(See FCR 5 at the end of the Minutes.)

S. Report of Investments (ICR 1)

Mr. Lunsford reported that the Investment Committee at its meeting on the morning of May 7 instructed the University's Investment Counselor to not invest in American companies doing business in South Africa that had not signed the Sullivan Principles. Mr. Lunsford then recommended and so moved that the report of changes made in investments for the University and its affiliated corporations for the three months ended March 31, 1985 be accepted. His motion was seconded by Mr. Griffin, and it was so ordered. (See ICR 1 at the end of the Minutes.)

T. Amendment of Code of Student Conduct (SCCR 1)

Mr. Griffin, Chairman of the Student Code Committee, reported that the Committee met on April 2, discussed the amendment generally and decided to have a public hearing at 10:00 o'clock on the morning of April 30 for the purpose of permitting interested persons to speak to the proposed amendment. The public hearing was held as scheduled; several persons spoke for and against the amendment. Following the hearing, the Committee voted 3-2 to recommend that the amendment not be adopted. The principal reasons for the recommendation of the majority of the committee were as follows: (1) Not a single documented instance of discriminatory treatment of homosexuals in either admissions or financial aid was brought to the attention of the

Committee, (2) the majority of the Committee was of the opinion that the existing rules and regulations provide adequate avenues for relief from such discrimination if same should occur in the future, and (3) a survey of the benchmark institutions indicated only one institution included "sexual orientation" among the factors that may not be used as the bases for decisions on admission and financial aid. Mr. Griffin added that it is not the purpose of the Code to list every possible category of students which could be subject to discriminatory acts. The Student Code Committee so recommending, Mr. Griffin moved that the proposed amendments to Article II, Section 2.1 proposed by the committee of students, faculty, and administrators recognized in Section 7.11 of the Code of Student Conduct not be adopted. The motion was seconded by Mr. Hershey.

The Chair then recognized Mr. Bell, Chairman of the Hearing Committee, who reported that the Committee met on the morning of May 7 to hear requests by two gentlemen, Mr. Steve Abrams and Mr. Mark Cranfill, for permission to speak to the full Board at its 1 p.m. meeting regarding the proposed amendment to the Student Code. Mr. Bell said the Committee approved the request by a vote of 4 to 1.

The Chair next recognized Mr. Mark Cranfill, a graduate student, who spoke in opposition to the proposed amendment to add "sexual orientation" to the factors that may not be used as bases for decisions on admission to the University and on financial aid. Mr. Cranfill stated that the Code already barred discrimination based on beliefs and that there was no need for the sexual orientation provision. He contended that the Trustees would be making a moral statement should they adopt the proposal, and it was his feeling the University should not be making moral statements.

Mr. Steve Abrams, Chairman of the Gay and Lesbian Union of Students, spoke in favor of the proposed amendment. In reference to the statement that the intent of the proposed amendment is covered by the beliefs clause in the Code, Mr. Abrams stated there was a difference between belief in homosexuality and being a homosexual. He added that while there were no documented cases of discrimination because of sexual orientation, he predicted that the growing social acceptance of individual choice of life-style would lead to increased numbers of documented cases of discrimination. He also noted that homosexual students have no recourse in the grievance process when it comes to admissions and financial aid. Mr. Abrams pointed out that the Student Government Senate had voted in favor of the proposal. He then expressed his appreciation for the opportunity to address the Board. Mr. McCowan thanked both Mr. Cranfill and Mr. Abrams for their comments.

The floor was open for discussion. There being no discussion, the question was called. The motion was voted on and carried with Professor Wilson and Mr. Freudenberg voting "nay." (See SCCR 1 at the end of the Minutes.)

U. Meeting Adjourned

There being no further business, the meeting was adjourned at 1:35 p.m.

Respectfully submitted,

WEIGHT MANAGEMENT PROGRAM

Recommendation:

That the Board authorize the Chancellor for the Medical Center to negotiate and execute a lease with Health Management Resources, Inc. to establish and operate a weight management program at the University's Medical Center, which program shall provide educational benefits and patient care. The leased premises shall consist of space within existing structures.

Background:

For some time, faculty members of the College of Medicine, Department of Medicine have investigated and studied various methods, procedures and products designed to promote weight loss among those persons of the populace who are moderately or severely obese. In addition, the faculty have also studied the effectiveness of weight loss maintenance programs.

Since obesity has been recognized as a factor associated with health problems, it has been deemed desirable to establish a weight management program. After considerable deliberation, the University administration disseminated a request for proposals to develop, manage and operate a weight management program under the direction of faculty physicians. One response to the request was received from Health Management Resources, Inc. which will provide the personnel (except physicians) management, dietary supplement, and a marketing strategy. In addition, Health Management Resources, Inc. will rent the space it utilizes in the Medical Center and pay fees for physician services. The University and Health Management Resources will implement an educational component for the benefit of University students.

The proposal of Health Management Resources, Inc. has been evaluated and deemed acceptable and efforts are currently underway to negotiate final details.

Members, Board of Trustees:

STUDENT HEALTH FEES

Recommendation: 1) that the Board of Trustees approve a health fee of \$25 for the fall semester 1985 and spring semester 1986, and 2) that the Board of Trustees approve payment of the summer health fee on a voluntary basis for eligible students, effective May 13, 1985. Students who attend the 4 week summer session would pay a \$10 health fee. Students who attend the 8 week session would pay a \$15 health fee. Students who attend the 4 week session and/or the 8 week session and want coverage for the entire summer would pay a \$25 health fee.

Background: We have reviewed the Health Service's experience with the mandatory health fee for the past two years and are very pleased to report that the health fee can remain at \$25 per semester for the year 1985-86.

Last year it became apparent that a mandatory fee in the summer causes problems with two groups:

- 1) Teachers and others who are here only for the summer sessions and have their own sources of health care.
- 2) Non-traditional students from the Lexington community who regularly take two classes in the fall and spring semesters and are considered part-time. The same number of hours taken in the summer sessions makes them full-time and they are required to pay the health fee.

These are not the students the mandatory health fee program was designed to serve.

Approval by the Board of Trustees is required prior to notification to students.

Background: The present rates are not sufficient to meet the higher operating costs and financial demands of the Housing and Dining System. The proposed adjustments result primarily from increased food and utility costs. These rates cover debt service, all operating costs and funds for replacement of furniture and equipment. The one meal per day plan will not be offered to students living in Undergraduate Residence Halls. The five day meal plans are for Monday through Friday only. The three meals, seven days plans are for three meals Monday through Friday and two meals on Saturday and Sunday.

SCCR 1

Members, Board of Trustees:

AMENDMENT OF CODE OF STUDENT CONDUCT

Recommendation: that the proposed amendments to Article II, Section 2.1, proposed by the committee of students, faculty, and administrators recognized in Section 7.11 of the Code of Student Conduct not be adopted.

Background: This committee received and reviewed the amendment proposed by the committee of students, faculty, and administrators appointed by the President in accord with Section 7.11 of the Code.

The board committee met on April 2, 1985, discussed the amendment generally and decided to have a public hearing at 10:00 a.m. on April 30 for the purpose of permitting interested persons to speak to the proposed amendment. The public hearing was held as scheduled; several persons spoke for and against the amendment.

Following the hearing, the committee voted 3-2 to recommend that the amendment not be adopted. The principal reasons for the recommendation of the majority of the committee are as follows:

1. Not a single documented instance of discriminatory treatment of homosexuals in either admissions or financial aid was brought to the attention of the committee.
2. The majority of the committee is of the opinion that the existing rules and regulations provide adequate avenues for relief from such discrimination if same should occur in the future.

Professor Constance P. Wilson, a member of this committee, submitted a statement in opposition to the majority view of the committee; a copy of Professor Wilson's statement is attached.

Dear President Singletary:

The Advisory Committee on Student Code Revision, appointed by you in accordance with Article VII of the Code, has completed its work and submits herein its report to you.

Early in the fall semester the Committee announced through the Kernel the procedures and timetable for submitting proposed Code revisions to the Committee. Two proposals were received, one of which the Committee decided not to recommend for adoption. The second proposal is to add "sexual orientation" to the factors that may not be used as bases for decisions on admission to the University and on scholarships, grants-in-aid, and financial aid.

At the Committee's request the Dean of Students Office surveyed UK's benchmark universities with respect to specifying "sexual orientation" as an impermissible basis for discrimination. A copy of the survey report is attached hereto.

At its February 18 meeting the Committee voted to give the "sexual orientation" proposal its preliminary, tentative approval and to publish the proposal and invite any member of the University community to submit written comment by March 8. The proposal was published verbatim in three issues of the Kernel and was circulated to the Chancellors, Vice Chancellors, College Deans, and selected other administrators; and comments on the proposal were invited. Twenty comments were received, photocopies of which were distributed to all committee members. All of those comments are attached as an addendum to this report.

The Committee met on March 11, reviewed the pertinent issues and arguments, and voted to endorse the proposal and forward it to you for your consideration and submission to the Board of Trustees. Specifically, the proposed revision reads as follows:

Dr. Otis A. Singletary

In the following paragraphs the words proposed to be added are underlined:

ARTICLE II - UNIVERSITY RIGHTS OF STUDENTS

- Sec. 2.1 Right of Admission and Access
2.11 Admission Policy
An applicant for admission to the University shall not be discriminated against because of race, color, religion, sex, sexual orientation, marital status, national origin, age or beliefs. Moreover, no otherwise qualified handicapped person will be denied admission solely because of the person's handicap.
- 2.12 Scholarships, Grants-In-Aid, and Financial Aid
An applicant for, or a recipient of, University financial aid, a University grant-in-aid, or a University scholarship, shall not be discriminated against because of race, color, religion, sex, sexual orientation, marital status, national origin, age or beliefs. Moreover, no otherwise qualified handicapped person will be denied financial aid solely because of the person's handicap.

For the purpose of clarifying the terminology in the proposal, the Committee voted to forward to you and the Board the following definition:

"Sexual orientation" as used herein refers to a person's predisposition toward heterosexual or homosexual relationships. It does not include actual behavior that violates Kentucky or federal law.

The Committee recognizes the sensitive and controversial nature of this proposal but has become convinced of the proposal's merits, desirability, and need. We offer the following observations in support of the proposed revision:

1. The Committee is strongly committed to the proposition that sexual orientation, as we have defined the term, must not be used as a basis for decision-making on admission to the University or on scholarships, grants-in-aid, and financial aid. In fact, even among those letter-writers who have expressed opposition to the proposed revision, all but one or two have made it clear that their opposition is to formal adoption of such a statement in the University's published policies rather

than to the concept of non-discrimination on the basis, of sexual orientation. To say it somewhat differently, no one has recommended to the Committee that the University should discriminate on the basis of sexual orientation in its admissions and financial aid decisions. Thus, the central issue with the Committee has not been whether discrimination on the basis of sexual orientation should be permissible or not, but rather whether such an attitude should be officially articulated in the Student Code.

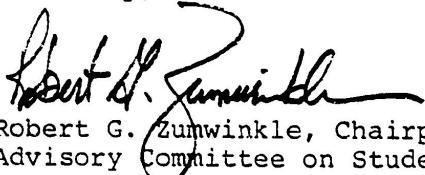

2. The question has been raised: Is there really a need for a formal, official, written University statement on the matter? Does discrimination against gay students in admissions and financial aid in fact exist? The Committee's position is, in essence, that although we are not aware of documented cases of discrimination against homosexual students in the administration of the University's admissions and financial aid programs, the proposed amendment of the Student Code is still desirable - as a matter of principle and as a means of preventing future discrimination on the basis of sexual orientation.
3. In deciding to endorse the proposal in question, the Committee has consciously opted for a specific rather than broad or vague approach to the matter. One alternative available to the University would be to add language similar to the following to Sections 2.11 and 2.12: "or any other extraneous consideration not related to effective academic performance" (e.g., see the attached letter from University of Oregon). The Committee believes that a direct, explicit statement has much greater educative and preventive value and has therefore chosen not to recommend a broader, vaguer approach.
4. The University Senate's recent action in adding "sexual orientation" to those factors which are not permissible bases for evaluating academic performance was probably a significant though not decisive element in the Committee's decision. Now that the Senate has acted in the academic realm, failure to make a similar change in the policies governing admissions and student financial aid could be interpreted by some as an indication that discrimination on the basis of sexual orientation is more acceptable in non-academic decision-making than in academic evaluation.

5. Concern has been expressed about the definition of "sexual orientation". For that reason the Committee has developed a definition, articulated earlier in this report.
6. Concern has been expressed about the fact that this is a highly controversial, sensitive issue, and it has been suggested that the University should therefore leave it alone. The Committee recalls that several of the currently listed items in Sections 2.11 and 2.12 (e.g., race, age, sex, beliefs - even religion) were highly controversial and sensitive in their time. But once the action was taken, the opposition subsided and the wisdom of the action was accepted. The Committee believes that our policies have an educative impact, that institutions of higher learning have a responsibility to set an example for others to follow and must therefore be reflective of the highest values of a free society rather than waiting for a majority consensus to develop on issues that are central to higher education. One such issue is the principle of open access and non-discrimination.

If I or other members of the Committee may assist in providing further explanation of the reasons for our proposal, we shall be pleased to do so.

Sincerely,

Robert G. Zumwinkle, Chairperson
Advisory Committee on Student Code Revision

STATEMENT BY CONNIE WILSON

At present the governing regulations at issue reads:

Sec. 2.1 Right of Admission and Access

2.11 Admission Policy

An applicant for admission to the University shall not be discriminated against because of race, color, religion, sex, marital status, national origin, age or beliefs. Moreover, no otherwise qualified handicapped person will be denied admission solely because of the person's handicap.

Sec. 2.12 Scholarships, Grants-In-Aid, and Financial Aid contains the same language which again specifically signals out specific groups.

Have these regulations completely solved the problem of discrimination towards these particular groups? Of course not!

Has the lot of these individual groups been improved since the adoption of this language? Of course it has! The anti-discrimination language indicates that certain groups have traditionally not enjoyed the status of full human beings in our society and also serves as both a sensitizer and a reminder that this must not be.

Should we eliminate reference to any specific groups and use only general language indicating non-discrimination towards any human being? Maybe - However, that is not the decision we are faced with today.

At issue today is the recommendation of the Advisory Committee on the Student Code revision which after holding open hearings, receiving letters of comment, researching the question in higher education, and discussing all aspects at its meetings has concluded that sexual orientation defined as "a person's predisposition toward heterosexual or homosexual relationships" should be added to the language of the governing regulations.

We all recognize the sensitivity of this issue. We all also must recognize

the myths, ignorance and prejudices that this group endures. (The letters in the packet also attest to this).

Earlier this semester the University Senate Council unanimously recommended to the University Senate that this language be added to the Senate rules regarding the grading policy. The Senate passed this at their meeting on February 11, 1985.

The Student Code Committee made up of students, faculty, and administrators is now recommending that the language be added to the admissions and financial aid policy.

The issue has been framed.

Unfortunately this university was slow to recognize the rights of blacks and of women. Let us not be slow again.

Does this board want to send a signal through a negative vote that it does not agree with students and faculty? I hope not. Does this board want to send a signal that it does not oppose discrimination in this area? I hope not.

I believe that this Board wants to send a signal that it does oppose discrimination in this area and that it agrees with students and faculty that it is appropriate to include the language in the governing regulations.

A great University does not pander to the prejudices in vogue: As John Gaines said at the dedication of the Humanities Center "A University should help to shape the values of the society -- not simply reflect them." A great university leads!
