

Minutes of the Meeting of the Board of Trustees, University of Kentucky, September 23, 1944.

The Board of Trustees of the University of Kentucky met in the President's Office at 1:00 p.m., Saturday, September 23, 1944, pursuant to adjournment. The following members were present: Governor S. S. Willis, Judge Richard C. Stoll, Mrs. Paul G. Blazer, J. C. Everett, H. S. Cleveland, Judge Harry W. Walters, T. H. Cutler, R. P. Hobson, Robert Tway, Harper Gatton, John Fred Williams, Elliott Robertson and Grover Creech. President H. L. Donovan and Comptroller Frank D. Peterson, Secretary of the Board, were also present.

A. Approval of Minutes.

* * * * *

- 1. Upon motion of Judge Stoll, seconded by Mr. Cleveland, and unanimously carried, the minutes of the Board of Trustees of June 2, 1944, is approved as published.

* * * * *

* * * * *

- 2. Upon motion of Mr. Gatton, seconded by Mr. Cutler, and unanimously carried, the minutes of the Executive Committee of June 6, 13, July 21, and August 22, 1944, are approved as published.

B. Approval of Candidates for Degrees.

President Donovan submitted a list of candidates for degrees which had been approved by the University Faculty with recommendation to the Board of Trustees.

COLLEGE OF ARTS AND SCIENCES
CANDIDATES FOR THE DEGREE OF BACHELOR OF ARTS

Leland Edgar Day
Lula Jeane Foley
Mildred Ann Hannah
Margaret Ann Hartman

Dorothy Combs Hill
Mary Elizabeth Locknane
Virginia Frances Mitchell
Earl Charles Purvis, Jr.

CANDIDATES FOR THE DEGREE OF BACHELOR OF SCIENCE

Joseph Brasher Boatman
 Robert Burton Breeding
 McHenry Shreve Brewer
 James Campbell Cantrill

John Parker Hill, Jr.
 Ralph Ernst Meyer
 Murrell Leon Salutsky

CANDIDATE FOR THE DEGREE OF BACHELOR OF SCIENCE IN MUSIC

Donald Norman Galloway

CANDIDATES FOR THE DEGREE OF BACHELOR OF SCIENCE IN LIBRARY SCIENCE

Evyline Devary
 Josephine Moore

Ima Mae Van Hook
 Helen Louise Williams

College of Agriculture and Home Economics

CANDIDATES FOR THE DEGREE OF BACHELOR OF SCIENCE IN HOME ECONOMICS

Virginia Haynes Allen
 Helen Margaret Bradford
 Doris Rose Chrisman
 Sara Lee Mock Floyd
 Mildred Snapp Forston
 Opal Garice Hurley

Katherine Krug Johnston
 Joan Catherine Meyer
 Jean Bernice Prichard
 Lelia Barnhill Schooley
 Erwina Soward
 Mary Jacqueline Stamper

COLLEGE OF ENGINEERING

CANDIDATES FOR THE DEGREE OF BACHELOR OF SCIENCE IN CIVIL ENGINEERING

James Hubert Crawford
 David McCord Phelps III

James Barbour Stevenson

CANDIDATE FOR THE DEGREE OF BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

Ray Preston Walters

COLLEGE OF LAW

CANDIDATE FOR THE DEGREE OF BACHELOR OF LAWS

Scott Elgin Reed

COLLEGE OF EDUCATION

CANDIDATES FOR THE DEGREE OF BACHELOR OF ARTS IN EDUCATION

Willie Semenda Adams
 Alice Louise Benton
 Lucille McKinivan Clarke
 Evelyn Percival Coffman
 Ann Elizabeth Earle
 Wathalyne Tipton Fairchild
 Marian Atkinson Faulkner

Mildred Pauline Franklin
 Carolyn Rhodes Hill
 Dana Margaret Ison
 Nora Sebastian Mosby
 Martha Wood Neblett
 Annabel Roberts
 Joan Schlegel

Helen Marguerite Thacker
Elizabeth Ellen Whaley

Georgianna Young

COLLEGE OF COMMERCE
CANDIDATES FOR THE DEGREE OF BACHELOR OF SCIENCE IN COMMERCE

Eunice Leigh Arnold
Mary Burnam Brittain
Wilma Clay Cecil

James Francis Doyle
Callie Ann Morris
Mary Jean Runyon

GRADUATE SCHOOL
CANDIDATES FOR THE DEGREE OF MASTER OF ARTS

John Coleman Arnold
Theressa Ross Garr
Chloe Gifford
Dorothy Annabelle Kuhn

Carmen Perez Roman
Marjorie Fingerhood Pfeffer
Guy Harvey Ranson
Margery Allene Thomas

CANDIDATES FOR THE DEGREE OF MASTER OF SCIENCE

Annie Mary Botts
Floyd Cox
Mortin Irwin Dolin

John Loice Owen
William Landon Smith

CANDIDATE FOR THE DEGREE OF MASTER OF SCIENCE IN PUBLIC HEALTH

Lawrence Landis

CANDIDATES FOR THE DEGREE OF MASTER OF ARTS IN EDUCATION

Otis Lane Adams
R. P. Brown
Louisa Elizabeth Bumgardner
Marian Margaret Evans
Garnet C. Hines
Joe Grady Lehman
Thelma Oleen Majors
Willie Curtis Wright Partin

Emma Seifried Phelps
Ida Mae Pieratt
Lena Turner Saunders
Alice Eloise Seay
Elizabeth Shaikun
Clarence William Starns
Raymond Jayson Wesley
Goldie Margaret Wilson

CANDIDATES FOR THE DEGREE OF MASTER OF SCIENCE IN EDUCATION

Frances Elizabeth Brown
Thelma Lee Monical

Elise Sams Patrick

* * * * *

3. It was moved by Judge Stoll, seconded by Mr. Cutler, and unanimously carried, that degrees be granted to the persons having completed the requirements for the degrees indicated as having been approved by the University Faculty and recommended by the President of the University.

C. Report of the President.

President Donovan made the following report to the Board of Trustees:

QUARTERLY REPORT TO BOARD OF TRUSTEES

H. L. Donovan, President

September 23, 1944

The Administrative, Instructional and Research Organization of the University of Kentucky

On the table before you is a chart of the administrative, instructional and research organization of the University of Kentucky. I am suggesting that we take a few minutes to study this chart, which has been carefully prepared by Dean Leo M. Chamberlain in consultation with the Deans of the various colleges, the Director of the Experiment Station, the Comptroller, and the President. This chart is a blue-print of the organization of the University, and it gives the reader at a quick glance an understanding of how the University is organized and the functions of the different colleges and divisions.

Enrollment

The civilian enrollment during the past year has been the lowest for many years. This is easily explained. All able-bodied young men eighteen years and over were drafted for military service. Many of the young women enlisted as WACS, WAVES, SPARS, or Cadet Nurses. High salaries paid by industry and government also induced other young women and many young men who were unable to meet the physical requirements for military service to accept positions.

It is believed that the past year represents the turning point in the enrollment of the University. Already there are indications that the enrollment for the next year will be considerably higher than that of the past year. There is every evidence to believe that as soon as hostilities terminate the enrollment will increase rapidly until it reaches a figure far beyond any enrollment the University has ever had.

One of the unfortunate results of the war is the curtailment of the enrollment in the Graduate School. Graduate schools throughout the nation have lost the majority of their students. This represents a national disaster because it is certain to result in a shortage of men and women adequately prepared for many of the professions and for research. It will take some years to overcome this deficiency in trained personnel for many of the essential services for society.

Civilian Enrollment

University Enrollment by Sex and by Colleges and Classes For the Year Ending
 June 30, 1944 Including Both Summer Terms of 1943

Appointment to Advisory Committee
Committee on Education--House of Representatives

About a month ago, Congressman Graham A. Barden, North Carolina, Chairman of the Committee on Education of the House of Representatives, invited me to serve as one of twelve members of an Advisory Committee to study higher education for the Committee on Education of the House. My colleagues on this Committee are distinguished American educators representing all parts of the nation. We have been charged with the responsibility of ascertaining to what extent the war has affected higher education in this country, and to recommend a program to the National Government for relief in case we decide that it is necessary for the government to come to the rescue of both private and public institutions. This Committee has held one meeting of three days in length in Washington. The Director of the Study, Dr. Francis J. Brown, is assembling material from all the institutions of higher education in this country, from which he is attempting to ascertain from the presidents of these colleges and universities what has been the effect of this war on the various institutions. We are to meet again in October for the purpose of considering the information which will have been assembled.

Decision of Veterans Administration on Question of
Payment of Cost of Education of the Returning Veterans

The 78th Congress of the United States recently passed Public Law 346, commonly known as the GI Bill of Rights. This bill provided for the education of returning veterans. It stated that, "The Administrator shall pay to the educational or training institution, for each person enrolled in full time or part time course of education or training, the customary cost of tuition, and such laboratory, library, health, infirmary, and other similar fees as are customarily charged, * * * * * Provided, that in no event shall such payments, with respect to any person, exceed \$500 for an ordinary school year * * * * * And provided further, That if any such institution has no established tuition fee, or if its established tuition fee shall be found by the Administrator to be inadequate compensation to such institution for furnishing such education or training, he is authorized to provide for the payment, with respect to any such person, of such fair and reasonable compensation as will not exceed \$500 for an ordinary school year."

The members of Congress with whom I have talked have stated that they thought they were enacting a law which would actually provide for the cost of educating returning soldiers and sailors at institutions of higher education, not to exceed the maximum of \$500. They have said that they thought they were taking care of the cost of educating the returning veterans in view of the fact that these men had been called into military service by the National Government and that their education had been interrupted because of the national emergency.

The Veterans Administration has not so interpreted this law. In June it sent out a directive which insisted that it would pay only the published catalog tuition fee. This decision caused such a violent reaction on the part of colleges and universities that the

Veterans Administration decided to appoint a committee of educators to study this question, stating in advance that it would accept the recommendations of this committee. The committee appointed consisted of Dr. Robert G. Sproul, President, University of California; Mr. Robert B. Stewart, Controller, Purdue University; Mr. H. S. Ford, Treasurer, M.I.T., and Dr. R. C. Harris, President, Tulane University. These men represent four of the rich universities of the United States. Their institutions have already received millions of dollars in contracts from the Federal Government for services which they have rendered during the war. This committee met and decided to recommend that a floor or minimum fee be established, guaranteeing to institutions tuition of at least \$10 a month, \$30 a quarter, or \$40 a semester. They also stated that public institutions may charge the non-resident tuition fee. This recommendation was but to add insult to injury. At least 200 colleges of the United States will have to spend a large part of their state appropriations, or a part of their endowment funds for the education of the returning veterans, even though Congress had meant to finance their education. An examination of the catalogs of these four universities whose representatives recommended a policy to the Veterans Administration will reveal that each of them will receive tuition fees for the education of returning veterans ranging from \$205 to \$500 per year.

Their recommendation was a perfect application of the old Biblical statement, "For unto every one that hath shall be given, and he shall have abundance: but from him that hath not shall be taken away even that which he hath."

The Veterans Administration appointed representatives of these rich universities, ignoring the small private colleges, the state teachers colleges, the junior colleges, the state universities and land-grant colleges with small tuition fees. These institutions had no voice whatsoever in formulating the recommendations to the Veterans Administration. Their problems were absolutely ignored and if this decision stands, it will amount to the Congress enacting the laws to have the states and the privately endowed colleges educate the returning veterans largely out of their own resources.

A more arbitrary decision has probably never been made by any agency of government in this country. It is a perfect example of government by a bureaucracy, regardless of what legislation Congress may enact.

Under the decision now announced by the Veterans Administration the University of Kentucky will probably secure \$165 tuition fee per year from the Federal Government for each returning veteran. A study of the cost of education at the University of Kentucky for all of its colleges over a period of four years has recently been made and the average cost is \$410.92 per student per year. This means that the University of Kentucky will have to supplement the education of the veteran with \$245 per man per year. It is reasonable to expect that over the period of seven years in which returning veterans may take advantage of the provisions of the GI Bill, the University of Kentucky will enroll a minimum of 4,000 veterans. These men may remain in college from one to four years. I believe it would be conservative to assume that they would remain in school an average

of two years each. This would mean that the University would give 8,000 man years of education to the returning veterans. Multiplying \$245, the amount the University would have to subsidize each veteran, by 8,000 you get the enormous sum of \$1,960,000 which the University of Kentucky will be called upon to spend on the education of the returning men. It will receive from the Federal Government for the education of these men \$1,320,000. M.I.T., enrolling a like number of students, will receive from the Federal Government \$4,000,000.

This is not all that the State of Kentucky will lose as a result of this decision of the Veterans Administration. The combined enrollment of the four state teachers colleges, the two colleges for Negroes, and the vocational school at Paintsville will probably equal the enrollment of the University of Kentucky. Their tuition fees are smaller than ours and they will sustain a greater loss proportionately than that sustained by the University.

The high tuition schools are largely located in New England. Many of them will receive the maximum of \$500 for compensation under the terms of the announced policy of the Veterans Administration, whereas the colleges of Kentucky, both private and public, as well as practically all the colleges and universities in the South, will secure only a small fraction of the actual cost of the education of the returning veterans. While paying for a large portion of the cost of the education of the returning soldiers and sailors in our region, we will be paying Federal taxes that will help to pay the tuition cost for the wealthier colleges and universities of New England, the West Coast, and some other favorite regions.

Representative Rankin of Mississippi has introduced an amendment in the Congress asking the Veterans Administration to pay the actual cost to all colleges of the nation and not to discriminate among them. The only relief that I can see is for us to ask our Congressmen to support this measure that a fair and reasonable fee be paid to all institutions for the education of returning veterans.

I request that the Board of Trustees pass two resolutions, one to be sent to General Frank T. Hines, objecting to the policy announced by the Veterans Administration, and the other to be sent to each of our Senators and Congressmen, asking them to support the Rankin Amendment. I would also appreciate it if each member of this Board would communicate with his Congressman personally and urge him in the name of justice and fair play to correct this great wrong that has been done smaller American colleges and universities.

The Board took cognizance of the requests of the President, and upon motion of Judge Stoll, seconded by Mr. Williams, and unanimously carried, the following resolution was passed:

The Board of Trustees of the University of Kentucky, at its regular meeting on September 23, 1944, takes note of Section 5 of Part VIII of Public Law 346, cited as the Servicemen's Readjustment Act of 1944. The last part of this section reads as follows: "That if any such institution has no established tuition fee, or if its established fee shall be found by the Administrator to be inadequate compensation to such institution for furnishing such education or training, he (the Administrator) is authorized to provide for the payment, with respect to any such person, of such fair and reasonable compensation as will not exceed \$500 for an ordinary school year."

Whereas: It is the conviction of this Board that the recent directive issued by the Veterans' Administration is not in keeping with the meaning of the above provision of the law or with the intent of the Congress, and

Whereas: the administration of the law under this recent directive will do marked injustice to all institutions that for good and legitimate reasons have had no tuition fees or have maintained low tuition or incidental charges,

Be It Therefore Resolved: That this Board express to General Frank T. Hines, The Administrator of Veterans' Affairs, its objection to the interpretation that has been placed on the above mentioned section of the Act and that it request that the matter again be taken under advisement with a view to a decision more in keeping with the letter and intent of the law and one that will result in the equitable treatment of all institutions concerned.

Be It Further Resolved: That the Secretary be instructed to send a copy of the above statement and resolution to General Hines.

The Board of Trustees, upon motion duly made, seconded and unanimously carried, passed the following resolution directed to the United States Senators and Representatives from Kentucky:

The Board of Trustees of the University of Kentucky, at its regular meeting on September 23, 1944, takes note of Section 5 of Part VIII of Public Law 346, cited as the Servicemen's Readjustment Act of 1944. The last part of this section reads as follows: "That if any such institution has no established tuition fee, or if its established fee shall be found by the Administrator to be inadequate compensation to such institution for furnishing such education or training, he (the Administrator) is authorized

to provide for the payment, with respect to any such person, of such fair and reasonable compensation as will not exceed \$500 for an ordinary school year."

Whereas: It is the conviction of this Board that the recent directive issued by the Veterans' Administration is not in keeping with the meaning of the above provision of the law or with the intent of the Congress, and

Whereas: the fees charged in all the state supported institutions of Kentucky are designed to cover costs incidental to instruction rather than tuition and do not, therefore, represent adequate compensation to such institutions for furnishing the required education for veterans, and

Whereas: this is true even though the institution is permitted to charge the non-resident fee for each veteran irrespective of his residence, and

Whereas: all institutions of this state and of the South generally will be reimbursed at a much lower rate than wealthier institutions of other sections of the country, when the same service is required of all, and

Whereas: the citizens of Kentucky and of other states of the South will be paying Federal taxes to finance the cost of a program that under the recent directive will benefit principally institutions in other sections of the country that have found it possible and desirable to assess higher fees,

Be It Therefore Resolved: That this Board request each United States Senator and Representative from Kentucky to lend his active support to the proposed Rankin amendment to Public Law 346, or to such other amendment as will insure that every college participating in the education of veterans will be properly reimbursed in accordance with the obvious intent of the original act.

Be It Further Resolved: That the Secretary be instructed to send a copy of the above statement and resolution to each United States Senator and Representative from Kentucky.

D. The President's Report Continued.

The Summer Quarter.

One of the first recommendations I made after coming to the University was to place the summer school under the control of the deans of the several colleges of the University. I made this recommendation after consulting with Dr. Jesse E. Adams, Director of the Summer School, explaining to him my reason for doing so. I should

like to record here that Doctor Adams gave me his full cooperation and support in bringing about this change. Under the splendid leadership of Doctor Adams a great summer school had been built up, but it was in a large measure independent of the administration of the various colleges. In October, 1941, we took the summer school academically into the pattern of the organization of the University, but because of the lack of funds it still had to be operated on student fees, plus the small sum of \$10,000 appropriated by the General Assembly for that purpose. The fees of the students served somewhat as a "jack pot" to be divided among the professors in proportion to the number of students they were able to attract to their classes. In some departments there were plenty of students, while in others there was not much demand. This uncertain financial arrangement resulted in dissatisfaction among teachers and it tended to affect the morale of the faculty of the University.

Before the last meeting of the General Assembly, I requested a ten per cent increase in our appropriations, primarily for the purpose of correcting this problem. The Governor and the General Assembly granted this increase in our appropriations and made it possible for us to take the summer quarter financially into the University. The summer quarter is now academically and financially part of the University, and it is administered in the same manner as any other quarter of the year. All members of the faculty who desire a twelve-months contract are employed on a twelve-months basis. If a member of the faculty desires to teach three quarters only, this privilege is granted to him. However, practically all the staff in the future will be employed on the four-quarters basis. This full-time employment of men and women has made it possible to increase the salaries of the faculty to some extent. It also assures a better balanced summer school schedule, which will enable those students who desire to accelerate their work to do so, thereby graduating in three years instead of four.

Kentucky: Designs for Her Future

Following the celebration of the Kentucky Sesquicentennial in 1942, the University undertook to make a thorough study of Kentucky in prospect. A number of the members of our faculty were encouraged to look into the future and attempt to anticipate many of the problems of tomorrow. We have a faith that Kentucky's true greatness lies ahead. A study of our vast undeveloped natural resources on which to build the land of tomorrow was made. A series of thirty radio addresses were made over WHAS, setting forth the possibilities of Kentucky's future. As a result of this preliminary study, it was decided that a much more comprehensive investigation of future needs should be undertaken. We requested Dr. Howard W. Beers, Professor of Rural Sociology, to assume the editorship of a volume that might be valuable in charting our course in the years ahead for Kentucky in the world of tomorrow. He invited a number of his colleagues in the University to join him in making a comprehensive study of our state's future needs and prospects. For two years these men have been giving earnest consideration to this problem. A volume entitled "Kentucky: Designs for Her Future" will be published shortly, giving the results of the study and deliberations of twelve members of our faculty who have worked on this project. This book should

prove to be of interest to every citizen who has an interest in the future of the Commonwealth.

The table of contents will give you some idea of the subjects to be presented in this volume.

University Health Service

Approximately two years ago a committee of the faculty of the University made a careful survey of the University Health Service and recommended a number of new policies with regard to the activities of this important agency of the University. These policies have proved to be sound.

When we contracted with the War Department for the AST Program, the University was requested to establish and maintain an infirmary for the soldiers. A considerable sum of money was made available by the Army to activate this project. The old law building, which in recent years has been used for the headquarters of the University Health Service, was remodeled so as to provide for hospital rooms and other services essential to the establishment of an infirmary. As a result of these alterations in this old building, we now have

hospital facilities which can be used effectively for the civilian students as the soldiers retire from the University. In the past the only infirmary that we have had available on the campus has been three or four rooms in one of the women's residence halls. Students living in town or in the men's dormitories were without infirmary facilities when ill except in cases where they were sent to the local hospitals. This was too expensive for most students and frequently students who should have been receiving hospital care remained in their boarding houses or dormitory rooms, or were taken in automobiles to their homes. The infirmary set up for the soldiers will in the future be available for civilian students. These new facilities should enable the University Health Service to render better service to the students in the future and it should insure greater protection to the health of our students.

Future Building Program

The thing that has amazed me most about the University since assuming my duties as president is the meager funds that have been spent for buildings in the past. During its entire history of seventy-nine years, less than \$1,650,000 has been appropriated by the General Assembly of Kentucky for construction of buildings.

We have a number of new modern buildings which were erected under the Public Works Administration program, the Federal Government supplying forty-five per cent of the cost of these buildings and the University bonding itself for the remainder of the cost. These bonds are being retired over a period of years out of fees collected from students. The State of Kentucky assumed no responsibility for the construction of the buildings or payment of the debt on them. This method of financing the plant of a university places too much of the burden upon families of the children who attend the University.

The University faces a critical shortage of residence halls for the purpose of housing our students and of classroom and laboratory buildings for the instruction of young men and women who are in attendance. There is probably no state university in the United States that has as little dormitory space as the University of Kentucky. We are able to house in dormitories approximately 361 women and 325 men. This is less than twenty per cent of our normal enrollment. The University should have a sufficient number of dormitories to take care of half the student population. There are many lovely homes in Lexington within a radius of a mile that are prepared to receive students, but there is not a sufficient number of desirable homes to provide adequate facilities for the students who desire to attend the University. This results in many students being crowded in sub-standard homes where students should not be permitted to reside. So imperative is this need for additional residence halls that I believe the Trustees should proceed at once, under the Act of 1934, to build another large residence hall for girls and one for boys.

The need for classroom and laboratory space is just as acute as rooms for living. The visitor on the campus looks about him and

views many buildings. He may frequently be inclined to think the institution has a rather extensive physical plant. It is hard for him to realize that in normal times there are more people operating on the campus of the University than the total population of towns the size of Georgetown, Mt. Sterling, Princeton, or Pikeville. If you should drive over these towns and see how many buildings it takes to house their population, you will then realize something of the magnitude of the operations of the University. As you look over the number of buildings required for the living and commercial activities of the people of these county-seat towns, you will secure some idea of the housing problems of the University.

The last General Assembly authorized the Governor to erect a War Memorial Field House. The amount of money to be appropriated for this structure has been left up to the Governor. When this project has been completed, it will give the University great relief by providing ample space for its athletic program and a place for assembling its students for convocations, commencements, concerts, and other programs where the attendance exceeds the capacity of the War Memorial Auditorium.

Other buildings for which there is an imperative need are a Fine Arts Center, College of Commerce Building, a Museum, Journalism Building, Library Annex, Hospital and Dispensary, classroom building for the College of Arts and Sciences, and a Dairy Barn. This listing of buildings is not necessarily the order in which they should be constructed. It is obvious that these buildings cannot be erected all at one time. However, Kentucky should have a planned program for the development of the University, and this plan should call for the erection of a new building on the campus each year for the next decade. If the General Assembly would systematically authorize such a program of construction, the University would in ten years be adequately housed. It is my opinion that the Board of Trustees should appoint a small committee of citizens who would make a careful survey of this problem and report to the public that our people may better understand the problem that is involved. If American education follows the trend during the next two or three decades that it has taken prior to the beginning of the war, we may expect an enrollment in our University of at least 6,000 students within this period. It will be too late to correct inadequate housing conditions if the state waits until the students actually arrive before attempting any construction. Our state has always been conservative in expenditures for the University. It is necessary for us to have a campaign of education, informing the public very definitely regarding future needs if we are to expect the law-making body of the state to authorize adequate appropriations for the development of the University.

Permit me to point out two or three examples of the most acute and pressing needs for new buildings. On the campus of the University we have a Department of Music, a Department of Art, Speech, Dramatics, and the Guignol Theatre, associated with the Department of English. These departments have done in the past, and are continuing to do, splendid work in the field of Fine Arts but they are handicapped by their physical limitations. The Guignol and the

Music Department are housed in a fragile frame building--a cheap type of construction and entirely inadequate for the needs of these departments. The Art Department is more favorably domiciled, being located on the third floor of our commodious Biological Sciences Building, but whenever I take a visitor to show him this very impressive building, I invariably have to answer the query, "When did art become a biological science?" The very location of the University in the center of the Bluegrass, a region of wealth and affluence with many of the loveliest homes in America that reflect art and culture, makes it a logical place for a great school of fine arts. We need a Fine Arts Building at the University sufficiently elegant, spacious, and an example of fine arts to become the home of such a school. It should have in it sound-proof studios and practice rooms for music, classrooms and studios for art, and a little theatre with all the equipment and accessories for dramatics. An Art Center adequately housed on the campus of our University would soon attract national attention. Greater attention to the fine arts of Kentucky is a program every citizen should support.

The College of Commerce is housed in White Hall, a building that was formerly erected as a men's dormitory. This structure is entirely inadequate as a classroom building. This College needs a modern classroom building with adequate laboratories and equipment approximating what would be found in banks and business houses in our industrial economy. Until such a home is provided for the College of Commerce, it will remain handicapped in its program of education for young men and women for the business world.

The Department of Journalism and the Kentucky Kernel are housed today in a part of McVey Hall. They are cramped by lack of facilities. This Department should have a building to house its presses as well as classroom facilities for its teaching program. Approximately a third of the cost of such a building has already been provided for through earnings of the Kentucky Kernel over a period of years.

The Department of Archaeology has assembled one of the finest collections of artifacts to be found in the Mississippi Valley. Much of this valuable collection is stored in boxes and is scattered about over the campus in basements and attics where it cannot be observed. The Department of Geology also has a fine collection of minerals. These are inadequately displayed. Other departments of the University have collections which should properly be housed in a Museum, if such a building were available on the campus. It is highly desirable that a Museum be erected to house these various collections at an early date. Funds are already available for approximately half the cost of such a structure if the remaining half could be secured by an appropriation from the Legislature or from some interested donor.

The Library Annex, the Hospital and Dispensary, the classroom building for the College of Arts and Sciences, and the Dairy Barn all constitute pressing needs which should not be long delayed. Certainly within a period of ten years every one of these buildings should be erected on the campus if the University is to serve the people of the State as effectively as it should.

Members of the Board of Trustees discussed the recommendation for construction of a dormitory for women and a dormitory for men, and took the following action:

* * * * *

4. Upon motion by Judge Walters, seconded by Mr. Cleveland, and unanimously carried, the President is directed to secure plans and estimates of cost for a dormitory for women and a dormitory for men, and to report back to this Board at its regular quarterly meeting in December, 1944.

* * * * *

The members of the Board also took note of recommendation of President Donovan that a small committee of citizens be appointed to make a careful survey of the building needs of the University and recommend a program for development providing future necessary buildings, and report to the public in such a way that our people may better understand the problem faced by the administration of the University.

After a brief discussion of the urgent building needs and the planning of a program for the development of the University, the Board of Trustees took the following action:

* * * * *

5. Upon motion duly made, seconded and unanimously carried, the Governor and President Donovan are directed to select a committee of five, and that they be appointed for the purpose of making a careful survey of the building needs of the University and make a report that may be made public.

* * * * *

E. The President's Report Continued.

Colonel Brewer's Retirement.

In conformity with his plans for retirement from active military service, Colonel B. E. Brewer resigned as Commanding Officer of the 1548th Service Unit at the University of Kentucky, effective September 1, 1944.

Colonel Brewer was graduated from the University, as a member of the Class of 1908, with the degree of Bachelor of Science in Agriculture. During the same year he joined the Philippine Constabulary

and in 1910 was commissioned a Second Lieutenant in the Philippine Scouts. A successful military career led to his appointment to the rank of Colonel in 1939.

Colonel Brewer served as Professor of Military Science and Tactics and Head of that Department at the University from 1932 to 1938 and again from 1942 to 1944. From May, 1942, until the date of his retirement he also commanded the Army Specialized Training Unit at the University.

For his years of efficient service as a member of the staff and for his continued loyalty as an alumnus of the institution, the Board of Trustees of the University of Kentucky and the President express to Colonel Brewer their sincere appreciation and extend to him our best wishes.

A Statement Regarding the Granting of Credit for Military Service

As veterans return to the University of Kentucky in increasing numbers we are certain to be faced with some rather difficult problems respecting credit for training taken while in military service. In fact, our advice has already been sought in several cases. Most veterans are likely to be very reasonable in their requests, particularly in view of the fact that the Servicemen's Readjustment Act, commonly known as the GI Bill, was enacted by Congress with a view to compensating the men for the fact that their education was interrupted. This bill makes it possible for those who had to leave college before securing their degrees to return to the institution of their choice and with the least possible waste of time complete the remainder of their work at government expense.

In spite of this statesmanlike and generous action on the part of Congress, there will be a few veterans who will feel that their military experience, regardless of its character, should excuse them from completing a part or perhaps all of their remaining requirements for a degree. Pressure will be brought in this direction by parents, patriotic organizations, veterans' organizations, and individuals who, though well meaning, do not understand the conditions under which an institution of higher learning is obligated to work. It seems desirable, therefore, for the University to have a clearly defined policy with respect to these matters, and that everyone associated with its administration understand them and be in a position to lend proper support whenever problems arise.

The University Committee on Post-War Planning has recommended to the Faculty certain basic policies to be observed. These basic policies have been approved by the Faculty and, with the necessary administrative interpretations, are as follows:

1. The University will not grant blanket credit for military service without valid evidence of educational achievement.

2. It will grant credit for educational training acquired during the period of military service on the basis of demonstrated competence in a specific subject or subjects. This general policy is elaborated in the paragraphs following.

3. Any veteran who has been in military service for at least three months may receive credit in military science equal in amount to that allowed for basic ROTC or such part of this credit as he may not have acquired prior to entering military service. The maximum amount of credit in military science that could be thus acquired would be twelve quarter hours.

4. Any veteran who has served three months or more may receive credit in physical education equivalent to the amount required by the college in which he is enrolled, or such part of this credit as he may not have received prior to entering military service. The maximum amount of credit in physical education that could be thus acquired would be six quarter hours.

5. Credit will be allowed for the work taken at the University of Kentucky in the Army Specialized Training Program, the Engineers' Specialist School, and in Civilian Pilot Training and War Training Service. Evaluations have already been placed on all the courses offered under these programs. In general, the amount of credit that has been allowed is equal to that which would have been granted had the courses been offered as a part of the civilian program. In other words, the AST student has earned in a twelve weeks' period approximately the same credit that a civilian student would earn in a quarter.

6. No credit is being allowed for the courses in the Engineering, Science, Management, and War Training Program. This is in accordance with the policies of the United States Office of Education which sponsored the program and in accordance with practices in most leading institutions.

7. Credit for military training programs offered in other accredited colleges and universities will be accepted on transfer at the University of Kentucky under the same conditions that other college work is transferred.

8. Credit for military training taken in Army and Navy schools or at any place other than in an accredited educational institution will be allowed only under the second policy enumerated above; that is, on the basis of demonstrated competence in a specific subject or subjects. In its evaluation of such training the University will seek the assistance of the Armed Forces Institute and will make use of the manual now in preparation by the American Council on Education. Where there is clear evidence that the veteran has had a course that is the equivalent or approximately the equivalent of a course regularly offered at the University of Kentucky, credit may be allowed on the basis of proper evidence of the successful completion of the course. In all other cases credit will be established only by special examination. The veteran will be given an opportunity to apply for a special examination in any course offered at the

University for which he feels his training has properly prepared him. He may also have recourse to any examinations given by the Armed Forces Institute.

9. No student will receive a degree from the University until he actually has on his record the total required number of credits and quality points. For veterans who were students at the University of Kentucky prior to going into service or while in service the rule requiring the final year in residence may be waived, provided that the total previous residence credit has been not less than 45 quarter hours. A reasonably liberal policy will be observed in the matter of curriculum substitutions.

10. A veteran who cannot satisfy the regular admission requirements to the University may be admitted as a special student irrespective of whether he has attained the age of 21, the age requirement for the admission of a civilian student under this category. This means that a veteran who lacks some relatively minor part of the regular admission requirements may be admitted to the University provided he can demonstrate clearly that he has the ability to do successful college work.

In the formulation of the above policies and regulations, careful consideration has been given to the attitudes and practices of other institutions and to the recommendations of the various educational associations and accrediting bodies. If these policies and regulations are observed, the University will properly safeguard its academic standards and it will be in line with the recommendations of the American Council on Education, the Armed Forces Institute, and all regional accrediting bodies.

F. Appointments and Other Staff Changes.

President Donovan submitted staff appointments, reappointments, salary adjustments, leaves of absence, resignations, promotions and other staff changes requested by deans and heads of departments. He also called special attention to the resignation of Dr. Lawrence L. Quill, head of the Department of Chemistry, which he had received. The President and the members of the Board discussed Doctor Quill's work as head of the Department of Chemistry and expressed great concern over his resignation. President Donovan was instructed by the Board to exert every effort possible to persuade Doctor Quill to continue as head of the Department of Chemistry at the University of Kentucky.

College of Arts and Sciences

Appointments

Shelby McCloy, visiting professor in the Department of History, for the ten months beginning September 1, 1944.

James C. Humphries, assistant professor of Bacteriology, for the ten months beginning September 1, 1944.

Fletcher W. Donaldson, instructor in Mathematics, for the ten months beginning September 1, 1944.

Jacqueline Bull, instructor, part-time, in Library Science, for the period beginning September 1, 1944, through March, 1945.

Mary Johnson, instructor in Physical Education, for the ten months beginning September 1, 1944.

Helen Markwell, instructor in the Department of Physical Education, for the ten months beginning September 1, 1944.

Iva Dagley, instructor in Music, for the second term of the summer school, effective July 20, 1944.

Julia Ann Waters, half-time secretary in the Department of Sociology for the period September 18, 1944 to July 1, 1945; and half-time secretary in the Department of Geography, for the period September 16, 1944, to July 1, 1945.

Irene C. Waters, secretary in the Department of Music, effective September 1, 1944, through June 30, 1945.

M. Laurance Morse, junior technician in the Department of Bacteriology, effective September 1, 1944, to July 1, 1945.

Carl Edwards, student assistant in the Department of Physical Education, effective September 1, 1944, to January 1, 1945.

Ethel Smith, graduate assistant in the Department of Physical Education, effective September 1, 1944, to July 1, 1945.

Judith P. Key, clinic assistant, effective September 1, 1944, through June, 1945. Miss Key will also do graduate work in the department.

Loretta Ellias, part-time graduate assistant in the Department of Bacteriology, effective September 1, 1944, through June, 1945.

Jean Abel Adams, graduate assistant in the Department of Psychology, effective September 1, 1944.

Lawrence W. Schneider, student assistant in the Department of Zoology, effective September 1, 1944.

Joseph R. Schwendeman, professor and head of the Department of Geography, effective September 1, 1944.

Mrs. Constance Larsen Cole, instructor in Anatomy and Physiology, effective September 1, 1944.

Lucille Thompson, graduate assistant in the Department of English, effective September 1, 1944.

Wallace Briggs, instructor in English, effective September 1, 1944.

Lucille Naff Clay, reappointed graduate assistant in the Department of English, effective September 1, 1944.

Ann Shropshire, graduate assistant in the Department of English, effective September 1, 1944.

Leaves of Absence

Leon W. Cohen, professor of Mathematics, leave of absence without salary, extended for the duration of the war, to work in civilian advisory capacity with the U.S. Army Air Force.

E. G. Trimble, associate professor of Political Science, leave of absence without salary extended to January 1, 1945. Professor Trimble is to continue in Washington in government work. He is now with the Office of Price Administration.

Salary Adjustments

Lela Cullis, instructor in Music, adjustment in salary for second term of the summer school. Mrs. Cullis' salary to be paid from fees collected from organ and piano students.

William M. Arnold, graduate assistant in Bacteriology, adjustment in salary. Mr. Arnold will assume double duties because of the department's difficulty in obtaining graduate assistants. The adjustment is effective October 1, 1944.

Resignations

Marjorie Pfeffer, graduate assistant in the Department of Psychology, effective with the opening of the Fall Quarter, 1944.

Betty Jean Gable, junior technician in the Department of Bacteriology, effective August 31, 1944.

College of Agriculture and Home Economics

Appointments and Reappointments

Henry A. Quisenberry, associate county agent in Jefferson County, effective July 1, 1944, to June 30, 1945.

Margaret Virginia Howard, Assistant Home Demonstration Agent at Fulton County, Kentucky, effective August 15, 1944, to June 30, 1945.

Lucy Griggs Pittman, home demonstration agent in Larue County, effective September 1, 1944, to June 30, 1945.

Florence G. Carney, stenographer and clerk, Experiment Station, effective August 15, 1944. Mrs. Carney, who resigned her position in August, 1943, has been reappointed to take the place of Miss Mary Hart Harned, who resigned September 1, 1944.

Catherine Perry Heflin, assistant in Rural Sociology, effective September 16, 1944.

Angie Mary McNutt, home demonstration agent in Ballard County, effective September 1, 1944, to June 30, 1945.

Vencil A. Trimble, county agent in Morgan County, effective September 1, 1944, to June 30, 1945.

Mary Carolyn Wooldridge, instructor in Home Economics, effective September 20, 1944.

Lottie E. Sumner, assistant professor of Home Economics, effective September 20, 1944.

Leaves of Absence

Myra Gentry, clerk, Experiment Station, Department of Markets and Rural Finance, leave without pay from August 14, to August 19, 1944.

Alda Henning, home demonstration agent, McCracken County, leave without pay from August 11 to September 7, 1944.

Anita Burnam Davis, field agent in 4-H Club Work, 24 days leave without pay, effective August 1, 1944 to August 25, 1944. Sick leave from August 25 to September 23, 1944, with pay.

Violette S. Weaver, clerk in Home Demonstration Extension, leave without pay from August 16, 1944 to December 31, 1944. Mrs. Weaver is temporarily appointed on War Foods for the period named above.

Edna Marrs, clerk in Entomology and Botany, Experiment Station, leave without pay for fifteen days, August 17, to September 2, 1944.

Resignations

Paul D. Bailey, Assistant in Agronomy, effective July 31, 1944.

John R. Hardison, assistant in forage crop investigations, effective September 27, 1944.

Katherine Fried, seed analyst, effective August 15, 1944.

Violette Aswerus, clerk, effective September 9, 1944.

Yandel Wrather, county agent in West Liberty, Kentucky, effective August 31, 1944.

Carl B. Day, county agent at Louisa, Kentucky, effective August 31, 1944.

Edith G. Grundmeier, assistant professor of Home Economics,

Termination of Employment

Clay A. Colson, county agent in Irvine, Kentucky, effective August 31, 1944.

College of EngineeringTermination of Employment

E. Everett Elsey, instructor in Electrical Engineering (temporary appointment); effective August 31, 1944.

William S. Carley, instructor in Electrical Engineering (temporary appointment), effective August 31, 1944.

College of EducationAppointments

Jeannette Molloy, research assistant, effective September 1, 1944. Miss Molloy replaces Mrs. Burt Halbert.

Gladys Greathouse, teacher of speech and dramatics in the University High School, effective September 1, 1944.

J. B. Kelly, instructor in sciences in the University High School, effective September 1, 1944.

Mildred May, critic teacher in mathematics in the University High School, effective September 1, 1944.

Salary Adjustments

Leonard E. Meece, assistant director of Bureau of School Service, salary adjustment for the month of August, 1944.

Stella Spicer Gilb, critic teacher, adjustment in salary, for ten months, due to additional teaching load.

Katherine Conroy, sixth grade critic teacher, adjustment in salary for ten months, due to heavier teaching load, effective September 1, 1944

Resignations

Evadine Parker, critic teacher, home economics, Lafayette School, effective August 14, 1944. Miss Parker resigned her position to accept one at the Murray State Teachers College.

Anne Mercer, critic teacher in mathematics, in the University High School, effective September 1, 1944.

College of Commerce

Leave of Absence

Amanda Miller, secretarial assistant, leave of absence without pay from September 5 through September 22, 1944.

Resignation

Mrs. Claudine Seever, secretary in the Bureau of Business Research, effective August 19, 1944.

Graduate SchoolSalary Adjustments

Virginia Elizabeth Wesley, fellow, adjustment in salary for the year 1944-45, effective September 1, 1944.

William Earl Buckler, fellow, salary adjusted for the year 1944-45, effective September 1, 1944.

Bruce Kennelly, scholar, adjustment in salary for the year 1944-45, effective September 1, 1944.

Resignations

Katherine Palmer Daugherty, fellow, effective September 1, 1944.

Margaret Cohen Montondo, fellow, effective September 1, 1944.

Dewey Moore, scholar, effective September 1, 1944.

LibraryLeave of Absence

Juanita Warren, part-time secretary to the librarian, leave of absence without pay for one month, effective September 1, 1944.

Department of University ExtensionAppointment

Edith Murrell Fleming, clerk-stenographer, effective September 1, 1944.

Resignations

Juanita Purvis, secretary, effective August 26, 1944.

Frances C. Smith, secretary, effective September 1, 1944.

Office of the Dean of MenResidence Halls for MenResignation

Mrs. T. W. Sweatt, effective September 1, 1944.

Office of the Dean of WomenReappointments

Mrs. Hill Spaulding, house director, effective September 1, 1944.

The following housemothers, effective September 1, 1944:

Mrs. Harry Lee
 Mrs. Will Hughes
 Mrs. Robert Henry
 Mrs. L. M. Hancock
 Mrs. Fanniebelle Bogie
 Mrs. Lillian Caldwell
 Mrs. Elleene Glover
 Mrs. John Hagan
 Mrs. A. M. Hale.

Mrs. M. C. Morgan, house director, effective September 1, 1944.

Personnel OfficeSalary Adjustments

Adjustment in salary for each of the following persons, for the fall quarter; these persons to serve as freshman faculty advisors:

Dr. R. S. Allen
Miss Marie Barkley
Professor W.E. Beals
Dr. A. A. Capurso
Professor C.W. Hackensmith
Dr. D. V. Hegeman
Professor Wilbur Heinz
Professor J. S. Horine
Professor A. J. Lawrence
Professor R.G. Lunde
Professor Roy Moreland
Dr. C. C. Ross
Dr. D.S. Steele
Dr. William S. Ward
Dr. R. H. Weaver
Dr. S. H. Wender
Professor John Kuiper.

Public Health ServiceLeave of Absence

Mrs. Helen Dicken, Nurse, leave of absence without pay from August 2 through August 13, 1944.

Comptroller's OfficeAppointment

Walter Bromley, accountant, effective September 1, 1944.

University CommonsLeave of Absence

Ferne King, assistant director, leave of absence without pay from August 1 to September 10, 1944.

ASTP (1548th Service Unit)Termination of Employment

Marjorie Randolph, clerk-stenographer, effective May 31, 1944. Miss Randolph was re-employed in the same position June 13, 1944, as a Civil Service employee.

Nancy Slade, clerk-stenographer, effective May 31, 1944. Miss Slade was re-employed in the same position June 21, as a Civil Service employee.

* * * * *

6. It was moved, seconded and carried that on President Donovan's recommendation, the above appointments, reappointments, salary adjustments, leaves of absence, resignations, promotions, and other staff changes be concurred in and record made in the minutes, and the record filed be made a part of the minutes.

* * * * *

G. Approval of Seal of Certification of the Kentucky Seed Improvement Association.

President Donovan presented to the Board the following letter from Dean Cooper requesting the Approval of the Seal of Certification of the Kentucky Seed Improvement Association, with recommendation that same be approved by the Board of Trustees.

September 20, 1944

President H. L. Donovan
University of Kentucky

Dear President Donovan:

The Kentucky Revised Statutes, 1942, Section 250.040, states as follows: "Provided, however, that the Seal of Certification of the Kentucky Seed Improvement Association approved by the University of Kentucky showing the year the seed was grown shall be accepted in lieu of the written or printed tag or label required herein."

I have given much consideration to this paragraph and have consulted with the Attorney-General's office. There are many questions involved. However, it would appear that the director of the Experiment Station may appropriately place this matter before you and the Board of

Trustees with a recommendation. I have requested the Kentucky Seed Improvement Association to present to me their Seal of Certification. Such seal accompanies this letter and is as follows:

Inspected and Certified by the

KENTUCKY SEED IMPROVEMENT ASSOCIATION
(seal)

(Year Seed Grown)

I wish to recommend that the Board of Trustees approve the Seal of Certification of the Kentucky Seed Improvement Association, with the proviso that the approval is limited to the Seal of Certification and the year in which the seed is grown, and that the seal of certification may not be used in connection with any other statement or form.

If the Board of Trustees approves then I, as the director of the Experiment Station, will issue an order to the effect that the Seal of Certification of the Kentucky Seed Improvement Association has been approved by the University of Kentucky and when said Seal shows the year the seed was grown, it shall be accepted in lieu of the written or printed tag or label required in Section 250.040 KRS. This information will be available to the public and will be filed with the Office of Seed Control and the Kentucky Seed Improvement Association.

Sincerely yours,

(Signed) Thomas Cooper
Dean and Director

Members of the Board discussed the request and recommendation. The opinion was expressed that a committee should be appointed to meet with Dean Cooper to discuss the request more thoroughly; whereupon, on motion duly made, seconded and unanimously carried, a committee consisting of Mr. Tway, Judge Walters, Mr. Everett and Mr. Robertson was appointed to meet with Dean Thomas Cooper and further consider the request, with power to act.

The committee, as appointed, later conferred with Dean Cooper and reported that they had approved the request and the recommendation of President Donovan, and that they approve for the University of Kentucky the Seal of Certification of the Kentucky Seed Improvement Association as presented in recommendation.

H. Report of the Comptroller.

Comptroller Peterson submitted financial report for the months of July and August. He read a succinct analysis and discussed briefly certain sections with members of the Board, after which the report was ordered received, accepted and made a part of the minutes.

September 20, 1944

President H. L. Donovan
University of Kentucky

Dear President Donovan:

I submit hereto attached the financial report of all funds handled by the University, as of the close of business August 31, 1944.

The operations during July and August are not of sufficient scope as to give indications or trends as to what may be expected in regard to income and expenditures for the current fiscal year. The income and expenditure statement for the period does show that budget estimates for the summer quarter were reasonably accurate.

It is always difficult, without a sizable revolving fund balance as of July 1, to meet expenses of the first quarter out of one quarter's allotment of State appropriated funds. This is because the fall enrollment fees are not received in time to be transmitted to the State Treasurer for obligations incurred during the first quarter. This situation has been met for the current quarter through an advanced allotment of \$50,000.00, approved by the Commissioner of Finance.

Division of Colleges. The total budgeted income by the Board of Trustees for the Division of Colleges is \$1,614,927.87, of which \$415,056.65 have been realized during July and August. There was appropriated by the Board for operations of the various colleges \$1,598,105.00, of which \$210,252.36 have been expended or encumbered.

Experiment Station Division. The total budgeted income for the Experiment Station Division is \$559,852.00, of which we have received \$134,881.86 during the period. The total estimated income was budgeted for expenses of the Division and \$94,167.15 have been actually spent or encumbered during July and August.

Agricultural Extension Division. In the Agricultural Extension Division the Board appropriated a total of \$833,869.49 to be received and a like amount to be expended. During July and August \$374,309.74 was realized and \$125,603.85 was expended or encumbered.

Restricted Funds. In the restricted fund group the combined balances of all accounts total \$793,472.89, as of August 31, 1944. Of this total \$379,000.00 represents income from the Army programs invested, by authority of the Board of Trustees, in U. S. Government bonds. There is an additional investment in U.S. Government Bonds of \$93,948.00, which belongs to the Student Union, Kentucky Kernel, Agricultural Home Economics Anonymous Gift Fund, Campus Book Store Collection Fund, and Guignol Theatre. The Haggin

Trust Fund, which is one of the restricted accounts, shows a balance of \$72,376.60, of which \$57,500.00 is, by authority of the Board, invested in Government bonds. In addition to these amounts, the Haggin Fund has \$52,500.00 invested in income producing property.

Agency Funds. The agencies, or organizations fund balances total \$35,946.79 as of August 31, 1944. Generally speaking, these funds are held by the Comptroller for disbursement at the pleasure of the authorized representatives of the various campus agencies.

Respectfully submitted,

Frank D. Peterson
Comptroller

I. Approval of Contracts with the War Department. Modifications B, C and D -- Contract No. W-33-088 (SC V) -27.

President Donovan submitted Modification B, which is a supplemental agreement to Contract No. W-33-088 (SC V)-27, dated August 23, 1944. This is a modification of the contract made for the months of May, June and July. It is a negotiated settlement for the quarter, and is submitted for ratification by the Board.

President Donovan submitted Contract Modification C, Supplemental Agreement to Contract No. W-33-088 (SC V)-27. This is a contract made the 23d day of August, 1944, for the operation of the Army Specialized Training Unit for the months of August, September and October, 1944. This is the negotiated contract for the quarter, and was signed by the President under blanket authority previously granted to the President by the Board, and was submitted for approval of the contract and ratification of the action of the President.

President Donovan submitted Contract Modification D, Supplemental Agreement to Contract No. W-33-088 (SC V)-27. This is the renegotiated settlement of the contract previously made for the period May, June and July. The main purpose of Modification D is to delete the words and figures, "Forty-four Dollars (\$44.00) per Trainee per Term" and substitute therefor "Thirty-one Dollars and Ninety-six Cents per Trainee per Term." This does not reduce the amount of money that the University is entitled to under the original contract but does take into account an excess of receipts for May and June, as is more fully explained in the following letter:

September 21, 1944

President H. L. Donovan
University of Kentucky

Dear President Donovan:

I hand you hereto attached Modification "D" Supplemental Agreement to Contract No. W-33-088 (SC V)-27. This Modification seeks to delete the figures and words "\$44.00 per trainee per term and substitute therefor \$31.96", per trainee per term. This applies, however, to the month of July, 1944. It does not change the total amount of money to be received by the University, but does, through renegotiation, take into account the excess receipts for May and June. In other words, the University was overpaid on an actual cost basis, per contract, for the months of May and June, \$2,332.41. When we settled for the month of July, which was on \$44.00 per trainee per term basis, the Government wanted this amount reduced to an amount that would take into account the excess receipts already paid the University. I give below an analysis of revision of Modification "D" of Contract No. W-33-088 (SC V) -27, which might tend to make the adjusted figures more understandable:

May and June Receipts		\$15,087.30
May and June audited costs		<u>12,754.89</u>
Excess receipts for May and June		\$ 2,332.41
July costs (per contract)		<u>7,216.00</u>
Net balance due University		\$ 4,883.59
Plus - Negotiated items:		
May Clerical	\$250.00	
Textbooks for July	<u>107.76</u>	<u>357.76</u>
Final negotiated balance due University		\$ 5,241.35

In order to write up Modification "D" so that July invoicing would terminate the contract fiscally -- the Army divided \$5,241.35 by 164 (number of men per contract) and arrived at \$31.96 per man per month. (\$31.96 x 164 equals \$5,241.44) (odd cents adjusted).

Sincerely,

(Signed) Frank D. Peterson
Comptroller.

Upon recommendation of President Donovan that Modifications B, C and D be approved, the Board took the following action:

* * * * *

7. Upon motion duly made, seconded and unanimously carried, Modifications B, C and D to contract No. W-33-088 (SC V)-27 are approved and the action of the President in signing Modifications to Contract is ratified and approved, and said Modifications are ordered filed with the Secretary of the Board and made a part of this record.

* * * * *

J. Budget for Men's Residence Halls Annex.

President Donovan submitted a proposed budget for Men's Residence Halls Annex, Washington Avenue Apartments, for the year 1944-45, with recommendation that budget be approved, the appropriation to be taken from unappropriated surplus of the general operating budget of the University of Kentucky. The budget was read to the Board, after which the following action was taken:

* * * * *

8. Upon motion duly made, seconded and unanimously carried, the budget for Men's Residence Halls Annex is approved and the Comptroller is directed to transfer from the unappropriated surplus of the general operating budget the sum of \$4,235.00 to operating account 1650a for Men's Residence Halls Annex, and the budget be filed and made a part of the official record.

* * * * *

K. Budget Increase for the Department of Geography.

President Donovan submitted request from Dean Boyd for a budget increase of \$500.00 to the 1944-45 budget for the Department of Geography for the purpose of purchasing materials, supplies, and capital outlay. President Donovan recommended that the request be approved, whereupon the Board took the following action:

* * * * *

9. Upon motion duly made, seconded and unanimously carried, the request for an additional allotment of \$500 to the Department of Geography is approved and the Comptroller is directed to transfer this amount from unappropriated surplus of the general operating budget.

* * * * *

L. Damage and Repairs to Geology Department Truck.

President Donovan submitted to the Board a letter from Dr. Arthur C. McFarlan, reporting a minor collision accident on the morning of July 25, at Danville, Ky. He read the following letter:

September 3, 1944

Mr. Frank D. Peterson
Comptroller, University of Kentucky
Lexington, Kentucky

Dear Mr. Peterson:

In connection with my field work in Geology for which funds are provided in the department budget, I wish to present the matter of a minor accident on the morning of July 25th in Danville, Ky. Mr. R. D. Baker, a student who is serving as my field assistant this summer, backed the

department 1 ton truck into a parked Chevrolet car belonging to Mr. H. S. Cox of Louisville. The left door and side of the car were damaged and an estimate of repairs from a Louisville Chevrolet concern indicates a bill of \$59.25.

There is no question of blame and I instructed Mr. Cox at the time to have the repairs made at his convenience and send me the bill in triplicate. He uses the car in his business. Mr. Baker is hired for the seven weeks ending September 9th at \$50.00 per month and his expenses. As a student a part of his pay is the training received in the work for which he receives some University credit.

I am writing to ask that payment of this bill, when received, be authorized and charged to the Department of Geology - Acc't. 390 as a part of field expenses.

Sincerely yours,

(Signed) Arthur C. McFarlan
Head, Department of Geology

Members of the Board discussed the question of carrying liability insurance. They were advised that the Board had heretofore declined to carry such insurance and had, on a few occasions, taken care of minor accidents that had occurred. The Board took the following action:

* * * * *

10. Upon motion duly made, seconded and unanimously carried, the Comptroller is authorized to pay the claim, amounting to \$59.25, from Account No. 3075, Geology Truck Fund. However, it is the express understanding of the Board that action on this claim is without commitment as to future action of the Board of Trustees, and that the Board does not establish a precedent and does not admit negligence or liability in paying this claim.

* * * * *

M. Increase in Rates for Janitors and Laborers.

President Donovan presented to the Board a request from the Comptroller for permission to increase the salary of eleven janitors and certain utility men, mortarmen, carpenters, laborers and cabinet workers. He read the following communication:

September 14, 1944

President H. L. Donovan
University of Kentucky

Dear President Donovan:

With your approval, we have found it necessary to increase the salary of eleven janitors \$10.00 to \$15.00 on the month, effective September 16, 1944. We will also increase utility men from 40¢ to 50¢ an hour. We have increased four Mortarmen from 45¢ to 50¢ an hour; two carpenter helpers from 35¢ to 45¢ and 45¢ to 50¢; two laborers, working with carpenters, from \$40¢ to 55¢, and one cabinet worker from 60¢ to 65¢. These are war time increases and necessary reductions will be made as soon as laborers for the various jobs are available.

These increases will call for a corresponding increase in the annual budget of approximately \$4,000.00 a year.

Yours very truly,

(Signed) Frank D. Peterson
Comptroller.

Upon recommendation of the President, the Board took the following action:

* * * * *

11. Upon motion duly made, seconded and unanimously carried, the increases requested are authorized, and a budget increase of \$4,000 is authorized made to the Division of Maintenance and Operations, and the Comptroller is authorized to transfer the sum of \$4,000 from the unappropriated surplus of the general operating budget of the University.

* * * * *

N. Injury to Ben Simpson, Central Heating Plant Employee.

The Comptroller, at the request of the President, presented the following communication concerning the injury to Ben Simpson, employee of the Central Heating Plant, and same was read to the Board, after which the following action was taken:

September 11, 1944

President H. L. Donovan
University of Kentucky

Dear President Donovan:

Mr. Ben Simpson, employee of the Central Heating Plant, had a minor accident on August 28, 1944, at 10:30 p.m., while he was assisting Mr. Peck in the installation of the fan rotor and shaft in the new induce draft fan. A knot which Mr. Simpson had tied slipped dropping the fan housing and throwing him on to a piece of sharp iron projecting from the housing. The piece of iron pierced his buttock. He was taken to the emergency room in the Good Samaritan Hospital and the wound was flushed out and dressed by an Intern. He was not confined to the hospital, but was sent home. The following day our Dr. McChord called on Mr. Simpson at his home and dressed the wound and reported that he seemed to be in excellent condition.

He missed four days' work while confined at home.

The Good Samaritan Hospital has submitted a statement for the use of the emergency room in the sum of \$2.00. I recommend that the claim be submitted to the Board for approval.

Yours very truly,

(Signed) Frank D. Peterson
Comptroller.

* * * * *

12. Upon motion duly made, seconded and unanimously carried, the Comptroller is authorized to pay the Good Samaritan Hospital the sum of \$2.00, and allowance for four working days off on sick leave. It is the express understanding that action on this claim is without commitment as to future action of the Executive Committee on requests for payment of medical and other bills incurred in cases of injury to employees and that the Committee does not establish a precedent and does not admit negligence or liability in paying this hospital bill.

* * * * *

O. Request to Operate Convalescent Home Adjacent to University Campus.

President Donovan read the following communication relative to a request to operate a convalescent home on the corner of South Limestone and Graham Avenue.

September 15, 1944

President H. L. Donovan
University of Kentucky

Dear President Donovan:

The attached letter is from Miss Violet A. Murphy, Registered Nurse, now working at the Good Samaritan Hospital, but she is contemplating renting the Graves House on the corner of Limestone and Graham Avenue to operate a convalescent home. The City of Lexington is required to give a permit for such business. They will not give it until they have an expression from adjoining neighbors. You might possibly want to rule on this question or you may want to submit it to the Board.

Miss Murphy raised the question that if she should rent from Mrs. Graves, who will have control of the property until June 30, 1945, would the University be interested in continuing to lease the house to her until such a time the University would see fit to use it for other purposes? Please advise.

Yours very truly,

(Signed) Frank D. Peterson
Comptroller.

The Board took the following action:

* * * * *

13. Upon motion duly made, seconded and carried, the President was directed to protest to the proper authorities the granting of a permit to operate a convalescent home on the corner of South Limestone and Graham Avenue, or on any other place adjacent to the University campus.

P. Gift of Mrs. Elodie Helm Lewis.

President Donovan reported a gift of Ben Hardin Helm papers and relics by Mrs. Elodie Helm Lewis to the Lexington Chapter of the United Daughters of the Confederacy, which will be housed in the University of Kentucky Library. The Board authorized the President to receive the papers and relics, and to express its appreciation to the Lexington Chapter of the United Daughters of the Confederacy for placing the records in the Library of the University of Kentucky.

Q. Proposed Contract with Wright Field.

President Donovan presented the following correspondence concerning a proposal made to Wright Field for type testing several auxiliary power plants:

September 22, 1944

President H. L. Donovan
University of Kentucky

Dear President Donovan:

I attach hereto a letter from Professor A. J. Meyer, Director of the Aeronautical Research Laboratory, in which he is asking permission to submit a proposal for a new contract with the Materiel Command of the AAF at Wright Field for testing engines. The contract if and when received will be submitted to the Board of Trustees for approval, but since the question has been raised as to this office transmitting proposals for contracts without Board authority, I am submitting this question for consideration.

Yours very truly,

(Signed) Frank D. Peterson
Comptroller.

September 20, 1944

Mr. Frank D. Peterson
Comptroller
University of Kentucky
Lexington 29, Kentucky

Dear Mr. Peterson:

The Materiel Command of the AAF at Wright Field has requested that we assist them in type testing several auxiliary power plants.

In the Spring of 1943 we were doing work of this kind for them under Contract #(535)43-21878-E, W535 ac-37334 and Amendment 10369 (W535 ac-37334). This contract was cancelled on May 8, 1943.

I have made an appointment to visit Wright Field on Monday, September 25th, to discuss terms and have given them permission to send us two engines immediately on the assumption that we will come to an agreement.

Under the terms of the above mentioned contract we were to receive for our services:

1. \$700.00 for setup.
2. 400.00 per engine for inspection prior to test.
3. 10.00 per test hour completed.
4. 400.00 per engine for inspection after the test.

Since we now have the setup I propose to reduce Item 1 to \$200.00 and leave Items Nos. 2, 3 and 4 as they were. The last three items for a 150-hour test should total \$2,300.00 per engine and there are several engines to be tested. The maximum power per engine is 15 HP.

I will appreciate it if you will submit this matter to the Board and let me have their reaction.

Sincerely yours,

(Signed) A. J. Meyer
A. J. Meyer.

The Board took the following action:

* * * * *

14. Upon motion duly made, seconded and unanimously carried, the proper authority is authorized to submit to the Materiel Command of the AAF at Wright Field a proposal to do type testing as requested.

R. Death of A. N. May.

President Donovan reported the death of Professor A. N. May, who had been connected with the University for twenty-four years; whereupon the Board took note of the loss of the services of Professor May and passed the following resolution:

Resolutions of the Executive Committee of
the Board of Trustees of the University
upon the Death of Professor Augustus Noah
May

Augustus Noah May, Professor of Industrial Education, University of Kentucky, was called by death September 20, 1944, at the age of 68 years. With his passing the University lost one of the valued members of its professional staff. Professor May had a rich experience in education in Kentucky. He served as a professor in Berea College from 1904 to 1919. When he left Berea, he came to the University as professor of Industrial Education; he occupied this position until the time of his death.

Professor May enjoyed the longest period of service of any person in vocational education in Kentucky. He was a pioneer in advocating the establishment of area trade schools in the state, a system which is rapidly gaining recognition throughout the Nation.

Professor May's Service as a teacher and as an administrator exemplified the highest type of educational leadership. Through his sincerity of purpose and his genuine desire to be helpful, he exerted a compelling influence upon students and teachers which will continue to live. He possessed in rare degree the genius of friendship. To know him was to love him.

S. Adjournment.
