

The Kentucky KERNEL

Vol. XLVI University of Kentucky, Lexington, Ky., Friday, July 29, 1955 No. 37

Annual Reception At Ashland To Be Held

Dr. James F. Hopkins, associate professor of history at the University of Kentucky and well known author, will be the principal speaker at a reception program to be held Monday afternoon (August 1) at Ashland, home of Henry Clay, located on East Main Street in Lexington.

The reception, which will include various forms of entertainment in addition to the main address, is held annually at Ashland. It is presented jointly by the University of Kentucky and the Henry Clay Memorial Foundation.

This year's reception will begin at 4 p.m. and will continue through 5:30 p.m. All interested townspeople are invited to attend the function, and members of the Bradford Historical Society, the Kentucky Civil War Round Table, the Kentucky Historical Society and the UK Library Associates especially are urged to be present.

"A Tribute to Mr. Clay" will be the topic of Dr. Hopkins' address. At the present time he is recognized as an outstanding authority on Clay because of his research as editor of the Henry Clay papers.

The Henry Clay collection is expected to run several volumes—possibly six or more. Since accepting the editorship for this project, the UK historian has contacted almost every library in the nation and many private individuals in the attempt to purchase facsimile material. He has gathered hundreds of documents and scores of reels of microfilm material.

Dr. Hopkins' selection for the Henry Clay undertaking was based partly on the merit of two of his earlier books which were published by the University of Kentucky Press. These were "A History of the Hemp Industry in Kentucky" and "The University of Kentucky, Origins and Early Years."

Dr. Hopkins holds a B.A. degree from the University of Kentucky, an M.A. from the University of Kentucky and a Ph.D. degree from Duke University.

Presiding at Monday's reception will be Dr. Hambleton Tapp, assistant to the president at the University and Summer Session coordinator. Dr. Leo M. Chamberlain, acting president this summer at UK, and Louis Hillenmeyer, president of the Henry Clay Memorial Foundation, will give greetings from their institutions.

Serving as hostesses for the afternoon will be Mrs. Lorraine Seay, curator of the Henry Clay Memorial Foundation, and Mrs. Sarah B. Holmes, dean of women at the University.

Featured entertainment during the reception will be the presentation of a medley of light opera selections by a UK quartet. Vocalists will be Mrs. Ardis King, Mrs. Patricia Herren, Almo Kiviniemi and James King.

The vocalists will be accompanied by Ford Montgomery, member of the UK music faculty. Miss Mildred Lewis, acting head of the Department of Music, planned the program.

DR. JOHN D. MILLETT

Fifteen To Visit Mexico

Fifteen members are enrolled in the class that will study rural and urban features of Mexico this summer.

This annual field trip of the Geography Department is designed to show the contrast between the strikingly different cultures of the mountains and the mesas. It will last August 6-27.

The students are Robert and Rodney Hord, Frankfort, Ky.; Mrs. Ambrose Quarles, Frankfort, Ky.; Miss Etta Upchurch, Russell Springs, Ky.; Miss Eula Vickery, Frankfort, Ky.; Miss Aurlina Lilly, Lexington, Ky.; Miss Zerelda Noland, Paris, Ky.; Misses Marie and Madeline Antonacci, Syracuse, N. Y.; Miss Bess Smith, Belfry, Ky.; Miss Ella Peterson and Miss Vicki Jensen, St. Paul, Minn.

Dr. Joseph R. Schwendeman, head of the Department of Geography will lead the group. Mrs. Schwendeman, and their daughter, Beth, will accompany him on the trip.

Summer Calendar

Saturday, July 30—UK Summer Opera, "Street Scene" — Guignol, 8:30 p.m. Tickets, Guignol Box Office.

Monday, August 1—Reception at Ashland, Home of Henry Clay — Ashland, 4 p.m.

Tuesday, August 2—YM-YWCA Forum: "The Faith of a Christian." Rev. Ard Hoven—Y Lounge, SUB, 7 p.m.

Friday, August 5 — Summer School Commencement—Memorial Col., 8 p.m.

Recreational Activities

Monday-Friday — Golf (Special rates)—Piccadome, 7-Noon.

Thursday—Outdoor Folk Dancing—Women's Gym, 7:30 p.m.

By appointment — Horseback Riding, Blue Grass Field—Phone 4-5883.

Monday, Tuesday, Thursday and Friday — Swimming, children of faculty, staff and students (specific time depends on skills)—Pool, 10 a.m.-1 p.m.

Monday-Friday—Swimming, students, faculty and staff — Pool, 3:10-5 p.m.

Monday-Saturday — Tennis — Courts, 9 a.m.-6 p.m.

Monday, Wednesday, Friday — Volleyball — Alumni Gym, Noon-1:30 p.m.

Millet To Speak At Commencement Next Friday Night

Dr. John D. Millett, president of Miami University, Oxford, Ohio, will speak at the University of Kentucky's Summer Commencement program to be held Friday night, August 5.

University officials announced (Thursday) that approximately 330 degrees—both graduate and undergraduate—will be awarded at the summer exercise. It is scheduled for 8 p.m. in Memorial Coliseum.

"The Graduate and His University" will be the topic of the address by the Ohio educator. Presiding at the commencement and conferring degrees on the recipients will be Dr. Leo M. Chamberlain, vice president of the University. He will serve in the absence of President H. L. Donovan who is in Europe this summer.

Dr. Millett, the speaker, became the 16th president of Miami University on July 1, 1953. He went to Miami from Columbia University where he had been professor of public administration since 1948 and an associate professor since 1945.

In the three year period from 1949 to 1952, Dr. Millett served as executive director of the Commission on Financing Higher Education, sponsored by the Association of American Universities under grants from the Rockefeller Foundation and the Carnegie Corporation of New York.

A native of Indianapolis, Ind., Dr. Millett was educated in the public schools of that city and received his A.B. degree from DePauw University in Greencastle, Ind., in June of 1933. He pursued graduate study at Columbia Uni-

versity where he received his A.M. degree in 1935 and his Ph.D. degree in 1938.

In 1948 he served the Hoover Commission on Organization of the Executive Branch of the government in several capacities, ending as assistant to the executive director. He is the author of five books on administration and co-author of two others.

Both the invocation and benediction at the commencement program will be given by Dr. Riley B. Montgomery, president of the College of the Bible. The charge to the graduating class will be delivered by Dr. M. M. White, dean of the UK College of Arts and Sciences.

Music for the occasion will be presented by the UK Summer School Chorus under the direction of James King. The vocalists will be heard in "Now Let All the Heavens Adore Thee" by Bach and "Ye Watchers and Ye Only Ones" by German-Fischer.

Like all University commencement program, the summer event will be open to the public, and friends and families of the degree recipients are especially urged to be present. The academic and graduate procession will form at 7:30 p.m.

Kentuckians

Senior yearbooks will be distributed, Monday through Friday, 9 to 10 a.m., Room 116, School of Journalism. Please bring senior fee receipt.

Industries Award 11 Scholarships

A group of Kentucky industries have awarded scholarships to 11 young men in the University of Kentucky's College of Engineering. It was announced last Tuesday at UK.

Daniel V. Terrell, dean of the University's College of Engineering, reported that the scholarships range in value from \$200 to \$500.

UK Picked For Fourth

Blanton Collier's Blue and White gridders are picked by Street and Smith's "Football Pictorial" to place fourth in the Southeastern this season.

Ole Miss, Auburn and Georgia Tech are figured to rank above the Wildcats, and Tennessee is picked for the ninth spot.

Louisville, under the mentorship of Frank Camp, among the independents has been slated for the fourth spot, back of Miami, Mississippi Southern and Florida State.

The Indiana Hoosiers are picked ninth in the Big Ten, just a slight margin above Northwestern. The Michigan Wolverines are picked first, Ohio State second and Wisconsin, third.

Geography Staff Gets New Prof

Dr. William A. Withington, who has recently received his Ph.D. degree from Northwestern University will join the Geography Department in September.

Assistant professor at George Washington University, Washington, D. C., he will handle the fields of Regional Specialization in Anglo-America and Economic Geography.

A native of Winchester, Massachusetts, Dr. Withington will be married this autumn.

Purpose of the action by the various industries is to assist worthy young men in obtaining an engineering education, the dean said.

Two of the scholarships announced were in the form of renewals. These recipients follow:

Hugh V. Shotwell of Louisville, \$250 award from the Cincinnati chapter (Northern Kentucky) of the Institute of Scrap Iron and Steel, Inc., and Richard D. Hunsinger of Madisonville, \$250 award from the Henry A. Petteer Scholarship Committee awarded by the Western Kentucky Mining Institute.

Other recipients, listed with the amount of the award and the con-

(Continued on Page 4)

Writing Workshop Ends Saturday

A Conference-Workshop on writing problems opened Thursday, and will continue through Friday and Saturday at the University of Kentucky campus.

One hundred educators from 15 counties in the Central Kentucky Education Association District are here to discuss subjects that relate to writing problems from the first grade through the freshman year of college. During the session, college, high school, junior high and elementary teachers are scheduled to appear as speakers.

The Worp-Shop is being co-sponsored by the Kentucky Council of Teachers of English and the University of Kentucky English Department. The Superintendents' Association of the Central Kentucky Education, College of Education, College of Adult and Extension Education, and the In-Service Teacher Training Program of the State Department of Education have also assisted in the preparations for the Conference.

Saturday morning will be the final meeting of the group which will take place in the Guignol Theater.

Religious Group Meets

These students are part of the weekly religious discussion groups, sponsored by the Methodist, Disciples, Lutheran, and Presbyterian denominations through the summer. Shown from left to right are: Marshall White, Fris Hepburn, John Holtzclaw, who led the talk, John Walton, Gwen Craft, and Patsy Beard.

Head Of Botany To Do Research

Dr. Herbert P. Riley, head of the Department of Botany, left July 27 for Africa where, by Fulbright grant, he will teach and engage in research.

Dr. Riley will be attached to the University of Praetoria, city of Praetoria, Union of South Africa. While there he will conduct at least one class each term and offer public lectures and special seminars dealing with radiation and cytogenetics as arranged at other institutions in the area by the U.S. Educational Foundations. During the entire year, he will be the only professor who delivers his lectures

in English. The Botany head plans research on the chromosomes of certain South African plants, especially the succulents, which are desert growing. He is interested in the evolutionary pattern of these, only a few of which are to be found in this portion of the world.

A \$500 grant from the Joseph Henry Fund of the National Academy of Sciences will enable Dr. Riley to make several botanical field trips in Africa.

Dr. Carl S. Henrikson will serve as acting head of the Department of Botany during Dr. Riley's absence.

UK Press Announces Two New Publications

The University of Kentucky Press announces the publication of two new books, "Berea's First Century 1855-1955" by Elizabeth Peck and "International Conflict and Collective Security" by Willard N. Hogan. These will be released the first of August.

"Berea's First Century 1855-1955" is a saga of the long history of the school and of the thousands of students who have attended it. From the account of Berea's early experiment with bi-racial education through the next fifty-one years, comes a picture of one of the most unique educational institutions of the country.

Teacher of History at Berea for 41 years, Dr. Elizabeth Peck retired in 1952 as chairman of the Department of History and Political Science, at which time she became College Historian of Berea.

"International Conflict and Collective Security" is a study of international co-operative action for the maintenance of peace, and the development of security. Taking atomic weapons development into

consideration, Dr. Hogan examines the working of collective security as it has been practiced by international organizations. He concludes that, as a means for stopping world aggression collective security is workable, despite the record of world peace movements.

Dr. Willard N. Hogan is a teacher of Political Science at the State University Teacher's College, New Platz, N. Y., a native of Dry Ridge, Ky., and a native of Dry Ridge, Kentucky.

Horlacher Scheduled For Washington Trip

Dr. H. J. Horlacher, Associate Dean, College of Agriculture and Home Economics, will go to Washington at the end of the summer session to meet a group of foreign students.

He will take charge of the agriculturists who have come to the United States to study Agricultural Extension. These men come from seven countries, the Philippines, Thailand, Formosa, Iran, Brazil, Bolivia and Spain.

In Kentucky they will visit some of the counties and study agricultural extension.

The group returns to Washington on November 5th, where they will leave for their separate countries.

Beating The Heat

These members of the Newman Club found a way to beat the heat last week when they gathered at the Bolling Springs Country Club swimming pool.

Red Citizens Get Warning

People in the Soviet Union have been given a stern reminder that neither religion nor non-Russian nationalism will be tolerated, the U. S. Information Agency reports.

The warning was in the form of a long commentary broadcast by Radio Moscow for "home consumption" and entitled "The Role of Socialist Ideology in the Struggle Against Survivals of Capitalism."

Moscow made it very plain that there has been no basic change in the Communist campaign for atheism. The Red broadcast explained:

"Recently the struggle against religious views was relaxed, owing to poor atheistic propaganda by some party, trade union, komsomol and other organizations which incorrectly interpreted the Soviet constitutional provisions on religion as a renunciation of scientific-atheistic propaganda. This is contrary to party policy.

"It is necessary to strengthen atheistic propaganda."

SLICING OF HUMAN CELLS

A team of Johns Hopkins Hospital scientists have developed new techniques of slicing cells of the human body so thin that they can see in the electron microscope particles that look like cancer viruses. The work, done by Dr. George O. and Mrs. Margaret K. Gey and Dr. Frederick B. Bang, has not pinned the particles down as viruses. It's still only a suggestion.

Afghanistan has a form of "unofficial censorship" for foreign films—which has not rejected any viewed so far.

Rare Ancient Charts On Display In Library

Rare maps, showing old and forgotten American countries are now on display at the Margaret I. King library. This collection is owned by Dwight Tenney, Lexington engineer.

One early 17th century map shows California as an island, while another pictures the Spanish "gold" country of Quivera. This was the land that Coronado hoped to find in 1541, which was reputed to have fabulous wealth. It is located in what is now the center of Kansas.

Another country that has passed out of existence is Messia; today known as the Gasden Purchase.

The State of Franklin—birthplace of Davy Crockett—Mormon Territory of Deseret, Sagadoch, the Northwest and Southwest territories, East and West Florida, and Georgia Extended can also be found.

One chart shows the strait between Siberia and the North American continent. Captain Bering, the supposed discoverer, did not sail these waters until a century after the map was printed in Amsterdam.

The Mercator-Hondius Atlas, one of the books on display, was published in Amsterdam in 1633. The library has just purchased

Plans For Sorority Row Are Under Consideration

A plan for a "sorority-row" for UK social sororities is in the "talking stage" of consideration, announced UK Vice President Leo Chamberlain earlier this week.

Dr. Chamberlain added that the idea was started some time ago when several of the sororities announced they were interested in new buildings. They were told that UK would co-operate if a suitable site could be found and other considerations met.

"It's still in the talking stage at this time," Dr. Chamberlain added.

An area in the neighborhood of Maxwell Street and College View Avenue was considered as a possible site, but it was learned that some of the property in the area

might not be for sale.

Dr. Chamberlain said no other sites have been considered and plans have advanced no further.

The "sorority row" would be similar in plan to UK's "fraternity row" on Huguélet Drive.

Fellowship To Meet

The final meeting of the Presbyterian, Methodist, Disciples, and Lutherans fellowships will be held August 3, 6:00 p.m. at the Presbyterian Student Center, 174 E. Maxwell.

The group, who has been making a study of "Basic Christian Beliefs", will be led in a worship service by the Rev. Steadman Bagby. He will also be guest speaker of the evening.

210 Foreign Posts Get Information Packets

A comprehensive "information packet" describing how land-grant colleges have helped the U.S. develop its agriculture and technology and how these colleges are now sharing their technical knowledge with other nations is being distributed overseas by the U.S. Information Agency.

The special information packet was prepared by the Information Agency for dissemination by its 210 posts abroad.

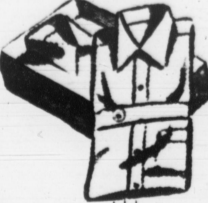

this book, in time for the showing. "Universalior Cogniti Orbis Tabula" by Ruysch (Map of the Known World) is the only facsimile copy in the group. It is the earliest known map which states that the United States was discovered by Spanish explorers.

A German copy of the Young & Dolloker's map, circa 1820, makes a slightly unpleasant remark about Lexington. It states that the city is "... a dirty place ..." and goes on to enumerate churches, schools, banks ... and population. Most of the maps are hand colored, printed on hand made paper, showing original plate marks. Some of them are so oriented that the North is to the right of the page and the west is at the top of it.

A cut-out paper doll and several of her dresses were found in the back of one of the old books. This indicates that at least one little girl enjoyed herself when she was "studying geography".

The exhibit of rare old maps indicates a personal interest of Mr. Tenney's in connection with American history, especially that of Kentucky.

Mr. Tenney, retired engineer, has lectured in the College of Engineering. He formerly lived in Mt. Clair, New Jersey, and has collected most of the maps on trips abroad.

Former UK Basketeer Will Coach At Transy

A former UK basketball and baseball star, C. M. Newton, has accepted the position as basketball coach at Transylvania college, starting Sept. 1, it was announced by Transylvania President Frank A. Rose.

Newton who graduated from the University in 1953, coached Transylvania's basketball team from 1951 through 1953 while still an undergraduate.

In 1953, he went into the Air Force and played on the Air Force's world wide intra-service champion basketball team while stationed at Andrews Air Force Base, Washington, D. C. He was also base athletic officer at Andrews.

After completing his tour of duty with the Air Force last March (he came out a first lieutenant), Newton returned to baseball and at the present time is pitching for Quincy, Ill., in the Three-I League.

Newton's career in organized baseball began in the summer of 1951 when he pitched for Muskingum, Mich., and Norfolk, Va. He signed a contract with the Yankees organization which cost him a year's eligibility on the UK baseball and basketball squads. He

played guard and forward on the Blue and White cage squad and pitcher on the baseball nine, one year as a freshman and two years varsity.

A native of Ft. Lauderdale, Fla., the 6-3 Newton was considered one of the greatest all-around athletes Florida has produced. He was several times all-state in three sports—baseball, football and basketball.

If he hadn't preferred basketball, Newton could have gotten a football scholarship to any one of a half-dozen universities. At UK he led his fraternity team undefeated through two intramural championships.

Transylvania does not offer scholarships just for athletics, and plays intercollegiate basketball on a greatly de-emphasized basis. Taking-over an inexperienced bunch of boys, some of whom had never played high-school ball, Newton was faced with a tough job.

However, in his last season as coach, 1952-53, his team showed a 6-12 record, with major victories against Morehead and arch-rival Georgetown.

Newton was married in 1951 to the former Miss Evelyn Davis of Ft. Lauderdale. They have one daughter, Deborah Jean, a year old.

McVEY HALL

Ruby Praises Guy Huguélet

Earl Ruby, sports editor of the Louisville Courier-Journal, made this comment concerning the late Guy Huguélet in his column:

Guy Huguélet, who died Saturday, was the driving force back of the move that sent the University of Kentucky skyrocketing in football.

It was Huguélet, then chairman of the Athletic Board, who raised \$100,000 to launch a big-time football program and convinced Paul Bryant he should leave the University of Maryland and take charge in Lexington.

He promised Bryant his full cooperation and never forgot that promise. Hardly a practice day went by during Paul's eight years in Lexington, that Huguélet was not on the field or in the locker room.

So generously did he give of his time to Bryant's successful campaign that Paul's decision to resign two years ago shocked him deeply.

As chairman of the Board of Trustees, he continued to give athletics generous, friendly assistance. Many friends predicted he might be asked to service as president, should his close friend, Dr. H. L. Donovan retire.

As president and director of the Keeneland Association, a director of the U.K. Athletic Association and a member of the Wildcat Alumni Executive Committee, he was an active leader and powerful influence in sports to the last. He will be sorely missed.

Audio-Visual Group Goes To Chicago

Four of the staff members of the Audio-Visual Department attended the annual meeting of the National Educational Film Library Association that was held in Chicago, July 22-24.

They were Mrs. Lagatha Monroe, Mrs. Ann Fleuelling, Mrs. Ruby Watts and Mrs. Ruby Evens Hart. (M.—head of booking department, F.—film technician, W.—secretary, H.—director of the Audio-Visual Department.)

Mrs. Fleuelling and Mrs. Hart served on resource panels, Mrs. Monroe acted as recorder.

BACTERIA AGAINST BACTERIA at the annual meeting of the International Association for Dental Research. Dr. Charles A. Schvener of the College of Physicians and Surgeons in San Francisco, described his successful attempt to grow and keep alive in the mouth certain types of bacteria which fight the acid-producing germ, lactobacillus.

COLONEL of the WEEK

Carl E. Henrickson

The Stirrup Cup proudly presents as Kernel of the Week Dr. Carl E. Henrickson.

Dr. Henrickson, who has been on the campus since 1950, has been selected to head the Botany Department while Dr. Herbert Riley is on leave in Africa.

He came to UK as an assistant professor and was promoted, this past June, to an associate professorship.

Dr. Henrickson, who is fastly becoming one of the most popular professors on campus, is a member of Sigma Xi, honorary Physical and Biological society, Phi Sigma and Phi Epsilon national honorary fraternities.

For these outstanding achievements the Stirrup Cup invites Dr. Henrickson to enjoy two of its delicious meals.
