ABOUT THE LIBRARIES

Move of Departments Postponed

The move of departments in the King buildings will be delayed and will not take place this summer. The creation of an LC collection area and Dewey collection compaction will be scheduled during this summer. It will probably occur after the summer session ends, but before the fall semester starts.

Catalog Report on Reserve

We have recently received a copy of FUTURE OF THE CATALOGS: THE GENERAL LIBRARY (A Status Report and a Basis for Planning) from the University of California at Berkeley. This report has been put on reserve in Mr. Willis' name for those who are interested.

CRL PROGRAMS

The Council on Library Resources will be offering the following three programs during the 1979-1980 academic year:

The Fellowship Program is open to mid-career librarians. The research projects will be designed to improve knowledge of essential matters affecting librarianship.

The Academic Library Management Intern Program is formulated to develop managers for large research and academic libraries. Each intern will work with the director and top level administrative staff of a large academic library. Applicants must have at least five years professional experience by September, 1979.

The Health Sciences Library Management Intern Program is intended to provide the same type of work experience as the academic library management program, and the requirements are similar.

A leaflet describing the programs in more detail is available in the Director's Office. For additional information contact Council on Library Resources, Inc., One Dupont Circle, Suite 620, Washington, D.C. 20036.

ETA GRANTS AVAILABLE

The Employment and Training Administration has grants available to people doing dissertation work on problems and issues affecting employment and training today. For further information, please see Faith Harders.
