E. Recommendations of the President (PR 2)

The four items in PR 2, Recommendations of the President, being of a routine nature and the Board members having had the opportunity to familiarize themselves with the recommendations, President Singletary recommended that PR 2 be approved as a whole.

In order to coordinate and focus available resources within the University on behalf of this region he recommended that an Appalachian Center be established.

Before calling for a motion, Mr. Sturgill requested that the record show that he has strong reservations relative to the establishment of such a Center. Mr. Clay moved that the Board of Trustees authorize the establishment of an Appalachian Center to be located in the Graduate School, the Center being

K. Revision of Biennial Budget Request 1978-80 and the Five Year Plan 1977-82 (PR 6)

President Singletary said that as a result of the recently completed review of benchmark data on the College of Medicine and University Hospital, several changes in the Biennial Budget Request 1978-80 and the Five Year Plan 1977-82 are appropriate. Essentially the changes involve the movement of construction projects from the 1980-82 to the 1978-80 period. The hospital project for 1980-82, while not fully defined, is being added for planning purposes. If state funds are not available for the Hospital project, the possibility of revenue bond financing will be explored. He then recommended approval of the recommendation set forth in PR 6.

On motion by Mr. Homer Ramsey, seconded by Dr. Hull and passed, the five revisions in the Biennial Budget Request 1978-80 and the Five Year Plan 1977-82 as recommended in PR 6 were authorized. (See PR 6 at the end of the Minutes.)

His motion was seconded by Governor Chandler and passed without dissent. (See FCR 3 at the end of the Minutes.)

Members, Board of Trustees:

SUPPLEMENTAL RECOMMENDATIONS OF THE PRESIDENT

I. Board Appointments-Ephraim McDowell Cancer Research and Treatment Network

Recommendation: that Mr. Morris Stafford, Mr. William Balden, and Mr. Robert F. Stephens be appointed as non-faculty members of the Board of Directors of the Ephraim McDowell Cancer Research and Treatment Center for the terms indicated: Mr. Stafford-July 1, 1977 through June 30, 1979; Mr. Balden-July 1, 1977 through June 30, 1980; and Mr. Stephens-July 1, 1975 through June 30, 1978.

Background: According to the Bylaws of the Ephraim McDowell Cancer Research and Treatment Network, its Board of Directors shall consist of no fewer than 18, nor more than 24 members appointed by the President and approved by the Board of Trustees of the University of Kentucky.

The Board of Trustees has approved the appointments of the first 21 members to the Network Board. Mr. Stafford will fill an unexpired term; Mr. Balden will fill one of the three remaining vacancies; and Mr. Stephens' appointment will confirm his membership on the Board and approve his continuation as a member through June 30, 1978. Mr. Stephens was originally on the Board as Fayette County Judge and continued to serve after his election as Attorney General although no formal nomination was made for his appointment.

II. Master of Science in Operations Research

Recommendation: that the Board authorize for submission to the Council on Higher Education a Master of Science Program in Operations Research.

Background: The Mathematical Sciences, with support from Business Administration and Engineering, propose there be established a graduate program leading to the Master of Science Degree in Operations Research. The program is designed to train students for professional competence which is necessary for implementation of operations research techniques in decision problems in engineering, education, bio-sciences and in management in business and government. The curriculum requires fundamental training in the mathematical sciences with applications in the applied sciences and industry.

The University has the faculty resources in the mathematical sciences, business and engineering and the support facilities necessary for implementation of the proposed program of study.

The proposal has been approved by the Graduate Faculty and by the University Senate. It requires the approval of the Council on Higher Education pursuant to its statutory authority to approve all new graduate and professional programs. The Board is being asked to authorize submission of the program to the Council, with final action by the Board to follow approval by the Council.

III. Appalachian Center

Recommendation: The Board of Trustees authorize the establishment of an Appalachian Center to be located in the Graduate School, the Center being administratively equivalent to a research institute.

Background: There has been a long interest in the Appalachian region, especially the eastern part of Kentucky, by many members of the University of Kentucky faculty. A result of this strong interest in Appalachia, in making major contributions to teaching, research, and service in Eastern Kentucky and the Central Appalachian region, was a grant by the Rockefeller Foundation to systematically plan such a program which will seek to coordinate and focus available resources within the University in behalf of the Appalachian region. The Center will pursue its mission by means of research, coordination of instruction, service and the development of an archival program. The Center will assist in seeking extramural funds to continue research in important areas including Appalachian Culture, economics, history and demography. It will assist in the special collection for the University Library of valuable materials on folklore, history of the region, and in oral history projects.

The proposed Appalachian Center has been approved by the University Senate.

Additional federal appropriations will fund an expenditure increase for the Agricultural Experiment Station. An increase in grant from the Fund for the Advancement of Education and Research in the UK Medical Center will support faculty salary supplementation for the Colleges of Medicine and Dentistry. The proposed increases for the College of Home Economics and Student Financial Aid Administration will be supported by additional gifts and grants. An increase in microfilming income will fund the additional expenditures of the Margaret I. King Library. Expenditure activities of Lexington Technical Institute's Dental Hygiene Clinic will be supported by Clinical fees generated. The proposed increase for library services at Lexington Technical Institute will be supported by additional xeroxing income. An increase in advertising sales will provide additional funding for Southeast Community College's newspaper.

Revision of Biennial Budget Request 1978-80
and the Five Year Plan 1977-1982

Recommendation: that the Board authorize the following revisions in the Biennial Budget Request 1978-1980 and the Five Year Plan 1977-1982.

1. Move Medical Center Research Facility from the Major Capital Construction List for 1980-82 to 1978-80 and combine with the Animal Care Facility.
2. Move Hospital Addition from the Major Capital Construction List for 1980-82 to 1978-80 and insert before Service and Parking Building in priorities. Increase project cost from five to six million dollars.
3. Reduce Service and Parking Building in Major Capital Construction List for 1978-80 from three million to one million eight hundred thousand. This represents a reduction in the State share only.
4. Add for planning purposes in 1980-82 a substantial Hospital project to satisfy hospital standards and meet patient care demands.
5. Change the Medical Center Financial Plan as presented in the Biennial Budget Request 1978-80 and Five Year Plan 1977-1982 by postponing some requests for program expansion and new programs until improvement is made in available space. A detailed report on such revisions will be presented to the Board of Trustees at the October meeting.

Background: As a result of our just completed review of benchmark data on the College of Medicine and University Hospital, several changes in the Biennial Budget Request 1978-80 and the Five Year Plan 1977-1982 are appropriate. Essentially the changes involve the movement of construction projects from the 1980-82 period to the 1978-80 period. The Hospital project for 1980-82 while not fully defined is being added for planning purposes. If State funds are not available for the Hospital projects, the possibility of revenue bond financing will be explored.

The changes in the Medical Center Financial Plan will reflect a decision to postpone some program expansion and new programs until some improvement can be made with regard to space deficiencies.
