UK students made history with trip

Tour of China full of surprises

By TOM SPALDING Editor in Chief

For Adrian and Theresa Cannon of Hopkinsville, Ky., no news was definitiely good news two weeks

The Cannon's 20-year-old daughter, Amanda, was one of 14 UK students — including 13 from the College of Agriculture — touring China as part of an exchange program with a university in China.

They just happened to be in the middle of one of the biggest uprisings in China's history. Angry students and citizens staged hunger strikes as part of a protest against the existing communist government and for a change toward democracy.

mocracy.

Fortunately for the UK students, the protests did not turn ugly in China until the day after they had come home. Since then anywhere from 300 to 3,000 Chinese citizens have died as a result of clashes with the army and President George Bush has told any remain-

ing Americans to get out of the

country.

But for the worried parents who weren't able to contact their children — in many cases it was six days before they contacted each other — it was a frightening experience.

"I'm thankful they got out when they did," said Adrian Cannon. "I felt if something did happen, we would have been notified. If I didn't hear anything everything would be all right."

Roger and Gloria Smith of Brooksville, Ky., whose sons, Tim, 22, and Adam, 19, were on the trip, shared the same fears. They did not know their children's condition for over a week.

"We were severely concerned,"

ror over a week.

"We were severely concerned,"
Gloria Smith said.

Most of the UK students, however, weren't worried. The media,
they said, "blew things out of proportion," at least while they were
there.

"I didn't know anything with

there.
"I didn't know anything until I called my parents . . . they told me (the protesting) was being compared to the French Revolution," Armanda Cannon said. "I had no idea about it. When you looked at the papers in China it was like

Chinese adventure more than protests

Editor's note: this article contains the writer's thoughts and opinions gathered after a trip to China with 13 other UK students during May.

By AMANDA CANNON Contributing Writer

CHINA — When I got home from china — when I got nome from my tour to China, telling friends about all the things I saw there seemed to take a back seat as they bombarded me with questions about the student protests.

My favorite question was 'were waterscreen's

We were scared, naturally, it was our first time in a communist country and we weren't well-in-formed about the student uprisings

to the about the student upinings that developed during our visit.

The purpose of the trip was not to follow the movement in China.

Even if it was our purpose, it wouldn't have been accomplished because our group was kept far from the turmoil.

Our main policetive was to study.

from the turmou.

Our main objective was to study agricultural and cultural differences between China and the United States. To promote good relations between Shandong

ences between China and the United States. To promote good relations between Shandong
Agricultural University and the
University of Kentucky.
Those relations easily can be
dampened when situations like student protests occur. The Chinese,
like us, want to give visitors the
best impression possible of the
country, and during student uprisings, this is not easilly done.
Recently, governments have suggested that all foreigners leave the
city, including Americans. Fortunately, we left Beijing the day before the hunger strikes began and
government troops began firing on
the protesting citizens.
Although things were a little quieter while we traveled, I had uneasy feelings about what we would
face each day we traveled to a new
town. Most of the time we had no
tinerary, and our tour guides did
their best to keep us in the dark,
generally ignoring our questions.
We didn't have to go far to find

generally ignoring our questions.

Pitino, UK found what they were looking for

Battered program gets stability with new coach

By TOM SPALDING Editor in Chief

Somewhere on the road to happiness, Richard A. Pitino and the University of Kentucky bumped into each other last week.

Pitino, a boyish-looking basketball coach from New York, was trying to establish some stability in his life by getting out of the NBA and back into college.

UK, its entire institution shamed because of improprieties in the basketball program, was looking for a coach.

oking for a coach.

was looking for a coach.

Both are convinced they've found what they're looking for.

"It's a historic day," UK president David Roselle said the day Pitino was named coach at UK, "and a happy day. A day we believe we can safely rejoice in."

"This was a move," Pitino said later, "that had to be made."

Ever since The Package popped open revealing \$1,000 in cash in March 1988, UK has taken an image beating that Roselle and new Athletics Director C.M. Newton have tried constantly to restore.

Athletics Director C.M. Newton have tried constantly to restore.

It was exhibited fully on the court, where Kentucky stumbled to a 13-19 record and the first losing season in 62 seasons. Later, its coaching staff would resign under pressure.

UK's fortunes reached an all-time low nearly a month ago when the National Collegiate Athletic Association filled in the blanks on its nearly yearlong investigation. After finding UK guilty of two major violations, the NCAA slammed the famed program with a three-year probation that includes no television coverage for one year and no post-season play for two seasons. vision coverage for one year and no post-sea-son play for two seasons.

In addition, the NCAA declared ineligible

UK's top two players, Chris Mills and Eric Manuel, which paved the way for more play-

ers to leave. LeRon Ellis, a 6-foot-11 center who led Kentucky in scoring, said he'd transfer. In a way, his sentiments were everyone's.

"To be penalized that seriously for some-thing I had nothing to do with, after all I went through . . . is a lot to be asking of somebody.

Sean Sutton, the son of former coach Eddie utton, said was transferring yesterday. Derrick Miller's status still isn't known.

The only returning starter from last sea son is junior Reggie Hanson.

Since it was in the neighborhood, the NCAA decided to take away previous earnings in the 1988 NCAA Tournament, as well as two victories in that event. The Southeastern Conference followed suit, stripping Kentucky of its 37th conference title.

Another blow reached came in the pocket-book. UK stand to lose close to \$2 million because of its penalties.

But the indirect blow UK took came in per-ception. Pitino said a week before he signed his contract there were always "rumblings" about the integrity of UK basketball. It reached new lows when the sanctions were

Sports Illustrated featured a six-page arti-

cle and cover story entitled "Kentucky's Shame." Meanwhile, such astute observers such as Howard Cosell lamented the sad state of Kentucky basketball, calling it an "absolute disgrace."

UK was in sore need of respectability.

Enter Rick Pitino

Enter Rick Pitino.
"He met the three criteria," Newton said.
"A coach, first of all, who had a proven record and who possessed the ability to do the job. Someone who understood the visibility of the job, the expectations of the job and the tradition. And someone who wanted the job.
"I realized the difficulty that coach Pitino faced in making a tough decision to leave an outstanding job and return to college at a reduced income," Newton said.
"It indicated to me here's someone who

"It indicated to me here's someone who wanted the job. I thought that was impor-

tant."

Pitino must have known that. The 36-yearold New York native, widely regarded as the
hottest young coach in America, has in his
hands the program that Rupp built.

Pitino doesn't appear to have the same

sort of pressure that was placed on the shoulders of Joe B. Hall or Eddie Sutton. He must rebuild a tradition rather than maintain it, a job he relishes.
"I think it's going to be exciting years for Kentucky basketball," Pitino said. "And I think it's going to be a great challenge for all

Kentucky basketball," Pitino said. "And I think it's going to be a great challenge for all of us to see something so rich in tradition be brought back in the correct manner." The wooling of Pitino to UK from New York eased the pain and may have created a false sense of security for UK fans whose pride was hurt and felt the sting of punishment. But with good reason. Pitino is the sort of coach who has stepped in before and made a winner of a whiner. He did it at Boston University, then Providence College.

College.

The latest magic act was performed in his hometown with the Knickerbockers, perennial underachievers in the National Basketball

sociation.
"You have to know who you are," he said.
was not happy with the lifestyle I was
ading, so I wanted to make a change."

UK students think both sides benefit with young coach

By JOHN SIMON Contributing Writer

Most UK students feel although Kentucky basketball will be down for a while it is far from out, especially with one of the top basketball coaches in the country taking over.

"Rick Pitino is the most gifted coach in the country. Period," said John Kasperbauer, an architecture senior. "He has the ability to resurrect the UK basketball program in ways similiar to Adolph Rupp."

"Rick Pitino has the ability to resurrect UK. (He) is the most gifted coach in the country. Period.'

> John Kasperbauer architecture senior

The turbulent NCAA investigation that left

The turbulent NCAA investigation that left UK without a coach and without much integ-rity caused many students to worry as they left for summer vacation. Many students, however, feel that Pitino will help clear the air. Sean Lohman, president of the UK Student Government Association, is one of those stu-dents that believes Pitino will turn things around.

around.
"I think that we are very lucky to get such a good basketball coach," Lohman said. "I think he'll be able to bring all the respect back to UK. He'll be a great asset to the UK basketball team."

Julia Ward, a sophomore at UK, also thinks that he'll be a good coach. "He's young and he's come a long way for a 36-vear-old."

year-old."
"He's a decent man," said P. Brooks, a marketing junior. "He took the time to check the local school district on behalf of his children before he committed to Lexington. He's obviously a man with strong moral character which is exactly what UK and its fans are looking for," he said.
"I thought he was the best choice to turn this corrupt team around," said Brian Parker, an interior design junior.
Since Pitino's coaching style is perhaps his least secretive trait, speculation on UK's future seasons is abundent.

re seasons is abundent.
"I like his style of play," said Scot Cucca, a graduate student in business. "He utities the three point shot and presses the
hole game like that. I think he'll do a good
hit bear resent!" "Nearth!"

whole game like that. I think he'll do a good job if he can recruit," he said.
Steve Brewer, a UK junior, says that "UK won't be a good team the first two years, but they will be better in the years to come. (Pitino) knows what he's doing and he can really turn the team around."
Students used to UK's winning ways say the Wildcats are overdue for a win.
Jennifer Anderson, a sophomore at UK thinks that Pitino is the right guy for the job and "will help Kentucky rise up again."
For Pitino, they say, the sky is the limit.

SGA approves funding for campus programs

The UK Student Government Association met Tuesday night to discuss whether two organizations would receive SGA support. The first order of business was whether to

The first order of business was whether to pass support for Campus Rape Awareness and Sexual Harassment or CRASH Council.

The SGA unanimously agreed to 'recognize the University of Kentucky as a functional and safe educational environment' as well as that 'rape, acquaintance rape and sexual harassment are current and pressing issues that face the University community.'

"There were two reported problems with data rape on campus and there is no stand.

date rape on campus and there is no standing regulation for students accused or convicted of date rape," said senator-at-large Alan Putnam.

In passing the resolution, the SGA lends support to the organization in efforts to create and promote programs pertaining to

ate and promote programs pertaining to rape and sexual harassment. The second order of business was to pass a resolution starting a Computer System Review Committee.

view Committee.

This committee would be made up of representatives from the administration, faculty departments, and the student body to review and approve any decisions being made about changes in the computing system at UK.

A proposal passed by a unanimous vote would force UK to get input from students before deciding on a new computer system that would be installed on campus.

There was discussion as to whether a new There was discussion as to whether a new computer system would be installed at UK and that this system would be different than that currently used on campus.

The student body would have to try to learn to use a harder system than already is

use, said Neil Greene, a UK computer con-

The proposal, which passed by a unanimous vote, stated that since students are one of the main users of the computers they should have some input.

Senator-at-large Allan Putman (standing) spoke to members of the Student Government at the Patterson Office Tower Tuesday

The final order of business, brought up by SGA President Sean Lohman, was the approval of the Board of Student Body Presidents'

val of the Board of Student Body Presidents: Constitution and Budget. The Board of Student Body Presidents is made up of all the state university student body presidents. The body itself is a lobbying

group to bring university issues to the atten-

group to bring university issues to the atten-tion of state government where and when deemed necessary.

The budget was approved with a six cent fee payable by the students to help cover the expenses incured by this representative body.

Vending machines offer versatility

By ELIZABETH C. MOORE

Beginning Aug. 1, 1989 UK students, fac-ulty and staff will not have to worry about having correct change or even carrying cash for campus vending machines. All the old Canteen vending machines will be replaced with new ones that have dollar

be replaced with new ones that have dollar bill acceptors and debit card acceptors. The replacement should be completed by Aug. 14. The new machines will be University owned and UK Food Services will supervise the operation of them. "By operating in house"... we will be more responsive to the needs of our customers... in terms of more timely maintenance and in products offered for sale in the machines," according to a memo written by Robert Braun, Director of Food Services.

Since the machines will have dollar bill acceptors, no change will be needed to purchase items.

A new innovation, the debit card acceptor, will allow students, faculty and steef will allow students, faculty and staff to operate vending machines without money. All they to do is open a Vend•Plus account through UK Food Services. "It'll be incredibily convenient," said Richard Clark, Assistant Director for Food Services. Cetter of Control Control

Services Central Campus, about the new

Vend-Plus card.

Students can set up Vend-Plus accounts when they sign up for their meal plans this summer. New DinerCards and MealCards with two magnetic stripes on the back will be issued. One stripe is for the meal plan and the other is for the Vend-Plus Account. This will help to keep all moneys in both accounts separate.

LIK faculty and staff can obtain Vend-Plus Vend•Plus card.

counts separate.

UK faculty and staff can obtain Vend•Plus cards at Food Storage or the new Automatic Deposit Machines, which will be located

"They (faculty on staff) can get a card with a logo, no picture and use it without set-

ting up an account," said Clark. All a user has to do is go to the ADM and put \$20 on their card, he said.

An initial deposit of \$20.00 is required to open an account. After the initial deposit is made, all vending machines on campus can be accessed with the Vend•Plus card.

be accessed with the Vend*Plus card.
Pepsi products will be replacing the Coke
products that are now offered. Food Services
dining areas, however, will continue to serve
Coke products. "This is the first time students get a choice from Coke or Pepsi," said
Roger Sidney, vending manager for Food
Services. "We're really excited."
The change to Pepsi will be the only major
change. "Whatever is being offered now will
be offered by us (Food Services)," said
Clark.

Food Services will be able to offer more than the regular selections of soft drinks, candy and chips. They will also be offering snacks of a more nutritional value such as sandwiches, yogurt and nuts.

Sendek named new assistant

By KIP BOWMAR Section Editor

Herb Sendek, an assistant basketball coach at Providence College since 1986, became the first assistant to join head coach Rick Pitino's staff at Kentucky, the university announced Tues-

day.
"Herb is a dedicated young basketball coach who is well-rounded at every phase of college coaching," Piti-no said in a news release. "He is ex-tremely well organized, and we are ex-cited to have him as part of Kentucky

Sendek, 26, was hired by Pitino as a graduate assistant at Providence in 1985, when Pitino was the head coach

Athletics Association approves budget

By KIP BOWMAR Sports Editor

Although UK had a substantial Action in income from mens' bas-ketball and football, The UK athlet-ic budget for 1989-90 was increased by over a million dollars. "This budget is reflective of what

"This budget is reflective of what it is going to take to operate the athletics department this year," said Larry Ivy, UK assistant athletic director. "There will be a conscious effort on everyone's part to watch spending and to see where some cuts can be made."

The budget is the LIK.

some cuts can be made."

The budget, approved by the UK
Athletics Association on June 1, totals \$15,971,965 for the 89-90 year. It
was a record \$14,874,100 last year.
The football program revenue decreased \$262,000 even though there
was a \$1 charge added to ticket
prices. Athletic Department officals blamed a number of factors
for the decrease including receiver. for the decrease, including poor weather, which may have lowered attendance at home games. The Athletics Board increased the oper-ating expense for football by \$356,200.

While the football program's revenue decreased, the men's basketball program suffered an even biger economic setback. Due to NCAA sanctions barring UK from rectrees play and list behavision. postseason play and live television appearances, the estimated income from the basketball program will decline by \$716,000. The basketball program was granted a \$271,600 operating expense increase.

While both the basketball and

While both the basketball and football programs experienced a decline in revenue, both continued to operate well in the black. The football program generated a profit of over \$1 million, while the basketball program garnered a profit of nearly \$750,000.

The money for the increases in operating expenses and the increase in the budget overall came from two sources.

One was endowment income from the blue-white fund. The blue-white fund as established 16 or 17 years ago to fund scholarships for student-athletes, Ivy said. "We've been fortunate in that we've never had to use the fund for scholarships." Ivy said. "We've always been able to pay them out of the income generated. But because of the budget this year we had to use it (the blue-white fund)."

The other area was blue-white fund gifts and grants, which increased by over two million.

The budget allows for a number of increases in the program, including a five percent across the

the Kentucky Kernel

board operating expense increase. This includes an \$18,000 increase for women's basketball to \$513,975. The non-revenue sports will have a a budget increase of over \$73,500

for the next year.

There will also be a seven pe cent increase in salaries for staff in the sta

tent increase in salaries for start in the athletics department.

UK will also repay the NCAA the money it received from the 1988 NCAA tournament. The amount of the repayment is approximately \$400,000.

\$400,000.

The budget also allows for the hiring of a new basketball coaching staff and increasing the staffing of the swim program.

Belushi's movie for the dogs

By KIP BOWMAR Section Editor

has shown a essentially playing the same charac-ter in all movies that he appears in. Mind you, it's a pre-tty good char-acter which he

Belushi's most recent revival of this character happens in "K-9," where he shares the screen with Jerry Lee, a drug-sniffing police

Jerry Lee, a drug-sniffing police dog.

Unfortunately for Belushi, it is the dog who really owns the screen. And that is not meant to be a criticism of Belushi. The dog has an excellent stage presence, much in the manner of Lassie or Rin-Tin-Tin-

in the manner of Lassie or Rin-Tin-Tin.

The dog's incredible presence also has a down side for the film. The directors of the film rely on Jerry Lee's ability extensively and milk his charisma for all it's worth. On a few sad occasions, they milk it for more than that.

But there is no denying the excellent chemistry between Belushi and Jerry Lee. It carries the film in many instances because the plot is some-what average. These two characters give this movie depth. Many of the scenes involving Belushi and the dog are just hilarious.

When Belushi wrestles with Jerry Lee on the floor of his kitchen, animal lovers and dog lovers.

en, animal lovers and dog lovers should see the film just to see the way the dog handles himself on the

screen.

Mel Harris plays the slightly exasperated love interest of Belushi
who tolerates his obsesssive police
work. She has an interesting look
about her and handles her part

well.

The story opens with Belushi on a stake-out trying to nail the evil drug lord played by Keven Tighe. After he is nearly blown up and shot to death, Belushi gets a tip which he is convinced will help him nail Tighe, but he needs a drug-sniffing dog to help him make the bust.

The two go through a variety of adventures and Jerry Lee saves Belushi on a number of occasions. The bond between the two stays strong to the end. One flaw is when Belushi tries to get emotional with the dog, and it is not convincing.

"K-9," rated PG-13, is now showing at North Park and South Park

New Indiana Jones back for summer

By KIP BOWMAR Section Editor

Like most angst-filled movie goers, I was apprehensive about the new Indiana Jones film "In-diana Jones and the Last Cru-sade," with Harrison Ford repris-ing his role as the adventurous archaeologist

archaeologist.

As a rule, sequels are not as good as their predecessors. Much less the sequel of a sequel.

All those doubts aside, "Indiana Jones and the Last Crusade turned out to be a good movie.

Sean Connery has been added to play Ford's father. His charac-ter fits into the script well. The

scenes between the two have a universal appeal because the au-dience can identify with a conflict in a father-son relationship. Conn-ery's acting is a real bonus and adds an extra element to the

River Phoenix makes an appearance in the early part of the film, portraying Ford as a teenager. The immense amount of time Phoenix has spent studying Ford and his performances in the other two movies is obvious. The fruit of his labor is sewn in subtle ways. He portrays the gestures and mannerisms of Ford very convincingly. Phoenix has complete credibility as a young Indiana Jones.

Alison Doody stars as a cross between a heroine and a femme fatale. While she wasn't outstand-ing or even good, for the that matter, she was infinitely better than Kate Capshaw in "The Tample of Loom"

The name of Doom."

The only good heroine in the series has been Karen Allen from "Raiders of the Lost Ark," the first film in the series.

This film has a humor to it that is all its all its all its all.

This film has a humor to it that is all its own. For the most part, it is not slap-stick humor, going for cheap laughs.

In some aspects this film is actually better than the original. For starters, the acting is better in most places (the one exception duly noted). The addition of an-

other major character to play off of Ford adds a great deal to the

movie.

The conclusion is more dramatic than in any of the films because it involves more of Ford. Parts of it test the distance of the

Parts of it test the distance of the leap of faith the viewer has to make. But it does not push it too far and makes for a good ending. All in all "Indiana Jones and the Last Crusade" stacks up very well with the original film. And given Hollywood's penchant for making sequels which rip off the original idea, that is very rare.

"Indiana Jones and the Last Crusade," rated PG-13, is now playing at South Park Cinemas.

reading a different story. It was

played down a lot.
"Of course I was a little scared," she added. "But it had little to do with the protests for democracy. We were in a communist country — we weren't informed enough to be frightened."

be frightened."

UK students taking the trip said they were kept in the dark because tour guides never informed them of what was going on.

"Our guides kept everything secret," said Adam Smith. "The itinerary changed daily. They said it was because of the weather but we think it was because of the protests."

"I don't believe our guide really wanted us to know too much," said Roger Hemken, an animal scientist with the UK College of Agriculture who headed the tour. "We were able to talk with others, including (Chinges) students We felt fairly (Chinese) students. We felt fairly well-informed."

The trip began May 8 and didn't nd until the students arrived safely and in one piece — at Bluegrass Airport late Thursday,

It was the seventh consecutive year the College of Agriculture and

Adventure

excitement while we were there, however. Many times, it found us.

One day as we walked down the street in Tai an, in spite of our tour guide's objections, student protesters came by and excitedly held their fingers in a v-shape (for victory) sign. We got close to the protesters a number of times, and although the Chinese government has downplayed it, we saw that most citizens are behind the student's protests.

We left Tiammemanen s day before the uprisings in Beijing really began, but we saw protests — peaceful ones — in almost every

peaceful ones — in almost every city we went.

I think, looking back, that we were a part of history, and seeing the protests first-hand convinced me that China is ready for a

Shandong Agricultural University have supported such a trip. A trip students and parents say they aren't likely to forget. "I think it's an experience in it-

self," Roger Smith said. "Those Chinese students stood up for something they believed in — democracy. I think it shows that communism doesn't work.'

Demonstrations have been held

across the United States, mostly in support of the students. Fang C. Wu, a plant pathologist with the College of Agriculture, was one of the leaders of a protest that drew about 100 people to Tri-angle Park in Lexington last week-end.

"Through the media, we will send a message back to China," Wu said. "Through facsimile ma-chines, letters and by the efforts of

western reporters.

western reporters.

"I think that's very important that ... the people realize the majority of people outside China support them, encourage them completely to stand and fight to the and."

Wei-min Liu, a graduate student at UK from Shanghai, China, said he felt concern over a possible civil war that is sure to take place.

Hemken said that fear is growing

in the U.S.

"I have a Chinese graduate student and he's greatly concerned they'll be a civil war," Hemken use ii be a civil war," Hemken said. "He's not worried about the immediate danger. He said he's more concerned with what will happen two months to six months from now.

whole country could be astated." If it turns into civil war the

McGovern ends excellent year with NCAA title

By KIP BOWMAR Section Editor

Two years ago Valerie McGovern probably didn't imagine that she would ever be an NCAA Champion in track and field. But the UK All-American junior has done just that in winning the 5,000 meter outdoor and finishing second in the 3,000 meter outdoor and former at the NCAA Control of the in winning the 5,000 meter outdoor at the NCAA Outdoor Track and Field
Championships this past weekend
in Provo, Utah.

It was through a bizarre twist of fate that the native of Dublin, Ireland even ended up at an NCAA

Out of high school, she was recruited and chose to come to Austin Peay. "When I got there," she remembers, "they were about to cancel the women's track program, so I practiced with the men's team. The women's program was dropped and the coach went to Saudi Arabia or something. It was a disaster. I had come all the way from Ireland and the program had been dropped."

So when McGovern went looking for another school, Eastern Ken-Out of high school, she was re-

for another school, Eastern Ken tucky University track coach Rick Eardman recommended her to UK cross country coach Don Weber. "We had a little extra schol-

LAKESHORE

2069 Fontaine

arship money available," Weber said. "And she was looking for a school where she could compete, so she ended up here."

she ended up here."
"I'll never have any regrets about coming here because everything has turned out so well," McGovern said. "I owe so much to Weber and the team. They've all been so supportive the whole time. They've been a major contribuiting factor to me and my success."
And the successes of McGovern and the women's track and cross-country teams in general have been numerous.

een numerous.

In the fall she helped lead the

cross country team to an impressive NCAA title. It was the first NCAA championship to a team other than men's basketball.

The team ran away from the

competition, finishing 55 points ahead of it nearest competitor. The team finished with a perfect 72-0 record. In addition to McGovern, Lisa Breiding was also a key part of that top-ranked team.

Weber said that McGovern's total commitment to her running sets her a part. He said that McGovern's training, nutrition and lifestyle helped her immensely.

"No doubt about it, the girls have all contribuited to one anothers' successes," Weber said. "It's hard to say if one team member is better. Lisa (Breiding) was (female) athlete of the year here at UK, But Val is a national champion. It's been one heck of a year."

Asked if he would try to motivate his team repeat as national champions, Weber said specific compet-

his team repeat as national cham-pions, Weber said specific compet-

itve goals were never placed on the

team.

"We never set goals based solely on winning," Weber said. "The goal that we have is to do the best we can. But with the people we have returning, if we compete as well as we can, we can be a contender. It's something we're looking forward to doing."

McGovern is in the enviable position of being able to defend two national titles. One with the cross-country team as a whole and one

country team as a whole and one individually. Even her national title in the 5,000 meter came in an unexpected way

unexpected way.
"Going into the NCAAs I had geared toward the 3,000 meter," McGovern said. "I didn't give much regard to the 5,000 meter. I thought 'oh, I just finished the

3,000, my main event.' Then to come back and to win the 5,000 was

very satisfying."
For McGovern the race in the
5,000 meter did not get tense until

5,000 meter did not get tense until the very end.
"The toughest part of the race was coming down to the last two laps," McGovern said. "The race was well under progress and I began to feel the pressure. I didn't know how fast I could take it."
She pulled away in the last 200 meters to easily grab the wirr.

The NCAA championship behind her, McGovern plans to rest over the summer and be in good shape for the fall.

But when she does she could be poised to lead the UK to a second nal championship

FACT: Today abortion is a safe, simple procedure.

At EMW Women's Surgical Center we know that one of your primary concerns with having an abortion is safety.

That's why we wanted you to know that a first trimester abortion is one of the safest surgical procedures performed in America today. As safe as a penicillin shot. Safer than a tonsillectomy. And four times safer than childbirth.

And because the decision to have an abortion is never an easy one. EMW has specially trained counselors to discuss alternatives and offer support and reassurance without pressure. Abortion and other oport and reassurance without pressure. Abortion and other is surgery is performed by physicians in EMW's safe, private and

UK men's tennis team finishes the season strong

Boosted by strong perfor-mances in the NCAA and Southeastern Conference Tournaments the UK men's tennis team, ranked in the top ten most of the year, posted a successful

MALIK

"Perhaps we played the toughest schedule in the nation this year." said junior All-American Adam Malik. The Wildcats returned seven players from last year's team, while adding three top recuits, John Yancey, Andy Potter and

Malik.

The team enjoyed a number of early season successes, including wins over a number of top ten ranked teams. UK reached the

tournament.
UK racked up a 20-8 regular season record and finished second to

son record and finished second to LSU in the regular season. The Wildcats traveled to Stark-ville, Miss., for the SEC Tourna-ment and came in second to Georgia for the second year in a

row. UK qualified for the 105th NCAA Men's Tennis Tournment held at Athens, Ga., on May 19th.

The team finished in the round of 16 losing to Texas Christian University in a disappointing match.

Malik and Yancey notched UK's only victories in the match.

tions to participate in the individu-al round of of the NCAA Championship — senior All-Ameri-can Rich Benson, ranked No. 34 in singles and No. 5 in doubles with Malik, senior Mario Rincon, and

"Rich has played in a big part of our turnaround program here at UK," assistant coach Don Corbone said. "His leadership on the court and off the court has made him a great competitor."

Benson is the only UK tennis player ever to be named All-American three times.

Malik, ranked No. 23 in singles

turning starter among the three UK players who qualified for the individual section of the NCAA tournament

"Adam took on a big responsibil-ty when replacing All-American se-nior Greg Van Emburgh at the No. 1 single spot from where he played at No. 4 singles," Corbone said.

The doubles team of Benson and

"We just didn't get the breaks and the big points that we needed all year," Malik said. "Luck plays a big part of winning too and the luck was not with us this season."

Make the lodge a home for kids not Wildcats

Ever since Wildcat Lodge was constructed for the UK basketball team a decade ago, debate has focused on whether it is fair for those student-athletes to live in such a nice facility while regular students are forced to live in University housing.

The Lodge's accomodations and accessibility to campus make it a shrine compared to the other dorm-type facilities on campus. It's isolated and quiet - and some say unfair to other students.

Rick Pitino, the new men's basketball coach at Kentucky, shares the same feelings toward such a place

"Kentucky basketball players are special but they'll be part of the student body," he said last week

There are pros and cons to both sides. One UK player told the Kernel the athletes enjoyed living in the Lodge because it offers a quiet place to study and think and it's close to Memorial Coliseum, where UK practices

On the other hand, living with students ofplayers a chance to meet more people and blend in with college life. That's exactly what Pitino wants.

Then again, having to walk back to Haggin Hall after a loss to Mississippi State University or waiting three hours to catch an eleva-tor to the 20th floor at Kirwan Tower is no picnic either

Wherever the UK players are headed, you can be sure it won't be back to Wildcat Lodge next season.

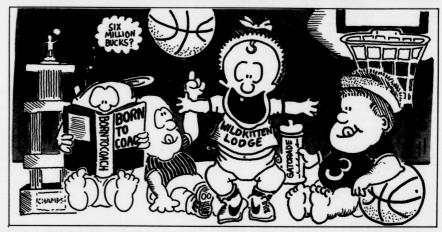

Hopefully, however, the players will at least be allowed to live together, just as UK's other sports team do.

Which brings us to another interesting point: what will happen to Wildcat Lodge? Pitino argues that it should be a weight room. That sounds pretty boring coming from a New Yorker. Besides, the facilities over at the Lancaster Training Center are more than adequate to help properly train the players. If the players are indeed housed on south campus, having the weight room in that end will make it easy for them to get to.

Some inside the administration think the Lodge might be used to expand UK's sports information offices. That's a good idea as well. Chris Cameron's overworked troops are cramped inside the outdated Coliseum

We propose, however, that UK use the Lodge as a day care center for working mothers or students. It's spacious and very convenient. UK could rename it Wildkitten Lodge or something.

Besides, doesn't every small child grow up wanting to be a Kentucky basketball player? What better place to start?

Wake up

We need to change views, attitudes to get to the root of violence

She was on me like static cling/But that's what happens/when bodies start slapping/From doing the Wild Thing. — Tone Loc, "Wild Thing"

We've all heard the song and its sexist overtones a thousand times. We've heard the horror stories told by rape victims al-most as much.

Here are a few examples to refresh

Here are a few examples to refresh your memory:

In Mahattan's Central Park a jogger was attacked by eight youths who said they were out "wilding."

In Glen Ridge, N.J., a mentally retarded female was allegedly sexually molested by three boys with a miniature baseball bat as eight others looked on.

A 16-year-old youth, nicknamed "Little Rambo," drove 150 miles from his home in Princeton, Ky., and shot a woman he'd never met.

They are all shocking, but true. We've been bombarded with details from each case for what seems like an eternity.

been bombarded with details from each case for what seems like an eternity. Teen-agers are committing crimes that would shock Freddy Krueger, that slasher from "Nightmare On Elm Street."

Then everyone is saying, "Watch out! It's not those poor ghetto kids anymore. That psycho from the 'movie of the week' could be your next door neighbor or your brother."

Why has it taken so long for America to realize rape exists? Women have been abused for decades, but all of a sudden it's in vogue to complain about it.

At first, the media painted rape as a crime perpetuated by poor, ghetto-bred youths.

Notice that when the reports about the Central Park mugging first came, the press was saying it was committed by eight "black and hispanic youths." In the June 12 issue of Time, after the Glen Ridge incident, the magazine described the assailants as just "eight youths." Why'd they drop the "black and hispanic" description? Because instead of blaming the rise in violence on minori-

ties, they've decided to blame it on teen-agers, violent films and rock music. Oh, that hellish trinity that Moral Ma-jority is attempting to exorcize from the

How neat

How neat.

Let's not forget this country is run by officals who are repeatedly finding themselves embroiled in ethics or sex scandals. And what about the so-called religious leaders of this country who are involved in sex scandals of their own?

The Time report said that "according to the FBI, between 1963 and 1967 arrests of those under 18 for murder jumped 22.2 percent, for aggravated assault 18.6 percent and for rape 14.6 percent." This is during a time when the total number of teen-agers in this country has declined by two percent

olence. Music and films don't cause vio-

olence. Music and films don't cause vio-lence, society does.
When Motley Crue sings sexist an-thems like "Ten Seconds to Love" or "Looks That Kill" they are just reflect-ing the sexist attitude that has existed in this society for years.
If Tipper Gore and those other world savers at the Parent's Music Resource Center actually want to help the youth, and society, it won't come by burning Motley Crue records or "Friday the 13th" films.
It's by stopping the negative attitudes

13th' films.

It's by stopping the negative attitudes that make these things popular.

I say that we start with public figures. How are we going to teach little Billy rape is wrong when one of the aspects of 'being a man' is proving yourself sexual-lu?

ly?
We need to change that view. If we do maybe their won't be anymore Senators having sex with minors or ministers going to prostitutes.

The way it stands now we are looking for rationalizations of our problems and not answers. And that's not the way to

Those figures are frightening, but we have to look at the cause of all of this vi-

Writers must include their name, address, telephone number and major classification or connection with UK on all submitted material.

Sean Sutton transfers; says playing for Kentucky 'no longer possible'

Associated Press

Point guard Sean Sutton announced today that he will transfer to another school in the wake of recent NCAA sanctions against UK.
But Sutton, who averaged 5.9 points and 4.7 assists per game last season, did not indicate where he would relected.

Kentucky Athletics Director C.M. Newton sad the school would re-lease Sutton from his commitment to the university. Sutton will be eli-gible to play immediately with two full years of eligibility remaining.

Sutton, son of former Coach Eddie Sutton, who resigned under pressure in March, said it was the

most difficult decision he had ever made.

"When I was five years old I had a dream to play basketball for the University of Kentucky and help bring them another national title," Sean Sutton said in a news release.

"However, due to the sanctions handed down by the NCAA, this is no longer possible. Still, the great-

est moments of my basketball ca-reer have been realized playing for

Kentucky."
Sutton is the second player to announce his intention to transfer, following center LeRon Ellis, who also has not decided where to go.

Kentucky has now lost four play-ers off its roster from last season,

Chris Mills, UK's standout fresh-man forward, was ruled ineligible to play for UK after the National Collegiate Athletic Association slapped UK with a three-year pro-

As a result of the sanctions, UK won't be allowed to participate in any postseason play for two years or be on television for one.
