EXCERPT FROM A LETTER

Greenup, Kentucky

University of Kentucky Alumni Association  
 Lexington, Kentucky

Sirs:  
 We struggle and sweat through four years of college studies, with the struggles and prayers of college professors—then we go into the world, get us a lucrative employment—and forget all about the struggles of our professors, dear and housemothers. This is the end of the appreciation of our college education. Worst of all, we leave state and apply our acquisitions to foreign state.

Still, the University continues to help from the state citizens. I hear of the failures of their alma mater—they are never thoughtful enough to realize that the lucrative employment they have was obtained only from education received from their alma mater, and they are never thankful for it.

Since receiving the pamphlet what the Alumni Association do have realized that I am a poor scholar. The award to the outstanding professor is a pitiful sum. Only scholarships! For Shame!

I am submitting my thanks! I take this \$50.00 check and see I can't change that amount upward to the outstanding professor upwards, that is! They deserve credit than anyone else. Don't do anything else with it.

DR. CHARLES A. WALTON . . . HIS DOOR IS ALWAYS OPEN

## A UNIVERSITY IS A PLACE; IT IS A SPIRIT . . . II

CONCERN FOR THE INDIVIDUAL STUDENT is one of the principal marks of a good teacher. It is a quality which must be present if he and the student are to achieve the ideal of the university way of teaching—to become partners in learning.

The University of Kentucky's Dr. Charles A. Walton, recently selected for the distinguished teaching award, meets this requirement. Students in two University leadership societies recently wrote of him:

"It is easy to know when Dr. Walton is in the building, for when he is there his office door is open. This is symbolic. The student knows that at any time he may discuss with Dr. Walton problems of either an academic or personal nature."

It is of such men that a great university is made.

## To Speak At Alumni Banquet June 3

The Honorable Elvis J. Stahr, Jr., '36, Secretary of the Army, will return to the campus June 3rd for the 25th reunion of his class and will give the address at the Alumni Banquet that night.

A distinguished alumnus of the University with an illustrious career, Secretary Stahr was named to the cabinet by President Kennedy. A native of Hickman, Kentucky, he was graduated from the University with the highest scholastic standing in the history of the University. A brilliant scholar, he earned a Phi Beta Kappa key and won a Rhodes Scholarship under which he studied for three years in England. He holds three degrees from Oxford—bachelor of arts, bachelor of civil law and master of arts. He is a former member of the New York law firm of Mudge, Stern, Baldwin and Todd. During World War II he served as an Army infantry officer.

In 1947, Secretary Stahr returned to his Alma Mater as an associate professor of law. One year later, at the age of 32, he became professor and dean of the College

of Law and the youngest person in the country to head a law college. That same year the Junior Chamber of Commerce chose him as one of the 10 outstanding young men of America.

During the Korean War, he was a special assistant to the Secretary of the Army, Frank Pace, Jr. at the Pentagon. In 1956-57 he was director of the President's commission on education beyond the high school.

In 1959 he became President of the University of West Virginia after serving as vice-chancellor of the University of Pittsburgh.

A loyal and devoted alumnus of the University, Secretary Stahr is a member of the Alumni Century Club. While at the University he was a member of Omicron Delta Kappa, men's leadership fraternity, President of the Omicron Kappa of 1936, and President of Sigma Chi Fraternity. He married to the former Dorothy Howland Berkfield of New York and they have two sons and a daughter.

## *The Shadows Fall*

There was a time in the not-too-distant past when the University of Kentucky Alumni Association was beginning to come of age—a day when the leadership of the Alumni Association and many of the problems of the University were, of necessity, referred to just a few devoted, selfless men.

Last February, Homer L. Baker, a dedicated member of that small, dependable group was taken from us.

Homer Baker was a family man, a church man, a University man. He was the kind of citizen who put service above self and who held to the precept that every man is put here for an unselfish purpose. This was his unspoken creed, but we who worked with him came to recognize this creed in his dedicated efforts to make this a better commonwealth, the University of Kentucky a great University, and his world a better place for the generations still to come.

This man held a fierce loyalty to the things he loved and in which he believed. Perhaps the fire of love and devotion within him for his family, his state, his University, his associates and his friends consumed his loyal heart at the end, but what a blaze of light he left as he entered into the shadows.

# PROFESSORS HONORED

*By UK Alumni Association*

Outstanding teaching and research by University of Kentucky faculty members were recognized at the Annual Research Conference held on the University campus March 16.

Recipients of the \$500 Alumni Association Awards were a pharmacist, Dr. Charles A. Walton; a geographer, Dr. P. P. Karan; a bacteriologist, Dr. Ralph H. Weaver, and a chemist, Dr. Walter T. Smith.

The awards were presented by Dr. Ralph J. Angelucci, chairman of the Faculty-Alumni Awards Committee.

Dr. Walton, head of the Department of Materia Medica in the College of Pharmacy, was the recipient of the distinguished teaching award, the first to be presented at the research conferences. Previous awards have been only for research or writing.

In recommending Dr. Walton for the award, Omicron Delta Kappa and Mortar Board, UK student leadership societies, said the pharmacy professor is an excellent example for students because of his deep moral convictions, his genuine interest in others, his teaching techniques, his interest in the promotion of pharmacy, and his ability to inspire students.

Dr. Walton, named in 1959 as the "Man of the Year in Pharmacy" by the Kentucky Pharmaceutical Association, was cited especially for his use of visual aids in teaching, for the organization of an informal luncheon seminar for students, and for the arranging of educational trips.

Dr. Weaver, distinguished professor of bacteriology, received a research award for developing rapid techniques for the identification of microorganisms. Use of the method developed by Dr. Weaver saves time in arriving at a diagnosis of specific infectious diseases—early detection methods which would be especially valuable in the case of biological warfare.

Author or co-author of approximately 100 articles in scientific publications, Dr. Weaver came to the University shortly after receiving the Ph.D. from Michigan State College in 1926. He has held the rank of full professor since 1937.

Another research award went to Dr. Karan, associate professor of geography, for field research and mapping in the South Asian countries of the Himalayan region which resulted in the publication of the book, "Nepal: A Cultural and Physical Geography."

Dr. Karan's book was the first cultural geography of Nepal published in English. A native of India, he is a

Research Consultant to the American Geographical Society and fellow of several learned societies in American and foreign countries. He has been at UK since 1956.

Dr. Smith, professor of chemistry, received the other award for research in organic chemistry which led to the publication of six articles.

Dr. Smith has presented a paper before the international congress of chemists and for the past two years has served on the chemistry panel of the National Science Foundation.

He is the holder of the Ph.D. from Indiana University where he studied on an Eli Lilly Fellowship. He has been at UK since 1953, attaining the rank of full professor in 1957.

The awards were based on contributions over the past two years.

*These University of Kentucky professors were honored recently by the UK Alumni Association for outstanding teaching and research during the past year. From left are Dr. Ralph H. Weaver, professor of bacteriology; Dr. P. P. Karan, professor of geography; Dr. Charles A. Walton, head of the Department of Materia Medica in the College of Pharmacy, and Dr. Walter T. Smith, professor of chemistry.*

# FOURTH ANNUAL ALUMNI SEMINAR

## *The Space Age: Dilemma & Challenge*

Our survival in the Space Age, the dilemma and challenge of this new scientific frontier, will be the theme of the Fourth Annual Alumni Seminar to be held June 2-3. Distinguished alumni, members of the faculty, and research specialists in the scientific and defense fields will discuss the many problems faced by mankind in the Space Age and all alumni and friends are invited to attend this Seminar sponsored by your Alumni Association.

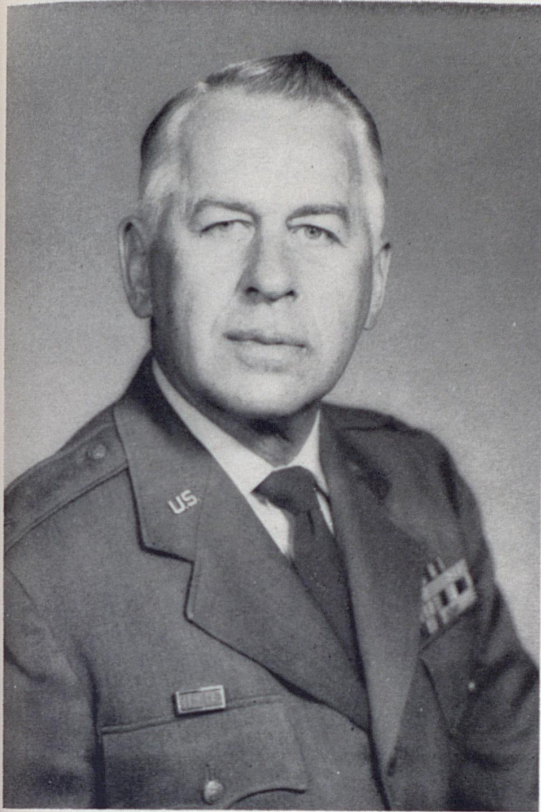

Dr. Karl O. Lange, professor of mechanical engineering and director of the Wenner-Gren Aeronautical Research Laboratory, is chairman of the seminar committee. Dr. Lange has received national recognition for his work in aeronautical research and has been invited by the United Nations to speak at the UN Conference on New Sources of Energy to be held in Rome this August. He and his committee have planned an exciting program of interest to all alumni.

Colonel Joseph J. Huddleston, '37, Industrial College of the Armed Forces, Ft. Lesley J. McNair, Washington, D. C., will be the first speaker at the Friday morning session. His subject will be: "The Economics of International Conflict." In addition to his undergraduate degree, Colonel Huddleston received a Masters degree from the University in 1940. He formerly served in the Office of the Assistant Chief of Staff for Guided Missiles.

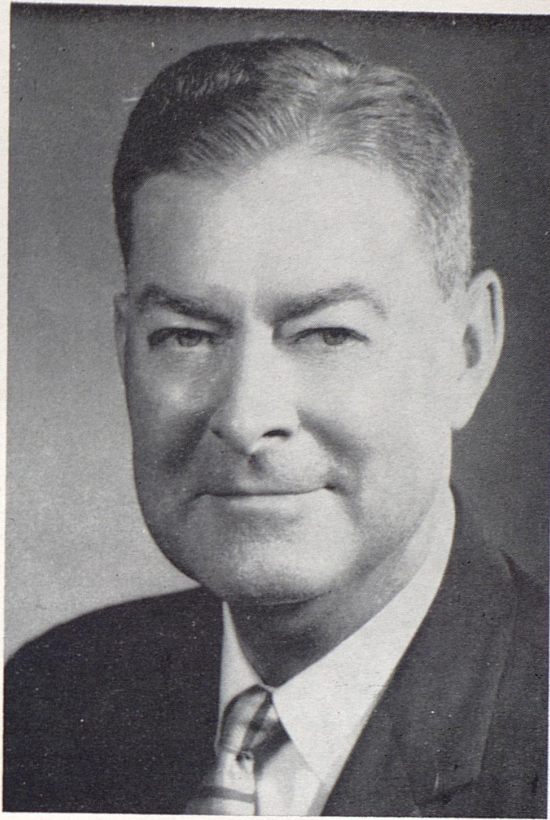

The second speaker on the Friday morning program will be Mr. Virgil L. Couch, director, Industry Office, Office of Civil and Defense Mobilization, Battle Creek, Mich. He will speak on the subject: "The Non-Military Defense in the Space Age." A graduate of the University in 1930, Mr. Couch has held various administrative positions with the Office of Civil and Defense Mobilization. He began his career in Lexington with The Texas Company and then went into government service. He is a former chief personnel officer and director of labor relations for the Farmers Home Administration and served as director of personnel for the Marshall Plan. A former national president of the Society for Personnel Administration, Mr. Couch has also served as vice-president of the Society for the Advancement of Management. In 1951 he was appointed as the first deputy assistant administrator of the Federal Civil Defense Administration and during the past ten years has gained national recognition in the field of civil defense.

In his present position as director of the Industry Office, he is responsible for assisting, informing, and encouraging American industry for survival. Primarily from his efforts, industry in the United States is now better prepared for civil defense than any other segment of the population. He is the author of numerous pamphlets and

COL. JOSEPH P. HUDDLESTON, '37

VIRGIL L. COUCH, '30

magazine articles pertaining to industry defense and industrial security, and he has provided leadership and assistance to federal, state, and local governments in developing and promoting civil defense activities.

A satellite scientist, Dr. John R. Pierce, will give his major address at 2:00 p.m., Friday, June 2, on "Research and Technology in the Space Age." A director of research-communication principles for the Bell Telephone Laboratories, Dr. Pierce is a native of Des Moines, Iowa. He received his B.S. in 1933 and his Ph.D. in 1936 from the California Institute of Technology and went with Bell that same year.

From 1936 to 1955 Dr. Pierce worked on high frequency electron tubes, and particularly on traveling-wave tubes; he became director of electronic research in 1952. In 1955 he was made director of research-communications principles, a field including research in radio, electronics, acoustics and vision, mathematics, and group behavior. The Institute of Radio Engineers awarded him the Morris Liebmann Memorial Prize for 1947 and in 1948 he received the IRE Fellow Award for his "many contributions to the theory and design of vacuum tubes." He is the author of *The Theory and Design of Electron Beams,*

*Traveling-Wave Tubes, Electrons, Waves and Messages,* and *Man's World of Sound.* A member of the National Academy of Sciences and the British Interplanetary Society, Dr. Pierce holds 55 patents for inventions in electronic tubes and communications circuits. His first concrete proposals for satellite communications were published in 1955 in the journal of *Jet Propulsion.*

"Our Changing Concepts of the Universe" is the topic of Dr. Wasley S. Krogdahl's major address at the Friday afternoon session. A native of Springfield, Illinois, Dr. Krogdahl received his B.S. in 1939 from the University of Chicago and his Ph.D. from that same institution in 1942. Since then he has held teaching positions at Ripon College, Ripon, Wisconsin; the University of South Carolina, the University of Chicago and Northwestern University. In 1958, Dr. Krogdahl joined the University of Kentucky faculty and is presently associate professor of mathematics and astronomy. In addition to his teaching duties he is director of the University Observatory. He is a Fellow of the Royal Astronomical Society and author of "The Astronomical Universe."

Senator John Sherman Cooper will be the speaker for the Saturday morning session at Carnahan House and his

DR. WASLEY S. KROGDAHL

subject will be: "The Impact of the Space Age on Man." Senator Cooper received his A.B. from Yale in 1823 and his LL.B. from Harvard Law School in 1925. He has received honorary degrees from several institutions and in 1950 the University of Kentucky conferred upon him the honorary Doctor of Laws degree.

A distinguished statesman, Senator Cooper has served as a United States delegate to the General Assembly of the United Nations and was appointed ambassador to India and Nepal in 1955 by President Eisenhower. He has also served as advisor to former Secretary of State Dean Acheson at the meeting of the Council of Ministers of the North Atlantic Treaty Organization held in London and Brussels in 1950, and in 1958 was a congressional advisor to the U.S. Delegation to the UNESCO Conference in Paris.

Panel discussions and open forums will follow each of the three sessions. Colonel Roland W. Boughton, Jr., head, Department of Aero-Space Sciences and chairman of the Division of Physical Sciences at the University, will be the moderator Friday morning for the panel discussion on "Defense and Arms Control". Participants will be Colonel Bazil Lee Baker, '36, deputy director of information, Air Force Logistics Command, Wright-Patterson Air Force Base, Dayton, Ohio; Mr. Leon J. Reed, acting deputy di-

SENATOR JOHN SHERMAN COOPER

rector, Kentucky Division of Civil Defense, Frankfort; Colonel Huddleston, and Mr. Couch.

"The Challenge of the Space Age" will be the subject of the panel discussion scheduled for the Friday afternoon session. Dr. Douglas Schwartz, professor of anthropology and director of the Carnegie Museum at UK, will be the moderator of this panel. Participants will be Mr. Jess B. Huff, Jr., '48, director of guidance control and aero-ballistics, Army Ballistic Missile Agency, Redstone Arsenal, Huntsville, Alabama; Dr. Loren D. Carlson, head of the department of physiology, UK College of Medicine; Dr. Pierce and Dr. Kroghahl.

On Saturday morning the Seminar will close with an open forum on "The Space Age, Dilemma and Challenge" which will be moderated by Mr. L. Berkley Davis, '33, vice-president of the General Electric Company and president of the UK Alumni Association. Senator Cooper and other Seminar speakers will participate in this forum.

Members of the Seminar Committee serving with Dr. Lange are: Dr. Wendell C. DeMarcus and Mr. John A. Biggerstaff of the UK department of physics; Colonel Boughton, Dr. Carlson, Dr. Schwartz, and Miss Helen G. King, director of alumni affairs.

UNIVERSITY  OF KENTUCKY

LEXINGTON, KENTUCKY

ALUMNI OFFICE

May, 1961

Dear Contributor:

Calvin Coolidge once said: "To place your name, by gift or bequest, in the keeping of an active university or college is to be sure that the name and project with which it is associated will continue down the centuries to quicken the minds and hearts of youth and thus make a permanent contribution to the welfare of humanity."

Because you, the contributors to the Alumni Century Club and to the annual Alumni Giving Program have done this in 1960-61, you have helped to make the University of Kentucky a better University and thus made a permanent contribution to human welfare.

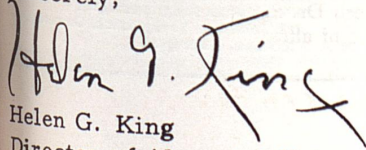

To be satisfied is to stagnate; therefore, we who work constantly with the University, the Alumni Association and the Alumni Giving Program are not satisfied with the results of the annual roll call; but we are encouraged. Encouraged because you, the faithful, have continued to support our many projects with money, time and devotion.

More alumni have participated this year than last and more names have been added to the Honor Roll. This is good and we are grateful and to you who have contributed we give a heartfelt thanks!

However, we have discovered through long experience that personal contact, a request from one friend to another, one classmate to another, is worth a thousand words, so we appeal to you once more to assist us in increasing alumni participation through individual effort. YOU are a contributor--don't hesitate to solicit the reluctant ones because wide participation is the keynote to success.

You will note, with pride, that the Century Club contributors of \$500 or more lead off the 1960-61 Honor Roll. They, and you who have contributed from \$5.00 to \$100 have made possible a good year for your Alma Mater and have supported our many projects substantially and with pardonable pride. For this the University Administration, the Alumni Executive Committee, the faculty and the students are deeply grateful.

Sincerely,

  
Helen G. King  
Director of Alumni Affairs

Personnel from the University attending the White House Conference for the Aging in Washington this past January were: President Emeritus Herman L. Donovan, Prof. H. E. Wetzel, Dr. Ellis F. Hartford, Dr. Earl Kauffman, and Rabbi Joseph R. Rosenbloom.

UK employees who completed 25 or more years of service at the end of 1960 were honored with a ceremony and reception in the Student Union ballroom March 15. President Dickey presented certificates to the group.

New fraternity houses for Sigma Chi and Alpha Gamma Rho on Woodland Avenue opposite Cooperstown are nearing completion. Two others are scheduled to be started this year.

Preliminary plans for the addition to the Student Union Building have been approved and sent to Atlanta for approval by Federal Housing & Home Finance Agency. Bids will be taken in July.

Vice President Leo M. Chamberlain and College of Arts & Sciences Dean M. M. White left in March to make an annual inspection tour of the University's International Cooperation Administration projects at Bandung and Bogor in Indonesia.

Building Projects in planning stage: \$1,515,000 College of Engineering Building; \$1,194,000 addition to College of Education; \$700,000 addition to Law College; parking lots costing \$200,000.

UK is the first state university in the nation offering a course in professional preparation for teachers in junior high schools. Dr. Lucile B. Lurry, associate professor of education, is responsible for establishing the course.

The University will operate two institutes for teachers this summer—one in mathematics and science and the other in advanced counseling and guidance.

Dr. John M. Carpenter, head of the University of Kentucky Department of Zoology, has been elected a fellow of the American Association for the Advancement of Science.

Dr. Don Cash Seaton, head of the UK Department of Physical Education and varsity track coach, has been elected a fellow of the American Association of Health, Physical Education and Recreation.

Dr. Ernst Jokl, Professor of Physiology, has been requested to submit a plan to a U.S. Senate Subcommittee for establishment of a Division of Youth Fitness in the U.S. Department of Health, Education and Welfare. He is president of the UNESCO International Council of Sport and Physical Education Research Committee.

Needy chemistry students befriended by a UK professor and his wife while studying at the University have established a scholarship honoring the couple. The annual grant, honoring the late Prof. M. Hume Bedford and Mrs. Ellen Towles Bedford of Lexington, will be given to an undergraduate majoring in chemistry. Ten students aided by the Bedfords between 1926 and 1945 will provide a minimum of \$200 for fees and textbooks. The award will be limited to native Kentuckians attending UK.

The Kentucky Kernel has been judged to have the best straight news writing of any college newspaper in the country during 1960.

Dr. William E. McCubbin and Dr. Ernst Jokl recently presented papers at the 64th annual Chicago Physical Education meeting in Washington, D. C.

SHELBY T. McCLOY  
Distinguished Professor

Dr. Shelby T. McCloy, professor of history, was named "Distinguished Professor of the Year" at the annual dinner of the College of Arts & Sciences this spring. Dr. McCloy's book, "The Negro in France" has been published by the University of Kentucky Press.

Mrs. Pansy M. Yount, Beaumont, Texas has given a tapestry valued at more than \$25,000 to the University. The former owner of Spindletop Farm previously gave another tapestry, valued at \$100,000, to UK. The latest gift is a scene in Alexander the Great's house after the birth of his son.

A \$500 stock gift has been presented to the Kentucky Research Foundation by friends of Emijeane Snedgar, U. S. Public Health nurse, killed at Teheran, Iran in 1951 in a fatal crash. Proceeds are earmarked for loans, welfare, and scholarships to students enrolled in the College of Nursing.

A senior agricultural engineering student, Robert E. Boyer, has won first place in technical paper competition between students from 15 colleges and universities in 12 states. The cash award of \$150 was presented by the Southeastern Section of the American Society of Agricultural Engineers.

Spindletop Mansion located on the Iron Works Road is now open to visitors on Sunday afternoons from 1:30 to 5:30 p.m. A fee of \$2.00 is charged to go through the mansion.

WHAS Crusade for Children has made a \$4,800 grant for experienced teachers to attend the University of Kentucky summer term for special training to teach mentally retarded and physically handicapped children. Dr. Albert Levy, associate professor of education at UK, is in charge of the program and may be contacted for further information.

The W. K. Kellogg Foundation has made a first payment of \$127,000 to the University of Kentucky on a grant provided to improve economic conditions in 30 Eastern Kentucky counties. The total grant, \$754,000, is to be paid over a six-year period.

Dr. James B. Kincheloe, Superintendent of Fayette County Schools for four years, has been appointed a professor in the College of Education effective July 1. Dr. Kincheloe, 44, is a native of Tennessee and has had wide experience in school administration.

Construction has started on a new women's dormitory and central dining unit located on Harrison Avenue near Euclid. The state allocated \$151,000 from its capital construction funds to pave the way for construction of the building which will house 135 women students and provide a dining area for 1,100.

The UK debate team took top honors recently in the All-Southern Debate Tournament held at Agnes Scott College in Decatur, Georgia. Dr. Gifford Blyton, of the UK Speech Department, is the team coach.

A total of \$363,933 for student loans has been distributed to UK

students under the National Education Act. Dr. Cecil C. Carpenter, dean of the College of Commerce and administrator of student loans, has made 1,266 separate loans averaging \$300 per loan under the Act. A great majority of these loans have been made to students from small towns and especially in Eastern Kentucky. Borrowing money to attend college is good business since college graduates can expect to earn \$150,000 to \$200,000 more during their lifetime than high school graduates.

The Act allows students to borrow up to \$5,000 at three per cent interest. The student has ten years to repay the loan. In the case of students studying to become teachers, 10 per cent of the loan is canceled for each year of teaching up to a maximum of 50 per cent.

Two UK information teams visited six points in the State in February and March to present information about UK to prospective students and their parents, alumni, school personnel and parents of students currently attending UK.

Persons from 30 counties surrounding the six regions were invited to attend. Purpose of the visits was to provide information on financial aid and school costs, academic expectations, housing and admission applications, student services and facilities.

Team I was composed of Dr. Charles F. Elton, dean of admissions and registrar; Miss Patricia Patterson, assistant to the Dean of Women; Dr. Leslie L. Martin, Dean of Men; Dick Rushing, Alumni Field Secretary; and Dr. A. D. Albright, University Provost.

Team II was composed of Dr. Doris M. Seward, Dean of Women; Miss Helen King, Director of Alumni Affairs; Dr. Ernest McDaniel, director of the UK Testing Service; Dr. Kenneth Harper, assistant dean of men; and Dr. R. D. Johnson, director of University Centers.

Woodrow Wilson Fellowships have been awarded to three University of Kentucky students. Six others received honorable mention. The winners will be given first-year graduate study at the college or university of their

choice. Those receiving fellowships are: Miss Harriet B. Mill, an English major from Anchorage; Miss Cecily Ann Sparks of Mountain Lakes, N. J., a mathematics major; and Patrick J. Furlong of Lexington, a history major.

Given honorable mention were Miss Geri Denbo, Lexington; David A. Frazier, Glasgow; Miss Marlene Martin, Cynthiana; Jerald H. Richards, Ellwood City, Pa.; Lois E. Shryock, Ludlow; and Charles M. Woodward, Lexington. It anticipated that most of this group will receive alternate awards from other universities or organizations.

## LETTERS

Lexington, Ky.

Dear Miss King:

Now that the trip to Washington has come and gone I would like to take this opportunity to thank the Alumni Association for their assistance in making this trip possible. It is my understanding that a sizeable amount was contributed by members of the group to meet the expenses of the trip. I wish you would personally thank those responsible for this wonderful help.

On behalf of all the members of the band and the several adults who accompanied the group as chaperones I wish to express our sincere thanks and appreciation.

The realization that we were representing the Commonwealth and the University before the eyes of the entire nation was indeed an inspiring moment. It is my belief that the band in the band did a most commendable job in this capacity.

Finally, the opportunity to visit Washington and view many of our historic spots was an event never to be forgotten. I'm sure that all of those who made the trip will count it among our most treasured memories.

In closing, our most sincere thanks for your support and assistance throughout the entire venture.

Sincerely,  
Warren W. Lutz,  
Director, Marching

The youth movement will be evident in 1961 Kentucky football from the 40 to 50 sophomore players to the coaching staff.

In the latter category, Head Coach Blanton Collier has announced two changes in the staff. The new faces belong to Charles (Chuck) Knox, 28-year-old former assistant at Wake Forest and veteran of high school coaching in Pennsylvania, and UK alumnus George (Chink) Sengel, a Wildcat end in the forties and successful high school coach since.

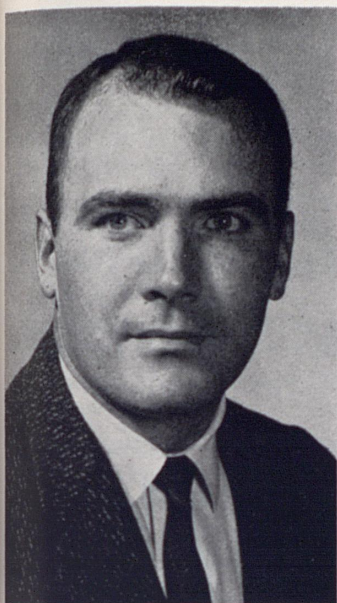

Both appointments came last January with Knox replacing Bob Cummings, who resigned to return to his alma mater of Vanderbilt, and Sengel taking over the end coaching duties vacated by Howard Schnellenberger when he transferred to the Alabama staff.

CHARLES (CHINK) SENDEL

THE KENTUCKY ALUMNI

CHARLES (CHUCK) KNOX

Knox will have the primary task of tutoring the offensive line, which was the responsibility last season of Assistant Coach Bill Arnsparger. Arnsparger now will work with the defensive line. Regarded as one of the outstanding young line coaches of the country, Knox was on the Wake Forest staff two years. He is also expected to be a great asset to Kentucky in the Pennsylvania area recruiting as he is a native of Sewickley, Pa., near Pittsburgh, and played at Juniata College in Huntingdon, Pa. Knox also spent four years in Pennsylvania high school coaching ranks.

Chuck is married and the father of three young daughters.

Sengel returned to his alma mater from an assistant coaching position at Louisville Male High. Previously, since graduation from UK in 1948, he held down head coach and athletic director posts at two Florida high schools for six seasons and spent one year (1949) as an assistant freshman coach at Kentucky. After receiving his master's degree from UK in 1950, the 38-year-old former Louisville Manual All-State end was at Clay County High in Green Cove Springs, Fla., for four years and then spent the next two seasons (1955-56) at Apotka (Fla.) Memorial High.

He is married to the former Mary Alice Duncan of Lawrenceburg and they have two children.

#### 40 High School Grid Players Sign At UK

Coach Blanton Collier has announced that the following high school football players have been signed to play for UK this fall:
