#### FOREWORD

The Inventory of the Parish Archives of Louisiana is one of a number of bibliographies of historical materials prepared throughout the United States by workers on the Historical Records Survey of the Works Progress Administration. The publication herewith presented, a preliminary inventory of a part of the archives of Orleans Parish, is number 36 of the Louisiana series.

The Historical Records Survey was undertaken in the winter of 1935-36 for the purpose of providing useful employment to needy unemployed historians, lawyers, teachers, and research and clerical workers. In carrying out this objective, the project was organized to compile inventories of historical materials, particularly the unpublished government documents and records which are basic in the administration of local government, and which provide invaluable data for students of political, economic, and social history. The archival guide herewith presented is intended to meet the requirements of day-to-day administration by the officials of the county (parish), and also the needs of lawyers, business men and other citizens who require facts from the public records for the proper conduct of their affairs. The volume is so designed that it can be used by the historian in his research in unprinted sources in the same way he uses the library card catalog for printed sources.

The inventories produced by the Historical Records Survey attempt to do more than give merely a list of records - they attempt further to sketch in the historical background of the county or other unit of government, and to describe precisely and in detail the organization and functions of the government agencies whose records they list. The county (parish), town, and other local inventories for the entire country will, when completed, constitute an encyclopedia of local government as well as a bibliography of local archives.

The successful conclusion of the work of the Historical Records Survey, even in a single county, would not be possible without the support of public officials, historical and legal specialists, and many other groups in the community. Their cooperation is gratefully acknowledged.

The Survey was organized and has been directed by Luther H. Evans, and operates as a nation-wide project in the Division of Professional and Service Projects, of which Mrs. Florence Kerr, Assistant Administrator, is in charge.

Col. F. C. Harrington Administrator

#### THOUSE HOW

The inventory of the Parish Archives of Louisians as the state of the

#### PREFACE

In Louisiana the Historical Records Survey began operation in March 1936, under the supervision of Lyle Saxon, State Director of the Writers' Project, who acted as State Director of the Historical Records Survey. In the first W. P. A. district of Louisiana, the Survey was operated apart from the Writers' Project from the beginning. In the third W. P. A. district, the survey was under the direction of the district supervisor of the Writers' Project until July 1936, when a separate supervisor was appointed. In November 1936, the Survey became an independent part of Federal Project No. 1, but its administration and operation in Louisiana remained unchanged. On March 10, 1937, John C. L. Andreassen became State Director of the Historical Records Survey; Mr. Saxon continued as State Director of the Writers' Project.

The objective of the Survey in Louisiana has been the preparation of complete inventories of the records of the State and of each parish, municipality, and other local government units. Although a condensed form of entry is used, information is given as to the limiting dates of all extant records, the contents of the individual series, and the location of the records in the new and old state capitols, parish courthouses, or other depositories.

The Inventory of Parish Archives in Louisiana will, when completed, consist of a separate number for each parish in the state. Each unit of the series is numbered according to its respective position in the alphabetical list of parishes. The inventory here presented is an attempt to list the notarial acts in the offices of the 620 notaries in Orleans Parish. The value and importance of this finding list will be apparent to all who have occasion to consult the acts not yet deposited in the notarial archives in the Civil District Court Building on Royal Street. This volume must be considered as a preliminary edition of one portion of a comprehensive inventory of the local archival materials available in Orleans. It is being published in an edition of 1,000 copies in order to give it the wide circulation which we believe a check list of this nature deserves in the area served by the notaries of the parish.

The Historical Records Survey in Louisiana has already published inventories describing the parish archives in St. Charles, Calcasieu, Lafayette, Allen, Natchitoches, St. Bernard and Plaquemines Perishes. The field work has been completed in about 70% of the remaining parishes in the state. The inventory of state and municipal archives and other local records will constitute separate publications.

The survey of notarial acts held by notaries whose commissions are presently in force in Orleans Parish was begun on September 23, and completed on November 30, 1938.

From the beginning of the survey, the Historical Records Survey workers have had the full and friendly cooperation of Joseph F. Monie, of the Notarial Archives, Civil District Court Building. His "Index" listing notarial commissions in force in Orleans served as the basic guide in the conduct of our field work.

The inventory was conducted under the immediate supervision of

J. E. Mc Carthy. Field workers serving under him were Walter J.
Aviragnet, Carl A. Becker, Eugene F. Mullet, George H. Sauton, Edward
C. Theriot and Charles T. Parnell. All except the last named spent 200
or more man-hours on the task. The editorial work in preparing descriptive records entries, from forms made out by the field workers, has been done by Samuel Hunt under the direction of the Assistant State Supervisor, V. L. Bedsole, and the Parish Inventory Editor, George Sturgis.

The inventory has been arranged alphabetically by the surnames of the notaries. No entries have been provided for the 35 notaries who had not passed any notarial acts before November 30, 1938, nor for the 17 notaries who could not be located. A definite attempt was made to determine when and if a notary specialized in a particular kind of act. The descriptions attempt to indicate the degree of specialization.

A chronological index arranged by years will be found beginning on p. 163. The numbers refer to the entries. Underlined numbers refer to records begun in that year. Numbers not underlined refer to records kept during the whole or a part of that year.

The following notaries have passed no acts in Orleans Parish. With few exceptions the causes for this can be traced to the notary's close association with a commercial institution, where the major part of the business consists of executing affidavits; several notaries have recently received their commissions.

Official List of Notaries Public

This unit of the Inventory of Parish Archives is being issued in mimeographed form by the Department of Archives, Louisiana State University, for free distribution to state and local public officials and libraries in Louisiana, and to approximately one hundred libraries and governmental agencies outside the state. Requests for information concerning particular units of the Inventory should be addressed to the State Director, or to Dr. Edwin Adams Davis, Head of the Department of Archives, Louisiana State University.

Although a relatively large edition of this preliminary inventory has been published for distribution in Orleans Parish, the limited number of copies of the regular inventories has made essential a planned distribution of the volumes. Each Clerk of Court and ex officio Recorder has received a copy of the Saint Charles, Lafayette, Calcasieu, Natchitoches, Saint Bernard, and Plaquemines Parish volumes. It is hoped that the state-wide series of 64 volumes will eventually find safe deposit in these 64 widely distributed depositories.

General regulations and procedure applicable to all project units in the forty-eight states have been followed in Louisiana. The officials of W. P. A. in Louisiana have always given the project cordial support and assistance. Appreciation for the interest and co-operation of the hundreds of Orleans Parish Notaries in our undertaking must be mentioned.

#### CHRONOLOGICAL INDEX

(All numbers refer to entries. A record entry number is listed under each decade which the record covers in full or in part. An entry number is underlined to call attention to the initial appearance of the record; the last listing of the entry number indicates the decade within the record ends.)
