Prof Patterson

My dear Sir  
Your note in regard to my son's  
habits neglect of studies is  
just received. I am very sorry  
to hear so unfavorable news—  
~~at~~ Horace came to school he usually  
stood at the head of his class—  
and a while from an Congressman  
giving his standing, I find  
he out ranked your graduate  
Mr Layton from Ohio in the  
examination at E Town last Dec  
I send him the card which if he  
has not destroyed you can see.  
My son is very <sup>he</sup> has been sick and  
nervous—He has been as is now  
afflicted with Catarrh of the head  
which produces a very bad headache  
at times almost unendurable. My  
usual treatment in his case has  
been inhalations of Pine Tar Smoke.  
In a practice of 40 years I find  
nothing to equal it, perhaps he  
has neglected it. The etiquette of the  
profession is for one physician to

attend his brother Physicians family,  
without charge should your attending  
Physician refuse to see my son  
and take due notice of his case  
please inform me. Dr Wright of  
Bowling Green when my daughter  
was then at school would have  
nothing when I tendered him pay  
for his medical services. The late  
Dr Cummins of Louisville for whom  
my boy was named charged nothing  
for attending my first wife, when she  
was sick. I will write my son to  
be more diligent and enclose him  
your note; though I do not wish  
to have him driven into a state of  
neurasthenia by overstudy while  
his brain is affected by his cataract  
It might make him a nervous wreck  
for life, show this note to your  
Physician & faculty tell them to look into  
his case inform him if needs be  
give him a fair chance and if  
his health is restored I feel assured  
he will come to the front. I am  
most respectfully yours

D. C. Oman M.D.

I enclose check for my son

Dear Sir,--We would be pleased to receive a catalogue or prospectus of your institution giving the names of your pupils. We would also be glad to have you put a cross opposite the names of the most active and brightest young men with whom we may correspond with a view of getting them to act as a general agent in your institution to secure the services of other pupils to canvass for our books during vacation.

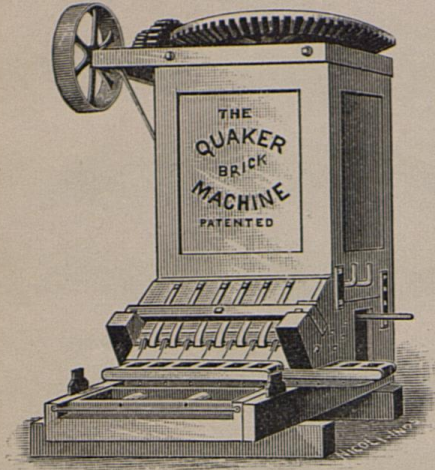

We have the reputation of publishing the most popular and rapid selling books in the country and we can place hundreds of young men in positions where they can make enough in two or three months to pay their next year's expenses at school.

If you have not as yet prepared a catalogue, will you not kindly send us a written list of such young men as you think would take hold of our work, marking names as suggested above, and thereby doing us a great favor and at the same time materially aiding them.

To Principal of High School

Dear Sir I write to ask you  
to do me the favor, to write  
me what is the most favorable  
terms that a young man of  
good moral and religious  
Character, thirsting and striving  
for an Education without  
means, can be taught in that  
School, & how much and what  
will be furnished him there  
free, if any thing. I am a  
Baptist Minister and have  
been 35-years, here in a very  
poor section of Country where  
there are no good Schools,  
and there is one Miles C. Camp  
who joined my church, and

Since his connection with the church, he prays and talks nobly in public, for a youth of so limited opportunities, his morals are noble, and he has exhausted every means that he could procure in trying to get an education, and is now only a tolerable Mathematician, and Grammarian, hope you will write me at once best terms on which he can have the advantage of school there. —

Dr. Patterson,

Dear Sir:-

The  
Catalogue of your school,  
which you kindly sent me,  
has just been received.  
Allow me to say that I  
am much pleased with its  
representations. In looking  
over the department of

Nat. History, I find that nothing is required which I have not taught.

Whether I could fill the position to the satisfaction of everybody, only a trial could tell, but I think I can, & I would like to have an opportunity to try.

My age is 24. The photo which I sent you was taken at graduation. I now usually wear a full beard, which, "they say," makes me look considerably older.

You have inquired as to my

religious connections & political affiliations. I am a Baptist and a Republican. Realizing

that it is unbecoming for one to elaborate at any length upon his qualifications or principles I have asked my Principal to address

you a letter mentioning a few of those points, so that you may know what is the opinion of one with whom I have been associated for 2 years.

Hoping to hear from

47-M-64

P.S. The boys say there is a balance due the College. please be so kind as to send me a statement and I will forward by return mail.

Pres Jas K. Patterson

My Dear Sir

I write you to say the boys are all at home and well. we are well pleased at the progress they made. the illness of Albert & Robbie of course made, greatly against them, but all things considered they did well. I wish I could send them two years longer but fear I cannot owing to reverses in business.

My political races have interfered with my practice some, but I am glad to know that my work as a legislator thus far has been a success

having been endorsed by the Democratic party of this County for reelection without opposition.

The present outlook is that <sup>majority</sup> my Aug over the Republicans will be flattering. Two gentlemen from this section, who opposed the College, will be left-at-home this time, Mr Ward of McClain and Mr Spalding of Union. The former was badly beaten, the latter seeing that he would be did not offer for reelection.

You doubtless have seen from the papers that Hon John Young Brown of Henderson is a candidate for Governor to succeed Geo Buskner, if you have no special preference for another I would be delighted to know that you would support Mr Brown, I would certainly take it as a great favor and remember it with gratitude. You may rest assured

the College will be in safe hands with that gentleman in the gubernatorial chair Mr Brown would take pleasure in delivering the Annual address to the College, <sup>next year.</sup> and I know of no man in the State more competent. for he certainly is a splendid orator

Allow us to congratulate you & Mrs Patterson upon the success of your son William as a student, nothing on earth is more gratifying to a Parent than for a child to reflect honor upon them, say to him for us that with diligence he can fill the full measure of his manhood but he must not forget he must "learn to labor & to wait" resting assured that if the labor be genuine and the waiting be that of patience the reward will be abundant. My wife and the boys join me in kind regards to your self & family Very Truly

Dear Sir,

I trust

you will excuse me for asking a small portion of your time in consideration of this letter, which I have <sup>been</sup> prompted to write in hopes that I <sup>might</sup> obtain your interest in my behalf, at least, if not directly indirectly. Owing to financial embarrassments of my father, I was compelled to leave school several years since; but with the hopes that that I soon could enter again, my father is still laboring under difficulties which will prevent him from giving me the necessary aid. If I continue in school longer

I will do so mostly on my resources  
I wish to continue in school two years  
longer. I do not wish to take a complete  
course, but make a speciality of several  
branches, which owing to there having been  
no arrangements <sup>made</sup> for teaching them in the  
Y-Collge I will have to look elsewhere  
for - I would like to come to Lexington  
if I can make the financial arrangements  
Is there a Tutorship vacant that  
you could let me have to help  
along with the financial matters  
You have some idea of my qualifi-  
cations and can judge whether I  
would suit or not,

If conveniently situated would you  
be willing to board me and allow me  
to pay half each year, and wait with  
me awhile for the balance, if I could  
get a situation I might be able to  
pay up in full each year, Please  
let me hear from you at your earliest con-  
venience, Give my regards to ladies, Respectfully, M. A. East

My dear Sir/-

It is a very difficult matter for me to write a testimonial in favor of your son - not from the slightest hesitation in knowing his real worth - but that I am not able to express in words the great obligations I am under to him in the creation of this School.

Your son came to the work here in the autumn of 1891, finding the School in a very disorganized state, and mainly through his untiring exertions, Scholarship and tact, the school has been raised to a high state of efficiency, the number of its scholars largely increased, and still increasing each term. It would be almost an impertinence in me to speak of your son's great gift in teaching Mathematics, but I am assured by those competent to form an opinion that he has proved himself to be a very successful and painstaking master in this subject as well as in mechanics and parts of physics.

In addition to his full hours of work in school he has devoted his time to developing the growth of the school by systematic arrangement of the work, and examinations, making out the great variety of time-tables, &c.. Your son's power of work, energy, ability to organize and plan, his perseverance in carrying out the numerous details connected with the school are household words here. Let me add that our personal relations have been always of the happiest character, and his loyalty to myself has never wavered, and has been simply invaluable in the many anxieties necessarily associated with the creation of a school of this character. I can quite understand your wish to have your son in Canada, at the same time I have always hoped that, when the school increased to the numbers I anticipate, your son's position here would be so good a one that he could not be tempted away: at my age I cannot hope to continue my present grind beyond a few years.

Dear Sir :-

In speaking to you the last time you were here, I made mention to you in regard to a Son of mine that I intended to send to the A. M. College at Lexington, Ky. I sent him about 10 days ago and expect to give him a thorough education. The boy was never away from home before in his life and he was very blue for the first 4 or 5 days, but has since become reconciled to his lot and is now apparently well pleased. Will you please kindly write Mr. James K. Patterson, the President, asking him as a personal favor, to see that the Boy is kept to his studies and to see that he gets along. He is very studious and a boy of very good habits, but being an entire stranger, of course he was somewhat timid and was placed in the preparatory department, and he writes me, that he thinks he should have been further advanced; but from his last letter, he seems to be getting along nicely and thinks he will advance very fast. Please kindly write and do me this favor, for I feel as though I would most cheerfully render you a like favor, were our positions reversed. With kindest regards, I remain,

Dear Sir:

I received a letter from Mr. Roach yesterday stating that I was supposed to be guilty of stealing a watch and the other ~~things~~ things that Mr. Rice did not get. I acknowledge that I took a few things that did not amount to much. President I will ask you to pay for everything except the watch and send the bill into me and I will pay so much on each month until I have it payed but I can not pay for the watch for I did not get it and am not able to pay for it

Lexington, Ky, 10-29, '98  
Mr. & Mrs. Schider:

Your son  
has told me of the  
letter Pres. Patterson wrote  
to you, and of the one  
you have written to him  
in regard to it.

Now, Edgar is my  
roommate and best friend,  
and I merely wish to  
say that what our very  
honorable president has  
written to you is a  
misrepresentation of the  
facts, and you ought  
not to put any dependence  
on what he said. In that

particular letter.  
I know Edgar has four  
studies, and if he has  
not come up to the  
mark of perfection, it  
is not his fault.

He and I have both  
been sick a great  
part of the time, and  
your son was not  
able to get out of bed  
for three days at one  
time. Now, you know  
he could not attain  
the highest grade in  
his studies, as he  
lost one entire week  
while he was at home,  
and has been sick  
a great deal besides.  
He has not failed

because of "a tendency  
to neglect his duty."

You will perhaps  
wonder why I write  
this letter, and will  
no doubt think I am  
quite fresh, but Edgar  
is my friend, and  
I don't like to see  
him misrepresented.  
He is very much  
distressed to think that  
such things should be  
written to you about  
him.

Dear Sir - I received J. P. Millus report a few days ago. And was much pleased with his standing in his classes. I have never had however much fear that he would not try to do his duty. he is made of pretty good material, and has always appeared to be conscientious. Like most boys tho - he gets tired of school life, and it is difficult to make them know that it is for their ultimate good that they should brace themselves up to what they undergo in obtaining an education.

He is quite anxious to go Annapolis to take a Naval Course, and has importuned quite often of late to try and procure an appointment for him. What do you think of it? These appointments are very difficult to procure - and our present

And as Mr Bogard did not go back and also said he did not intend to go back in the future, I appointed Mr Jones of Trigg Co in his place, telling him at the time that he would get all the advantage that the catalogue of said school, named Mr Jones's guardian, Mr Alfred Thomas, who is one of the most influential men of Trigg Co is very anxious that Mr Jones gets all the advantages of the school possible as he is an orphan with only limited funds. [Feb. 19, 1900]

Mr. President and Gentlemen of the Faculty:

Your servant was an unwilling witness the other day (the 15<sup>th</sup> inst.) of a distressing scene in which an honored member of your body was compelled to band words with a certain student who was charged with having on several occasions disturbed the quiet and compromised the dignity of our Professor. When his guilt had been proven or demonstrated to the student he repeatedly refused to admit the offense until forced to do so by the fear that other of his friends might be implicated in disclosures which were about to be made. The student at last made a confession of his guilt in order to vindicate his friends, but refused to apologize for the offense. Thereupon the Professor proceeded to administer the needed reprimand which, though severe, was just according to the Professor's rights as also my own, but which was not taken with good grace by the student.

Our Professor's argument was that the offense was that of a naughty child and had been concealed like a child would, and that the student had thus acted a coward in so concealing it, and indeed, at no time had showed himself to have any conception of a man's behaviour.

This, I warrant, was hard to endure; but it was true, and the student had drawn it down upon himself.

The student defended himself against these charges, and asserted that in his opinion the Professor had even as little conception of the manly instincts. Nothing more was said in my hearing.

This last statement of the student I regarded as untrue, disrespectful, and as a defiance of the authority of the Professor. Our beloved Professor has sometimes through overzealousness in behalf of the State College, and his intense interest in the welfare of his classes waxed wroth at certain of his humble servants; but so far as I have known him, this is his only fault (if fault it be) and he has shown most admirable qualities. Indeed I have thought that a life of too rigid virtue and hard study would account for some occasional eccentricities with which he has from time to time been charged.

If the dignity of the Faculty is to be upheld, and the honor of one of its most brilliant members is to be protected, it is necessary that proceedings be instituted against all who would compromise that dignity or assail that honor; and I move that all who defy the authority of and withhold the respect due an honorable member of this Faculty, be asked to withdraw their names from the College Rolls.

Respectfully submitted,

President James, K, Patterson  
Lexington Ky,

Dear Sir: My son, who has become very much interested in The State College, has been at Lexington for the past week reviewing some of his studies that he failed to pass in, owing to the fact that he entered college in the middle of the term, and for that reason has labored <sup>under</sup> at a very great disadvantage during the ballance of the term. He seems very much perplexed to know the outcome of the system of drawing for rooms under the bill passed by the last legislature. I can well see how a literal compliance with the terms of this bill might work great evil. It would be absolutely criminal to permit a young boy of refinement to be placed in a room with an older one with rough, coarse, and vulgar habits. Ofcourse you will comply with the law in this matter, at least in form. But it seems to me that any scheme would be proper that would comply with the statute, and at the same time avoid the evils that would necessarily arise from a literal compliance with the law. I think this whole matter should have been left to the wise discretion of the President. In which event, I am

To The President and Professors

Constituting The Faculty of Kentucky State College:-  
Lexington, Kentucky.

My Dear Sirs:-

Since my visit on yesterday on behalf on my son Trimble and after my return home, I believe it my duty to address you this communication.

During the career of my son, who seems to have been dismissed from your institution to make an example of, he has been peculiarly unfortunate; in the loss of his mother who, died when he was only three years of age and since then by escaping, twice from being drowned, broken limbs, and it seems to me, a hundred other misfortunes unusual to the ordinary boy. Since he has been connected with your College, he had his hand badly cut by a saw on your shop, and while I know most of his troubles have been mostly his own fault, I feel now that if he is to remain humiliated by being dismissed from School, that his life may become wrecked for all time. I feel, as if you looked at this matter in the light, that if for three months his father could not open his mouth or say a word on behalf of his son, he perhaps is unworthy of being a member of so honored an Institution as the one you represent, and want to say, that the first intimation I had of my son's disgrace, was when he came home on Tuesday night, and threw himself at my feet, CRUSHED in feelings and for almost an hour I was unable by reason of his cries and sobs to hear /

from him what was the matter, and when at last he did tell me, he said I know I did wrong, but no one knows how I have been made to suffer by reason of my acts. He said, it is no use for you to make an appeal to them, I am out and ruined forever.

If Trimble were a bad boy and had given you serious trouble before, I would not ask that he be restored, but after I hear from him and Prof. White, I have ~~to~~ ~~the~~ the case told practically as if told by one and the same person, and while I know he did wrong, and he says so, and is willing to make any apology which could be asked, I do not think it is such an offense as demands such action as is calculated to destroy a boys future, and believe such a thing as forgiveness should ~~be~~ not be overlooked by you in such a case. I know you must look after the welfare of the College, and this you should do, and I am the last one to say you should not, but you must not lose sight of the fact that your action in this case is calculated to blight the life of a boy who has by accident been the victim of circumstances, and, possibly one of many who have been guilty of the same or worse conduct but not caught up with.

I have been greatly mortified about this, and much more than I might have been had I have had any notice of it till it came as it did like a clap of thunder from a clear sky.

I tried to make diligent inquiry as to the conduct of my son, and am glad to say I could hear nothing to his discredit, save this one thing, and every one I saw seemed to be imbued with the

hope that he would be speedily restored to his place in the College, which I hope you will be able, consistent with good rules and morals to do. I know it might look inconsistent for the faculty to revoke an order or change its ruling, and while I feel what I say in my feeble way may have but little bearing, still I wish to add, that I have the greatest respect for one and all of you and my son joins me in this, and whatever ~~may~~ ~~be~~ your action on this matter may be, I shall feel assured, that it comes from a body of men who want to do the right thing for the Great Institution they represent and am glad to have heard from the lips of some, that they have none but the kindest of feelings for my son and only want to do that which is best for the College; and, if at last my son has to bear the burden, I shall try to support him in carrying it the best a parent knows how.

Let me suggest, that when you took the action you had not heard all the case, and that I as his father had had no notice of or chance to be heard, and history presents the case of the <sup>h</sup>ighest courts in our State and Nation reversing their decisions in a single week, and to my mind the highest evidence of a man's honesty and integrity is to change if he is convinced it is right to do so.

I can but beg your pardon for this rambling communication, but my great love for my son prompts me to do any thing honorable to aid or relieve him in his hour of great distress.

I am my dear sirs, yours very respectfully, *H. Clay Mc Kee*

Dear President,

It not being my fortune to return to State College this year, I desire to express to you my appreciation of the instruction I received while there, and the strong attachment which I have for all connected with the institution.

I much regret that I could not finish here before going to another school.

As to my present situation, I am well pleased with my surroundings and have been able to get about exactly the course I desire. The authorities were quite willing to give me credit for all the work that I had done at Lexington, and in general treated

my credentials with the utmost consid-  
-eration.

In my preparation in science I find my-  
-self at no disadvantage as compared with the  
students who have prepared here, and have  
had no trouble in entering the advanced classes  
in agriculture and horticulture in which such  
previous training is required.

Trusting that your interest in all

institution over which you preside, I am,

Yours very respectfully,

January 19th, 1901.

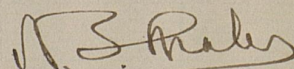

My dear President Patterson,-

Mr. C. B. Norwood, long my associate in the Kentucky Survey and my valued friend, asks me to bring again my recommendation of him to your attention.

Norwood is an able man, of attainments peculiarly well suited to the place he seeks, that of Professor of Mining Engineering in your School, and possibly at the same time Inspector of Mines for the Commonwealth. In fact I do not think there is a man in this Country who is as well fitted for the task as he is. I have not seen him for near ~~two~~ years. I have, however, corresponded from time to time with him, and believe he retains the beautiful steadfast quality which greatly endeared him to me. It is perhaps well to remember that he is about the nearest living kinsman of Daniel Boone, and that his folk have been identified with Kentucky from an early day. Should Mr. Norwood take the position I shall be very glad to help him in any way I can. I am still concerned with iron mines in Eastern Kentucky, in which project I became interested some years after leaving the Survey in order to help the estate of my old friend Colonel Preston.

With best wishes believe me,

Yours very truly,

President James G. Patterson,  
State College, Lexington, Ky.

Dear Sir:-

My son W. Albert Kingman, I am told by Long distant Telephone with drew his fees and left school. This was without my knowledge, nor can I understand why he did so. He has never disobeyed us, or given us one trouble before in his life. We surmise it is mortification over failure to pass an examination perhaps, is such a fact?

Any information as to his where abouts, his cause for leaving school and his conduct while there, would be of assistance to us, at this terrible hour. I am to receive a Telegram to-night from Mr. Muncie, but if you will kindly write me details it will be appreciated. His room mates may enlighten you as to cause, and where he is.

Very Truly,

*C. B. Kingman*

At a meeting of the Faculty of the Department of Mechanical and Electrical Engineering, held Feb. 19th, 1901, it was recommended that you be informed that Mr. D. D. Pres. Jas. H. Patterson,  
State College of Kentucky,

Dear Sir,

Since returning home I have had a long talk with Virgil, & he seems to have a distaste for study. This is a great disappointment to me. I have been very anxious for him to take an education, but I despair of doing so. The only thing that remains for me is to put him to work. This I propose to do. So I will ask you to give him an honorable dismissal, if he is worthy of one.

Thanking you for your interest in him & for your kindness to me.

I am yours,

Very truly,

Dear Sir:

It is with sincere regret that I find it necessary to write you in regard to my boy who has been attending the State College for two years.

I refer to E. Raud and the differences between him and Major Carpenter.

These things I deplore exceedingly and I wish to ask your influence that the matter may be considered with leniency toward Ed, for, while he may not be entirely exempt from blame, I believe that he was provoked

to resentment by repeated injustices on the part of the major, who, if what I hear of him be true, is an unjust man and unreasonable in his demands.

If you have a boy of your own you know that I do not want my boy sent home or suspended, nor do I want him humiliated for the pleasure of the man who has threatened to "get him fired from school if he should get an opportunity."

I feel sure, sir, that you understand my feelings and my position as well as my boys and will do what you can for him.

I am most respectfully yours

For some time past  
Mrs. Learmonth whom you doubtless

of your visit here on Jan'y 25<sup>th</sup> last  
has been after me to write you a  
letter and ask your special

desired is a military promotion  
I endeavored to explain to Mrs.  
Learmonth that certainly young

advancement and that without  
any other influence being  
exerted. I assured her that  
though I greatly esteemed  
my acquaintance with you  
it would be very foolish for  
me to write on such a subject  
to you. However she felt entirely  
different and finally I consented  
to write and you will understand  
the circumstances that cause  
this letter. I understand Murtelle

I notice in your catalogue sent me that you say in one place positively there is no provision made for young ladies <sup>at dormitory</sup> and in same catalogue, but in a different place, that the young ladies dormitory would be ready by beginning of school. I have been talking with one or two of your late students, (by the way they aim to come back this next session) and they say there is not no place for young ladies; now as there are various ideas as to this, please give me light on it at once. How much will board cost at dormitory, if it is ready? How " " " " " nice private boarding houses?

Several new students await these replies. We aim to send you 10 students or scholars from this County this fall.

Sir:

I received a letter from my Father today, and enclosed was a letter from you to him stating that I had come back to Lexington with the intention of matriculating at State College. And the reason why I did not was, that I would be confronted by an examination. Now this is absolutely untrue, I did have some intention of entering State when I came back, but finally decided to take a law course and knowing that I could not

You also made a  
false statement - when you  
said that - I left - the  
College earlier than my  
leave of absence called for

left - Lexington May 28<sup>th</sup>

My Dear Sir:- I have your favor of the 4th inst. Also the catalogue of your school, for which I thank you very much. I have always been an advocate of Our State College, and the possibility of making it the equal, if not superior to any school of the same scope in The United States. After the death of General Hobson, who has been my life-long friend, I remarked to my brother C. C. McChord that I felt that I might be of some advantage to your school should I be named as The General's successor. I confess that I have a personal interest in the success of your school, as I have four boys who will soon be looking after a college education. My brother, who always espouses my interests as his own, informed me that he addressed you a letter suggesting my name, and received from you a very kind, and satisfactory letter saying that you would take pleasure in nominating me before the remaining trustees as the General's successor, for which I am very greatly obliged to you. I will not ask any of the trustees to vote for me, believing that the naming of the trustee should come through you. I will leave the entire matter with you to be dealt with as you may deem best. I will say however, that Governor Beckham will name me at the next meeting of the legislature. for the place. It might be best for you to have your trustees act, and let my nomination by Gov Beckham follow a request from you to name me. After my son left your school he went to Nashville, and perfected himself in Telephone work, and now has the management of an office. With kind regards, I am

Dear Professor:

During the several days since the  
promotions were read, I have absented myself  
from the military exercises, pending a  
decision by the committee of which you  
are the chairman. This absence caused  
me some trouble today, as it seems  
that I am expected to squad-drill for  
it. In order that there may be a  
definite understanding as to my  
exact status, and in order to avoid  
further trouble, I wish you would  
call a meeting of your committee  
tomorrow (Tuesday), if it will be  
convenient. I think there has  
been a very gross injustice unintentionally  
done me, and I depend on you to  
do what can be done to correct it.  
Prof. James S. White tells me that he is  
willing to appear before this committee  
and explain how it happened that  
I was over-worked in the promotions.  
You know that my name failed to  
appear in the Roster, because I had

been excused from duty by Dr. Pryn  
and Maj. Conquest. I took the proper  
precautions to prevent my name's being  
over-looked on this account, by getting  
Prof. Weville to prepare a statement  
addressed to the Committee on  
promotions setting forth the facts  
in the case. Prof. White received  
this paper from Prof. Weville but  
misplaced it, and forgot all  
about it; and thus my name failed  
to reach even the attention of  
the committee. My claims were  
not even considered. Prof. White  
feels that he is in a measure  
responsible for this, and owes  
it to me to appear before your  
Committee with those facts, will  
you please notify him of the time  
of your meeting? The other facts  
you have in my other letter. Thanking  
you for the courtesies I have already  
received, I am,  
yours respectfully,

Dear President:

Some of my friends  
have been writing me about <sup>my</sup> applying for  
the position in Georgetown College, Ky. Prof.  
of Chemistry and Biology. I am told that  
the salary is \$1500 and in this way it  
would be a promotion for me.

If you will write Dr. B. D. Gray <sup>the President</sup> <sub>for a personal</sub>  
letter, telling him what you know of  
me and my work, I shall be very glad.

While in college you will remember  
that I was tutor for your brother and  
also for Prof. J. S. White. You saw  
something of my work at Williamsburg, Ky.  
Judging from their catalogue I am

giving more more advanced work in  
all the Science Studies than is offered  
there. I have been here now more  
five years and I have made a success  
of my work, and my department;

There is no trouble about my staying  
as long as I desire, however, I  
have a family to support and the  
better pay is quite an incentive to  
me to seek the Georgetown position.

I have written you thus at length that  
you might fully understand the situation.

Thanking you again for the many  
kind favors, for whatever I may be able  
to accomplish, I shall always feel that it  
is largely due to the help and inspiration  
that I received from my "alma mater!"

Dear Dr. Patterson:

We came over here yesterday because the doctor said I should get my little girl away from Washington. She has had a very severe attack of scarlet fever and requires quite a good bit of care and nursing. I am sorry I can't see you but can't we arrange this anyway.

I am really very anxious to come there. I believe I can do all you require and I know, or at least I feel sure, we could avoid all that trouble I see you have had. I have had some experience teaching for I was assistant instructor at the

Artillery School at Fort Monroe, Va.  
for two or three years. Of course  
the students there were all enlisted  
men but I believe I can get  
along with the young men in your  
school and I have been more  
anxious than ever since I saw  
that piece in the newspapers about  
the little trouble you had. As for  
my health I know I can stand  
the work. I am a little lame but  
I can get around anywhere with a  
cane, and can go quite a little  
without a cane. I don't want you  
to think I am a braggart but I  
have plenty of confidence in my  
ability to do this work. I would  
come to see you but I really  
can't afford it for I have had  
a very heavy expense the last winter.

I had one little girl die after  
several weeks illness of scarlet  
fever and my other little girl has  
been ill for weeks but will be  
alright in a short time now.

Dear Sir: Your answer to my letter of inquiry received last week and the Catalogue you so kindly sent. I have seen Mr. Allen, our county superintendent, and told him my son would take the examination, as he said the appointment was by the examination entirely.

My son has just completed the public school course and during his entire attendance never made a lower yearly grade than 96. Since I have been thinking of and investigating the State College I have heard on all sides the finest reports of its work, especially of the department in which we are most interested, viz, engineering.

I expect to hear more from our city superintendent, Mr. McHenry Brooks who has just returned from Lexington and who is interested in Sam as he is one of the High School graduates.
