

He stated that he would estimate that about sixteen (16) out of twenty-one (21) fraternities did not have a standing of 1.3. Dr. Donovan made the statement that he felt if the ruling were postponed a year, the students might take care of the situation themselves. After considerable discussion the motion was made, seconded and carried that Section 1 be revised to read as follows:

1. Any fraternity or sorority which, at the close of the school year 1952-1953 or any year thereafter, has an average standing for both actives and pledges lower than 1.3 (the all-men average) shall be placed on social probation for the following year. Social probation shall prevent the fraternity from holding any social affair to which other than members are invited.

The motion was then made, seconded and carried that the recommendations on Social Organization Scholarship be adopted in entirety with Section 1 as amended.

The Faculty adjourned.

Whereas we the members of the University Faculty share with others a deep concern about the widely publicized athletic situation in our University;

And whereas it is our belief that the University Faculty should assume its full share of responsibility by participating actively in the efforts to clarify the issue and formulate the governing principles which should guide our athletic policies in the future;

Therefore be it resolved that a committee of eleven members (five of them to be the members of the present athletics committee of the College of Arts and Sciences) be elected by this Faculty and that this committee report its conclusions and recommendations back to this Faculty;

And be it resolved that this committee be elected at this meeting from those members of the University staff who are eligible for membership in this Faculty;

Finally, be it resolved that the Chairman of this Faculty present these resolutions, with the action of this body to the Board of Trustees at its next meeting for its sanction.

After some discussion the University Faculty approved the resolution, with the following amendments:

2. That the present Chairman of the Arts and Sciences Committee be authorized to call the new committee together for organization and election of a permanent chairman.
