than the average of the 4 other largest-selling brands tested—less than any of them—according to independent laboratory tests of the smoke itself

NO MATTER how much you smoke, all that you get from a cigarette—all the flavor, mildness—you get in the smoke itself. The smoke's the thing!

Science has told you Camels are slower-burning. This slower way of burning means more mildness, more coolness, more flavor in the smoke.

Now, these new independent tests reported above—tests of the brands most of you probably smoke right now—drive home another advantage for you in slower-burning Camels—extra freedom from nicotine in the smoke.

Try slower-burning Camels. Smoke out the facts for yourself. Dealers everywhere feature Camels at attractive carton prices. For convenience—for economy—buy Camels by the carton.
