia. That speaks more eloquently than anything else."

Indeed, last Wednesday Wilder seemed completely colorblind. "I'm tickled pink," he said. He was willing to let others crank up the eloquence.

New York's newly elected Mayor David Dinkins said, "We passed another milestone on freedom's road."

road."
Wilder's low-key statesmanship on race seemed to be infectious. Rep. Newt Gingrich, a white congressman from Georgia who is the House Republicans' second-incommand, called it 'a good day for Americans when young blacks and other folks all over the country can look at a (New York Mayor David) Dinkins, a Gov. Wilder and say there is a future in America if you work hard and learn your trade."

work hard and learn your trade."
Wilder won with a tough, gritty whiter won with a tough, gritly and expensive campaign against Republican Marshall Coleman. It will be used by professional politicians not as a racial landmark but as a lab for examining the abortion issue. Last week Wilder brushed off the history-making nature of his elec-

history is for those who aren't going to be around for a while."

Maybe Wilder sensed that even the notion that a black has never been elected a governor seems somehow an anachronism in this day and age.
After all, it's been 120 years

day and age.

After all, it's been 120 years since Joseph Rainey became the first black elected to the House, 50 years since Crystal Bird Fauset of Philadelphia became the first black woman state legislator, 49 years since Benjamin O. Davis became the first black Army general, 22 years since Edward Brooke of Masschusetts became the first elected black senator.

After all, there are 23 black members in the House, and scores of black mayors.

When Wilder raised the subject of race during the campaign, he made sure it was in intimate political settings. One of those occasions was Oct. 4 at predominantly black Virginia State University in Petersburg.

"Can it really be taking place here in Virginia?" he asked in the voice of an amazed visitor. "Are they really going to do that there?"

In a final rally last week at the

Arlington County courthouse, Wilder was surrounded by the mostly white faces of the Demo-cratic power structure in Virginia, including Sen. Chuck Robb and Gov. Gendl Ballies.

But now, they were Wilder's tallisman of support. After all, Wilder, a millionaire, was The Establement Democratic and idea of the surrounder of the surrounder

lishment Democratic candidate, a man who lists his hobbies as

man who lists his hobbies as "bridge, golf and horseback riding."
Gone was Wilder's Afro haircut of the late 1960s, when as a mave-rick state senator he waged a fight against the state song. "Carry Me Back to Old Virginny," and its line that goes, "That's where this old drake's heart an longed to go." In 1989 was Wilder in a bright of silk tire, circin white shirt of silk tire, circin white shirt and silk tire, circin white shirt and the state of the shirt and the state of the shirt of silk tire, circin white shirt and shirt shirt or shir

In 1989 was Wilder in a bright red silk tie, crisp white shirt and dark gray suit, his pepper-and-salt hair a badge of 58 years of age, a successful career as a lawyer and his 22 years in politics.

Wilder's left lapel bore a tiny copper-colored battle ribbon, evidence of wartime service in Korea. In Arlington, there was a smiling Robb, forgetting his well-publicized fights with Wilder, hanging upon him the mantle of experience.

experience.
"He has more experience," Robb told the crowd, "than the whole other side of the ticket."

#### Counseling and Testing Center hurting from lack of funds, staff

Continued from page 1

kind in the country.

Vice Chancellor of Student Affairs James Kuder said he is examining ways to increase funding, but with the austere fiscal times the University is facing, it is difficult to find additional money, he said.

"The Counseling and Testing Center is a unique operation on his campus," said Kuder, who received his master's degree in psychology. "It plays a much more vital role on campus than people know. We are looking at new ways of funding the center, but the prospects are dim."

Possible solutions to the center's funancial problem include charging an additional student fee, charging fees for counseling services and getting outside grants, Kuder said. But Kuder said he is hesitant about resorting to such means, especially an increased student fee, because of the possible tuition increase students face next year.

"The Counseling and Testing Center is a unique operation on this campus. It plays a much more vital role on campus than people

James Kuder, student affairs

current staff, but after the center hires a new psychologist during the winter, the building will be full, Nichols said.

Nichols said he would like to keep all employees under one roof, but if necessary, the cen-ter's skills testing department will be relocated.

To prevent separating the cen-ter's employees, Kuder said there is a proposal to consoli-date student services, excluding sports and departments located in the Student Center. But Kud-Frazee Hall, where the center er said he is unsure if that will is located, is big enough for the happen.

# Jesus and Mary Chain explores its musical past "Happy When It Rains," which is from Darklands. The band has matured, however, and its sound definitely is more refined and not as weighed down with raucousness. With the new album, I expected the band to go in a new direction. Look what Love and Rockets did no its latest album — it created a sound totally different than before. And it worked. The ambiguous "blue" on this album represents two things. First, the album has a distinct blues sound to it on songs like "Coast to Coast." And second, the Chain did on this album what it does best write depressing love songs and haunting melancholic tunes about the disadvantages of living. Frontman William Reid seems to be one of the most depressed individuals to have ever written music. His predominant themes are sui-cide, as in "Blues From A Gun," when he sings: "The way that you feel, and you shake, shake, shake cause you know you'll never make it away. Well I guess that's why I got the blues", and twisted sexual innuendo, as in "Her Way of Praying," when he sings, "Deep on the scene she is waiting for me like a sin scraping skin ... it's her way of talking to Jesus."

For its new album, Automatic, The Jesus and Mary Chain used, as the old adage goes, something old, something new, something borrowed and something blue.

The 'old' reflects the sound the band used on Psychocandy, its first album, Psychocandy tended to be loaded down with guitar feedback and resonance and didn't say a whole lot. The best song on the album, "Just Like Honey," was the only one that didn't sound like all the others.

For the new album, the band has captured that sound without coming across as a group of Scottish postpunk brats let lose with a guitar and an amplifier.

across as a group of Scottish postpunk brats let lose with a guitar
and an amplifier.

The "new" is the sound that
comes out of the matrimony of
slow, droning tunes from the
band's second album, Darklands,
with heavy, metallic riffs from
Psychocandy.

Darklands represented a maturity
in the band. The band proved that it
had finally grown up with such
songs as "Cherry Came Too" and
"Nine Million Rainy Days."
Its third album, Barbed Wire
Kisses, was an eponymous collection of old material, B-sides and
previously unreleased songs. That
came closest to Automatic.

The "borrowed" is the way the
band borrows from the previous alburns. Automatic is a good album,
ti's sad to say, not much of
anything new. In fact, "Her Way Of
Praying" sounds almost identical to

## Ensemble feel carries 'Magnolias'

By JULIE ROWLAND Staff Writer

Most believe Southern belles vanished with the fall of the South. Although the hoop skirs and corsets are gone, the talent of the starring actresses in "Steel Magnolias" proves the feminine warmth, charm and strength of the old South are still alive in their rive vibrant characters.

The movie, based on the personal experiences of writer Robert Harling, is brought to life by the talent of Sally Field, Dolly Parton, Shirley MacLaine, Daryl Hannah, Olympia Dukakis and Julia Roberts.

Raw emotional intensity encompasses the story of friendship

Raw emotional intensity en-compasses the story of friendship which focuses on M'Lynn (Field), who has a differing opinion of how her daugher Shelby's (Rob-erts) life should be led. They become good friends with three other women who come to gether in a beauty parlor. The oth-er women provide moral support and take chances in their own lives strengthened by Shelby's de-termination to have a child. The film depicts human life beautifully with bold characters.

Dolly Parton, Sally Field, Daryl Hannah, Shirley MacLaine, Olympia Dukakis and Julia Roberts star in "Steel Magnolias."

Each actress puts so much of her-self into her role that they come off as being authentic human be-ings.

Although the story is centered on Shelby and her mother, the other characters of Parton, Hannah MacLaine, and Dukakis provide the strength of the movie.

Parton, who is of Southern de-

scent, is right at home in her role. Truvy is a natural, caring, country girl whose charm makes it easy for the other characters to tell their problems to her. Many probably can think of someone like her they know in their home-town.

The times and the times are the times and the times are times and times are times are

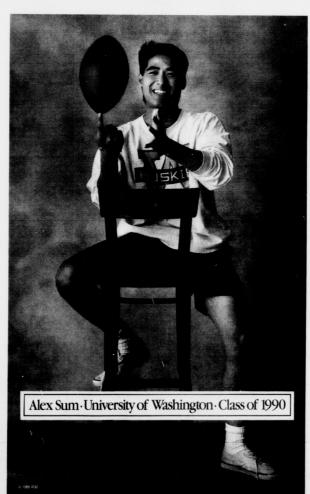

starts to see him.

The male co-stars in the film are Tom Skerritt, Dylan McDermott, Kevin J. O'Conner and Sam Shepard.

Sam Shepard.

Bringing that kind of talent into the emotion-packed story proves that the Southern belies who stood strong and went on with their lives like Scarlett O'Hara in 'Gone With the Wind" using a curtain as a dress, will never die but remain steel magnolias in spite of their hardships.

66I wasn't rubbing it in-I just wanted Eddie to know the score of last night's game.

Go ahead and gloat. You can rub it in all the way to Chicago with AT&T Long Distance Service. Besides, your best friend Eddie was the one who said your team could never win three straight.

So give him a call. It costs a lot less than you think to let him know who's headed for the Playoffs. Reach out and touch someone.

If you'd like to know more about other AT&T Long Distance products or services, including the AT&T Card, please contact your University of Kentucky AT&T Student Campus Manager or call us at 1-800-222-0300.

Hello, Student Counseling & Testing

Center, may I help

## Counseling center doing miracles with small staff

College is a particularly stressful time for many students. Many students are on their own for the first time, and they are forced to make decisions that they were used to other people making for them.

Getting good grades, deciding on a major or career and dealing with new social pressures are enough to cause many ts to break

At a university like UK, it often can be difficult for a student to have a problem resolved, especially considering the size of the student body.

But thanks to the efforts of the Counseling and Testing Center, UK students have always had a place where they could turn if they were having problems with a class, troubles with a roommate or confusion about which major to choose.

The center administers more than 30 national tests, offers individual counseling to full-time students and sponsors several study skills programs all with a skeleton class.

During most of this decade the University has been forced to operate with minimal funds. Although UK has done a good job covering up for the lack of state funding, serious weaknesses in the University's amor are beginning to show, and the Counseling and Testing Center is one example. A strong counseling center is important for a university like UK to have, but unless the state comes through with some funds in the upcoming General Assembly, a very important student service will have to suffer.

## Grades not only thing students need from college

lack of sleep and food can do for your energy level.

I had a 3.8 grade point average that semester, and by academic standards had almost attained the clusive, but widely sought, 4.0 GPA.

I remember rushing to my mailbox over Christmas break that year, finding the printout of my grades, and with my heart in my throat and adrenaline pumping wildly, opening the printout very, very slowly.

life is all about, right?

achieved after all, and that's what life is all about, right?
I'm beginning to wonder.
After 5 1/2 sensers of college, most of them like the one just described, I've started to question the value of grade point average.

GPA has come to represent something evil to me, like a punishment from the higher-learning flod who is getting even with me for the Saturday night I went damig two years ago instead of slaving over my statistics homework and urban folklore case studies.

The semester end is drawing near and I'm positive a 4.0 is far out of my reach this time around. The grand panic alarm has been ringing in my brain since Aug. 23, like my clock at 6 a.m. when I'm having a great dream and don't want reality to ruin it for me.

I've discovered some demovice in my brain telling me that a C really isn't the end of the world, and that I will continue to survive and be a productive human even if I make below a 3.5 and don't receive a letter from the dean of UK.
This voice also tells me to resent

a letter from the dean of UK

a letter from the dean of UK.
This voice also tells me to resent
the motivation and enthusiasm of
those driving themselves to achieve
the mark of academic superiority
this semester, especially if they are
relatively new to college and forcing themselves to abuse their bodies and enrich their minds for the
first time.

ies and enrich their minds for the first time. Maybe it's age, maybe it's wisdom, maybe it's suspidity. I don't have the energy anymore. Which has lead me to this question: How important is it, really, in the larger scheme of things? Some students flunk out of school and are happy. Others make average grades and seem to be well-adjusted also. Some choose not to go to college at all, and are probably satisfied with their lives regardless of their education level. I've also been told repeatedly that students with 3.0 averages are hired

## Contributing COLUMNIST

just as often as those with averages above 3.5 when they enter the job

above 5.5 when they commarket.

Professors and professionals have told me they tend to be a little suspicious of students who maintain above a 3.5 GPA throughout college because these students tend be a bit more socially isolated and introverted.

Take it from me, this is true for almost anyone who takes more than 15 hours of classes with a relatively hard schedule and a high GPA: it is a requirement that you forsake a social life, the opposite sex and any pleasurable activity while you are in pursuit of the 4.0 goal.

Unless of course you are a genius or acquire knowledge of your courses through the osmosis process while you sleep with your books under your pillow.

Further knowledge passed down on me is that employers will not hire someone with a higher GPA over someone with a higher GPA over someone with an acceptable GPA if that person has had a lot of social activities and shown leadership ability. Take it from me, this is true for

ship ability.

However, a high GPA is benefi-cial for those who wish to attend graduate school, medical school or law school and further their educaship ability

tional torment.

A high grade point average indi-cates that a student has enough dis-cipline to go to class, work hard and study hard and has set high goals for him or herself like I have.

It also looks darn good on a re-sume and does wonders for your

ego.

But, for people like me, who refuse to put themselves through GPA hell for a computer printout of capital letters ranging from A through E, the benefits do not out-

through E, the benefits do not out-weigh the time, effort and neglect of your peace of mind that is re-quired of a 4.0.

Honor societies, letters from the president and being a member of the Dean's List are still valuable to me, and I'm pleased that I've been able to experience all these things. I don't plan to lower my expecta-tions to include an average that is maccentable to me, or to beein

unacceptable to me, or to begin skipping classes and not studying for tests or turning projects in on

I do plan to enjoy the college ex-erience a little more and drive my-I do plan to enjoy the college ex-perience a little more and drive my-self to attain perfect grades a little less, while doing the best I can in school as well as life. After all, that's what life's all about, right?

## Responsibility Everyone talks about it, but few of us have any sense of it

I think that the 1980s should go down in history as "the decade of blame-shifting." Too few are willing to accept responsibility for their actions. A local situation and a national issue exemplify this distressing practice of scapegoating. Case one:

practice of scapegoating.

Case one:

If you can, recall the first time that you ever got blized.

Now, recollect your actions. Some were not too swift, like dropping your fifth up of preven on a person you were hitting on. Some were downright stupid, like driving yourself and your friend home.

I doubt that alcohol was forced

down your throat. In college, most of us drink with the intention of getting trashed, or at the very least, of getting a good buzz. Beer makes the campus so much more social. You lived with your actions—diverting your eyes every time you see that person you drenched or cleaning up the vomit in your parents why you need an advance on your inheritance (to fix the front end?).

On May 14, 1988, the pickup

On May 14, 1988, the pickup driven by Larry Mahoney crashed into a Radcliff, Ky., church bus.

He was driving the wrong way buthbound on Interstate 71.

Mahoney is charged with 82 crimes, including 27 counts of murder and one count of driving under the influence of alcohol.

Naturally, his lawyer is trying to have the least amount of blame directed toward his client so he will receive a reduced sentence. It is my understanding that the lawyer plans to claim that the structure of the bus was defective, which resulted in a more massive accident.

Had Mahoney not been driving after a few "good old boy" drinks, I doubt that this tragedy would have occurred, and this point would not be debated.

Mahoney did not kill those people purposely, but he did in-tentionally drink. Alcohol helped tentionally drink. Alcohol helped him enjoy the earlier part of his night, but it also decreased his driving abilities and caused 27, people to never again enjoy a bit of their lives.

I am afraid that time and a de-fense for pity will be easy on Ma-honey. I hope that the juros re-member that an individual is

responsible for his/her actions and accountable for the results of

A defective bus did not caus his tragedy in Carrollton, Ky.; a nan who drove after drinking did

Case two:

The November 1989 issue of Glamour published statistics from the most current available data and nationwide opinion polls" on abortion.

"Why Women Choose Abortion. Percentage of women who attribute their abortions to concern about how having a baby will affect her life: 76 percent; to inability to afford a baby: 68 percent; to problems with relationship/not wanting to be a single parent: 51 percent."

Pro-choicers claim that pregnancy is a women's choice. I agree, but she exercised that right by having sex.

by having sex.

I am not denying the fact that some women do not have a choice because they are victims of rape or of incest, but only one percent of the statistics indicated that an abortion was performed because of a pregnancy from rape. In another pamphlet, a California survey showed that only 5.6 percent of the women having abortions gave rape or incest as their reason.

Further, from The Challenge to be "Pro-Life" by John Lippis:

"Pregnancy resulting from crimi-nal rape is extremely rare (not to be confused with statutory rape be confused with statutory rape (minors) — sometimes statistics mix the two). — A study of 1,000 rape victims who were treated medically right after the rape found that none of the women became pregnant.

Every time a couple has sex, with or without contraception, there is the possibility of pleasure and of a pregnancy.

As disappointing as that may be or how hard we wish for the contrary, the latter is a real possibility.

We try to control nature, but we are not beyond its limitations. Abortion is the destruction of a natural creation.

I believe in the majority of

I believe, in the majority of times, abortion is an act of avoid-ing responsibility for one's ac-

tions.

Next to working well with peo-ple, potential employees boast of being responsible. This descrip-tion should not apply only to promptness, but, to a greater de-gree, to how one conducts his/her

So, next time you are applying for a position, think about how honest you are being when you use the phrase, "I am responsible"

## Math anxiety' is a common problem

Dear Counselor: All my life I've been a good student except for mathematics. I understand the class material and usually do the home-work, yet I really freak out during tests. Not only major exams — little ouizzes, too.

little quizzes, too.

Right now I'm putting off my required math courses, but I can't do that much longer. What can I do to overcome this problem? Beverly, Blazer Hall

Dear Beverly: Have you ever studied for a math test and felt sure the night before the test that you know the material? The next day you arrived at the classroom with a vague feeling of nausea, tensed muscles and an awareness that your heart was beating faster than usual. By the time the test was handed out you were perspiring, your

By the time the test was handed out you were perspiring, your hands were cold and clammy and you felt like leaping up from your desk and running out the door. But rational people don't behave like that — so you sat staring at those "strange" problems and experienced a mental block. Your mind refused to work and you felt frustrated, up-set and humiliated.

After you left the classroom an

## Counselor's CORNER

work those very math problems.

Work those very man proteins. If you have experienced this, you have experienced that anxiety. When math anxiety occurs, several things happen simultaneously. The mind says, "I'm bad in math. I'm going to fail this test." The body responds with fear, panic and tension.

The emotions respond to the an-

tension.

The emotions respond to the anticipated humiliation of failure—
all before you even begin the test.
It should be reassuring for you to learn that a majority of students find mathematics harder than other subjects. Mathematics typically takes more time, problem-solving practice and concentration to do well than many other classroom

practice and concentration to do well than many other classroom subjects — on a daily assignment basis as well as at test time.

Most people who have "math anxiety" at test time sho have it at homework time. They avoid studying math because they are afraid they won't do well.

There is a general human tendency to do the things we do well because there is a greater likelihood of being rewarded and to avoid things at which we are likely to be unsue-

cessful. Therefore, people often invest their time and energy in developing other academic areas, often at the expense of developing skills in

The theme here is that much of math anxiety is under your control. You can reduce it by using certain √Learn a good relaxation tech

VLcarn a good relaxation technique that you can call upon a syou need it. One strategy is to alternate-ly tense and then relax muscles. Note that muscles cannot be tensed AND relaxed at the same time.

As you learn the difference between tension and relaxation your awareness of muscle tension will serve as a cue that you need to relax. You create this tension and you can create relaxation.

√Carry a "Self-talk" log, Carry a "Vcary" a "Vc

you can create relaxation.

## Panel says China next to change

Assistant Arts Editor

Five months since the Tiananmen Square massacre in Beijing,
many Americans still are unsure of
what really happened June 3-4.

In a panel discussion Thursday
night two UK graduate students
from Beijing addressed questions
about the massacre in an attempt to
clarify and put in perspective the
events in Tiananmen Square.

"My friends told me that it was
not true that no one was killed in
the square," said Zhong Y ang in the
discussion, "Turmoil in China
How it Looks to Chinese Students," sponsored last Thursday by
UK's Patterson School of Diplomacy and Office of International
Affairs and Transylvania University.

"But most people were not

ty.

"But most people were not killed in the square but outside the square, blocking tanks. These were not students but citizens." Yang said. "The government isn't telling everything. There were several million people marching and blocking traffic to prevent (the) army from stopping student movement."

Yang and Jia-zheng Hong said

the Chinese government refused to release much information about the massacre and the events surround-

ing it.

The army forced itself into the The army forced itself into the square where students were protesting for democratic reforms, Hong said. But the Chinese government maintains that the soldiers acted in self-defense when they opened fire on the students, he said.

"I think the government is lying," Hong said. "The soldiers were given orders to shoot, to get into the square no matter what. They carry live ammunition."
Panelists said that the Chinese students had three main goals in the movement: freedom of the press, recognition of legal organization and open dialogue with the government.

"They wanted to reform the sys-

"They wanted to reform the sys-tem within the system," Yang said.
"The student movement developed into anarchy. It was not their goal to overthrow government. They wanted recognition, common view of their intention."

Yang said the democracy move-ment could have had more of an impact if it had been better orga-nized.

"The movement was autonomous, spontaneous, not well-organized. There was no central leadership," he said.
Hong and Yang said they were disappointed with the lack of inter-vention on the part of the American

vention on the part of the American government.

"The American government is a little soft on the Chinese. (President) Bush took actions to try to control and teach them a lesson that if you kill people you pay the price," Hong said. "The policy in this country won't have anything to do with you because of the brutal dictatorship."
"It cannot be business as usual. Severe economic sanctions or cutting ties will not open up China or bring on reform," Yang said.
The main question that remains is whether all the violence and bloodshed accomplished anything, the panelists said.

bloodshed accomplished anything, the panelists said.

"It was a net loss in short term but not in long term," Yang said.
"The regime will be shorter-lived. People can change within or outside system. Polish reform was the first step. It is possible to push party aside who is in charge of China."

## **Election leaves GOP** planning its future

Information Network

TRENTON, N.J. — Who's in charge of New Jersey's Republican Party?

Four years ago, the answer was a cinch: Gov. Thomas H. Kean, who had just confirmed that his powerful standing with a record re-election drive that delivered the state Assembly to the GOP.

But when voters turned the Capitol upside down with a landslide for Democratic Gov. elect James Florio, Republicans were left in turmoil, facing the need to remold their party and its leadership. "Nobody in politics likes to Committee. "There will certainly be many discussions about what we didn't do so well, and what we need to change for the future."

## Preseason powers vanish from headlines

Here's to the losers - they de-

while bowl hopes sweep the land, they try to pick up the pieces at UCLA, LSU and Iowa. All are among the most powerful programs of the decade. All were in top 20 in preseason polls. Then the games started, and things went downhill from there.

started, and things went downhill from there. In 1989 they have been the Bermuda Triangle of college football. UCLA has won seven straight bowls. But at least the 3-7 Bruins won't have to worry about putting that streak in jeopardy. If they are beaten as expected by USC next Saturday, they will have their first six-game losing streak in 46 years. "It's hard to think about (USC) right now," UCLA coach Terry Donahue said. "Our football team has to play on pride." LSU was expected to challenge for the national championship. Instead, the Tigers have had bad of

UK defensive tackle Donnie Gardner, who had helped anchor the Wildcats' defense, has been dis-missed from the team for violating a team rule, coach Jerry Claiborne said yesterday.

said yesterday.

Gardner was dismissed for the rest of the season for breaking an undisclosed rule, Claiborne said in

undisclosed rule, Claiborne sau in a news release. "We're very sorry it happened," Claiborne said. "Donnie has been doing an outstanding job for us this season. We will definitely miss him. When things like this happen,

## Haggin beats Holmes, wins Halloween Bowl

By GREGORY A. HALL

Haggin Hall dominated Holmes Hall from the opening drive of the 21st annual Halloween Bowl, and won the flag football game 33-6 last night at Seaton Field. The Haggin squad jumped out to a 7-0 lead on Jeff Hammond's pass to Damon Stewart.

a 7-0 lead on Jeff Hammond's pass to Damon Stewart.
"I thought it was a great game, just another example of the tradition of the game," said Craig Kalmer, assistant hall director of Haggin Hall." This was just like a good high school rivalry. One team just got a little bit more up for the game than the other."

Holmes, losing for the 14th time

game than the other."
Holmes, losing for the 14th time
in the series which began in 1969,
did not score until the final minutes
when Terry Sparks hit Mike Gray
with a 10-yard touchdown pass.
The one-point PAT failed when

Sparks' pass was broken up by Haggin's Steve Stone.

By haltime, Haggin had built the lead to 21-0. About the only thing that did not work for Haggin was a two-point conversion in the second half, which would not have even been attempted if not for miscommunication between the bench and players.

Holmes never built up any momentum until the touchdown late in the game. Besides passing problems, Holmes had a bad snap go over the head of Sparks, resulting in a Haggin touchdown drive.

Defensively, Haggin benefitted from the efforts of Slone, who broke up four passes from his defensive back opsition.

With last night's victory, Haggin retains possession of the barrel until next year's game. Haggin won the means the services and the start of the services and the services are the services and the ser

retains possession of the barrel un-til next year's game. Haggin won last year's classic 13-12 in over-time.
