I hope the small restaurants can thrive again despite Gov. Andy Beshear-itler's massive unconstitutional effort to destroy Kentucky's economy, bankrupt the state, and then demand that the USA taxpayers bail him out.

Gov. Andy Beshear-itler's LEGACY will be how he obeyed the DNC to destroy Kentucky's vibrant economy, order all onto welfare roles, demanded US taxpayers bail out the fiasco created by the politicians, who fraudulently inflated COVID-19 death rates.
