Orleans and of jazz development in the United States. Manuel Crusto, 38, of New Orleans played clarinet in the seven-piece group.

Wildcats wheeze to Knoxville, Vols cough up streak

By DAVID HIBBITTS
Sports Editor
KNOXVILLE, Tenn. — Before Saturday, Joe B. Hall had brought UK to this orange-coated city five times. And each time, the Cats felt better on the trip down than on the return journey, because of five straight losses to the Tennessee Volunteers.

But, stricken with the flu and assorted viruses, Hall and the Kentucky players' faces had a lot more color after Saturday's 68-57 win over Tennessee. The win assured them of at least a tie for the Southeastern Conference championship and a post-season tournament berth.

The win was dearly earned. Before the game, the 12,700 par-

tisans at Stokely Athletic Center repeated last year's newspaper psychology stunt.

As the Kentucky starting lineup was being introduced, the fans covered their faces by appearing to read the campus newspaper. If UK had been reading many of its own clippings earlier in the season, they realized Saturday there was no room for complacency.

"In our condition, it was one of the greatest efforts by a UK club I've ever seen," Hall said between sniffls. "I couldn't have played today and I just can't say enough about those who did."

One of the Wildcats who played but didn't start was guard Kyle Macy, who had not missed a starting assignment all season.

"I was pretty tired there at the end," said the 6-foot-3 sophomore, who added that he hadn't practiced all week.

"It was a big win for us," he said. "We played with a lot of courage." Jay Shidler, who was the only Kentucky player not to see action in the 90-77 win over Tennessee in Lexington, played 33 minutes of his finest basketball of the season.

He was on target with his long-range jumpers, one of which came from beyond 25 feet, and was on the scoring end of a crucial second-half stop by center Mike Phillips.

With Kentucky, leading 45-38, the Volunteers were on the verge of seizing the momentum after a missed shot by the Cats. But Phillips, playing with authority,

ipped the ball away from UT guard Johnny Darden and out to Shidler.

Shidler darted to the opposite end, with Darden in hot pursuit and moving for position under the basket. But Shidler nonchalantly faked out the pesky UT guard to sink the layup.

"I had him (Darden) in my eye while going down the court," Shidler explained. "I wasn't too worried (about Darden preventing the score). I've had a real good feeling about my shooting."

"I'm not fully back, but I'm getting there."

After a long slump, resulting in constant foul trouble and a plague of turnovers, Phillips also appears to be coming back.

"Just playing down here and

Epidemic

Semester's second wave of flu sends crowds to health service

By GIL LAWSON
Kernel Staff Writer

The second flu in five weeks to hit UK has reached "epidemic proportions," according to a Student Health Service official.

Dr. Robert Beargie, director of the walk-in clinic at the health service, said the present influx of students — nearly 200 per day — is testing the clinic's ability to handle each and every case.

So far, he said, about 150 patients actually have had flu symptoms.

Beargie said the outbreak is somewhat different than the previous epidemic in that "this time there is a little more nausea" involved in the symptoms.

The earlier flu lasted for nearly three weeks. Length of the current illness has not yet been determined.

Physicians at the clinic still don't know exactly what type of flu it is, but throat cultures from sick students have been sent to the Center for Disease Control in Atlanta, Ga., for tests. At least three weeks will pass before the results are returned.

The flu so far hasn't presented any serious complications to students and sufferers usually have one or more of the following symptoms: fever, chills, headaches, nausea and muscle soreness.

Beargie said patients have a cold for a week and feel sick for 10-14 more days.

The Student Health Service offers these recommendations for persons who think they have the flu:

— Get plenty of rest until the symptoms are gone.

— Drink plenty of fluids.

— During the first few days of discomfort, take two aspirins every four hours early in the day.

— A decongestant or cough medicine may be needed.

— If any unusual symptoms develop or the condition worsens, go to the Student Health Service at Annex 4 across from the UK Medical Center.

Beargie said the health service is extremely crowded at noon and that students who show up at that time can expect to wait as long as 45 minutes or more to receive attention.

Cutback in dorm electricity generates hot student tempers

By JACK WAINWRIGHT
Kernel Staff Writer

Resulting from Gov. Julian Carroll's request to cut energy use by 25 percent, the University has asked students to voluntarily cut back on electricity consumption in dormitories.

The plan's nine points are:

- Outside lighting will be shut off except in limited areas designated by the UK Department of Public Safety.
- Vending machines will be shut off, except for those that consume little or no electricity.
- Lights in all offices and classrooms on the outside of buildings should be turned off in daylight hours.
- Elevator service in all buildings will be curtailed.
- The heat in all buildings will be reduced to 65 degrees.
- Small appliances, such as hair dryers, televisions, stereos, radios

Because of a reporting error, cabinetmaker Rice Cobb's name was misspelled in a photo caption in last Thursday's Kernel. The caption was also wrong in stating that Cobb worked in the Service Building carpentry shop. The room is correctly known as the cabinet shop.

and refrigerators, should not be used.

"All unnecessary lights should be turned off, particularly when leaving rooms.

— Portable heaters must not be used.

— All cafeterias will be open on a regular schedule Monday through Friday. However, the number of serving lines will be reduced where possible.

The plan also calls for closing K-Lair and Commons grills each night at 8 p.m. Menu changes will be made to eliminate the use of some electrical equipment.

Some students have cooperated with the plan but many think their rights have been violated.

"We live like prisoners and the University comes out ahead," said Walt Johns, Business and Economics freshman.

Wayne Lyons, Business and Economics freshman, had a similar view. "I think we deserve a rebate because we can't use the electricity that we pay for," he said.

According to Blanton, alleviation of the plan depends upon three variables: warmer weather, ratification of the strike agreement and a Public Service Commission decision to rescind its order for further cutbacks by March 16, the day before spring break starts.

"If they ratify the agreement, we can rescind the cutbacks immediately," he said. "At the least, we're talking about a minimum of a week before the plan is rescinded."

Mark Pritchard, area coordinator for North Campus housing, said many students have had their regular living patterns disrupted. "Students would take this better if businesses in Lexington would also cut back," he said.

According to Blanton, alleviation of the plan depends upon three variables: warmer weather, ratification of the strike agreement and a Public Service Commission decision to rescind its order for further cutbacks by March 16, the day before spring break starts.

state

THE KENTUCKY SOFT Drink Association has mounted an all-out campaign to pass a comprehensive anti-litter bill. The organization, one of the special interest groups most strongly opposed to the bottle bill, which would require a deposit on all beverage containers, paid for full page advertisements that ran in several of the state's daily newspapers last week. The ads urged support of the Kentucky Litter and Beautification Act.

The bottle bill has been stalled in committee and attempts to force a floor vote on the measure have failed.

nation

UNITED MINE WORKERS officials began an extensive campaign Sunday to sell their proposed contract, sending 200,000 copies to the coalfields. Despite vocal opposition from many miners since the tentative agreement was announced Friday, UMW President Arnold Miller believes the contract will be ratified. "I think the rank and file will accept this agreement once they see for themselves what's in it," he said. "It guarantees our health and pension benefits and takes a step toward speeding up the grievance procedure."

The contract provides for a 37 percent wage increase over the next three years, which would raise most miners' salaries to about \$80 a day by 1980, not counting overtime.

Although most Appalachian coal miners say they want to withhold judgment on the new contract proposal until they see the details of the package, many are pessimistic of its chances for ratification on the basis of the few details they have received.

UMW members will begin voting on the pact this week. A majority vote is needed for ratification. It will take miners at least 10 days to approve or reject the pact.

weather

INCREASING CLOUDINESS TODAY with a slight chance of light snow by evening. High today in the low 30s. Occasional snow tonight possibly becoming mixed with rain. Low tonight in the mid 20s.

ticketsticketsticketsticke

There are approximately 4,000 tickets left for the basketball game against Nevada-Las Vegas this Saturday, Assistant Dean of Students T. Lynn Williamson said yesterday. Distribution will be today in Memorial Coliseum on the West Concourse, from 9 a.m. to 4 p.m. All students must have valid ID's and activity cards.

With overeagerness UK shows cooperation during energy cutbacks

UK has had to operate in something of an emergency situation recently because of the fuel conservation program installed last weekend. The University has met the challenge fairly well, reducing electrical consumption to 22 percent on two days, only 3 percent less than the goal.

The only sour notes seemed to come from people who were a little too eager to meet the cutbacks.

Some rooms in residence halls became much too chilly when extra heaters that are normally used in winter were either removed or not installed. Pitch-dark buildings and stairways became safety hazards. The appeals to get dorm residents to curtail power sometimes became fanatically zealous and annoyed many.

People who live in University housing are easy targets for charges of wastefulness. While off-campus residents can go home and turn on every light and listen to records all evening, campus residents are under scrutiny all day.

But the cutback program has had moderate success, and homes should have higher priorities for electricity. It's not time to start denying dorm residents stereos and televisions until more severe campus wastes have been turned off.

The quick success reached through a voluntary program demonstrates the great waste of electricity that's now accepted as normal. The amount of electricity saved by unplugging campus vending machines was reported to be astounding.

It seems obvious that UK and every other institution can comfortably operate on less electricity, used with more intelligence.

Last week, the University's only danger of being closed down came from persistent rumors that gave everyone the panicky "inside" word. But if the nationwide coal miners' strike does not end with the latest contract proposal, those rumors could have substance. As long as coal is black gold, electricity must be used with caution.

Strike is trump card.

Coal miners' job safety isn't unreasonable demand

Looks like the coal strike may be over now, pending ratification of the proposed agreement by the 166,000 striking miners, a process which could take weeks.

It'll be none too soon for a friend of mine. I was talking to her the other day about the energy cutbacks at UK, and she was mad. I thought I detected a little froth around the corners of her mouth as she spoke.

ken kagan

"I'm sick to death of dim classrooms and cold halls. We can't see films in our classes, and the offices can't have their coffee pots turned on. Dorm residents have been asked not to use stereos and blow dryers. Why don't they just give the miners what they want?" Why indeed? Well, for one thing, the operators feel it would cost too much. But keep in mind that in this strike, the issue wasn't just money. Mining is just about the most

dangerous job in the United States, approximately three times as dangerous as auto or steel production.

Miners want job safety guaranteed, and they want a say in certifying the safety of a job site. Sound unreasonable? Operators seem to think so.

The strike is the miners' trump card, because they know no one else can mine coal. And its gratifying to see that public sentiment, so far as I can tell, has turned in favor of the miners, rather than the business interests. I think that's why a settlement may come about soon.

Striking is a nasty business, but necessary in a society which puts property value and money ahead of human life and human needs. In the West, farmworkers went on strike, and boycotts were launched against lettuce and grape growers. The movement spread nationwide, and soon, due in large measure to declining sales, contracts were signed with the United Farmworkers Union.

Maybe UK employees can take a cue from the UMW. UK workers are underpaid, on the whole, compared to their counterparts doing the

same work in the private sector. A general strike here? Hmm.

Now I'd like to say a few words about culture in Lexington. In the interest of brevity, I'll stick to the medium of film. A truly brilliant, beautiful movie recently made it to the Chevy Chase Cinema, and lasted a week.

"A Special Day," with Sophia Loren and Marcello Mastroianni, winner of the Golden Globe Award for Best Foreign Film this year, finally arrived, and it was one of the only films worth seeing in Lexington. A week was all the management could see fit to keep it. This happens time and time again. "Harian County, USA," Academy Award winner for Best Document-

ary last year, played for a week at Crossroads Cinema. It makes me wonder if the movinggoing public in Lexington just has no taste.

I saw "Eques" in Cincinnati a few weeks ago, and it was one of the greatest movies, from an acting point of view, that I've ever seen. My guess is that it'll arrive in Lexington in the late spring or summer. So what's the problem here? Why can "Oh, God!" stay in Lexington, make the rounds at all the theaters, and outlast some quality showings? Somebody tell me, please.

Now I'd like to say a few words about hospitality and business interests.

The other day I was to meet a friend at Atlanta for breakfast. I arrived early, and as they were still closed, I decided to read my newspaper.

So I went over to the Blue Bones Deli, a few doors down. The time: 10:30 a.m. There was no one in the place. Wishing to be polite, I went up to the counter, and asked a tall blonde fellow if it would be o.k. for me to sit down about fifteen minutes while I waited for my friend.

He said, "No, I want to keep the tables for my customers. We don't want anyone loafing here."

Just opened, there was no one in the place, and there is seating space for at least 50 in there. I surely would have left if the place began to fill up.

But that's not the point. How inospitable can you get? They want to save the space for their customers, and I can assure you, by their actions they lost at least one customer, permanently. I won't go in there now even if I'm fainting from hunger.

Ken Kagan is a Political Science Senior. His column appears every other Monday.

Because of an editing error, the authors of a letter in last Thursday's Kernel concerning fuel conservation were incorrectly signed as being students in the College of Agriculture. The authors, the "Environmental Growth Chamber," are from the College of Architecture.

Letters Policy

The Kentucky Kernel welcomes letters and commentaries submitted for publication. Articles must include the signature, address, phone number, year and major if the writer is a student. Commentary authors should have expertise or experience in the area their article pertains to. The Kernel editors have final decision on which articles are published and when they are published. The editors reserve the right to edit submissions

because of unsuitability in length, grammatical errors, or libelous statements. All letters and commentaries become the property of the Kernel. The best-read letters are brief and concern campus events, though commentaries should be short-essay length. Letters and commentaries can be mailed to the Editorial Editor, Room 114, Journalism Building, University of Ky. 40506, or may be delivered personally.

U.K. STUDENT BLUE CROSS/BLUE SHIELD INSURANCE PLAN

A reminder about the enrollment deadline:

Students who did not have the UK Student Blue Cross-Blue Shield Group Insurance Plan in the Fall Semester, 1977, and wish to enroll in the policy must complete an application and make payment by Feb. 28, 1978. For more info, call or stop by the Health Service Insurance Office-Rm. 14 Med. Center Annex No. 1, (233-5823).

Ailing Cats end Vols' jinx, clinch title with 68-57 win

Continued from front page Robey, Phillips and forwards James Lee and LaVon Williams all spelled each other frequently in a game that made every play ex-cruciatingly precious. "Coach Hall told us if we were feeling bad to push ourselves as hard as we could," Robey said. "That's why he substituted so frequently." Williams was another invaluable player in a reserve role. He gave UK its biggest lead of the game at 50-38 on a three-point play after Shidler's driving layup. Although the Volunteers made a serious run at the tiring Cats by cutting the

As he passes to forward Jack Givens (21), Kentucky guard Kyle Macy (4) dwarfs Tennessee's pesky 5-10 playmaker Johnny Darden. Givens scored a team-leading 18 points as he was the beneficiary of UK's patience and teamwork on offense. Macy and several other Wildcats were slowed by the flu virus, but were instrumental in Kentucky's first win in Knoxville in six years. UK had only 12 turnovers in its 68-57 victory, which also clinched a share of the conference title.

Even if Orange is ugly

Top-ranked Lady Vols trounce UK

By BRIAN RICKERD
Kernal Staff Writer

KNOXVILLE, Tenn. — Making the top-ranked team in the nation angry hours before playing it on its home floor was not the wisest move UK's Lady Kats made over the weekend. The Kats came here Friday night with T-shirts which read, "Orange is Ugly-Beat Tennessee," and they left Saturday night feeling no warmer towards the Lady Volunteers, who trounced UK 99-66.

A layup by guard Linda Edelman made it 12-11 in the opening half, but the Lady Vols proceeded to reef off a 15-2 spurt and ended any suspense.

Tennessee stretched it to 38-21 before settling for a 46-30 halftime margin.

Lady Kat coach Debbie Yow said it was the Vols' balanced attack which hurt her team the most. Tennessee's starting five all scored in double figures. It was led by All-American forward Cindy Brogdon with 27. Guard Suzanne Barbra had 17 while forward Zandra Montgomery added 16.

Vols pulled out of sight. Their biggest margin came at 87-48 with 7:30 remaining in the contest.

Ironically, this was the same team which barely beat UK in double overtime 92-90 on Jan. 28 in Lexington.

"We were up for the game," Yow said. "But we were apprehensive about playing here. We didn't pass crisply and we made our cuts halfheartedly."

A bright spot for the Lady Kats came in the play of 6-2 center Jeannine Mjoseith, who led Kentucky with 20 points. The freshman seemed to take everyone by surprise as she coolly poured in 10 of 13

field goals and grabbed six rebounds.

Mjoseith said a recent two-game suspension was a key factor in her play.

"It hurt sitting on the bench," Mjoseith said. "I hadn't been playing up to par all year, and it all built up a lot of frustration."

She said she was also inspired by Pam Browning who is finishing out a magnificent career for the Lady Kats.

"Pam is such a great person and I admire her so much," Mjoseith said. "I just wanted to give her the confidence of knowing that we won't fall apart when she's gone."

Irish come back from big deficit, upset Marquette

SOUTH BEND, Ind. (AP)—Freshman Kelly Tripucka, held scoreless in the first half, pumped in 15 second-half points yesterday to fuel a furious Notre Dame charge and lead the Fighting Irish to a 65-59 comeback victory over top-ranked Marquette.

The nationally televised triumph boosted ninth-ranked Notre Dame's record to 19-5 and improved their prospects for a post-season bid to the NCAA tournament. The loss dropped Marquette's record to 22-3.

The Warriors had led all the way until Don Williams hit a jumper with 2:50 left in the game to put the Irish on top 58-57. Marquette, which

stroked to a 39-25 halftime advantage, gradually saw its lead slip away, although five times in the second half the Warriors scored after Notre Dame had pulled to within one point.

After Williams' bucket, he hit three free throws, Tripucka added a pair from the foul line and Dave Batton scored his first two points of the game on free throws to stretch the lead to 65-57.

Butch Lee added a meaningless bucket for the Warriors at the buzzer.

Williams finished with 14 points for Notre Dame. Marquette was led by Lee, with 14 points, and Whitehead and Ulice Payne with 12 each.

Tracksters place sixth in SEC

The UK indoor track team finished its season on a positive note at the Southeastern Conference meet this past weekend in Montgomery, Ala.

The team placed sixth and was led by the Dean Erdal and Tom Burridge, who combined for 19 of UK's 28 points.

Erdal came home with a victory in the mile run and Burridge repeated his second-place finish of a year ago in the two-mile run.
