FOREWORD

This bulletin presents a complete listing of the elementary schools of the Commonwealth for 1962-63. In addition to the list of schools of eight or more teachers and their classifications, the elementary schools with less than eight teachers are listed.

I note with a great deal of pride, the improvements being made in the area of elementary education. I want to express my sincere appreciation to all those who through their dedicated services are helping to bring about this improvement from the classroom teacher to the staff in the Department of Education and the Commission on Elementary Schools of the Kentucky Association of Colleges, Secondary and Elementary Schools.

ELEMENTARY SCHOOLS FOR THE SCHOOL-YEAR 1962-63

There were 947 elementary schools accredited by the State Board of Education during the school year 1962-63. Of this number 593 were under the control of the county school districts and 236 were under the control of the independent districts. Fourteen were State, Federal, or Regional schools and 104 were private schools. As will be seen, there was a variety of organizations according to the grades included in the type of organization. By far, the greatest number of the organizations conform to a 1-8 type of organization or a 1-6 organization. Of these 552 were organizations offering a program from one through the eighth grade and 289 offered a program from one to six grades or a total of 841 schools out of the 947.

Table I below shows the number of accredited elementary schools classified according to the type of control for three years from 1959-63.

Table II gives the number of schools according to the type of the elementary school organization and the control under which the school is operated.

In all of the elementary schools there was a total staff of 16,883 teachers, supervisors, principals, and other special instructional personnel serving during the school year of 1962-63. Of this number 15,138 or nearly 90 per cent were serving in the schools of eight or more teachers or schools accredited by the State Board of Education. There is indication that the professional staff is growing not only in quantity but in quality as well. During the school year of 1962-63, nearly 79 per cent of the total staff had a quality of training of a Bachelor's Degree plus, 13.9 semester hours. This was an increase of 7.3 per cent over the previous year and over 22 per cent in four years from 1959-60 to 1962-63.

Table IV below gives the median prepared of all elementary school personnel for a fifteen-year period from 1948-63.

The trend in the development of the elementary schools throughout the state is towards the larger elementary school unit in order to make it practical to offer an effective program of education.

Table V following shows the number of elementary schools accredited for the school year of 1962-63 compared with the school year of 1959-60, classified according to size.
