As Ledford and the Cabin Creek band performed, talligaters sampled refreshments under the Homecoming tent, sponsored by the Student Activities Board.

Homecoming parade, pep rally successful despite poor weather

Rain and cold weather didn't dampen the spirits of UK football fans who lined campus streets Fri-day night for the annual Home-

coming parade.

Kim Loveless, co-chairwoman for the event, said she was pleased with the turnout, which was larger and more diverse than the crowd that attended last year's Saturday morning parade.

"There were sororities and frateriness watching outside their houses. Then there were lost of parents and little kids watching, too." Loveless said.

too," Loveless said

The number of floats in this The number of floats in this year's parade also surpassed last year's figure, said Kathy DeLong, parade co-chairwoman. DeLong said she only expected about 60 entries, but the League of Shriners brought more mascots and cars than expected, swelling the number of floats to 75.

ber of floats to 75.

"There were a lot of floats and other entries — and a ton of people watching, which made the parade great," Delton said.

Delta Gamma social sorority and Kappa Sigma social fraternity won first place for their float in the sorority and fraternity division. They constructed a UK Wildcat

Banquet honors first black students

The black students responsible or integrating UK in the late 940s and '50s didn't necessarily be themselves as social pioneers.

"I never thought about blazing a trail for anybody," said Valinda Livingston, class of '59 "I just wanted an education."

Those who followed Livingston and others in the quest for educa-

Ideology defines proposals for U.S. health-care reform

Aside from economic issues, no other topic in this election year has received more attention than reform of the nation's health-care system.

of the ination's neutrin-care system.

Of the three presidential contenders, Arkansas Gov. Bill Clinton and
President Bush offer the most detailed platforms for providing universal health insurance and controlling costs that are spiraling out of
control.

More than \$660 billion was spent on health care in 1990 — the most recent year for which compete data is available — and it currently com-

is available — and it currently com-prises more than 12 percent of our gross national product, said James Suver, director of the UK's Health Administration Office. In 1965, one of every \$16 of the GNP went to health care, Suver said. The figure now is at one out every \$7.5, and total health-care ex-penditures are expected to hit \$1.73

trillion in three years.
As costs escalate to dizzying new heights, more and more Americans go without insurance. According to a study by the Employee Benefit and Research Institute, a non-profit Washington, D.C., group, 3.4 million people in the United States have no health insurance.
The reasons for the growing ranks of uninsured vary, Suver said.
"There are more people out of work, and that hasn't helped. And the cost of insurance has caused

CAMPUS BRIEFS

UK receives grant for smoking research

Seven UK researchers studying diseases of the microcirculatory system have received a \$916,000 grant from the National Heart, Lung and Blood Institute.

The grant was awarded to UK's Tobacco and Health Research Institute, which is coordinating the multifaceted research program.

This research will benefit all people with diseases of microcirculation, whether they are smokers or not, 'said John Diana, director of the UK institute and principal researcher in the project.

We are looking at fundamental mechanisms of disease.'

Microcirculation involves the smallest blood vessels in the body. The scientists are studying diseases like diabetes, in which the blood vessels tent or respond abnormally; coronary heart disease; and peripheral vacular occlusive disease, in which blood flow to the limbs and organs is reduced.

We are also looking specifically at factors which will promote the growth of small vessels in the heart, for example, after a heart attack,' 'Diana said.

Several of the projects involve studying the effects of smoking, Determining why tobacco can affect a particular disease state may help scientists understand the cellular causes, leading to a better understanding of the disease in all people, whether they smoke or not.

Dinner being held for University benefactors

About 500 alumni and friends of UK are expected to gather in Rupp Arena on Friday for a black-tie dinner to honor this year's more than 240 new UK Fellows.
Fellows are people who have given or pledged \$10,000 or more to the University. The dinner honoring them is UK's biggest fund-raising even of the year.
A reception begins at 7 p.m., and dinner will be served at 8. A short program will follow.

WUKY-FM to sponsor comedy troupe

WUKY-FM, UK's public radio station, is sponsoring an appearance by "The Capitol Steps," a concely troupe of current and former U.S. congressional staffers.

The troupe performs regularly on National Public Radio's "All Things Considered" and bills itself as "the only going in America that attempts to be funnier than the Congress."

They monitor events and personalities on Capitol Hill, in the Oval Office and in other center of power around the world — then lampoon serious issues with a humarous examination.

Over the past 10 years, the troupe has recorded songs like "76 Bad Loans," "We Arm the World" and "Fools on the Hill."

The Nov. 14 permanee, to be given at Frankfort's Farnham Dudgeon Civic Center, will start at 8 p.m. General Admission tickets are \$15 and are available at the door. Cabarat-style seating also is available. For more information, contact Gall Bennett or John Midbo at 257-3221.

Professional Women's Forum to give awards

The Professional Women's Forum will hold it's annual Acquum Awards at a Juncheon meeting 11:30 am. Wednesday at the Hyar Regency Hotel, 400 W. Vine St.

The awards are given to organizations and agencies that have excelled in their efforts on behalf of women in the workforce. For more information, contact Louise Stone at 257-3632.

Astronomer models quasar on computer

UK astronomer Isaac Shlosman is attempting to build a computer model of the inner parts of the galaxy, complete with stars and gas.

The experiment is intended to predict under what conditions gas falls toward the massive black hole in the center of the galaxy, reasuing a phenomenon called a quasar.

Black holes are extremely dense, collapsed stars which exert such a gravitational field that not even light can escape their pull.

"As gas falls into the black hole, it is squeezed, heated up and before it disappears igto the black hole, emits a fort of energy," Shlosman said.

This emission of energy is a quasar, first discovered in 1962. Quasars are the most powerful emitters of light and the most distant objects scientists are able to observe in the universe.

So far, scientists have not been able to understand all the details of when and why black holes pull gas into them.

DIVERSIONS

'Poppy's' biography a real hoot

"Born to Run Things: An Utterly Unauthorized Biography of George Bush" Tony Hendra Villard Books

By Graham Shelby Senior Staff Critic

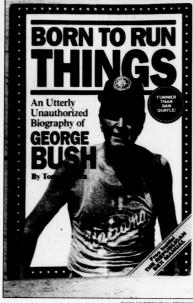

"George Bush is a white-hot caul-dron of drives and needs." So says "Born to Run Things An Utterly Unauthorized Biography of George Bush." a book detailing the life story of the commander-in-chief in raw, twisted satire. Throughout the book, President Bush is referred to as "Poppy." a name he supposedly earned because of "a disgusting habit he had as a child — fainting in public and then vomiting on the nearest person's lap."

According to the book, Bush's mother referred to this habit as "popping." (Obviously a reference to Bush's trip to Japan as president when he did just that.)

Hendra, a former National Lampoon editor, spares no attacks as he viciously — and sometimes hilariously — satirizes Bush. But, be warned, to enjoy this book requires a fairly "liberal" sense of humor. Some highlights from the president's life according to "Born to Run Things":

-The caption to a photograph of

•The caption to a photograph of an adolescent Bush calls his "a fragile, winsome, doelike beauty" and later the reader learns that "Poppy endured his teenage years at Ando-ver in mortal fear that he would be found attractive by other boys."

George "Poppy" Bush looking fit and trim on the cover of "Born to Run Things," an unauthorized biography.

•As a fighter pilot in the Pacific, Bush reacts to the perils of combat. "Golly, where's the attimeter? Hey, that smoke isn't the transmitter! That's my wings! We've been hit! Drop the bombs! No good! ... Yikes! Get out of here!"

The humor occasionally goes a bit far—or constantly goes too far, depending on your perspective—and the book is a bit thin. At 96 pages, the type is big and at least every other page contains a photograph or diagram.

The photographs probably are the most effective and best-used element of the book. Hendra has

norized blography.

amassed an impressive collection
of actual pictures of Bush that he
combines with doctored photos like
a smiting Bush riding with John
Hinckley. One picture shows Bush
in a jogging suit, lying down and
stretching his leg. The caption
reads "The president, having discovered a loaded loandgun on his
person, wrestles himself,"

"Born to Run Things" is a wick-edly satirical look at the life of George Bush. It often is funny, but the \$10 cover price is a bit much for a volume this thin.

Hawking soars in documentary

"A Brief History of Time" Starring Stephen Hawking Triton Pictures

By Chip Sebastian Staff Critic

The power of the mind. The in-nity of the universe.

finity of the universe.

The strange theory of black holes and man's part in the majestic cycle. These are the topics we'd like to forget about, getting on to family, career and party. Well, dig this.

"A Brief History of Time." a new documentary chronicing the life of Stephen Hawking, has just been released. This film was directed by Errol Morris ("A Thin Blue Line"). Morris has spent the past 10 years changing the look of the documentary and bringing a new and different vision to filmmaking.

With a score by Philip Glass ("Koyannisqatsi"), Morris has brought to the screen a visually stunning film. The story seesaws between Hawking's struggle and his theories put into visions. John Bailey did the camera work on this film. His shots go through some interesting abstracts and grabbing movements.

Stephen Hawking began his career in the early 10/60s, after he was diagnosed as having amytrophic lateral selerosis (Lou Gehrig's disease). He completed his doctorate at Cambridge and was given the academic position there held by Sir Isaac Newton 300 years previous. The film centers completely around him. It shows him as a boy, wanting to party and have a good time — nothing like the wheelchair nerd people seem to espect. The shots of him in his office, years later, seem to have ghosts of that time. His place is adorned with books and Marilyn Monroe posters. The guy is definitely alive.

The film progresses from his childhood to the advent of his affiction. Interviews with his family and collegues take over the film in a lighthearted way, Inghilighted by computer graphics, illustrating his complete doctors and making then accessible to the audience.

One seems to feel something mystical while watching the film. It

MOVIE REVIEW

could be the haunting score or the good editing or just Hawking, him-

rut, and it communicates.

With 5.5 million copies of his book sold since 1988 and a 100week run on the best seller list, Hawking says he's just beginning the still holds his Cambridge position and gives lectures worldwide — and has a new love and three children to boot.

to ask those nutty questions about the fate of the universe, man and time. The existence of God. The birth of new worlds and the death of old ones.

Hawking takes you on a mental journey that is very graspable. From racing his wheelchair to disproving Einstein, Hawking is, in every sense of the word, human. And it's his humanity that is the greater part of his success, the knowledge is secondary.

SPORTS MONDAY

Men's soccer team downs Vandy 3-2

Senior Staff Writer

UK's men's soccer team performed a Jekyll-and-Hyde act yesterday aftemoon in its 3-2 win over Vanderbilt at Cage Field.

The Wildcats roared out to a 3-0 forgs Korbauer. In the second period, however, the Cats were blanked 2-0 by the visitors from Nashville, Tenn.

"We played one of the best first halves I've ever seen," UK coach Sam Wooten said. "And in the second half, we played one of the worst."

worst."

Dausman agreed.

"We came out and made them play like we wanted them to play," he said. "The first half was the best first half we've played all season.

"We kept our composure. We were patient. We just did everything right the first half."

Shutz, a sophomore midfielder.

thing right the first half."
Shurtz, a sophomore midfielder, scored the first goal of the game at the 14:12 mark off a team-leading fourth assist by Dausman. Kotzbauer, the team's high scorer this season with nine goals, got into the act just 10 minutes later, and Dausman rounded out the triumvirate

with a right-footed direct kick to the back far post over a Commo-dore wall of defenders for his sixth goal of the year.

"The keeper was playing near post," Dausman said. "And I just hit it and bended it around the back side."

Complacency set in after the inter-mission.

mission.

With a 3-0 lead, the Cats relaxed their defense, allowing Vandy to get some shots on goal.

"We got kinda lazy the second half, cause we were up 3-0, which is natural" Dausman said.

"We were letting them send the ball out of the back," Wooten said, which allowed them to get back in the game.

"We're playing good enough to

in the game.
"We're playing good enough to beat the teams we're playing right now — just not enough to blow them out. But we're winning, so I'm not gonna complain." The Cats outshot the Commo-dores 12-7. Ut goalie Mat Stan-ley recorded three saves. The win upped UK's record to 10-5-2. Vandy fell to 7-8-2.

In their last 11 matches, the Cats are 8-2-1.

UK's next match is Tuesday against Big Ten power Ohio State at Cage Field.

Lady Kats' season ends with 2-1 loss

Senior Staff Writer

Although the UK women's soccer
team ended the 1992 season with a
2-1 loss to Dayton Saturday and a
2-1 loss to Yanderbilt yesterday, the
squad's first year was a success,
head coach Warren Lipka said.
"I'm very happy," Lipka said.
"You look at our schedule, and 10-9
would have been a great, great season. I knew it would be tough. This
was a fabulous season for what we
went through."

was a fabulous season for what we went through."

The Lady Kats ended with an 8-10-1 record after yesterday's overtime loss to Vanderbilt at Cage Field, Freshman Cheryl Shimovetz, the team's leading scorer this season with 29 points, 11 goals and seven assists, scored with 21 minutes remaining in the second period to tie it. But, in what has been a common occurrence this seasons. to tie it. But, in what has been a common occurrence this seasons, they just couldn't put their opponent away. UK has gone to OT seven times this season, to come away with only three wins. "Our biggest problem this year was we didn't finish our opportunities," said sophomore midfielder and team captain Sraph Morrison. "We didn't finish games in regulation, and that put us into overtime.

Had we finished those opportuni-ties, we would have killed our op-ponents' spirit." Despite the losses toward the end of the year, Morrison was im-pressed with the team's success this season. She added that the sched-

pressed with the team's success this season. She added that the schedule, coordinated by UK's club coach last year, was very challenging for a first-year varsity program. "Judging by our schedule, that's a good record," she said. "To think about all the freshmen we had, I was really impressed with how we played. I think it's been a very good year."

UK's roster included six sophomores and an eye-popping 21 freshmen. Among the offensive leaders were Morrison (4 goals and 5 assists) and freshmen Nicole Ruszkowski (4 and 7), Shimovetz (11 and 7), Karin Schneider (7 and 1), Leslie Meacham (5 and 2) and Marcia Little (3 and 1). The defensive stoppers were freshmen Kim Bucci, lennifer Strait, Lori Weidle, Charissa Skeeters and sophomore Jill Stirrup. Sophomore goalkeeper Carrie Vandervort had two shutouts and 101 saves in 13 starts. "Everybody pitched in." Lipka

"Everybody pitched in," Lipka said of his young team, "As a group, this was a very, very good team.

UK has home course advantage in SEC cross country meet

Is there any runner Don Weber worried will crash UK's party at to-day's Southeastern Conference Championships at the Kentucky Horse Park?

No. Fourteen of them.

"The whole damn Arkansas roster," said Weber, UK's cross country coach. "What really separates them is the depth that they have."

Arkansas is the top-ranked cross country team in the nation in both men's and women's divisions. Skeptics have to look no further

than last year's SEC Championships to see why the Hogs are so highly regarded.

Arkansas swept the team and individual titles in the men's and women's races last year at University Golf Course in Athens, Ga.

Then-junior Brian Baker finished first with a course record time of 24 minutes, 17 seconds and five of his teammates took spots two through six. Overall, seven Razorback runners finished in the top ten to led Arkansas' men's team to an easy victory.

The women's team wasn't as dominant as the men, but it didn't need some big performances and a time of control of the complex of the control of the complex of the control of the complex of the control of th

UK doesn't practice at the Horse Park, but it has been running there in recent weeks in preparation for the race, which is more than the other teams can hope for. Weber said visiting teams will get a quick once-over of the track, but that they won't be as familiar with it's idio-syncrasies as UK's runners will "Ours have been exposed to it enough that we have experience with what we're going to be facing half way through the race, in terms of hills and all that. Knowing the terrain and knowing what you're going to have to do during the stages of the race is a big advantage."

And, Weber adds, this course is a little different than the golf courses most cross country races are run on.

"Most cross country races are on golf courses," Weber said. "And—I don't what the word is that I'm looking for — you become soft. This is certainly not golf course terrain. So there's gonna be a lot of teams that come in and say 'God, this is the worst course in the world."

But he added, they'll still have to outrun Arkansas.

"Terrain isn't going to stop Ar-kansas."

Madness brightens Halloween night for lots of UK fans

Four year-old Nicole Lister stood outside the Memorial Coliseum door, looking through the glass of the closed door. She turned to her father and said, "Daddy, I want to see the Wildcats."

see the Wildcats."

Nicole and thousands of other fans could only stand outside on Halloween night and listen to the screams of madness inside.

"We got lucky," he said, adding that he saw some friends waiting in line as he was entering. "I said, We're going to go in here before you guys, and you've been waiting here all day long."
Fans who waited all day to get inhad to wait a little longer for the exhibition to begin. Scheduled for the stroke of midnight, it was about 12:15 before the lights cut out, and the coaches jogged out to the floor, buffeted by screams from either side of the arena.
Then, with spodlights stabbing

Halloween night and lissen to the screams of madness inside.

Big Blue Madness, to be precise.

The 8,000-plus that did make it into the UK baskethall learn and unveiling saw goblins, grim reapers, newscasters in blue face paint and — oh, yeah — the 1992-93 Wildcast offibbling, dunking and drinking in the ovations.

The event dubbed, "Big Boo Madness - A Monster Bash," Icatured a Halloween costume contest, an introduction to the UK Lady Kats basketball learn and three giant video screens to warm up fans with a Jamal Mashburn highlight film set to the tune of "Monster Mash."

Sections of the crowd would break into spontaneous cheers for no obvious reason and numerous fuile attempts to start the wave were to the tune of "Monster Mash."

BUSH

I think Clinton has the best plan because I don't think that Bush is really serious about improving health

Fabien Vickrey recent UK graduate

President Bush is a good foreign policy president, but his domestic policy as far as health care - I just don't trust him.

Chemical engineering freshman

I think Bill Clinton takes better care of the homeless and lower-income families than George Bush. I don't think he does very well.

Jennifer Marshall Fashion merchandising freshman

CLINTON

Health care bills are incredible and Bush has not really done anything about it. Clinton basically wants to change a lot with health care. Whether or not he is able to do it. I don't know

Brian Todd Mechanical engineering freshman Clinton has proposed that everybody has an opportunity to get health care and not just the people that can afford it.

> Michelle Godfrey Library and Information Sciences

I think Clinton is addressing the issue more than the other two, however he needs to get involved with health care professionals.

Harold Marvin Marketing senior

Neither Bush nor Clinton is able to make their health care plans work because they will have to raise taxes to do it. Perot has no idea what he is doing about anything.

> **Damonica Huff Biology sophomore**

I think that Perot is more business oriented. He is more worried about getting us out of debt, instead of the health care issue.

> Susan Bartl **Education sophomore**

I don't think Perot has a chance at doing anything well in office. I think he has the wrong attitude.

Tom Flannagan Social work junior

Health care

Continued from Page 1

some to opt out. They have a feeling they can't afford it."
White Suver said a surprising number — 15.1 percent — of the uninsured make more than \$40,000 a year. 28 percent make less than \$10,000 annually.

These people at the low end of the economic scale often don't seek preventative treatment that can solve minor health problems before they grow worse — and more ex-

and grow worse — and more ex-pensive.

"The people who do not have in-surance do get health care whenever they show up (at emergency rooms), but it's always catastrophic kind of care. "Suver said. "They're much more costly to treat."

And those expenses are passed on

And those expenses are passed on in the form of costlier medical bills

in the form of cosmoci measure for everyone else. Suver said two issues must be ad-dressed if reform is possible in the health-care industry: controlling costs and increasing accessibility to

PEROT

PEROT Independent candidate Ross Perot has championed the cause of slashing the federal deficit and putting the nation's conceive house in order He has not, however, proposed a comprehensive answer to the health-care dilemma. Suver said. "He doesn't talk about health care. He has no specifics. The only thing he talks about is that he believes in means-testing Medicare—if you have the money (to pay for medical care), you don't get (Medicare)."

Suver said there is some merit to Perot's proposal, but he added that many Americans have come to think of Medicare as something to which they are entitled. "The way Medicare has been sold, you'd have a major breach of faith" if means-testing were imple-mented. Suver said.

BUSH

Both Bush and Clinton favor de-veloping pools of insurance customers so that buying power offers cheaper coverage.

But the two differ markedly on an ideological level. Clinton favors ideological level. Clinton favors more government involvement while Bush favors the current free-market system, which he says provides competition among health-care providers to keep costs low. Suver said, however, that "the market just doesn't work in health-care" because there is no incentive for insurers to cover high-risk clients or those with pre-existing conditions.

Like Clinton, Bush would require insurers to cover those with pre-existing conditions, but, under Bush's plan, insurance companies could charge these customers higher rates.

Suver said he isn't sure the gov-

ernment can mandate insurance companies to cover everybody.

"I think they are private industries and don't have to," he said.

The centerpiece of Bush's proposal, however, is a voucher system that would give up to \$3,700 to poor families to purchase health insurance. The plan also would give tax credits and deductions to mid-de-class families.

Suver said this approach also was problematic because it does nothing to address cost containment.
"The voucher system is really leaving things the way they are without controlling cost," he said. "You can't bring in all these individuals and give them money to spend under the current system."

Suver also said \$3,700 won't buy at of coverage, especially for people with pre-existing conditions.
"Let's assume I'd be very happy to insure the low risk people and take the \$3,700. Do you think I'd take someone with a heart problem? I wouldn't touch it.
"This is where, if you have pre-existing conditions, you probably wouldn't be covered."

CLINTON

Clinton's proposal addresses accessibility by requiring employers

wouldn't be covered."
CLINTON
Clinton's proposal addresses accessibility by requiring employers to carry insurance for their employers to carry insurance for their employers. The unemployed would be covered by a government plan
Again, Suver said he isn't sure the government can mandate the requirement, although Clinton has said he would give tax breaks to companies that couldn't afford to meet the requirement. Without some form of government reprisal for companies that dufn't meet the mandate. Suver said, the whole plan could slide into a 'play or pay' scenario.
Under this kind of system, payate employers could opt to pay into a federal insurance fund, rather than provide coverage for their employees. Suver said some companies would see this as the best option. "I may look at that and say, "It is cheaper for me to pay into the government... Decause my health insurance cost me a lot more than that to provide what my employees need." Suver said.
"For the amount the government.

"For the amount the governmen "For the amount the government wants me to do, they are also going to have to mandate the benefits or I will buy my employees a very bare bones policy, whereas the voting (of the electorate) will ensure that the government health plan provide something like what Medicare or Medicaid provides, which covers a ton."

Medicaid provides, which covers a ton."

If companies did opt to pay rather than play, Suver said, the federal health plan quickly would be drained, requiring a heft subsidy.

He also said federal coverage for the unemployed would need to be funded with tax hikes of some form.

"You're going to have to fax someone," he said. "There is no extra money,"

On the issue of controlling costs.

Clinton has proposed establishing a health standards board that would create a basic level of coverage and limit the amount of money states could spend on health care.

limit the amount of money states could spend on health care.
Suver said this amounts to "price fixing" — establishing a limit on what dectors and hospitals could charge for their services. It also might mean that some medical treatments would simply be too expense when the same states would simply be too expense when the same states were as specified by the same states when the same states are also and the same states are established.

"Most providers feed they will go "Most providers feed they providers feed they will go "Most

every provider the same as Medicare pays, because those rates are
stablished.

"Most providers feel they will go
under, under Medicare rates."

Suver said the health-care system
cannot continue to provide an extensive level of services to almost eversystem of services to almost everyone: "We cannot provide all
things to all people."

But he also said Clinton's plan
may not be politically feasible.
"It's an emotional issue." I'm willme to ration bealth care, unless it's
for my family or someone! Enwow.
"The major weakness I see is
Who is going to determine what the
basic package is that is to be offered
to all these people! ... Clearly, if
they include everything, it can't be
afforded."

Suver said both Bush and Clinton
practically seem to be promising
just that, all — while cutting costs.
"And it can't be done," he added.
A recent study showed that both
plans will cogt about the same, but
there will be slightly more uninsured people under Bush's plan than
under Clinton's Suver said.
"The net result is there is not a
whole lot of difference between the
candidates," he said.
"I think what we are seeing now
is politics at work. They are both
confronted with an animal that is
out of control.
"In a sense, it's going to be a polincal question: Who is going to

out of control.
"In a sense, it's going to be a political question: Who is going to lose the most by making a change? It's going to require taxes. It's going to require taxes. It's going to require taxes. So going to require means-testing.
"If Clinton wants to be a two-term president, he's not going to take that on. And neither will any concressman.

take that on. And nether will any congressman.
"Bush can't run again. So he has an opportunity to do something."
Bush, however, has not advocated limiting benefits and has sworn not or raise taxes or curtail Medicare benefits.
"Missaging to take a leavier." Sure

"It's going to take a leader," Suv-

Ellinger Continued from Page 1

"I even developed some pretty good friendships with whites that were there, so I can't say it was all negative — because it wasn't."

magaive—occause it wasn't."

Roach, a former high school principal and basketball coach, currently sits on the University's athletic board. He said from his visits to the school he feels "the atmosphere on campus is much different than it was years ago."

Years ago, like one time in the late 1950s when Roach said he and another man were told to leave their seats at a UK basketball game because some whites sitting behind them didn't like seeing two black men with better seats.

Roach said an attendant asked them to move to other seats farther up, and they refused, then "(Former athletic director) Bernie Shively

Continued from Page 1

came over and asked us to move."

Roach and his friend acquiesced Roach and nis rhend acquiesced but left, rather than moving to seats farther from the Memorial Coli-seum floor. As employees of the city school system, Roach said, "We didn't want to lose our jobs for refusing."

A number of alumni honored at Friday's banquet have spent their years after leaving UK as teachers. All 10 honorees present at the awards were educators, some class-room veterans of more than 40

One of the earliest graduates, Charles Quillings, class of '52, said many blacks went into teaching at the time because "That's about the only job you could get."

Black college graduates could teach in the segregated schools of the time, but white employers rare-ly gave them a chance in other fields, Quillings said.

"They just wouldn't hire you."

mer UK football coach Jerry Clai-borne.

borne.
"There is no greater place to be than the University of Kentucky," Curry told the cheering crowd.
The UK Marching Band and UK cheerleaders also performed during the rally, entertaining the crowd of about 3,500.

Historian Clark donates papers to library

Thomas D. Clark, a heralded Kentucky historian, donated a hard-bound edition of his personal re-search papers to the UK Library System on Friday.

System on Friday.

The collection, an authoritative history of Clark's work, titled "Kentucky: Land of Contrast," was presented during a dedication ceremony honoring the former UK professor for his many years of service to the University and the state. nony honoring the former UK pro-cessor for his many years of service to the University and the state. Clark was a member of UK's de-artment of history from 1931-Clark's unselfish dedication the the

1968, and he became chairman in 1941. He also has served as presi-dent of the Southern History Asso-ciation and the Organization of American Historians. James Klotter, state historian and

James Klotter, state historian and director of the state Historical Society, applauded Clark's efforts.

"Dr. Clark teaches, researches, writes, reads and rakes leaves," he said with a smile.

"He is one of South's premier scholars,"

University of Kentucky. This is historic for the University of Kentucky and the entire Commonwealth, Wethington also announced unexpected honor for Clark.

"Beginning in the fall of 1993, UK will establish an assistantship and summer internship in Dr. Clark's name," Wethington said.

Support for this assistantship eventually will be provided by an endowment.

Clark addressed the crowd in a

this state."

Although a lot of hard work was put into the project, Clark said he is glad to be done.

"I think I can say for my wife and my family, I'm glad to pass ownership of these papers on to you,"
Clark said.

eventuating will be provided by an endowment.

Clark addressed the crowd in a brief speech, expressing thanks and graitfule for being in Kentucky, "Over the years, I've seen this Frontier," 1939.

College inducts teachers into Hall of Fame

First ceremony held to recognize educators from 1950s and 1960s

By Melissa Rosenthal Contributing Writer

UK's College of Human and Environmental Sciences held its first Faculty Hall of Fame induction ceremony Friday to honor teachers of the 1950s and '60s.

"We wanted to recognize the peo-ple who laid the foundation for the successes we have all been able to profit from," said Peggy Meszaros, dean of the college.

nan, Sue W. Burrier, Winnifred A. Shane Burruss, Linda H. Chen, C. Milton Coughenour, Agnes Dinsmore, Lucy Hammond, Susan K. Harbour and Inez H. Hill.

Harbour, who taught child development courses in the school — previously known as the College of Home Economics — during the 1960s, said she felt "teary" about the recognition.

the recognition.

"This sure does bring back a lot of memories," she said of the cere-

UK President Charles Wething

ton stopped by to briefly voice his congratulations to the Hall of Fame inductees.

Claudia Wells, a teacher at the University from 1956-1976, said she traveled from South Carolina to

"I appreciate each one of those being honored today for their great contributions and long standing in-terest in the University of Ken-tucky," he said.

Chancellor for the Lexington Campus Robert Hemenway ad-dressed the gathering, saying it was important to honor past contribu-tions from faculty.

"By remembering past successes, we can better understand our own personal success and the people that have made it possible," Hemenway

participate in the program

"I've really been looking forward to it," she said.

to it," she said.

Others honored include Gladys
M. Lickert, Opal H. Mann, Abby L.
Marlett, Mary Helen Marshall, Leonard V. Packett, Doris P. Pearce,
Norma Perry, Lois Combs Richards, Jessie W. Ringo, June Robertson, Mildred Schneider, Francis M.
Stallard, Helen M. Stevens, Roberta
Seat Taylor, Doris A Tichenor, Patricia A. Walker, Rachel R. Wallace, Wells and Mildred A. Wightman.

about 3,500. Although attendance was far lower than the 10,000 that organizers has hoped to draw, it exceeded last year's figure of roughly 3,000. Homecoming chairwoman Elizabeth Schuerman said there was a greater mix of people at this year's rally. "There were a lot of students and faculty that came, which was great," Schuerman said. Coach Bill Curry and the football team also made an appearance at the rally. Curry brought the crowd to its feet several times during his 10-minute pep talk. Among those recognized were Lisa K. Barkley, Betty Jean Bran-Cur Massage Actas Color Color

On November 3,

America faces a crucial decision. For twelve years the Republican party has practiced the politics of division, diversion and deception and America is fed up. Our country faces a massive deficit, staggering unemployment and a political party who has forgotten the people they were elected to serve.
