Lawsenby's 'British Moths'
is not known in the trade. There
is a book of this title by Westwood
& Humphreys, 2 vols 4^{to} - a copy of
which would cost about £6.10/- or
£7/-; and another by Morris, with
nearly 2000 illustrations - coloured,
4 vols, offered by Bell & Sons at
£3.15/- (but at £6.6/-). I have sent
you a copy of Bell & Sons Catalogue by
this mail, on page 73 of which you
will see this edition offered.

The German books on your
order I have ordered from Germany,
and will forward them at the first
opportunity as soon as received.

Dear sir;--

Mr. W. A. Olmsted of Chicago has just advised us that you are in want of school furniture, and suggest that we correspond with you, with a view of securing your order for anything you may need.

We are the sole manufacturers of the Celebrated "Perfect Automatic", and we take pleasure in mailing you our illustrated catalogue, under separate cover. If you will have the kindness to advise us, at your convenience, about how many desks you will require, and how soon you will be ready to place your order, we will arrange to show you a sample of our desk, and name rock bottom manufacturers' prices.

We enclose stamped envelope for your reply, and will be pleased to hear from you.

Dictated.

Yours truly,

Gentlemen:

I desire to call your attention
to these two accounts against the
Chemical Laboratory of the College
which were left unpaid by Prof.
Schweinitz.

Chemicals and a few pieces of
apparatus are needed for the
laboratory and I respectfully ask
that the sum of three hundred
dollars \$300.⁰⁰ be placed to my

credit in order that I may meet
the current expenses of the
laboratory during the coming year.
This sum together with the money
deriving from the laboratory fees
of the students will probably
be sufficient to keep up
the laboratory in good condition.
Hoping that you will give these
matters your immediate attention,
and that they will meet with
your approval, I am

Yours very respectfully,

Jo. H. Kastle.

Greenwich 14 Sept 10. 1855

Prof J K Patterson

My dear Sir

I had an offer yesterday on one of your lots, which I hardly thought you would accept, but I prevailed to submit it to you.

I am offered \$80 for a lot 80x180 ft. opposite Will Gosts Garden. To cut off 80 feet front does not injure the next lot & will leave opposite Gosts house & extending down to Wiercliffes lot, about 150 ft front & enough level land on top the hill for building purposes.

I told the gentleman if he would pay \$100 for the 80x180. I would write you & advise you to accept it.

But he replied \$1 per foot was all he could pay & I think to make it wider than 80 ft will injure the next lot.

Let me know what you think of it. If you want to accept the \$80 I will prepare a deed and send on over.

Very Respy

Dear Sir

This will be handed you by my son Jimmie, who I return to your care for the coming session.

I enclose my check for \$40⁰⁰ payable to your order. When this amt is expended I would be glad to have a statement of items as I did not get one for the last two months that he attended.

You can let him have the usual 25¢ per wk for pocket money, but I desire that he shall be kept close to actual expenses. I may be asking too much of you, but you know it is for his good that I desire it.

Dear Sir:

The Democrat Printing Co. have recently fitted up their establishment with the fastest presses, folders, cutters &c. for the special purpose of doing school and stock printing - catalogues, school papers &c. - It claims to do this class of work in a manner second to no house in the country and at a very low rate - good workmanship considered. Its success in the past is guarantee of what it can and will do for its patrons. Accuracy according to copy is guaranteed, while careful and intelligent proof reading insures typographical correctness. If you contemplate issuing a periodical the coming year, we try that you will permit us to submit figures on the work. Answering your reply per enclosed envelope, we are

Eminent Contributors. AS THE REVIEW enters upon the THIRD year of the NEW SERIES, attention is invited to the fact that the promises made at its inception, and at the beginning of the third volume, have BEEN MORE THAN FULFILLED. In addition to articles from the eminent contributors then mentioned, important papers have been published by such distinguished writers, both at home and abroad, as the following: James Bryce, M.P., H. Taine, Philippe, Comte de Paris, Hon. A. H. Colquitt, the late Rev. Dr. A. A. Hodge, Prof. Dr. Henry Calderwood, John Safford Fiske, E. L. Godkin, Hon. Ellis H. Roberts, H. H. Boyesen, Brander Matthews, Dr. Francis H. Brown, Sanford H. Cobb, George Parsons Lathrop, Rose Hawthorne Lathrop, and many others. The accompanying tables of contents for the whole four volumes, years 1886-1887 (see pp. 3 and 4), are alone sufficient to prove the justice of the criticism made on the Review by one of the most famous publicists of the age: "IT IS MUCH SUPERIOR . . . IN EVERY WAY TO ANY AMERICAN REVIEW OF THE SAME SERIOUS AIM."

The Foremost American Review. THE INCREASED SUPPORT given the Review in the past year encourages the Editor and the Publishers fully to maintain in the future the high standard of excellence thus reached. It will be their steadfast purpose to keep the Review in the future, as it has

been in the past, A FAITHFUL EXPONENT OF ALL THAT IS BEST IN THE THOUGHT OF OUR COUNTRY. Its aim is distinctively American. It is believed that the time has come when American scholarship is competent to support a discussion of American affairs, which in literary excellence, in scientific ability, in political insight, in philosophic culture, and in general soundness and worth, shall be abreast of the best that the scholars of any other land can show.

Live Topics. To this end continued prominence will be given to the **QUESTIONS OF THE DAY.** As in the past no concessions will be made to sensationalism or the demands for a sensational literature, but, fully abreast of the times, the REVIEW will give to live topics that careful and faithful consideration which alone can result in sound thinking and cautious action on the part of earnest men. **THE FOREMOST THINKERS** in their respective fields of **PHILOSOPHY, SCIENCE, HISTORY, ART, AND POLITICS** will from time to time discuss the burning questions of the hour, in such a way as shall be best adapted to furnish our readers with a sound and impartial knowledge of the great movements in which they themselves are called to play their parts.

Foreign Authors. IN ADDITION TO AMERICAN AUTHORS, THE CORPS OF FOREIGN WRITERS WILL ALSO BE INCREASED. In behalf of that catholic Americanism which welcomes the best from all lands, so long as it does not demand the retention of its own narrow nationality, the pages of the REVIEW will be adorned by papers from the leading minds of Great Britain and Continental Europe.

Readableness. The brief and pointed "CRITICISMS, NOTES, AND REVIEWS," by trained specialists in every department of thought, which have been so marked a feature in the preceding volumes, and the publication of a complete story in each number, will continue to maintain the **POPULAR CHARACTER** of the REVIEW, distinguishing it in this respect from many other periodicals.

The Only Reference Review. THE ELABORATE SYSTEM OF INDEXING makes the NEW PRINCETON unique as a record of contemporary thought. The two volumes published each year, with their facilities for ready reference, are worthy to serve as an annual encyclopedia of general information.

Small Cost. Finally, the low price at which the REVIEW is offered to subscribers deserves careful consideration. Nowhere else in this country or in Europe is so much good literature, covering so wide a field of discussion, SUPPLIED FOR SO SMALL A REMUNERATION.

FOR SPECIAL TERMS FOR TWO AND THREE YEARS, SEE PAGES 3 AND 4.

See enclosed Circular for Club Rates with other Periodicals.

NO. "A" PATENT BAND SAW.

NO. "A" PATENT BAND SAW.

THE cut on the opposite page is a correct representation of our New and Improved Band Saw. This machine has all our recent improvements, and is especially designed as a medium-priced machine for general work. All of our four patents on Band Saws are embodied in this machine. Parties in need of a first-class saw at a moderate price, will find this at least the equal of any made, and combining many new advantages, with the best of material and workmanship.

The Iron Frame is cored out and cast in one piece. The wheels are 33½ inches in diameter. It will cut up to 12 inches thick and to the center of a piece 66 inches in diameter.

The Strength, Durability and Simplicity of this machine are extraordinary; the parts are so well designed, the work so perfect, and the very thorough manner in which they are tested before shipping, recommend them far in advance of many high-priced machines.

The Wheels are very perfect, light and symmetrical. They are covered with pure gum and ground perfectly true, and balanced very exact.

The Upper Box of wheel is angled so as to lead the saw to any path, by a thumb screw, and the saddle and box are raised and lowered by a main screw.

Our Patent Weight for giving the proper tension to the saw is adjustable, is very simple, and can be changed to give more or less tension according to width and density of work to be done.

Our Patent Guide has proved itself to be the only one that will run narrow and wide blades with equal facility. The adjustable steel plate at back gives the saw a full bearing and support, the plate being reversible. The Side Guides are adjustable to the width and thickness of blade.

Our Patent Shifter, for shifting belt and stopping saw, is very quick and effective. The Patent Guide raises and lowers with Guide Bar, to adjust itself to thick and thin lumber, and will take in 12 inches under guide.

We specially recommend this saw for bracket, piano and organ factories; pattern work, planing mills and carpenters; buggy, wagon, chair and furniture factories, and also general wood-workers of all kinds, for use on either hard or soft wood.

With Each machine we furnish one Perin saw, brazed, set and filed, and double socket wrenches to fit bolts. The brazing frame and tongs for brazing saws furnished at small extra cost.

L and T Pulleys 12x4½ inches should run 480 revolutions per minute.

For Circulars of larger sizes of Band Saws, and other Improved Wood-working Machinery, address the manufacturers,

My dear Sir!

I enclose copies of three letters recd from Mr Beck
in relation to the Signal Service at Lexington.
Can't you arrange to have a man at the College
do what is suggested for the amt suggested. I
dislike to see the service entirely done away
with at Lexington, the retention of one man
at that figure may result in something better
in the future. Let me hear from you as soon
as possible

Respectfully
