

DATE?

I did not finish my letter
on the other sheet so I will
write you a little on this but
still I have but little more to
write I would say to be of good
cheer and enjoy yourself the
very best you can and always
believe that I am all right
and always true to you to the
very last I have often told
you how I should conduct
myself while I was gone and
you must believe me that -
I shall always remember my
little family be where I may
and should I get so far away
in Mexico that you do not get
letters from me regular I will
get up an idea that I am
forgetting you or that I don't
write you for I shall write
at least once or twice a week
to you
