

First Amendment Political COMMENTARY

"Stop Clinging to Your Guns and Religion !" - Obama

Kentucky Gov. Andolf Beshear-itler unconstitutionally shut churches, state police took down license plate numbers; declared what businesses are "essential" and banned interstate travel - all struck down by a federal judge.

In NYC, Christian Churches were forced to shut down; but, Muslim Mosques remained open.

Don't be surprised when the National Guard comes to inoculate you so you'll be safe.

A prominent founding father, Ben Franklin, warned: "who would give up essential liberty to obtain a little temporary safety, deserve neither liberty nor safety." Are you that cowardly?

Will you abandon your "unalienable" freedoms & rights?

???
