Antiwar activities contradict 'cooling' theme

EDITOR'S NOTE: This is the second of a three-part series examining the antiwar movement both nationally and locally.

By IERRY W. LEWIS

By JERRY W. LEWIS
Editorial Page Editor
The cover of February's Time
magazine reflects a theme which
the mass media has been expressing to the public over the
last month. The cover title—
"The Cooling of America."
The headlines of the stories

The headlines of the stories inside Time further explain the new theme: "The Radicals: Time Out to Retrench," "The Students: All Quiet on the Campus front.

One story reads, "The radical One story reads, "The radical groups are largely splintered or defunct, their leadership out of school or underground. Most campus papers that were once mouthpieces for the movement have reverted to more dispas-

onate journalism."

The idea of a new quietness The idea of a new queeness in the student movement seems to have come about when the invasion of Laos failed to turn out massive student demonstra-tions such as the Cambodian invasion caused last May. Be-cause a national student strike failed to develop, and as Time stated, because there has been a stated, because there has been a "slight shift from acid rock to soft ballads of Gordon Light-foot and James Taylor," the mass media has sent out an im-pression of the beginning of the nd of student activism against the Indochina war

Outside reflection

The accuracy of this predic-tion, however, is only as accurate as news reporters can be when looking only at the out-

side reflection of the movement In reality, it seems that the movement. In reality, it seems that the movement throughout the United States, while it has made several changes, had its trigger cocked by the Laos invasion.

cocked by the Laos invasion.

Actually, although few people heard very much about it through their daily newspapers or news broadcasts, a large number of students did respond to the Laos invasion even with the news blackout and the cold weather.

In Berkeley, 1,500 demonstra-tors clashed with police in the campus of the University of California. Over 1,000 protest-ers occupied the social science building for seven hours at the University of Wisconsin. There was a rally of 4,000 in Boston, and 3,000 persons rallied in Times Square. marching to the Times Square, marching to the

offices of the National Broad-casting Co. to protest the news

No student massacres

No student massacres
The list continues, including
the University of Washington,
University of Michigan, several
Ohio campusess, Stanford, and
others. It seems, however, because no student massacres occurred similar to Kent State, the
profests represented a "cooling". protests represented a "cooling

Also representing anything but a "cooling off," two recent antiwar conferences, the Ann Arbor Youth Conference and the SMC National Conference, both laid plans for active spring demonstrations throughout the na-tion. Of course, there was no major news coverage of these conferences in the national

by organization leadership often do not portray a total look at the feelings of a large portion of the counter-culture, of which of the counter-culture, or which many youth have been "work-ing things out" in small collec-tives or communes. In Washington, a staff mem-ber of the D.C. Switchboard, a

"movement information bureau

"movement information bureau," explained the mood that he had felt around Washington with the Laos invasion.

Just as much anger
"There was just as much anger as at the Cambodian invasion," he stated, "but there were many more feelings of helplessness of what to do."
"But now everybody is looking to May Day," he said, picking up a ringing telephone,

This fellow seemed determined that he had found the best strategy to "change the world" and his back-pack billboard attracted the at-tention of everyone entering or exiting the Student Mobilization Committee's National Conference. The conference, held at Catholic University in Washington, D.C., mapped out spring anti-war action.
While there were several "strategies" proposed at the conference,
April 24 was the date set for a massive Washington anti-war protest.

UK professor submits proposal for House reapportionment

Kernel Staff Writer

A UK professor of political science has submitted a state reapportionment plan to the House of Representatives which he feels will satisfy the courts and at the same time cause only minimal damage to present

ounty lines. Dr. Malcolm Jewell sent his

Dr. Malcolm Jewell sent his proposal last week to the chairman of the interim House sub-committee on reapportionment. Although Jewell is modest about the proposal, referring to it as a mere "suggestion," there is a good chance that his plan will be seriously considered for adoption by the special legislative session which will tackle the reapportionment question

tive session which will tackle the reapportionment question later this week.

Jewell is experienced

For one thing, Jewell is ex-perienced in dealing with the reapportionment problem. Eight years ago, while working with former governor Bert Combs' special Commission on Reappor-tionment, Lewell dewen, the tionment, Jewell drew up the plans which largely determined Senate district lines as they exist today.

Jewell's plan differs from ear-lier proposals by the Legislative

Research Commission because it tends to preserve the county as a major unit for legislative decision-making.

According to Jewell, all but According to Jewell, all but one of the proposals by the LRC staff have depended largely on the splitting of counties to eliminate the large variations in the populations of now-existing legislative districts. Preserving the county boun-daries as they presently exist is.

daries as they presently exist is, Jewell feels, important to the legislative process in several

ways.

In a letter to the same House committee to which he submitted his proposal, Jewell voiced this belief.

voiced this belief.
"The strongest argument for
maintaining county boundaries
whenever possible," he wrote,
"is that counties are salient for
state legislative decision-making... Some legislation is primarily local in its impact. Countiefficials most the contact as marily local in its impact. Coun-try officials need to contact a legislator representing a specific county to explain needs for leg-islation ... Moreover (and very important), voters are more likely to recognize their legisla-tor if he represents a political subdivision familiar to them."

But satisfying the voter is

only one factor which legislators must consider in attempting re apportionment emphasizing population equality. A newly adopted plan will be subject to

adopted plan will be subject to judicial scrutiny as well.

It was the courts which first clamored for reapportionment at the urging of citizens who felt that present legislative boundaries deprived them of equal representation at both the state and national levels.

The Supreme Court has been especially concerned with reapportionment "discrimination"

"discrimination ce the early 1960's.

The court has ruled that both The court has ruled that both houses of state legislature should be apportioned as nearly as possible on the basis of equa population. At the same time as Dr. Jewell points out, it hanever rejected strong arguments for myinthing asserts home. daries in cases where major pri-ority is given to population

The Jewell plan would split 12 counties in an attempt to reach a near-equal number of voters in each legislative district. Counties which would be affected would include Hopkins, Daviess, Hardin, Madison, Fayette, Boyd, Floyd, Christian, Harlan, Monroe, Casey, and

The end result of splitting these counties would be the creation of nine legislative districts that vary from "ideal size" by no more than 10 percent, while all other legislative districts Continued on Page 8, Col. 2

Forum considers open house rules

By JACK CARPENTER

By JACK CARPENTER
Kernel Staff Writer

"The University has no right to make moral judgments on students," was an opening statement made by UK student Jeff Lankford during the open housing forum last night at the Complex Commons. It appeared to sum up the opinion of the group of approximately 50 people who attended the meeting. Also speaking were Dean of Students Jack Hall and Student Government vice-president Skip Althoff.

In its present form, the open house policy says that open houses may be planned for periods of up to three hours on Saturday

says that open houses may be planned tor periods of up to three hours on Saturday or Sunday between the hours of 1 p.m. and 8 p.m. The dorm must fill out a re-quest form to be received by the Residence Halls Programming office no later than Wednesday of the week the open house is planned. Requests for open houses at other

times are considered on an individual basis. They must be made one week in advance, and are considered only after discussing with Dean Rosemary Pond the conditions under which the open house will be held.

The request form stipulates that the residence head resident must certify that arrangements have been made to insure that at least one staff representative or one residence hall government representative will be present on each corridor during the time of the open house. The dorm president is also responsible for seeing that the hall is clean prior to the open house and "that every effort will be made to assure orderly and acceptable conduct."

Giving reasons why the present University policy on open housing should be abol-

sity policy on open housing should be abol-ished Lankford stated, "The Board of Trus-tees gave students more power in the Senate but not the right to decide how

present policy on open housing. I feel that if people are ready to take reasonable steps, if people are ready to take reasonable steps, the University will listen. The University needs to realize the desires of the students."

Also speaking in favor of reform, Skip Althoff said he feels requests for 24-hour,

Althoff said he feels requests for 24-hour, seven day-a-week open houses isn't unreasonable. He feels UK's doctrine toward open housing is bad. "The University feels it must act as a parent," he said.

Concerning the management of women's dorms Althoff feels they should be handled in the same manner as men's dorms. "Head residents in men's dorms are graduate students who are trained and experienced to handle the job well; so why not the same for women? We should get rid of the purple-haired old ladies." ple-haired old ladies."

High temperature today in the low 40's; low tonight near 30 and high tomorrow low 50's. Precip-itation probabilities: five percent today and tonight, 30 percent totoday and tonight, 30 percent to

Loyalty oath

Supreme Court rules pledge may be invoked by states

WASHINGTON (AP) – States may require law graduates to pledge their loyalty to the gov-emment and the Constitution, the Supreme Court ruled 5 to 4

However, the court said in a second 5 to 4 ruling, bar applicants cannot be required to list the organizations, including allegedly subversive ones, to

legedly subversive ones, to which they may belong. The decisions involved admis-sion practices in New York, Ari-zona and Ohio that were chal-lenged by young law school graduates who claimed the pro-cedures had a "chilling effect" upon their rights of free speech and free association

Justice Potter Stewart, delivering the ruling in the New York case, said the state bar can require applicants to swear they will support the U.S. and New York constitutions and swear that they do not belong to organizations that they know advocate the forcible overthrow of the government.

arely a state is constitution- the energy policy

ally entitled to make such an inally entitled to make such an in-quiry of an applicant for admis-sion to a profession dedicated to the peaceful and reasoned set-tlement of disputes between men, and between a man and his government," Stewart said. However, in the Ohio and Ari-zona cases the court found bar applicants may be required only to list organizations they know work to overthrow the govern-ment.

A mete listing of organizations without evidence the prospective lawyer knew what they do violates the First Amendment, said Justice Hugo L. Black in announcing the court's judgment. The rulings appear to represent a delicate compromise between the court's liberals and its conservatives. Justice Stewart, who moves easily between the two camps, cast the key vote in all three cases.

Industry's power rate termed 'promotional'

retenant spote in a seminar on science and public policy at the National Academy of Sciences. The seminar was held by the Council for the Advancement of Science Writing.

Freeman said there are no available figures on precisely how

available figures on precisely how the nation's output of energy is being used. In general, the industry says 70 per cent goes to business and industry and 30 percent to residential use. An industry spokesman, W. Donham Crawford, president of the Edison Electric Institute in New York, disagreed with Freeman on the rate structure.

"I believe," Crawford told the seminar, "that raising the price of electricity as usage in-

the seminar, "that raising the price of electricity as usage inprice of electricity as usage in-creases, halting on a broad scale the promotion of electric applications, or rationing of electricity would have most un-welcome results in their effects on America's goals of improving social, economic and environmental conditions."

news kernels

From AP reports

WASHINGTON—President Nixon suspended Tuesday provisions of a federal law requiring the government to pay prevailing wages on federal construction projects in an emergency move aimed at pulling down wage and price levels in the building industry.

The President said in a statement that suspension of the Davis-Bacon Act which goes back to 1931 "puts the construction industry on the same footing with other industries that now sell products to the government."

LEXINGTON-Dr. Harry Best, professor emeritus of sociogy at UK, died Tuesday at the age of 90 in the Univer-y's Medical Center.

He had been stricken by a heart attack earlier in the day Dr. Best retired in 1951 after 32 years on the UK faculty, but kept offices at the University and wrote three books during his retirement. He was the author of nine other books

as well.

In 1954, he received the Migel Medal from the American Federation for the Blind, with Helen Keller presenting the

WASHINGTON—The chairman of the National Governors Conference, Democrat Warren E. Hearnes of Missouri, said today he prefers a federal takeover of welfare to the Nixon administration's revenue-sharing program to ease state and

administration's revenue-sharing program to ease state and local financial woes.

Although the governor emphasized he was talking for himself, rather than the conference, his position could be a powerful boost to the reported interest of Chairman Wilbur D. Mills, D-Ark., of the House Ways and Means Committee in substituting a welfare takeover for the administration proposal.

MIAMI—In case of enemy attack on the United States, Dade County Civil Defense officials have a prepackaged series of messages for broadcast to calm the public.

One says the United States has "retaliated with tremendous effectiveness" against the enemy and adds, "The probability of victory is good."

The Miami News unearthed the bundle of quickie messages in researching the snafu Saturday that falsely alerted that the nation was in a state of emergency.

Dade County Civil Defense coordinator Edwin Broadwell said the tapes were locally made at the direction of a news media committee.

WASHINGTON, D.C.—President Nixon will make a half-hour address to the nation on radio at 11 a.m., EST Thursday on his foreign policy message that goes to Congress that

day.

The White House announced Tuesday that the speech will relate to foreign policy and the administration's thinking in regard to its diplomatic decisions largely the review Nixon is provided in his "State of the World" report.

MURRAY-The board of regents at Murray State University has removed a ban against campus appearances by speakers who are under indictment or being prosecuted in

Referring to Monday night's action, reversing a policy adopted by Murray President, Dr. Harry M. Sparks, said university attorneys had advised him that the policy was "too inclusive."

"too inclusive."
When the resolution was adopted, it had the effect of barring controversial attorney William Kunstler, who was to speak on campus next month.
Earlier, the Murray student government, which had a contract with Kunstler, voted to retain the services of a Kentucky Civil Liberties Union attorney to discuss with university officials the constitutionality of the policy and, if necessary, to file a suit seeking to overturn it.

Strip mining declines; coal will remain 'king'

FRANKFORT (AP) — Coal will remain king in Kentucky although the trend appears to be shifting from strip to underground mining, the state mines and minerals commissioner said Tuesday.

H N. Kirkpatrick, speaking to a Frankfort civic club, outlined a netwere and the complaint of the complaint of

H N. Kirkpatrick, speaking to a Frankfort civic club, outlined a picture of increasing output in the coal fields.

He said Kentucky ranks be-hind West Virginia in coal produc-tion, but "the experts predict that in only a very few years we will be the No. 1 coal-pro-ducing state."

ducing state."

He said Muhlenberg County
in Western Kentucky ranks first in the nation as a coal-producing

county, with approximately 20 million tons yearly.

He said Pike County in Eastern Kentucky is the No. 1 underground coal-producing county in the United States, with 19 mil-

The Hamilton Mine in West Kentucky just opened and will be the largest underground mine in the world—25,000 tons per day," Kirkpatrick said.

Miners protest suit delays

WASHINGTON (AP) - Mo WASHINGTON (AP) — More than 450 miners from five coalproducing states protested on Capitol Hill Tuesday long delays in a suit that would allow each district of the mine workers union to elect regional officers.
Miners from Ohio, Kentucky, Pennsylvania, West Virginia and Virginia lobbied congressmen to pressure Atty. Gen. John N.

pressure Atty. Gen. John N. Mitchell to send the so-called

Mitchell to send the so-called autonomy suit to trial.

The autonomy suit was filed in 1964 by the Department of Justice on behalf of the Department of Labor. The suit maintained that the Landrum-Griffin Act stipulated members of Unit-ed Mine Workers of America districts should have the right to elect their own officers. "It would take away from un-ion President Tony Boyle the

ion President Iony Boyle the power-the illegal power-through which he maintains his dictatorial grip on the UMW," said Ed Monborne, of Ebensburg, Pa., a spokesman for the demonstrating miners.

The commissioner disputed the complaint of one coal opera-tor, Louis Howard of London, who said federal safety regula-tions have caused a sharp de-cline in the number of licensed

Howard was quoted in an Associated Press story Sunday as saying there were 610 mines licensed in Kentucky last year and only 276 this year— "and some of these are already closed."

The facts are, Kirkpatrick said, that 1,650 mines were licensed in 1969 and 2,057 in 1970.

He said the department closed Ill mines completely and 30 partly in 1969 and 139 last year plus 19 partial closings.
"All our information is public Howard was quoted in an As-

"All our information is public information," he said. ". . . if any of you wants to know who are coal operators in Kentucky and who aren't—come look at the records."

Kirkpatrick implied he was criticized unfairly by unnamed news media on health and safety

"In 1969 the department started sampling dust in underground coal mines for the first time in the history of the common-wealth," he said.

"The state Department of Health analyzed the samples and gave the results to us. We in turn gave each coal company our findings and tried to help them reduce their dust levels."

For this achievement, he said, "we were given no credit—but in November 1970, I made front page headlings for withholding.

page headlines for withholding our findings from the 1970 Legislature

slature.

Actually, Kirkpatrick said, he prepared two House bills in the 1970 legislative session.

The proposals asked for men "to make an accurate and com-

Vietnam veterans receive pro-rated bonus

Associated Press Writer

Returning veterans of the Vietnam war are being rewarded in several states with bonuses ranging upward from \$10 for every month of service in Southeast Asia. Millions have

Southeast Asia. Millions have been appropriated and are being spent on the projects.

An Associated Press survey showed that among the states that have passed bonus legislation since the conflict began are Connecticut, Illinois, Massachusetts, New Mexico, Pennsylvania, South Dakota and Vermont.

The American Legion reported bonus proposals were pending in 15 other states, including Indiana, Kentucky, California, Tennessee, Georgia, Arizona, Arizona,

Tennessee, Georgia, Arizona, West Virginia, Washington and

Standards vary

The measures vary from state to state, but generally all re-quire residence in the state at the time of entry into the milathe time of entry into the inflatary and are dependent on some standard of service, either the Vietnam Service Medal or an honorable discharge. Some states provide extra bonuses for disabled veterans or for families of men killed in Vietnam.

In Pensylvania the state's

of men killed in Vietnam.

In Pennsylvania, the state's Vietnam Conflict Compensation Bureau pays veterans \$25 for each month of service in the Vietnam theater of operations. Time spent in a military hospital for a disability incurred in Vietnam is counted in determining compensation. pensation

The state has appropriated \$56 million for the program and has paid out \$35 million so far,

with an average payment of

with an average payment of \$300.

To apply for the money, a vet-eran must file a certificate of duty from his commanding offi-cer or a discharge document.

Elsewhere

Elsewhere
Here's how the program
works in some other states:
Connecticut: Under legislation passed in 1967, he state has
distributed \$16 million in bonuses to veterans and their survivors. A veteran is paid \$10
for each month of military service, anywhere in the world,
since Jan. 1, 1964, with a maximum bonus of \$300.

▶ Vermont: Legislation passed ▶ Vermont: Legislation passed last year provides veterans with \$10 for each month of active duty in the armed forces from Aug. 5, 1964-the date of the Gulf of Tonkin resolution-through June 30, 1971. There is a maximum of \$120 per vet-eran. The legislature has approp-riated \$1.28 million to provide riated \$1.28 million to provide bonuses for an estimated 10,000 eligible veterans.

▶ Illinois: The 1965 Bonus Act provides \$100 to any state resident qualified for the Vietnam Service Medal. Beneficiaries of servicemen who died as a result of service in Vietnam receive \$1,000. The state has given out 113,000 veterans' bonuses and 2,500 survivors' grants for a total of almost \$14 million and has appropriated \$3 million to fund the program this year. ▶ Massachusetts: A Vietnam

Massachusetts: A Vietnam veteran receives a \$300 bonus and a veteran of service elsewhere \$200 under a measure

sponsored by State Rep. William F. Hogan, a Democrat. Hogan said the state has paid out \$35 million since the program started several years ago

New Mexico: A 1967 propos al extended a state l al extended a state law giving property tax exemptions to resident veterans of World War II and the Korean conflict to include men who served in Vietnam. A qualified veteran receives a \$2,000 property tax exemption, applied on the assessed valuation of his property. If he does not own property, the veteran receives a one-third reduction on the cost of his annual motor vehicle registration. Under the law's provisions, a Vietname and the service of the s extended a state law giving motor vehicle registration. Un-der the law's provisions, a Viet-nam veteran must have served after Aug. 5, 1964 and must have been awarded a Vietnam Serv-ice Medal.

South Dakota: A bonus bill passed in 1969 provides payments of \$10 for every month ments of \$10 for every month of service to veterans discharged after Aug. 4, 1964 and \$20 for every month of service to veterans discharged after July 1, 1958. Money for the measure, however, was not appropriated until 1970 when \$750,000 was allotted for the program and bonus director Lou Davis said the sum ran out after 2,787 veterans were paid an average of \$251 each. ran out after 2,787 veterans were paid an average of \$251 each. Davis said 7,845 application were unpaid as of Feb. 1. There are three bills pending in the legislation to provide further appropriations.

appropriations.

Delaware: Under 1968 legislation the state's Military Pay Commission has granted more than \$2.63 million to over 10,000 veterans who served after 1964.

Bonuses are paid to all veterans of military service with the maximum payment, \$600, going to dependents of servicemen killed in action.

in action.

Among pending bills is one in Arizona which would provide up to \$1,000 for Vietnam veterans who served in Southeast Asia for at least six months and

Asia for at feast six months and lesser bonuses for veterans of military service in other areas. Another measure, in the West Virginia legislature, would pro-vide education benefits for Viet-

nam veterans above those of-fered in the existing C.I. Bill. A proposal in Indiana would provide \$200 for service any-where outside the United States during the Vietnam war period and \$500 for a disabled veteran or a survivor of a serviceman killed in Vietnam. After the Korean conflict the state paid \$200 to anyone with a Korean campaign ribbon and \$600 to a totally disabled veteran or a survivor of a serviceman killed survivor of a serviceman killed in the fighting

Dear Friend of the University,

The pathology of what we call "university" is an extremely complex concept, dating back to the Middle Ages and reaching into the Seventies. Three distinguished speakers will explore the past, present, and future of the University in a series of lectures entitled "What is a University?" to be held at the Newman Center.

University: How it was.

FEBRUARY 25

'En loco parentis' prevails

Several important points were brought up at last night's open housing forum which deserve attention and action. First, it should be noted that the en loco parentis doctrine, which was dropped from the University student code three years ago, still prevails in this area.

The University has the right to enforce the present open house policy via article II, Section 2.1 of the Student Code which reads, in part: "The University is empowered to promulgate the rules of conduct for those students who use or dwell within University housing. . present policy allows the privilege of open houses for a grand total of three hours per week-and only on weekends.

Other requests for open houses, or "special privileges," require a conference with Dean Rosemary Pond to discuss reasonable cause for such a request, and a pledge by the dorm that each corridor will be carefully monitored to guard against any misbehavior.

Students should be insulted. The policy as it now stands indicates that the University assumes a moral responsibility for its students. It further assumes that students will be irresponsible or immoral in their living quarters, as evidenced by the strictness of the policy. It is ironic to think that the young adults who were recently given a greater voice in the University Senate, must be watched over like small children in their semi-private lives in the dorms.

The housing committee of student government has been working on alternatives to the open housing policy, their main goal being the elimination of all regulations. This would give the residence hall seven-day-a-week, 21- 24-hour open houses. Or, for students who would not agree to this, they propose the creation of life style dormitories, in which each residence hall would set up its own regulations concerning co-ed living, hours, open houses, etc.

Dean of Students Jack Hall has said that he does not defend the present policy, but his office will not change it this semester. The Housing Commission appointed by Dr. Zumwinkle is studying this problem, but its recommendations are nine weeks away. This semester the students have no alternatives, but by making themselves heard to the Housing Commission and to the administration, perhaps next year they can be regarded as adults, able to live their private lives in their own way.

and did you voluntarily accept a free hot meal from known Black Panthers at nine a.m., September nine, nineteen hun'ert and sixty-nine?"

— Kernel Forum: the readers write—

Street medicine

How would you react if someone you knew overdosed on speed, had a grand mal epflepsy seizure, or had his head split open by a riot stick. The members of the Medical Committee on Human Rights are concerned about how you

of the Medical Committee on Human Rights are concerned about how you would react to these emergencies. For this reason MCHR is conducting a Free University course on street medicine. Each instructor in the course has had at least one previous course in street medicine and several have had practical experience in the delivering of street medicine. The lectures include arificial respiration and heart resuscitation, street gases (tear gas, mace, etc.), drugs and overdoses, wounds and bleeding, head and chest trauma, and other topics of interest.

Emergency situations are something everyone should know how to deal with. Someday you're bound to be in a situ-ation where simple, immediate medical situations

attention may save someone's life. For anyone interested the class will meet on Wednesday nights at 8 p.m. in room 319 of the Classroom Building.

PAUL MANGINO DOUG SCHAEFER

MCHR

BUT NO ONE KNOWS HOW IT!LL END... EXCEPT FOR THIS GUY... AND HE AIN'T TRUKING!!

A question . . .

To the Editor of the Kernel:
I'd like to commend the Courier-Journal on its small but significant efforts to reduce the amount of trash that is produced by its paper. Perhaps the Kernel should take a cue from the Courier's efforts.

efforts.

In front of the main opening to Blazer cafeteria is a paper box for the Kernel. Every afternoon some conscientious carrier places some 200 or less copies of the paper in that box. He or she never cleans out the old papers. Now it's bad enough that we have to face eating in the cafeteria every day but to walk over that garbage before going in is (forgive me) a-vomitable.

Can't you do something about it, please?

TERESA HALSELI.

TERESA HALSELL A&S Sophomore

EDITOR'S NOTE: The Kernel is taking steps to improve this situation. Students

can also help by supporting the project described in the letter below.

To the Editor of the Kernel:
With cooperation from the Administration and Physical Plant, the University tration and Physical Plant, the University is now taking an active part in the recycling of paper products-presently limited to newspapers and mimeographed sheets. Containers for disposal set up in the Physical Plant, Student Center Patio, and Complex area have been filled within two weeks of their existence.

filled within two weeks of their existence.

Hopefully, if campus interest in this project remains high, additional containers will be established on a permanent basis. Members of the University community are urged to continue their participation in the fight against environmental pollution.

pation in the re-lental pollution.

College editors address press censorship

States Student Press Association, States Student Press Association, a national organization of col-lege and underground news-papers, held their annual edi-tor's conference in Hollywood last weekend. This is the first of two reports.

By FRANK S. COOTS III Editor-in-Chief

Editor-in-Chief
Criticizing the news media
has be come an increasingly
more popular sport since Mr.
Agnew unleashed his famous attack over a year ago. Although
Agnew's remarks initially provoked a defensive stance on the
part of newsmen, eventually
broadcasters and writers openly
admitted what had been known
before: that nearly all news rebefore: that nearly all news re-ports are biased, that it is next to impossible to do away with these biases and that a journalist can only try to reduce these biases to a tolerable limit.

At any rate, the editors and speakers at the United States Student Press Association's (USSPA) college editor's con-

ference were not to be outdone by Agnew

The conference theme re-olved around bias and censorvolved around bias and censor-ship in the media, particularly the broadcast media, and the inability of minority groups, wo-men and political groups that oppose the "status-quo" to gain access to the media.

Most of the participants at the conference felt many of these biases came about because

of broadcast stations being or broadcast stations being owned by large corporations which had an inherent interest in preserving the status-quo and therefore their profits.

Censorship Mark Davidson, a professor at the University of Southern Calithe University or Southern Can-fornia who is currently teaching a course entitled "Censorship in Broadcasting" and formerly pro-duced an hour long TV news show in Los Angeles, recited some of the difficulties he encountered while working in tele-

Davidson said he began re-

peating Lyndon Johnson's year old campaign promises at the height of the Vietnam War buildup and compared what LBJ had promised to do with what was happening at the

Davidson said his superiors, owever, did not appreciate the irony and strongly urged him to quit producing "anti-war proarony and strongly urged him to quit producing "anti-war pro-grams," explaining that old cam-paign promises were not news. Davidson said eventually his bosses explained that the conbosses explained that the con-glomerate which owned the sta-tion was deeply involved in the munitions business and was fearful of a drop in profits if the war slowed down.

Davidson said this sort of

Davidson said this sort of censorship occurred often. On another occasion, Davidson said he did a taped interview with Ronald Reagan when he was making his first gubernatorial bid. Davidson said he chal-lenged Reagan's statements, fol-lowed them up and refused to allow him to evade direct ques-tions. The result, Davidson

claimed, was that Reagan came across as rather foolish and in-ept, and again the station re-fused to air the tape. According to Davidson, the Republican party had threatened to cancel all advertising with the station and they could not afford to lose

"Two-way message'
Davidson also discussed how
the media constantly discredit
dissent by means of a "two-waymessage." He cited the Agnewstudent debate on the David
Frost show last sempeter as a Frost show last semester Frost show last semester as a case in point. He said the de-bate lured people into believing Agnew and the television sta-tions were tolerant of dissent simply because the program was aired while, actually, since four aired while, actually, since four students were asking questions no one was able to effectively follow up Agnew's statements. Davidson said this is what the two-way-message is all about: giving appearances of freedom while discrediting dissent.

Davidson went on to cite a more blatant example of this. He said his superiors asked him to do an interview with an anti-

to do an interview with an antito do an interview with an anti-war spokesman, so he taped an interview with a former Assis-tant Secretary of State who was a World War II hero. This pro-gram, too, was never aired, Davidson claimed, because his bosses had wanted him to do the interview with someone like the interview with someone like Jerry Rubin "who was much less reputable."

Davidson said the left does Davisson sain the lext use not have a monopoly on being censored, that anyone who opposes the status-quo, "from libertarian conservative to radical," is discredited. He claimed that most newsmen will claim they have never been censored but this is because they are either have never been censored but this is because they are either not pereceived as a threat by the station manager, as is "most often the case," or they are fear-ful of losing their jobs.

Networks freer?

While Davidson while Davidson said this holds true for network newsmen as well as local newsmen, "the networks do not get the local pressures (which result in cenpressures (which result in cen-sorship) but, ironically, the lo-cal stations have more leeway in their programming" which al-lows for divergent opinions to be heard occasionally. Other speakers echoed Dav-ideou's onjining if prehams a

pinions, if perhaps a stringently. little less

ul Gardne Gardner, a reporter for Angeles NBC affiliate, agreed there was censorship to a certain extent, but tended to look upon them as technical problems. He explained that since stories for TV are "boiled down" (shortened to take up less time) often divergent op inions are left out.

inions are left out.

Tom DeVries, a reporter for a San Francisco public television station, said part of the problem stems from the radio and television unions. He said the television unions. He said the union "perverts the news" since it demands that a reporter get paid, above his base salary, ev-ery time he appears on TV. He said this forces "a loss of per-spective because the reporter hering doing stories which begins doing stories which are slick and appeal to the pro

Concert review

Met soprano called 'magnificent'

By WENDY WRIGHT

By WENDY WRIGHT
Kernel Staff Writer
Marilyn Horne, distinguished soprano of the
Metropolitan Opera stage, as well as La Scala,
Covent Garden, and the San Francisco Opera,
performed Tuesday night in Memorial Coliseum
as part of the Concert and Lecture Series.
Though she is billed as a soprano, Miss Horne
has an astounding range which reaches down
into low alto with no strain. Her phrasing is
smooth and controlled. Her technique is developed to the point that runs trickle out of her
throat effortlessly, leaving the listener breathless at her artistry.

throat effortlessly, leaving the listener breathless at her artistry.

Not only is she a magnificent singer, but she showed herself to have charming stage presence. Having determined that Memorial Hall was too large for the program she had chosen-songs and arias meant for the smaller recital hall—she changed parts of the program to several more dramatic operatic arias.

What was so charming about the way she did this lay in the gently humorous manner in which she announced those changes—such as "So you will not be too surprised, ladies and gentlemen."
There was a burst of applause when she told

will not be too surprised, tadies and gentiemen. There was a burst of applause when she told of her intention of changing parts of the second half of the program to the heavier arias. Besides showing herself to be a gracious, poised, and flexible artist, Miss Horne brought more applause with her sprightly bows at the end of each selection.

The revised program included such things as two arias each from two early operatic works, Handel's "Semele" and Purcell's "Indian Queen;"

four Schubert lieder (songs); two arias from Rossini's "La Donna del Lago" (The Lady of the Lake); and two arias from Meyerbeer's "Mig-

nonne."

Two of these that were particularly thrilling were "Die junge Nonne" and "Nacht and Traume" (both by Schubert). The former was especially breathtaking. It speaks of a raging storm, describes the thunder and the lightning and the night "as dark as the grave." But the singer of this song is not afraid, because, as he says: "now in my heart there is peace and response. My bridegroom comes, the heavenly Savior . . Alleluia." The way in which that "alleluia" was sung made one believe that the singer had alsung made one believe that the singer had al-ready reached heaven—such was the light sung made one believe that the singer had ar-ready reached heaven-such was the light, rap-turous, and intensely controlled emotional quality of that one sung word.

Another selection especially enjoyed was a humorous song about a fisherman (Fischerweise

humorous song about a fisherman (Fischerweise —also Schubert). Though the song was of course in German, Miss Horne deliveded it in the sprightly way that the meaning demands. The song speaks of a fisherman who, setting out in the morning for a full day's work, is diverted by a shepherdess. He cannot let his eyes stray from his work. "Abandon your tricks, sly one," he tells her. "This is one fish you will not lure!" Perhaps the favorite on the latter half of the

Perhaps the favorite on the latter half of the program was the aria "Connais-tu le pays?" from Mignonne. Miss Horne got across vividly the picture of the loneliness and longing of Mignonne,

the heroine, for her native country.

Only superlatives will fit in describing Miss
Horne as an artist. Superb. Fantastic.

Publish-perish forum slated

An open forum on the goals and priorities of the English Department will be held at 8 p.m. Thursday in room 315 of the Classroom Building.

According to Chris Perry, chairman of the English depart-

ment undergraduate advisory committee, the main discussion during the forum will revolve around the issue of "Publish or

Perish."
Perry said the forum will begin with comments from Dr. Alan C. Moore and Dr. Stephen Manning, both of the English department. Discussion and questions will be taken from the floor, following their reports.

be taken from the Hoor, follow-ing their remarks.
Representing senior faculty at the forum will be Dr. Guy Daven-port and Dr. Donald Ringe, who along with department chairman Manning help to decide whether professors should be reappointed.

SEC wrapup

By CARL FAHRINGER Kernel Staff Writer

Maybe it's a good thing none of UK's remaining basketball games are against weaklings like Florida. With an easier schedule, the Cats would be ripe for a momentum-shattering upset, as they hold a two-game lead in the SEC with only three games

they hold a two-game lead in the SEC with only three games to go.

While UK was polishing off C.M. Newton's Alabama team Monday night, Tennessee was besting LSU 88-67 to stay in mathematical contention. The Cats' 101-74 victory gave them a 13-2 conference record compared to an 11.4 slate for the Vols. The Kentuckians can clinch a tie for the SEC crown Saturday at Vanderbilt. The Commodores, who own a 9-5 record, are the only other team with a mathematical chance to tie for the title.

In other SEC action Monday, giant-killer Florida downed Ole Miss, 85-68, and Mississispi State nudged cellar-dwelling Georgia, 62-57.

State was also in the head-lines after Saturday's action in

State was also in the head-lines after Saturday's action, in which they claimed a 70-65 win over Florida, a team hot off back-to-back upsets of Kentucky and Tennessee. The Bulldogs' victory shared the spotlight with Kentucky's 110-73 romp over fourth place LSU, now 4 1/2 games off the pace with an 8-6 record.

Meanwhile, Tennessee was keeping within two games of the Cats with an 89-77 win over Alabama.

Other SEC games Saturday State was also in the head-

Cats with an 89-77 win over Alabama.

Other SEC games Saturday Saw Aubum (a team UK visits next Monday) continue its hot streak by knocking Vandy out of a second-place tie in a 96-94 thriller. Johnny Neumann's Ole Miss squad also won a squeeker, 76-72 over Georgia.

The conference "also rans" trailing fourth-place LSU at present are present are: Aubum, 7-8, Miss State, 7-8, Florida, 7-9, Ole Miss, 5-10, Alabama, 4-10, and Georgia, 3-11.

Terry Nuxol of Lambda Chi and Jeff Fadel of SAE battle for a re-bound in last night's fraternity final at Alumni Gym. (Kernel photos last night's fraternity fin

Book Review

American journalists termed propagandists

The thesis of James Aronson's "The Press and the Cold War" is that the United States' press has, to a significant degree, be-come a voluntary arm of the come a voluntary arm of the administration in office. The crucial part of Aronson's contention cial part of Aronson's contention is not the fact itself but rather the voluntary abdication by the press of its responsibility to serve the public need for the truth.

As I.F. Stone has pointed out, "reporters (in the U.S.) have been

"reporters (in the U.S.) have been as eager to inculcate the U.S. Cold War party lines as their opposite numbers are to dish out the official view of Pravda and Lzvestia." Thus, the same thing that we label as worthless propaganda in the Soviet Union is paraded before us as the worthwhile product of our free press. Aronson documents his thesis through an account of press haddling of the various events of the Cold War. His highly readable style of alternate black comedy and sarcasm makes "The Press."

and sarcasm makes "The Press" overwhelmingly complelling. Perhaps the most interesting part of the book deals with the origins of the Cold War and the red scare that was at once the

rationale for, and the instrument of, prolonged confrontation.

When it became clear that some external stimulus would be some external stimulus would be required to maintain our military posture at "feasible" levels(large defense budget and peacetime draft) and to assure that the economy did not stagnate (the candid headline in Business Week, March 22, 1946: "New Democracy, New Business. Unit-

"The Press and the Cold War" ed States Drive to Stop Comby James Aronson was published by Bobbs-Merrill in 1970. It is Financial Outlays for Bases, Rereviewed by Joe Hafkenschiel of Reporter's News Service.

Building the Cold War" ed States Drive to Stop Combusins Abroad Means Heavy by Bobbs-Merrill in 1970. It is Financial Outlays for Bases, Rereviewed by Joe Hafkenschiel et al. The method was disamningly simple: create the Red Menace with a good deal of help from Bureau of Advertising of the

"... the same thing that we label as worthless propaganda in the Soviet Union is paraded before us as the worthwhile product of our free press."

ing them as reds. It was also frighteningly successful. When Henry Wallace (Vice-President from 1941-5 under FDR) became increasingly outspoken in his opposition to the Cold War and then was audacious enough to run for President as the 1948 candidate of the Progressive Party, his program not only was not afforded a cursory hearing but Wallace was also labelled a "Commie" by many papers. Others so labelled lost more than just an election.

The premier red-baiter of them

just an election.

The premier red-baiter of them all, Joe McCarthy was, Aronson convincingly argues, a creation of the press. It was, we can suppose, news when "McCarthy List 89 Spies" but the fact that reporters knew the accuser was a proved liar removes them from the protection of the canon of objective reporting. The muse of the protection of the canon or objective reporting. The guise of objectivity was, of course, employed because while editors may have frowned at McCarthy's methods, they accepted his aim: the elimination of the American branch of the "international Communist consultary." munist conspiracy

the media and then attack and silence all opposition by brand- Association (April 27, 1961) stated, fing them as reds. It was also "Every newspaper now asks with frighteningly successful."

respect to every story: Ist news: All I suggest is that you add the question: Is it in the interest of national security?'''
This question was evidently rhetorical since what Aronson calls the "cold war mind-freeze"

The handful of full-time cor-respondents in Vietnam in the early part of the war balked at being made complete tools of our foreign policy. Significantly, they supported US involvement in Vietnam but not the tactics of that involvement. Critics of Diem, they were called the "young turks" and were held in "The guise of objectivity was, of course, employed because, while editors may have frowned at McCarthy's methods, they accepted his

had already been in effect for some time: the media spoke with one voice—that of the administra-

one voice—that of the administra-tion.

So when both the Washington
Post and the New York Times
knew of Kennedy's blockade in
the Cuban missile crisis("90 miles the Cuban missile crisis("90 miles as the hawk flies") they withheld the information. According to Max Frankel, "The basic reason was the fear that the Soviet Union if it knew the (blockade) plans in advance, would make some move to anticipate and undercut the President's course. For exthe President's course. For example, one such move might have

considerable disregard by both who could not understand why they were not "on the team."

The newspapers kept the secret, says Aronson, "lest the US be forced to adhere to the Charter of the United Nations and not take unilateral action with im-

ponsibility: surpressing informa-tion at the risk of world war.

Undoubtedly the reason why the portion of the book concerned with Vietnam seems to pale in comparison with the earlier parts lies in our proximity and involve-ment with that conflict. The handful of full-time cor-respondents in Vietnam in the

who could not understand why they were not "on the team." Time magazine's chief corres-pondent in S.E. Asia, Charles Mohr, filed a story in the fall of 1963 with lead, "The war in Vietnam is being lost". In one of the most flagrant examples of distortion of the war news, of distortion of the war news, the story was completely rewrit-ten in an optimistic vein and contained the statement that "Government troops are fighting better than ever."

Aronson questions why these

and not the reasons behind the bad news. The question is ac-ademic since it wouldn't have printed in any case

He also wonders, "If the re-porters were appalled at the sight of their friends dying in the country they (the reporters) had comto love . . . why were they equally appalled at the death of Vietnamese, in battle and under tor-ture, for love of a country which, after all, was their own?"

The reason why Americans do not enjoy a truly responsible press is that media access is extremely limited. While the First Amendment protects expression Amendment protects expression once it has come to the fore (not always perfectly, it should be added) our law is indifferent to creating opportunities for expression. The resulting "opinion vacuum is filled with the least controversial and bland ideas."

The solution for a public de remined to achieve the dissemi-nation of honest and uninhibited information, Aronson states, is radical action, the purpose of which would be establishment of an alternative to the mass read as it exists today.

medi as it exists today. "The Press and the Cold War" is a chilling and important book.

Aronson, a founder of the National Guardian in 1948, writes
with authority since he was associated with that paper for nearly twenty years. During most of
that time, the espousal of antiadministration positions was not administration positions was not only unfashionable but downright only unfashionable but downright dangerous. It is difficult for any-one under thirty to imagine what it was like. For that historical perspective alone, "The press and the Cold War is required reading."

Applications are now being accepted for the 1971 Spring Student Information Team. The Spring SIT will be composed of those Fall SIT members who were unable to attend their respective high schools, and any new members who wish to join. The Student Information Team is a Student Government sponsored organization which derives its existence from the concept that by a University of Kentucky student returning to his or her native area, this gives the high school student an idea of UK life from the student's point of view.

which turned out to be an in-

which turned out to be an in-quiry on where one could buy a short-haired wig.

The May Day demonstrations planned by the People's Coali-tion for Peace and Justice, calls for acts of civil disobedience such as stall-ins and sit-ins to take place in days following a massive peaceful demonstration massive peaceful demonstration

Open houses considered

Continued from Page 1

Defending the University polcies, Dean Hall says he has a commitment to the Housing Commission. "As far as this semester is concerned, I won't challenge its decisions." He says the present set-up for open houses will apply for the rest of the semester "unless someone else changes it."

On the possibility of having

open houses seven days a week, Dean Hall said, "The possibil-ity does exist. There are no rules on the books against them." But for all dorms to acthem. But for an dorms to ac-quire open housing similar to Blanding 2's, creates other prob-lems. Hall said to operate at these standards there are many additions to be considered. Faculty and equipment must be in-creased-the head residents are faced with extra responsibilities and must devote "overtime" to their jobs.

in Washington on May 2. The Student Mobilization Commit-tee last weekend passed a plan for a peaceful mass demonstra-tion in Washington on April 24.

'End the government'
After thumbing through the yellow pages and finding a local wig shop, the Swithboard worker hung up and continued.
'The new motto around here is if the government doesn't end the war, end the government.'

"I know a lot of collectives that are playing some things.

that are planning some things, even past the nonviolent civil disobedience stage," the staff member added.

Another opinion which

Another opinion which seemed evident at SMC's Na-

tional Conference was a feeling of potential for a national stu-dent strike.

Potential student strike

Potential student strike
There was often discussion at
the SMC conference on whether
the group should plan any immediate antiwar demonstrations
because of the possibility of an
attack on North Vietnam or the
rumor that the Nixon administration may be forced to send
American ground troops into
Laos.

Although the conference did Although the conference did not officially act on any such action, Don Curewitz, SMC na-tional executive secretary, said that "SMC and every other war group would absolutely get to-

apportionment problems will begin Thursday. How long it will

last is a matter for speculation, but Nunn feels that 10 or 12 days will give the legislature sufficient time to complete its

task.

Similar plans will be discussed, and one of them adopted, for the state Senate as well as for the House.

KKK cross-fire

matter whether anyone has a match. They'll just flip a switch. Instead of using a gasoline-soaked cross, the KKK will be using an updated electric ver-sion, a Dade County sheriff's

gether if any escalation of the war occurred."

"I know the movement would respond immediately," Gurewitz added.

One girl at the SMC confer-

ence told a workshop on campus action: "Nixon depends on the type of confusion created by the ws blackout of the Laos invasion, but I think he knows he can't get away with it twice in a row
