

# Expanding Student Enrollment

Since 2000, UK has increased enrollment:

- from 70 Kentucky counties
- from 19 of the Council on Postsecondary Education's 29 "underserved" counties
- from 32 of Kentucky's 55 Appalachian counties
- among Pell Grant eligible students

UK is the only Kentucky university where Kentuckians' share of the undergraduate population has remained steady since 1998 (84.3 percent)
