Dear Sir:-

We have the pleasure to acknowledge the receipt of your letter of August 1 enclosing draft £8.0.0 which we have duly placed to the credit of your account with best thanks.

We exceedingly regret that the set of Gilfillan's Poets proved so unsatisfactory and almost wish you had returned them to us for disposal on this side. Sets are very seldom met with in bound form and the original cloth in which sets are usually found is almost necessarily faded after so many years.

Trusting that any further orders entrusted to us may be executed to your satisfaction and always at your service,

We remain,

Yours faithfully,

B. F. Stevens & Brown

Fort Stockton, Texas, Feb. 8, 1903,

Pres. Jan. H. Patterson,
Lexington, Ky.

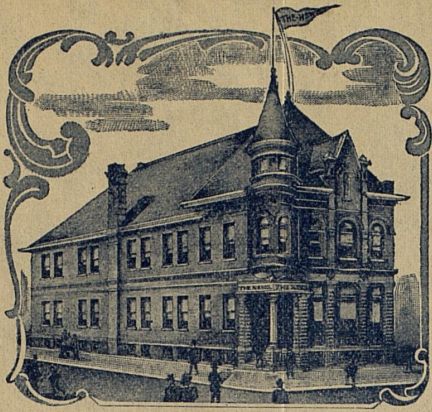

Dear Sir:-

I am in correspondence with some Chicago people who want to purchase 10,000 to 100,000 acres of very cheap land. They want or seem to want only such land as can be purchased at 50 cents an acre or less.

At what price per acre cash will you sell yours?

Let me hear from you by return mail. I want your lowest cash price. Of course I shall protect your interests and sell for the best price I can get.

Most cordially
D. G. Coack

Dear Sir:

Your favor of the 26th has been received. Yes, we intend to print the edition on the 4th of April. We cannot wait any longer. If you can get us your article by the 1st or 2nd, it will be in plenty of time.

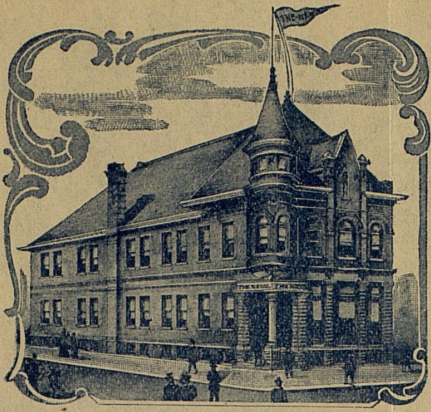

As to the photographs, I suppose that some photographer in your town has negatives of the buildings. If he has not, would suggest that you instruct them to have a couple of photographs taken and send them to us at once. We will bear the expense of the negatives. Try and get them taken as cheap as you can. We hope the photographer has them on hand. Let us have your matter and photographs at the earliest possible moment. This is an edition that will no doubt do you a great deal of good.

Trusting to hear from you favorably by return mail, we are,

Yours Very Truly,

Mr. Jas. K. Patterson, Prest.,

Lexington, Ky.

Dear Sir:

Your favor of Apr. 9th has been received. I am very sorry that you are disappointed in regard to the article in the paper. We do not like the tone of your letter, and think that you treat us with great injustice. You delayed sending this article so long and put so much in the write up that we did the best we could for you. We think that your write up had a splendid showing. In fact, you had more for your money than anybody else in the paper, and we think that you ought to be in a measure satisfied. We of course regret that you should have been disappointed. As we stated before, we gave you more than we did anybody else for their money. It may be that our solicitor promised you too much, and more than he was able to comply with. We do not think that you should force us to allow you anything for the photographs furnished. No one else did.

Yours Very Truly,

Prin of High School,

Lexington, Ky.

Dear Sir:-

We have in preparation, for publication about September first, the new volumes covering the College Entrance Requirements in English for 1906-07-08. The titles and prices of these, as well as of the books already issued, are given on the enclosed list of LAKE ENGLISH CLASSICS. If you are not familiar with the series, we shall be pleased to send you specimen copies of such of the books as you may wish to examine, if you will indicate the titles on the enclosed card.

The Lake English Classics are edited by teachers of experience and scholarship, and are in uniform cloth binding; the paper is of the best quality, and the prices exceptionally low considering the mechanical make-up and the editorial qualities.

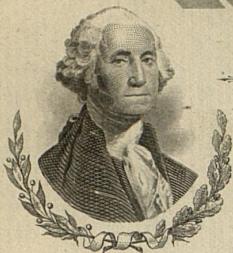

We hope that we may be favored with your orders as you have occasion to purchase material of this character for your High School.

Yours very truly,

PHILADELPHIA

AUG 22 1903

We would like to suggest for your consideration the use of a neat calendar, displaying a handsome view of your Campus or Buildings, or a collection of such views. The calendar can be distributed gratuitously as an advertisement for the Institution, or it can be arranged in a more expensive and a more elaborate form and sold at a nominal figure to the students just before the holiday season. Both plans have been tried successfully by us in the past year, but the latter has been the most popular.

The calendar in that instance is made of from 4 to 12 sheets according to the amount to be expended, each sheet containing the proper months, with appropriate views and wording. The idea is not an experimental one, as it has been a pronounced success wherever tried. The prices on these calendars range from \$35.00 to \$200.00 per thousand, according to the character of the work and the general style. We hope that you will consider it carefully, writing us for estimate and samples, in which case we would like to have you specify about what quantity you would use and the limit in price that you would care to pay.

We are also producing a very artistic line of steel engraved letterheads, where we etch one of your buildings or a view in bank note style, the wording appearing embossed in a very

dignified manner. The letterheads are entirely new in character and are intended for the use of both the office and the students. In the latter case the view of the building is usually stamped on a folded sheet, with envelopes, and this stationery is sold in small quantities, as far as we can ascertain, by the Institution. Although the entire heading does not exceed 2-1/2 x 4, its very neat appearance recommends it to the most conservative and artistic of our customers.

The idea is entirely new with us this season and we think that you will be surprised at the moderate cost of such a letterhead. If you will make an appointment when it will be most convenient for you to meet our representative, we will have him call upon you in connection with these subjects.

Awaiting your further advice, we are

Yours very truly,

Dic. G.F.

Capt. Geo. L. Byroade,

Lexington, Ky.

Dear Sir:-

In order that the requirements for Drill as embodied in Order 94, a copy of which I obtained from the Assistant Adjutant General when in Washington, may be fully complied with, I have given instructions to the Janitor of the Gymnasium Building to keep the Drill Hall in suitable condition for drill on wet and cold days when the cadets cannot go through their Military exercises on the drill ground. The Hall as you are aware is quite commodious having an area of about 4500 square feet, that is 90 X 50 feet.

I note also that Guard Mounting is required by Order 94. I am not aware that this feature of Military Instruction has been complied with this year. I therefore respectfully call your attention thereto, and enjoin compliance therewith.

I am informed that the period for drill; viz. one hour is often cut short, and seldom continues more than 40 minutes. Does this meet the requirements of the war Department? I ask for information.

Yours respectfully,

C. F. Brower & Co.

J. K. Patterson, L.L.D., Ph. D.,
Lexington, Ky.

Dear Sir:-

In undertaking the preparation of an entirely new edition of Noah Webster's great work, "Websters Dictionary," which we are to publish under the title of WEBSTER'S IMPERIAL DICTIONARY, to distinguish it from all of its "Webster" predecessors, including the "International," which it supersedes in point of time by fourteen years, we have invited the active assistance of all who are interested in the use of pure English and in the remarkable development of the language during the past few years, and we take pleasure in inviting your co-operation in an especial manner.

The importance and magnitude of the work in which we are engaged will be at once apparent to you. We desire to, and will, present to the reading public of America an entirely new, complete dictionary, lacking none of the useful features of the existing books, prepared from eleven to twenty years ago, and excelling them in the extent and arrangement of its vocabulary, also in many other desirable features. To this end we are carefully collecting and inserting in their proper places in the new dictionary as many as possible of the properly authenticated words that have recently come into the language, and it gives us pleasure to state that a surprising number of such words will be found defined in Webster's Imperial Dictionary.

We shall be exceedingly obliged if you will aid the work by sending us any new words or modifications of old ones, or any new uses or definitions of old words, which may have come to your notice recently. We shall cheerfully acknowledge such assistance in the pages of the work, which will soon be ready for publication.

May we ask you to extend this invitation also to the members of your faculty who are likely to be interested, especially to those whose original scientific or literary researches are incidentally enriching the English language by results that require special nomenclature.

Thanking you in advance for any aid you may render, which will be highly esteemed, and requesting the favor of a prompt response, I beg to remain,

Yours very truly,

Geo W. Ogilvie

State College of Kentucky,

Jas. K. Patterson, Ph. D., LL. D., President.

Lexington, Ky., March 21, 1904.

To His Excellency,

J. C. W. Beckham,

Governor of Kentucky,

Frankfort, Ky.

My Dear Sir:-

A report has come to me this morning that you will probably veto the Bill appropriating \$15,000 to liquidate existing indebtedness on the ground that it is unconstitutional. Assuming this report to have some foundation I beg to submit for your consideration the following:

The 1/2 cent tax for the benefit of the College was imposed in 1880. In 1882 an effort was made to repeal the tax at which time the question of its constitutionality was raised. After the adjournment of the Legislature of 1882 the constitutionality of the tax was brought into the Court of Appeals but was not decided until 1890 when its constitutionality was affirmed.

Constitutional recognition of this tax was incorporated in the new Constitution. Some members of the convention urged that future Legislatures should be prohibited from increasing the tax without first submitting to a vote of the people the increase proposed. This was accordingly done. The latter part of Sec. 184 reads as follows. "No sum shall be raised or collected for education other than in Common Schools until the question of taxation is submitted to the legal voters and the majority of the votes cast at said election shall be in favor of such taxation Provided the tax now imposed for educational purposes and for the endowment and maintenance of the Agricultural and Mechanical College shall remain until changed by law."

It is clear then that the 1/2 cent tax cannot be increased by the Legislature without submitting the question of increase to the

State College of Kentucky,

Jas. K. Patterson, Ph. D., LL. D., President.

Lexington, Ky.,

legal voters. But can the Legislature make no appropriations for buildings, for the liquidating of indebtedness and for increase of revenue? That it can do so the following analysis of the language quoted will I think show.

An Act to raise and collect money by taxation implies processes which in relation to the act are necessarily future. They relate to potential revenue non-existent at the time of the passage of the act. An appropriation on the other hand implies the existence of revenue already raised, already collected and transferred into the Treasury. The one deals with potential revenue and provides means for transforming it into actual revenue, the other deals with the actual revenue existing and available.

In providing for such specific taxation the money is not yet in the Treasury but in the possession of taxpayers resident in every county and in every precinct of every county in the commonwealth. The appropriation of money on the other hand presupposes that the money appropriated has been raised, collected and transferred to the Treasury where it remains subject to the disposition of the General Assembly. This distinction is clear, definite and unambiguous. While the constitution prohibits the former action in relation to the College until the conditions imposed by the constitution have been complied with, it leaves the General Assembly free to provide for the exigencies of the Institution by appropriation. A specific tax is forbidden until certain conditions are complied with, a specific appropriation is not forbidden. Any other interpretation would deprive the Colored Normal School of maintenance as well as the School for the education of the Blind and the School for the education of Deaf mutes, If an appropriation for the A. & M. College be unconstitutional equally so must appropriations for the maintenance of the Colored Nor-

Lexington, Ky.,

with , a specific appropriation is not forbidden, Any other interpretation would deprive the the Colored Normal School of maintenance as well the School for the education of the Blind and the School for the education of the Deaf mutes. If an appropriation for the A. and M. College be unconstitutional equally so must appropriations for the maintenance of the Colored Normal School , the school for the education of the Blind and the school for the education of the Deaf mutes be unconstitutional. If appropriations for the latter be constitutional equally so must appropriations for the former be constitutional.

If the language quoted be prohibitive in the one case it is prohibitive in the other. If permissive in one case it must be permissive in the other. They stand or fall together.

With much respect,

Your ob't. servant,

State College of Kentucky,

Jas. K. Patterson, Ph. D., LL. D., President.

Lexington, Ky., April 14th, 1904.

Prof. R. N. Roark,

Dear Sir,

In consequence of the accumulated indebtedness of the College and the uncertainty of being able to realize any of the appropriation made by the last Legislature to liquidate existing obligations and provide additional income, until the question of its constitutionality be decided by the Appellate Court we are unable to provide means this summer, as we did last, for paying the salaries of a competent staff of instructors to do the work of instruction in a summer Normal School.

I am willing however on my own responsibility to undertake that \$150. one hundred and fifty dollars, shall be provided by the Board of Trustees to pay for advertising a summer Normal School, provided that you look to the fees received for the compensation of yourself and assistants during the period referred to.

I am unwilling *that* the summer Normal School should be suspended.

I think that by proper vigor and a little self denial the summer Normal School might be made self sustaining as the summer School in Mechanical Engineering and that of the Academy are.

Yours respectfully,

James K. Patterson

Brought forward,

\$56966.66

In July 1909 an order was passed by the Executive Committee to pay the amount of the overlap, viz: \$1250. for the year 1908-9 and to make my salary payable in ten monthly payments thereafter, instead of twelve as theretofore. This extinguished the overlap.

Operating under this rule, my salary was from July 1st, 1909 until January 15, 1910, the date of my resignation, as follows:

1909-10. 6½ months at \$5000. per annum, \$500. per month,	<u>3250.00</u>
Total to January 15, 1910,	\$ 60216.66

This closes my account with the University as President. From that date, viz: January 15th, my retiring allowance became operative and does not form, properly speaking, an element in the settlement.

Let an examination of the books now show the payments made on salary, seriatim, beginning with 1893-4. The amount of these payments, compared with the total amount due me, will furnish a proper basis for settlement.

Respectfully submitted,

[1902]

AN ORDINANCE TO REMIT CERTAIN TAXES ASSESSED AGAINST PROPERTY
RECENTLY ACQUIRED BY THE AGRICULTURAL AND MECHANICAL COLLEGE OF KENTUCKY.

Whereas in 1878 the city council of the City of Lexington offered the city Park to the state of Kentucky as a site for the Agricultural and Mechanical College in order to retain the said institution in Lexington after it had been separated from Kentucky University, said city park to be held and used by said College as its site so long as the Agricultural and Mechanical College remained in Lexington, which offer was accepted by the legislature.

And Whereas, the city council of the city of Lexington offered in addition to the city park, the sum of thirty thousand dollars in city bonds, for the erection of buildings on said ^{city} park, which offer was also accepted by the legislature; and whereas these donations were made ^{in order} to further and promote the educational interests of the city of Lexington and by their acceptance and the establishment of said College, the city of Lexington has a peculiar and substantial interest in said College, which has thereby become, in a special sense, the property and ward of the city:

And whereas the property recently purchased by the college upon which to erect a college home for young women, known as the Pepper property, is encumbered by an obligation known as the brick street tax, and other taxes due the city of Lexington and unpaid:

And whereas the precedents recited in the preamble hereof, in which the donations of the city park and thirty thousand dollars in City Bonds, were given for the retention of the College in the city of Lexington and for the upbuilding of the educational interests of the city of Lexington, which benefactions have been productive of the happiest and most beneficial results to the city, to the county and to the Commonwealth;

And whereas all the other property and estate of said College heretofore acquired is free of all taxation for state, county and municipal purposes;

WHEREFORE Be it ordained by the General Council of the City of Lexington:-

That the property mentioned in the preamble as the "Pepper Property" having been acquired by the Agricultural and Mechanical College of Kentucky as a College Home for young women students of said College and being now and for all time to come dedicated to educational purposes as a part of the property and location of said college, therefore the taxes known as the brick street taxes - taxes assessed against said property and constituting a lien thereon, amounting to \$1057.32, including penalties, and the city taxes, amounting to \$105.00, also constituting an encumbrance thereon, be and the same are hereby released and remitted, in consideration of the public service performed by said College and the public use to which said property is dedicated and appropriated.

NASHVILLE, TENN. Feb. 9, 1903.

To Whom it May Concern:

Mr. W. D. Greene has been a student in the University of Nashville, Peabody College, for some years. He has completed satisfactorily all the work in Latin required for our A. B. degree. His work with me in Virgil, Livy and Horace, was always done with intelligence and faithfulness. Mr. Greene has a reputation for hard work and progressiveness among his fellow students and professors. I commend him heartily to all school boards.

CHAS. E. LITTLE.
Professor of Latin.

Graduated Georgia State Normal School, 1900; Peabody Normal College, 1901.

~~Candidate for degree~~
BACHELOR OF ARTS

in the University of Nashville, 1903.

To Whom it May Concern:

BUTLER, GA., February 6, 1901.

Permit me to state that I have known Mr. William D. Greene personally and as a teacher for several years. During my four years of administration as County School Commissioner and as Superintendent of the public schools of Taylor County, Georgia, Mr. Greene taught the greater part of the time—from 1896 to 1900, under my immediate supervision. And it is not exaggeration for me to state that as a teacher he ranked among the very best in the county, and displayed both tact and talent in this capacity. I know him to be moral and upright and well qualified to teach and successfully manage any school for which he may apply.

Respectfully,

WALTER E. STEED,

Member of the Georgia Legislature.
Member of Board of Education, Taylor County.

▼ ▼ ▼

To Whom it May Concern:

BUTLER, GA., October 9, 1902.

Mr. W. D. Greene was elected principal of Rhodes Academy in 1897, at which time the school had dwindled down to some twenty-five or thirty pupils. By his constant and systematic efforts and excellent school management the enrollment in 1897 reached fifty-two, in 1898, fifty-seven, and in 1899 over seventy, and the average attendance for the three years, forty-two. We also made considerable improvements upon the building. We have had since the beginning of 1898 the best school in the county.

Mr. Greene's work was thorough and efficient and his management entirely satisfactory.

Very respectfully,

Trustees { J. T. TURNER
 { J. W. RODES
 { D. L. RIGSBY

STATE NORMAL SCHOOL, Athens, Ga.

Mr. W. D. Greene, a graduate of the State Normal School, was a faithful, intelligent, and efficient student, and I dare say he will be just exactly such a teacher. I have a very high regard for his qualities of character, and I believe he will be a desirable teacher in any community.

E. C. BRANSON, President.

PEABODY COLLEGE FOR TEACHERS,

NASHVILLE, TENN., Jan. 2, 1903.

To Whom it May Concern :

Mr. W. D. Greene has made an excellent record as a student in the Peabody College for Teachers. His work has been of a high type, as attested by his class standing and examination records.

In my department his work has been entirely satisfactory.

I do not hesitate to commend him to the very favorable consideration of school authorities and patrons. His natural ability, professional training and education, qualify him for efficient service in his chosen profession. He is in every way worthy the highest confidence.

SIDNEY G. GILBREATH,

Professor Physiology and School Hygiene.

The high price charged for School Books is not only an unnecessary burden upon those who buy books, but it prevents many poor children from entering school.

We pay annually at least \$135,000 more for books than we would have to pay if we had State uniformity of Text Books.

We would have had State uniformity of Text Books long ago but for the Book Trust.

Let the people demand this reform, for it means better books, cheaper books and general improvement of the Public School System.

Indiana has State uniformity. The following will indicate what advantage it is to them:

Indiana Pays for

1st Reader 10 cents
2d Reader 15 cents
2d Reader 25 cents
4th Reader 30 cents
5th Reader 40 cents
No 6th Reader

While we Pay for McGuffey's

1st Reader 17 cents.
2d Reader 30 cents
3d Reader 42 cents
4th Reader 50 cents
5th Reader 72 cents
6th Reader 85 cents

McD. FERGUSON

OF MCCRACKEN COUNTY

✠ ✠ CANDIDATE FOR ✠ ✠

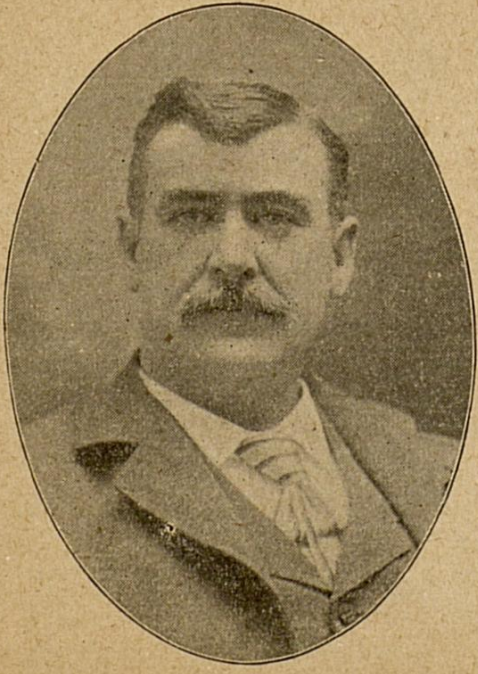

Railroad Commissioner

Of the First District of
The State of Kentucky

Subject to the Action of the Democratic Primary to be Held May 9th, 1903.

Your Support and Influence Will Be Appreciated.

[OVER]

47-M-64

DEAR SIR: To you who do not know me I wish to say that I have served my Legislative District in the House of Representatives, afterwards elected to the State Senate and RE-ELECTED; was appointed by Gov. Beckham as the trustee of A. & M. College in 1900, which position I hold for six years without pay.

This is the FIRST TIME IN MY LIFE that I ever aspired to be elected to an office with a good salary attached. One of my opponents will have drawn from the State Treasury \$16,000.00, besides all his necessary traveling expenses, and is now a candidate for the third term.

It has been the custom to endorse a man who has made an efficient officer; but I hold it to be UNDEMOCRATIC for any DEMOCRAT to aspire to a third term (where the term is 4 or more years) unless he can show that the State's interest would materially suffer unless he be continued in office.

Should you elect me I promise to give my untiring efforts to the faithful discharge of the duties of the office. May I not count you as one of my good friends who will help me? A word from you to some democratic friend will be highly appreciated.

J. K. Patterson, Ph.D., L.L.D.,
Lexington, Ky.

Dear Sir:-

In undertaking the preparation of an entirely new edition of Noah Webster's great work, "Webster's Dictionary," which we are to publish under the title of WEBSTER'S IMPERIAL DICTIONARY, to distinguish it from all of its "Webster" predecessors, including the "International," which it supersedes in point of time by fourteen years, we have invited the active assistance of all who are interested in the use of pure English and in the remarkable development of the language during the past few years, and we take pleasure in inviting your co-operation in an especial manner.

The importance and magnitude of the work in which we are engaged will be at once apparent to you. We desire to, and will, present to the reading public of America an entirely new, complete dictionary, lacking none of the useful features of the existing books, prepared from eleven to twenty years ago, and excelling them in the extent and arrangement of its vocabulary, also in many other desirable features. To this end we are carefully collecting and inserting in their proper places in the new dictionary as many as possible of the properly authenticated words that have recently come into the language, and it gives us pleasure to state that a surprising number of such words will be found defined in Webster's Imperial Dictionary.

We shall be exceedingly obliged if you will aid the work by sending us any new words or modifications of old ones, or any new uses or definitions of old words, which may have come to your notice recently. We shall cheerfully acknowledge such assistance in the pages of the work, which will soon be ready for publication.

May we ask you to extend this invitation also to the members of your faculty who are likely to be interested, especially to those whose original scientific or literary researches are incidentally enriching the English language by results that require special nomenclature.

Thanking you in advance for any aid you may render, which will be highly esteemed, and requesting the favor of a prompt response, I beg to remain,

Yours very truly,

G. W. Ogilvie

May 19, 1904

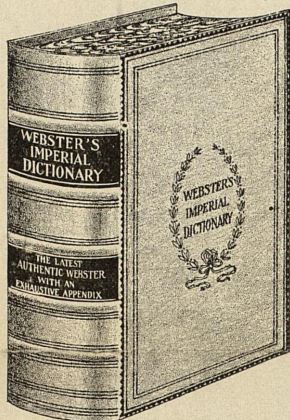

NEW FROM A TO Z :: RESET FROM NEW TYPE :: NEW PLATES :: THOUSANDS OF NEW WORDS

AN ENTIRELY NEW WEBSTER'S DICTIONARY THAT DEFINES MORE WORDS THAN ANY PREVIOUS WEBSTER'S. WEBSTER'S "INTERNATIONAL," ITS PREDECESSOR, IS NOW ABOUT 13 YEARS OLD, AND, AS A CONSEQUENCE, QUITE OUT OF DATE.

It is claimed by competent authorities that a Dictionary should be revised once every seven years. Nearly double that time has passed since Webster's "International" was copyrighted, so that the need for a new Webster, the **Greatest of ALL Dictionaries**, is not only apparent, but pressing. For over sixty years Webster's Dictionary has been published by one concern. New publishers have now taken charge of and issue Webster's "Imperial" Dictionary, the latest authorized revision of the genuine, authentic Webster. Webster's "Imperial" supersedes all previous Webster Dictionaries, under whatever name they are issued, such as Webster's "International," Webster's "Unabridged," etc.

INSIST ON HAVING WEBSTER'S IMPERIAL DICTIONARY IF YOU WANT THE LATEST AND BEST
IN THOSE WORDS, "WEBSTER'S IMPERIAL," LIES YOUR SAFETY

Webster's Imperial Dictionary

IS THE ONLY NEW COMPLETE DICTIONARY ISSUED IN 11 YEARS

The Best Practical Working Dictionary of the English Language, giving the Spelling, Pronunciation, Etymology and Definitions of Words, together with thousands of Illustrations. It contains also

A DICTIONARY OF GEOGRAPHY

GIVING SPELLING, PRONUNCIATION AND MOST-BOUGHT-FOR INFORMATION ABOUT 25,000 OR MORE PLACES IN THE FORM OF A "GAZETTEER OF THE WORLD."

A DICTIONARY OF AUTHORS

GIVING THE INTERESTING FACTS ABOUT THOUSANDS OF EMINENT PERSONS.

A DICTIONARY OF THE NOTED NAMES OF FICTION, MYTHOLOGY, LEGEND, ETC.

A MOST HELPFUL AID IN EXPLAINING THE ALLUSIONS CONSTANTLY FOUND IN CURRENT LITERATURE.

A DICTIONARY OF FOREIGN WORDS, PHRASES, ETC.

GIVING THE TRANSLATION OF A LARGE NUMBER OF THE FOREIGN EXPRESSIONS NOW IN USE.

A VOCABULARY OF SCRIPTURE, GREEK AND LATIN PROPER NAMES

GIVING THE SPELLING AND PRONUNCIATION OF THE NAMES SO OFTEN "GUESSED AT"—AND MISSED.

THIS IS THE ONLY "WEBSTER" in which common sense and discrimination have been shown by the editors in the use of capitals. In the Imperial all proper names begin with capitals and other words with small letters. It is strange that so important a feature should have been overlooked in other Webster's—but it was. This is but one of hundreds of illustrations of the thoroughness with which Webster's Imperial has been prepared.

2200 PAGES :: 3000 NEW ILLUSTRATIONS :: NEW COLORED PLATES

EXCELS IN VOCABULARY, which is the most useful in size and contents. It is judiciously selected to exclude corruptions of good usage, and to avoid unintelligible technicalities.

EXCELS IN ARRANGEMENT, giving words their correct alphabetical places. The book is entirely new from A to Z, it has no supplement, every word is in its alphabetical order. Each definition begins a paragraph and is readily caught by the eye.

EXCELS IN ETYMOLOGIES. These are complete and scientific, and embody the best results of philology. They are not scribbled or crowded into obscure places.

EXCELS IN SYNONYMS. A new and complete system, with comparative treatment showing the fine distinctions of usage.

Webster's IMPERIAL Dictionary

EXCELS IN PRONUNCIATION, which is indicated by diacritically marked letters, the sounds of which are taught in the public schools.

EXCELS IN DEFINITIONS. They are clear, terse, complete, and given in the order in which the word has acquired its shades of meaning. Thousands of the definitions are illustrated.

EXCELS IN ITS APPENDIX which is a packed storehouse of useful knowledge.

EXCELS AS A WORKING DICTIONARY. No other book embodies so much useful information, is so valuable and convenient for consultation, or so indispensable in the home, study, school or office.

WEBSTER'S IMPERIAL DICTIONARY—the Great Standard Authority for the English-Speaking World

BECAUSE WEBSTER'S is used as the standard by the Supreme Court of the United States and by nearly all of the Federal and State Courts, where justice often hangs on the meaning of a word.

BECAUSE WEBSTER'S is the standard in the U. S. Government Printing Office at Washington, and in the executive departments generally.

BECAUSE THE schoolbooks of the country are based upon Webster's—25,000,000 or more annually—so that the children are educated in accordance with its principles.

BECAUSE IN EVERY instance where State purchases have been made for the supply of public schools, Webster has been selected.

BECAUSE WEBSTER'S is heartily recommended by Presidents of Universities, Colleges and Seminaries, and by Superintendents of Schools, almost without number.

BECAUSE WEBSTER'S is warmly indorsed and commended by men and women of recognized authority in matters of literature and science, all over the world.

BECAUSE OF WEBSTER'S adoption by the English Government as the standard in the Postal Telegraph Department of the United Kingdom—the only department requiring an absolute standard.

BECAUSE WEBSTER'S sale in Canada and other English possessions is largely in excess of the sale of all other dictionaries of similar scope.

BECAUSE WEBSTER'S is used as the standard by a vast majority of the newspapers. Thousands of statements to this effect are on file with the publishers.

BECAUSE OF WEBSTER'S adoption by government institutions in Germany as the standard authority to be used in the study of the English language.

BECAUSE OF WEBSTER'S very general use on the continent of Europe, in Turkey, India, Australia, South Africa, China, Japan, etc.

BECAUSE WEBSTER'S has wider acceptance and is more generally adopted in actual use as a standard authority than any other lexicon in the world.

This edition is handsomely and substantially bound with the best material that can be selected for durability—full law sheep—with flexible back so as to open perfectly flat and be easy to handle. This Dictionary is so new that you have to look in only one place for a word, and that is in its alphabetical order. It is absolutely new, and has no supplement—because it needs none. The entire work is complete, unabridged and up-to-date in every particular.

IT WILL BE ISSUED IN JUNE, 1904, by GEO. W. OGILVIE, Publisher
181 MONROE STREET :: CHICAGO, ILL.

OLD AND SECOND-HAND BOOKS.

THE extensive experience of this Agency in the selection and purchase of rare old books and manuscripts is placed at the service of book-collectors in the United States. Book auctions are carefully watched and good knowledge kept of the stocks of the old booksellers of Europe. Lists of desiderata have the best attention, and in the selection of books the most careful comparison of copies is made.

Advance copies of auction catalogues, when they are printed in sufficient time for orders to be sent before the sale takes place, are supplied when desired.

Special attention is also paid to binding old books in the most appropriate manner by the best English and French binders.

Engravings, Drawings and Paintings, Philosophical Apparatus, Scientific Instruments, and all other wants of libraries receive due attention.

This being a strictly ready-money commission business, it is necessary that orders should be accompanied by funds, and that current accounts should be kept well covered.

Remittances to B. F. Stevens and Brown, 4, Trafalgar Square, Charing Cross, London, England, may be made in sterling by Bankers' drafts, or Post Office orders on London; or in American currency. For odd amounts send postage stamps.

The New York agents of B. F. Stevens and Brown are Messrs. Tice & Lynch, 45, William Street, who will supply copies of this list, and receive payments on their account.

*B. F. Stevens & Brown, 4, Trafalgar Square,
Charing Cross, London, England.*

EVERY READER HIS OWN IMPORTER OF
ENGLISH BOOKS AT ENGLISH PRICES.

B. F. STEVENS AND BROWN'S American Library and Literary Agency was established in London in 1864 for the supply of European books to Public Libraries and private collectors in the United States. The facilities and economies offered by this agency to book-buyers in America include:

Prompt execution of orders. All books are despatched by earliest mail or steamer.

NEW BOOKS are charged at trade prices, which are usually twenty-five per cent. off the price of publication.

OLD OR SECOND-HAND BOOKS are charged at lowest net prices.

Commission of ten per cent. on trade or net prices.

Book postage to America is only one halfpenny for every two ounces up to four pounds weight.

B. F. STEVENS AND BROWN make weekly consignments to their New York agents, thus affording a prompt and economical means of receiving parcels of books.

The packages are cleared and delivered in New York without trouble to the consignees, each package being charged with its proportion of the cost of freight, expenses, and clearance at the Custom House. Larger shipments are consigned as the buyer instructs.

Priced lists of current publications, with publishers' announcements and literary notices, are printed in the *Publishers' Circular*, issued weekly, and in the *Bookseller*, monthly. Special attention is paid to forwarding catalogues of English and Continental publishers and booksellers when desired.

Superior Library Binding can be done in half levant morocco in a few days, and costs considerably less than in the United States.

The United States duty of twenty-five per cent. is taxed on the net prices of English books printed within twenty years. All older books and books in languages other than English are duty free.

Public Libraries, Colleges, Academies, and other incorporated institutions are entitled to make all their importations free of duty.

THE ROYAL SOCIETIES CLUB WAS FOUNDED IN 1894.

THE PRESENT MEMBERSHIP NUMBERS 1,705.

ADDITIONS TO CLUB-HOUSE.

TO meet the requirements of the increasing large membership, extensive alterations and additions have recently been made to the premises in completion of the original plans, and the Club-house is now one of the most modern and refined in St. James's.

A total sum of about £30,000 has been expended upon the establishment of the Club.

The additional accommodation includes a large Salon, and a Cloak Room on the ground floor; an extensive General Lavatory with Bath, Locker, and Luggage Rooms on the lower ground floor; also additional Bed Rooms on the third floor.

The Kitchens and Service accommodation have been largely extended, and entirely remodelled to meet the requirements of the large attendances at Banquets and

other re-unions, obviating interruption on such occasions to the ordinary Service.

There is an excellent Cuisine at reasonable charges.

The accommodation also includes an excellent Billiard Room (with two tables), Card Room, Chess Room, and Conference Room, the latter available for Lectures or other Meetings.

BEDROOMS.

There are 21 Bed Rooms, available for the use of Members, seven Bath and Dressing Rooms, also a Passenger Lift.

A few of the Bed Rooms are available for permanent occupation.

GUESTS.

Members may entertain Guests, and the Rules of the Club also permit the introduction of Visitors for short periods, as Temporary Honorary Members.

THE LIBRARY.

A SPECIAL feature of the Club is the extensive Reference Library.

Members of the Club are invited to contribute copies of their published Works, Memoirs, Books of Reference, or other useful publications, Works of Art, Maps, Pictures, Engravings, and Artistic or other objects of general and permanent interest.

TERMS OF SUBSCRIPTION.

THERE is no Entrance Fee, and the rates of Annual Subscription for Members elected before the Membership reaches 2,000, are as follow :—

TOWN (20 miles radius)	6 GUINEAS.
COUNTRY	4 GUINEAS.
FOREIGN & COLONIAL	2 GUINEAS.

Annual Subscriptions date from the Quarter day preceding Election.

Upon Election every Member shall, in addition to the amount of his first Annual Subscription, pay a donation of One Guinea towards the Library Fund (Rule X).

The rates of Subscription payable by Members upon election are not subject to subsequent increase.

The members of the Club incur no liability beyond the amount of their Annual Subscription.

ELECTION OF MEMBERS.

THE ELECTION OF MEMBERS is by ballot of the Committee; which takes place on the first Wednesday in each month.

By order of the Committee.

April, 1903.

HUGH HARTING.

State College of Kentucky,

Jas. K. Patterson, Ph. D., LL. D., President.

Lexington, Ky., March 21, 1904.

To His Excellency,
J. C. W. Beckham,
Governor of Kentucky,
Frankfort, Ky.

My dear Sir:-

A report has come to me this morning that you will probably veto the Bill appropriating \$15,000 to liquidate existing indebtedness on the ground that it is unconstitutional. Assuming this report to have some foundation I beg to submit for your consideration the following:

The 1/2 cent tax for the benefit of the College was imposed in 1880. In 1892 an effort was made to repeal the tax at which time the question of its constitutionality was raised. After the adjournment of the Legislature of 1882 the constitutionality of the tax was brought into the Court of Appeals but was not decided until 1890 when its constitutionality was affirmed.

Constitutional recognition of this tax was incorporated in the new Constitution. Some members of the Convention urged that future Legislatures should be prohibited from increasing the tax without first submitting to a vote of the people the increase proposed.

This was accordingly done. The latter part of Sec. 184 reads as follows: "No sum shall be raised or collected for education other than in Common Schools until the question of taxation is submitted to the legal voters and the majority of the votes cast at said election shall be in favor of such taxation Provided the tax now imposed for educational purposes and for the endowment and maintenance of the

T. O. R. Beckman
In His Excellency's

Lexington, Ky. March 31, 1904

Lexington, Ky.,

Agricultural and Mechanical College shall remain until changed by law."

Granting then that the 1/2 cent tax cannot be increased by the Legislature without submitting the question of increase to the legal voters. But can the Legislature make no appropriations for buildings for the liquidating of indebtedness and for increase of revenue?

That it can do so the following analysis of the language quoted will I think show.

An Act to raise and collect money by taxation implies processes which in relation to the Act are necessarily future. They relate to potential revenue non-existent at the time of the passage of the Act. An appropriation on the other hand implies the existence of revenue already raised, already collected and transferred to the Treasury.

The one deals with potential revenue and provides means for transforming it into actual revenue, the other deals with the actual revenue existing and available.

In providing for such specific taxation the money is not yet in the Treasury but in the possession of taxpayers in every county and in every precinct of every county in the Commonwealth.

The appropriation of money on the other hand presupposes that the money appropriated has been raised, and collected and transferred to the Treasury where it remains subject to the disposition of the General Assembly. This distinction is clear, definite and unambiguous.

While the Constitution prohibits the former action in relation to the College until the conditions imposed by the Constitution have been complied with, it leaves the General Assembly free to provide for the exigencies of the Institution by appropriation.

Lexington, Ky.

A specific tax is forbidden until certain conditions are complied with, a specific appropriation is not forbidden. Any other interpretation would deprive the Colored Normal School of maintenance as well as the school for the education of the Blind and the school for the education of Deaf mutes. If an appropriation for the A. and M. College be unconstitutional equally sov~~m~~st appropriations for the maintenance of the Colored Normal School, the school for the education of the Blind and the school for education of Deaf mutes be unconstitutional.

If appropriations for the latter be constitutional equally so must appropriations for the former be constitutional. If the language quoted be prohibitive in the one case, it is prohibitive in the other.

If permissive in one case, it must be permissive in the other. They stand or fall together.

With much respect,

I have the honor to be

Your ob't servant,

[May 6, 1904]
